QUARTERLY SIGNIFICANT PROGRAMS REPORT

April 1 – June 30, 2022

Station KWCH –DT is a CBS Network affiliate in its service area. In carrying out its responsibilities as a public trustee, the station deals with and is responsive to the principal issues arising in its community on a continuing basis. A variety of specials, public service announcements, public affairs programs and broadcasts on matter of concern to our community are supplemented, in some cases, with in-community projects. Our most significant programming, which has dealt with current community issues during the preceding three-month period, is set forth below.

There are three primary satellites of KWCH-DT which simulcast most of the programming. KBSD-DT, KBSH-DT, and KBSL-DT do insert local segments and are listed in the Supplemental Issues and Programming report for each station.

Specific Treatment of Community Issues

News stories carried in any of five daily newscasts, Monday through Friday, and on three per day newscasts on Saturday, and on two per day newscasts on Sunday, ranging in length of 45 seconds or more, address community issues.

COMMUNITY ISSUES

Crime - Channel 12 reports regularly on criminal activity throughout the entire Channel 12 viewing area as well as the rest of the country and the world. Here we are listing just a few of the stories that were included in our newscast this quarter.

Community - Events impacting the quality of life, including community caring and involvement.

Economy - The economy is of major importance to Kansas residents. Continuing growth keeps our employment rate high; new contract acquisitions by the local aircraft manufacturers, old businesses leaving town, new businesses coming in, proposed tax increases/decreases, and major weather concerns for residences and businesses. All of these factors impact the community, and are of ongoing interest and concern for our viewing audience.

Education - Channel 12 has updated its method of covering educational issues in its viewing area, with the assignment of one reporter to focus solely on education.

Environment - Environment issues and concerns are of interest to the Channel 12 viewing area and are aired regularly in our newscasts to keep our viewers as informed as possible of the latest in Environmental technology, treatments, advisories, etc.

Health & Safety - The well-being of Channel 12 viewers is always our top concern and the Channel 12 News Team is on top of every issue from traffic hazards to severe weather warnings, school closings, fire safety, disaster preparedness and emergency situations. And, with severe weather season, storm spotter training meetings are held several times a week in locations throughout the Channel 12 viewing area all over the state.

Politics - Channel 12 makes sure to convey to viewers how the issues and decisions by city, county and state government can affect them.

48 HOURS

04/02/22

48 HOURS: “Who Shot the Tech Exec?” – a report on the robbery, kidnapping and murder of Tushar Atre, a successful tech-executive-turned-cannabis-entrepreneur in Santa Cruz, CA. Atre had a home in Pleasure Point, an affluent surfing community, and the Summit property: 60 acres in the Santa Cruz mountains where he could legally grow cannabis for research. Grainy surveillance video from October 1st, 2019 captured what happened on Atre’s street, from the moment figures entered the neighborhood and walked toward his house, to minutes later, when Atre is seen running and then tackled; he is repeatedly stabbed and eventually pushed into a BMW that the suspects stole from his driveway. Houseguests called 911 and later told detectives they heard the intruders demanding to know the location and combination of Atre’s safe. Six hours after the abduction, police located the white BMW and Atre’s body. Investigators learned of disgruntled employees, due to Atre’s confrontational management style, as well as his habit of withholding people’s pay. On May 19th, 2020, the Santa Cruz Sheriff’s office had four suspects in custody: 23-year-old Joshua Camps, 22-year-old Kurtis Charters, 22-year-old Stephen Lindsay, and 19-year-old Kaleb Charters. The latter two had worked for Atre and, when initially interviewed by detectives two months after the murder, admitted they once had a bitter pay dispute with him. Cell phone data bolstered the investigation and except for Lindsay, all of the suspects eventually admitted their involvement. All four suspects have pleaded not guilty; if convicted, they could face a maximum sentence of life in prison. **On-screen text graphic:** Rachael Emerlye is suing Tushar Atre’s estate to recoup what she says is her rightful share of the cannabis business. Interviewed: Rachael Emerlye, Tushar Atre’s girlfriend and partner in the cannabis business; Claire Machado, employee in the cannabis business; Maria Cid Medina, reporter who covered the story for KPIX, the Bay Area’s local CBS station; Steve Cercone, former California police chief, 48 HOURS consultant; and Mary Fulginiti, former federal prosecutor, 48 HOURS consultant. (C: Tracy Smith – P: Gayane Keshishyan Mendez, Richard Fetzer, Chuck Stevenson)

