The form and folder should be complete and must be sent to the keeper of the internal station EEO files before the new employee is put on the company payroll. **NOTE:** This form and the related back-up do **NOT** go in the station's public inspection file. They should be kept in a separate location where they can be immediately available, at any time during normal business hours, in the event of an FCC audit. You will also need to refer to these records when preparing your station's Annual EEO Public File Report. These records should be retained, in either paper or electronic format, until the grant of the license renewal application covering the license term during which the hire or activity occurs.

² The FCC defines a temporary position is one that lasts six months or less. Positions that end up lasting more than six months are considered by the FCC to be permanent. The FCC does not require recruitment for temporary positions. However, recruitment for temporary positions that become permanent must be done either at the time that the temporary position is being filled or later but before the position has lasted a total of six months.

³ The FCC defines a full-time position is one that involves 30 hours or more per week. A job that involves fewer than 30 hours per week is considered part time. The FCC does not require recruitment for part-time positions.

⁴ All versions of this list must be dated with "as of" date & retained for duration of license term. List must include names, addresses, contact persons & phone numbers. List must also distinguish between organizations that asked to be on station mailing list and those that did not.