04/09/22

48 HOURS: “The Plot to Kill Jamie Faith” – a report on the murder of American Airlines manager Jamie Faith. Jamie and his wife, Jennifer, set out from their Oak Cliff neighborhood in Dallas, TX for an early morning dog walk on October 9th, 2020. Moments after they left home, Jamie was shot dead; Jennifer was unharmed. The murder stunned their friends and neighbors and the community rallied around Jennifer, raising more than \$60,000 in a GoFundMe account to help her and her daughter make up for Jamie’s lost income; they also provided meals for the grieving family. Investigators learned that starting in April 2020, Jennifer had been in constant contact with a man she dated in high school, Darrin Lopez. Darrin drove the same make and model as the gunman’s getaway truck in Jamie’s murder; text messages between Darrin and Jennifer, cell phone data and GPS coordinates further linked him to the crime. Darrin was arrested on January 11th, 2021, in Dickson, TN and charged with a federal

gun crime and, at the state level, charged with murder; he pleaded not guilty to both charges. On February 24th, Jennifer was arrested on obstruction of justice charges. Along with other evidence, prosecutors discovered an email account in Jamie's name, in which Jennifer pretended to be Jamie, in order to taunt Darrin. In September 2021, Jennifer was charged with murder-for-hire. On February 7th, 2022, Jennifer appeared in a Dallas courtroom and pleaded guilty to one count of use of interstate commerce in the commission of murder-for-hire. In exchange for the guilty plea, prosecutors agreed to take the death penalty off the table and recommended a life sentence. **On-screen text graphic:** Jennifer Faith is scheduled to be sentenced on May 26. Darrin Lopez's trial date has not been set. GoFundMe offered full refunds to anyone who donated to the Faiths' account. Who do you think is more responsible for Jamie Faith's death? Interviewed: Steve Pickett, reporter, CBS 11 in Dallas-Fort Worth (KTVT-TV); Shamona Jackson and her wife Melisa Gonzales, former neighbors; Theresa and Ross Jensen, Jamie's friends; Jennifer Svelan, resides in the Oak Cliff neighborhood; Jenna Wilson, resides in the Oak Cliff neighborhood; Jim Holland, retired Texas Ranger, CBS News consultant; Christy Jack, Texas defense attorney, asked by 48 HOURS to review the case; Sgt. Joseph Calhoun, Dickson County Sheriff's Office, Dickson, TN; and Rick Urlaub, Jennifer's former husband, married to her in the early 2000s. (C: Peter Van Sant – P: Paul LaRosa, Dena Goldstein, Josh Yager)

48 HOURS (continued)

04/16/22 **48 HOURS: “The Doctor’s Daughter”** (9:00 – 10:00p) - an investigation into the 2012 death of Leslie Neulander, the wife of Dr. Robert Neulander, a prominent New York State obstetrician, and the quest to discover whether her death was an accident or murder. Leslie suffered a massive head wound while showering, but her body was found on the bedroom floor, near the bed and far from the shower. The Medical Examiner ruled the death accidental but investigators suspected her husband. The couple’s daughter, Jenna, was the only other person in the home at the time, and made the 911 call to summon help. The investigation uncovered a troubled marriage, suggestions of a pending split, and declining finances. Eighteen months after Leslie’s death, her husband was charged with her murder. The defense maintained the Neulander’s had a loving marriage and Leslie had died from injuries sustained in the shower fall. Prosecutors say it was murder and the doctor covered up the crime. The science of blood spatter and the 911 call for help became focal points in the trial. Jenna testified in her father’s defense, but Robert Neulander was found guilty. Original on-screen text graphic: Just this week, Neulander surrendered his license to practice medicine. On-screen text graphic for the 06/04/16 rebroadcast: Robert Neulander plans to appeal his conviction. On-screen graphic for 11/16/19 rebroadcast: In October 2019, the New York State Court of Appeals granted Robert Neulander a new trial due to juror misconduct. Neulander is free on bail awaiting a new trial date. **On-screen text graphic for the 04/16/22 rebroadcast:** In October 2019, the New York State Court of Appeals granted Robert Neulander a new trial due to juror misconduct. On March 17, 2022, Robert Neulander was found guilty, for the second time, of killing his wife. Neulander’s first defense attorney, Ed Menkin, passed away on March 31, 2022. Interviewed: Scott Kapral, NY Police Sergeant; Jim Stevens, attorney/CBS News Consultant; Bill Fitzpatrick, Onondage County DA; Dr. Mary Jumbelic, friend of Leslie Neulander; July Crosby Neulander employee; Edward Menkin, defense attorney; Karen Green, forensic scientist. 04/16/22 **48 HOURS: “Death on Safari”** (10:00 – 11:00p) – a report on the death of Bianca Rudolph, which occurred while she was on a safari vacation with her husband, Dr. Lawrence (Larry) Rudolph, and the international investigation that followed. The Rudolphs were getting ready to head back home after a safari vacation in Zambia in October 2016 when Bianca suffered a fatal gunshot wound to the chest. The couple were experienced hunters. Larry, a successful dentist with several offices near Pittsburgh, PA, told local authorities that he was in the bathroom of the couple’s two-room cabin when he heard a shot and found his wife dead in the next room. Larry said his wife was packing up a shotgun in a soft-shell gun case; he first told a local hunting scout that his wife had died by suicide, but later told investigators that the gun must have accidentally fired. After two days of investigating, Zambian police closed the case,

calling it an accident. There were questions early on about how Bianca could have accidentally shot herself in the chest with such a long-barreled weapon. Larry had his wife's body quickly cremated in Zambia, which led a friend of Bianca's to doubt this was an accident. Soon after Bianca's death, the friend called the FBI. According to an FBI complaint, she also said Larry was having an affair with Lori Milliron, who managed the dental offices, and that Larry had been verbally abusive to Bianca; the friend also told the FBI that the couple fought over money. It took investigators five years to investigate the case. In December 2021, Larry was arrested for the murder of his wife; he maintains his innocence. Lori was arrested in February 2022 and faces seven federal counts. **On-screen text graphic:** The joint trial of Lawrence Rudolph and Lori Milliron is scheduled to begin in July. 04/23/22 **48 HOURS: “The Dexter Killer”** – a reedited and updated rebroadcast of 48 HOURS MYSTERY: “Screenplay for Murder” (OAD: 02/11/12; Rebroadcast: 07/10/12), a report on Canadian filmmaker Mark Twitchell, whose obsession with the *Showtime* television series “Dexter” turned to reality and led to murder. His film, “House of Cards”, was about a male serial killer who created a fake online profile as a woman, lured men from a dating website to his garage -- and then killed them. Police became interested in Twitchell when they were investigating a missing persons case, 38-year-old computer enthusiast John Altinger, and were led to the garage where he had just wrapped shooting his movie. A Facebook page where he compared himself to the serial killer “Dexter” and the discovery of a secret journal, which was essentially a blueprint for murder, allowed Edmonton police to eventually link Twitchell to the 2008 murder of Altinger and to the attempted murder of 33-year old Gilles Tetreault -- both of whom had answered an online dating ad. In March 2011, Twitchell went on trial for the murder of Johnny Altinger; he was sentenced to 25 years to life. **UPDATE:** Twitchell began correspondence with journalist Steve Lillebuen before he was convicted in 2011. Lillebuen wrote a book on the case; he sold the rights to a film company. In 2023, Twitchell will be eligible to apply for early parole. Tetreault, who escaped from him nearly 14 years ago, is worried that Twitchell could come after him. Includes interviews from the 2012 original broadcasts with: Gilles Tetreault, victim; Bill Clark, Edmonton Police homicide detective; Gary Altinger, John’s older brother; and Renee Waring, Twitchell’s Facebook friend. Includes new interviews with: Julia Crowley, retired FBI criminal profiler, spoke with Detective Clark and reviewed Twitchell’s writings and letters for 48 HOURS; Gilles Tetreault, victim; and Steve Lillebuen, college professor, investigative journalist, author, *The Devil’s Cinema: The Untold Story Behind Mark Twitchell’s Kill Room*. 04/30/22 **48 HOURS: "The Suzanne Morpew Case: Nothing Is What It Seems"** (9:00 – 10:00p) – a report on the disappearance of Suzanne Morpew and the case against her husband Barry Morpew. The Salida, CO mother of two vanished on Mother's Day 2020, days after telling her husband she was "done" with their marriage. Police initially thought she was taken while riding her mountain bike, but also considered her husband. Over the course of the investigation, bizarre clues emerged: a spy pen that was able to record conversations, a chipmunk alibi and a tranquilizer gun. The spy pen was originally given to Suzanne to record Barry but backfired when it recorded a conversation between Suzanne and Jeff Libler, a Michigan man Suzanne was having an affair with; he was eventually cleared of any wrongdoing. Records revealed Barry's cell phone pinging all around the Morpew home on Mother's Day weekend 2020, which he maintained was because he was chasing and shooting at chipmunks. Also discovered in the couple's dryer was a plastic cap to a syringe used to load a tranquilizer dart; no working tranquilizer rifle was found in the home, but Barry admitted to being an experienced tranquilizer dart gun shooter. Tests revealed the cap had Suzanne's DNA on it, not Barry's. Investigators also uncovered DNA on the glovebox of Suzanne's Range Rover, which traced back to an unknown male connected to three sexual assaults. Even though Suzanne's body was never found, police relied on the circumstantial evidence they gathered, Barry's suspicious behavior and contradictory statements, scratches seen on his left arm when Suzanne disappeared, the vehicle forensics evidence and Suzanne's disturbing texts, and arrested Barry in May 2021 for first-degree murder and other charges; Barry pled not guilty. In September 2021, a judge ruled there was probable cause to go to trial. Suzanne and Barry's daughters – Mallory and Macy – stand firmly behind their father. **04/30/22 UPDATE:** Judge Ramsey Lama replaced Judge Patrick Murphy. Barry Morpew's homicide trial was set to begin on April 28th, 2022. In April 2022, Judge Lama ruled that prosecutors repeatedly had missed deadlines and had failed to turn over important information in the discovery phase. On April 19th, 2022, as a pre-trial hearing was about to begin, District Attorney Linda Stanley filed a motion to dismiss the murder charges against Barry Morpew without prejudice, meaning the case could be refiled at a later date. In her motion for dismissal, DA Stanley told the judge that officials believe investigators are close to discovering the location of Suzanne Morpew's body. Defense attorney Iris Eytan denies Barry has any involvement in his wife's disappearance. Original on-screen text graphic: Judge Patrick Murphy disqualified himself based on a potential conflict of interest involving a possible witness. A new judge has been appointed. Barry Morpew's murder trial is scheduled for May 2022. The Morpew defense team has requested a change of venue. **On-screen text graphic for the 04/30/22 updated rebroadcast:** Today is Suzanne Morpew's birthday. She would have turned 51 years old. Interviewed: Aya Gruber, professor of law, University of Colorado, former defense attorney; Ashley Franco, reporter, KKTU, CBS affiliate in Colorado Springs; Dan Ridenour, local radio host; Melinda Moorman (Zoom interview), Suzanne's sister; Cody Cox, Barry's former employee; Ben LeMere, vehicle forensics

04/30/22 **48 HOURS: “Chasing Catherine Shelton: Part 1”** (10:00 – 11:00p) – For nearly three decades, controversial Harris County, TX attorney Catherine Mehaffey Shelton, now disbarred, has been dogged by mysterious circumstances surrounding the deaths of various men in her life. Never charged with murder, she has been called a murderer, a stalker, a crazy lawyer and more. In 2003, Jenna Jackson produced an edition of 48 HOURS MYSTERY which mainly focused on one of the murder cases linked to Shelton; Jackson has been tracking Shelton ever since. Shelton’s life, as well as her proximity to dead or injured men, has perplexed investigators for decades. Starting in the 1970s, one of Shelton’s former boyfriends, Dr. George Tedesco, was bludgeoned to death and ex-boyfriend Ferris Bond’s apartment was allegedly set on fire. In January 1980, Shelton shot ex-boyfriend Gary Taylor in the back; she admitted to that but claimed self-defense. Tommy Bell, named with Shelton in a lawsuit was found with a bullet in his head; authorities said he was playing Russian roulette by himself. In the years to come, Shelton’s conviction for shooting Taylor was set aside, but she was linked to three more deaths: a young man discovered dead and naked in one of her homes; another man shot dead in his driveway; and another man who died while he was staying with her. Shelton maintains she had nothing to do with any of these incidents. For this broadcast, Jackson and her team reinvestigate many of the allegations against Shelton. 05/21/22

48 HOURS: "What Does The Other Woman Know? The Disappearance of Jennifer Dulos" (9:00 – 10:00p) - a report on the disappearance of a Connecticut woman and the possible involvement of her estranged husband and his girlfriend. On May 24th 2019, Jennifer Dulos dropped her children off at their New Canaan, CT school, but could not be located afterwards. Declared a missing person, police quickly located her SUV at a park near her home. Inside, they found blood that looked as if someone had tried to clean it up. Investigations focused on Jennifer's estranged husband, Fotis Dulos, with whom she was in a bitter divorce and custody battle with. Police obtained data from his cell phone, then located security camera footage for the various locations he visited the day of Jennifer's disappearance. The footage showed Fotis driving around with his girlfriend, Michelle Troconis, dumping trash bags around Hartford, CT. The bags were recovered and contained items including zip ties, ponchos and women's clothing, all covered in traces of Jennifer's DNA. On June 1st, Fotis and Michelle were arrested, but without a body, police could only charge them for tampering with or fabricating physical evidence and first-degree hindering prosecution. After being released on bail, Michelle cooperated with police investigations and eventually admitted that Fotis had not been with her the morning of Jennifer's disappearance, as he had previously stated. On January 7th, 2020, Michelle and Fotis were arrested for conspiracy to commit murder. Police eventually identified a pickup truck belonging to one of Fotis' workmen that was spotted travelling from his home to New Canaan the morning of May 24th. A search of the truck turned up a bloodstain on the seat, which matched Jennifer's DNA. When Fotis did not turn up for a court date later that month, emergency responders were dispatched to his home where they found him unconscious from a suicide attempt. He died two days later. The state of Connecticut is moving forward with Michelle's trial. 48 HOURS: "Please Don't Tell" (10:00 – 11:00p) – a report on the case against Vincent Simmons, who was released from a Louisiana prison earlier this year after serving 44 years. In 1977, Simmons was convicted of two counts of attempted aggravated rape of

identical 14-year-old twins, Karen and Sharon Sanders, who lived with their grandparents in Marksville, LA. Simmons was sentenced to 100 years in prison. The Sanders sisters say their cousin, Keith Laborde, was driving them when he gave Simmons a ride. They claim Simmons directed Laborde to a desolate area of Little California Road and then forced him into the trunk; he then raped them. The Sanders sisters also say Simmons warned them not to tell anyone about what had happened and they initially intended to keep it a secret, but Karen Sanders decided to confide in a family member. The police soon found out and Simmons was arrested, convicted and sentenced to prison. The sisters don't doubt that they picked the right man out of the lineup. Simmons' attorney, Justin Bonus, believes the twins are lying to protect Keith Laborde. Laborde's cousin, Dana Brouillette, told a private investigator and swore in an affidavit in 2020 that Laborde admitted to her that Simmons was never with them that night. Instead, she said in the affidavit that Laborde told her "he had consensual sex with one of the girls and locked the other in the trunk." Laborde denied ever having sex with them. This year, Simmons was released after a judge vacated his conviction after finding he didn't get a fair trial. The court did not rule on his innocence or guilt, and the district attorney declined to retry him. **On-screen text graphic:** Vincent Simmons intends to go back to court to seek compensation for wrongful imprisonment. Under Louisiana State law, if he is unable to present clear and convincing evidence of his innocence, he is entitled to nothing. Interviewed: Karen Sanders; Sharon Sanders; Charles Riddle, district attorney; Vincent Simmons; Justin Bonus, Vincent Simmons' defense attorney; Jason Flom, recording industry executive, criminal justice advocate, and host, "Wrongful Conviction" podcast; Brian Andrews, private investigator in Louisiana; Diane Prater, lone surviving juror and the only African American on the jury; Keith Laborde (via telephone); and Judge William Bennett. Also includes excerpts from: (1) "The Farm", a documentary which profiled inmates at Angola; (2) documentary footage from the late 1990s, when Simmons and the Sanders sisters agreed to a reconciliation meeting; and (3) Brian Andrews' videotaped interview with Dana Brouillette, Keith Laborde's cousin. 05/28/22 **48 HOURS: "Death by Text"** - an updated rebroadcast on the death of Conrad Roy III and the case against Michelle Carter, who is scheduled to be released from jail next week. Prosecutors say she influenced Roy, via text messages, to kill himself. On July 12, 2014, Conrad Roy died of carbon monoxide poisoning after sitting in his truck with a gas-powered water pump running in the backseat. Prosecutors say Roy was driven to kill himself through hundreds of incessant messages from Carter, who was more than 30 minutes away at the time he died. Carter was later charged with involuntary manslaughter. Her defense team maintains Roy decided to kill himself on his own. As seen through his own videos, Conrad Roy talked about his own struggles with social anxiety, depression and thoughts of suicide. His mother Lynn Roy also talks about the

death of her son and the pain she lives with. Though they lived an hour apart in Massachusetts, the couple communicated almost exclusively via texts, online and by phone. The prosecution maintained Carter could have done something to stop Roy. The heart of the case is the question of whether Carter's texts and messages pushed Roy to take his life, or would he have done it anyway. Prosecutors argued Carter played on Roy's mental health and her actions were reckless; she knew what she was doing and just wanted attention. The defense maintains Carter had her own psychological problems and was involuntarily intoxicated by the antidepressant drug Celexa: she was enmeshed in the delusion that it was a good thing to help him die. The prosecution hoped the judge paid attention to the text Carter sent to her friend a week after his death, in which she admitted she could possibly go to jail. After three days of deliberation, the judge rendered his verdict, completely rejecting Carter's defense and finding her guilty. At sentencing, Michelle Carter could receive twenty years behind bars. The Roy family knows words have power, and they can forever change lives.

UPDATE for the 08/05/17 updated rebroadcast: Nearly seven weeks after being convicted, Michelle Carter, arrives for sentencing. The prosecution asked that Carter serve 7-12 years in prison. Her attorney requests probation. Judge Lawrence Moniz sentences Michelle Carter to fifteen months behind bars – a sentence that does not please the defense, who will appeal the conviction. Her attorneys request to stay the jail sentence. The judge grants the stay, meaning Michelle will be out on probation until the appeal makes its way through the Massachusetts court system. Neither Michelle nor her family, have reached out to the Roy family.

UPDATE for the 01/18/20 updated rebroadcast: In February of 2019, Michelle Carter's conviction was upheld and she began serving her 15-month sentence. Her lawyers appealed to the U.S. Supreme Court. This week, the court declined to hear her appeal. Lynn Roy's focus now is on changing laws.

On-screen text graphic for the 08/05/17 updated rebroadcast: Lynn Roy has filed a 4.2 million wrongful death suit against Michelle Carter. The goal is to establish a memorial for Conrad.

On-screen text graphic for the 09/22/18 rebroadcast: Lynn Roy has filed a 4.2-million-dollar wrongful death suit against Michelle Carter.

In 2000, Michael Skakel was charged with her murder; he was convicted in 2002 and sentenced to 20 years to life in prison. In 2013, a judge granted Skakel a new trial, saying his first attorney failed to adequately represent him. In 2016, Robert Kennedy, Jr., Michael Skakel’s cousin, released “Framed: Why Michael Skakel Spent Over a Decade in Prison for a Murder He Didn’t Commit”, which repeated Skakel classmate Tony Bryant’s 2003 allegations that his friends Burton Tinsley and Al Hasbrouck murdered Martha Moxley. In 2018, the Connecticut Supreme Court vacated his murder conviction and ordered a new trial. But in 2020, prosecutors said they would not retry him. 06/04/22 **48 HOURS: “The Black Swan Murder?”** (10:00 – 11:00p) – a report on the September 27th, 2020 death of Doug Benefield, as he was preparing to move from Florida to Maryland with his wife Ashley, their daughter and Alicia Byers, his mother-in-law. Ashley, a former ballerina and bikini model, walked to her neighbor’s house and claimed she shot Doug in self-defense. Doug, a consultant from Charleston, SC, met Ashley, a campaign worker in the Sarasota, FL office of Donald Trump, in August 2016. They knew each other for just 13 days before they got married; she was 24-years-old and he was 54-years-old, a widower and father to Eva Benefield. Over the four years they were

married, there were strained relationships, allegations of abuse and poisoning, and a failed ballet studio for unconventional dancers in Charleston. At the time of the shooting, Ashley Benefield was living in a home in Florida owned by her mother. The couple had separated, but then reunited. Investigators found no evidence that Ashley was acting in self-defense; no weapons were near Doug's body and Ashley only had an old and very minor scratch on her body. However, the night of the shooting, Alicia told police they lived in fear of Doug and claimed they sought help, but nobody would help them. Faith Brown, Ashley's attorney, told police that Ashley created an escape plan to get away from Doug once and for all. In November 2020, Ashley was charged with second-degree murder. She has never given any kind of a statement to law enforcement. Alicia has custody of her granddaughter. Original on-screen text graphic: Ashley remains free on bond. Her trial is not expected to take place until 2023. 06/11/22 **48 HOURS: "The Killing of Cowboy Ray Green"** – a report on the death of horse and competitive cowboy action shooting enthusiast Ray Green by his wife and questions regarding her claim of self-defense. On May 28th, 2014 police conducted a wellness check at the home of Ray and Danielle "Dani" Green, in Dillsboro, IN. The sheriff's department was contacted by Ray's mother Betty, after she received a call from Dani, who claimed Ray was killed by a German Shepherd dog. Dani told sheriffs Ray had left for work as a trucker, even though his rig was on the property. She permitted a search, except for a large padlocked toolbox that attracted flies and "smelled of decay". After obtaining a search warrant, Detectives Tom Baxter and Pete Tressler found Ray's body in the toolbox. Dani changed her story and claimed she killed Ray in self-defense after years of domestic abuse. She participated in a recorded reenactment of the events surrounding Ray's death for detectives and claimed after she exited the bathroom in the early morning hours of May 26th, Ray stated he would kill her and reached for a gun. They struggled and both fell on the bed; Dani accidentally shot Ray in the chest. Still scared, Dani left the room to reload and returned, then shot Ray in the head. Ray's death was ruled a homicide and Dani was arrested. Investigators searched Dani's computer and discovered her search history, along with flirtatious correspondence between Dani and George Mann, a mutual friend from when Ray and Dani lived in Palm Beach County, FL. Investigators believed Dani intended to murder Ray so she could begin a new life elsewhere. Dani went on trial in August 2015; her attorney, Delmar Weldon, claimed self-defense and included a deposition from "Carol", who claimed to have witnessed injuries, as well as angry outbursts from Ray. After eight hours of deliberation, Dani was convicted of murder and sentenced to 60 years in prison. **On-screen text graphic:** An appeal by Dani has been denied. She will be eligible for parole when she's 71 years old. Interviewed: Aaron Negangard, prosecutor; Tracey Abbott, Ray's daughter; Bob Stevens, Ray's friend; Dawn Owen, Ray and Dani's friend; Karen and Gerry Auclair, Ray and Dani's friends; Dave Warr, Ray and Dani's friend; Tom Baxter and Pete Tressler, Indiana State detectives; Delmar Weldon, Dani's defense attorney; George Mann, involved in a secret internet relationship with Dani; "Carol" (alias), Dani's friend. 06/18/22 **48 HOURS: "A Sister's Fight for her Brother"** (10:03 – 11:03p) - a report on Lauren Pettit's continuing support of her brother, Brandon Pettit, following his arrest, trial and conviction for the murder of their parents. At 3AM on August 8th, 2013, a fire in the Modesto, CA home of Scott and Janet Pettit engulfed their bedroom. Investigators soon discovered that the couple had been shot seven times and the fire was set to cover up their murder. Police's attention soon turned to Brandon, Scott and Janet's son. A week after their deaths and following two interrogations, he was arrested. While Brandon had an alibi for the time of the murder, police believed he paid a friend, Felix Valverde, to commit the act. A search of Felix's home produced Scott and Janet's wallets, a case of

ammunition, and seven spent shell casings hidden in a planter. Brandon confessed to giving Felix \$100 in the days after his parents' death, but maintained it was to help him with bills. Brandon and Felix were set to stand trial together. However in August 2020, Felix was declared incompetent to stand trial. Brandon's trial began September 1st, 2020. Prosecutors built a case around financial motive, saying that Brandon had given Felix the keys to Scott and Janet's home so that he could commit the murder and Brandon could receive an inheritance. Pettit family friend Mike Anderson testified that Brandon tried to sell Scott's classic Corvette soon after his death. High school friend Sarah Wilson detailed her communications with Brandon, who had promised his parents would buy a \$1 million house for the two of them in Georgia. The jury also heard from Susan Sanchez, Brandon's ex-girlfriend and mother of their daughter, who testified Brandon told her he wanted his parents dead and that Felix could make her ex-husband "disappear" in exchange for money. Brandon's sister Lauren testified in his defense. She countered the financial motive and that the Corvette was already in Brandon's name. Robert Winston, Brandon's defense attorney, brought up that the Pettit home had electronic locks and suggested Felix likely ended up with keys after he took their wallets, where spares were kept. Additionally, they brought up the large dog door at the rear of the home, which was large enough to allow an adult to enter. Finally, Winston questioned the police's interrogation of Brandon. A clinical psychologist testified that because of Brandon's Asperger's syndrome, which falls under autism spectrum disorder, it was unclear if Brandon truly understood the questions asked of him. After a day and a half of deliberation, the jury returned with a guilty verdict. Brandon was given the maximum sentence: two life terms without the possibility of parole. **On-screen text graphic:** Brandon has written Sarah Wilson multiple times from jail insisting he is innocent. She says she has never responded. Interviewed: Lauren Pettit, Brandon's sister; Mike Anderson, Pettit family friend; Martha Carlton-Magana, Brandon's former defense attorney; Sarah Wilson, Brandon's friend; Robert Winston, Brandon's defense attorney; Mary Fulginiti, CBS News consultant. 48 HOURS (continued)

06/25/22 **48 HOURS: "The Life and Death of Nikki Kuhnhausen"** (10:02 – 11:02p) - a report on the murder of Nikki Kuhnhausen, who disappeared June 6th, 2019 after connecting with a man in a Snapchat rendezvous. Her murder continues to impact LGBTQI (lesbian, gay, bisexual, transgender, queer and intersex people) communities. The murder of Kuhnhausen illustrates the real-life dangers and struggles many in the transgender community face every day. Kuhnhausen, age 17, vanished from Vancouver, WA in June 2019, just hours after meeting and exchanging messages on Snapchat with David Bogdanov, then 25. Bogdanov also seemingly disappeared. Four months later, Bogdanov claimed phone problems when he met with police and told them the last time he had seen Kuhnhausen was when he asked her to get out of his car, after she told him she was transgender. Bogdanov told police he had no idea where Kuhnhausen went after she left him. On December 7th, 2019, six months after she disappeared, Kuhnhausen's

body was discovered by a hiker on Larch Mountain. Bogdanov was arrested on December 17th, 2019 after cell tower data placed his phone where Kuhnhausen's body was found. Prosecutors and investigators say Bogdanov killed Kuhnhausen in a hate-filled rage after learning she was transgender. At his August 2021 trial, Bogdanov said he killed Kuhnhausen in self-defense when she reached for his gun. He testified that he panicked after realizing she was dead and dumped Kuhnhausen's body at Larch Mountain. Bogdanov was found guilty of murder in the second degree and malicious harassment, a hate crime. He was sentenced to the maximum 19 and a half years for murder, with 12 concurrent months for the malicious harassment charge. Kuhnhausen's mother and supporters from the Justice for Nikki Task Force were determined something positive should come from her death and worked with legislators in Washington to pass Nikki's Law, which is designed to prevent defendants charged with violent crimes from using sexual orientation or gender identity as an excuse for violence, the so-called "gay" or "trans panic defense". Original on-screen text graphic: According to the Human Rights Campaign, there have been more violent deaths of transgender and non-binary people in the U.S. in 2021 than any other year on record. **On-screen text graphic for the 06/25/22 rebroadcast:** According to the Human Rights Campaign, there were more violent deaths of transgender and non-binary people in the U.S. in 2021 than any other year on record. Interviewed: Lisa Woods, Nikki's mother; Arielle Fox, Nikki's best friend; Taylor Watts, Nikki's childhood friend; Kristen Arnaud, Clark County prosecutor; Colin Hayes, Clark County prosecutor; Detective Joe Swenson, Clark County Sheriff's office; Devon Davis Williamson, clinical social worker, transgender activist; Linden Walls, transgender activist; Vicki Matsuk, David Bogdanov's niece; and Lily Bogdanov, David Bogdanov's sister.
