Estimates reported for dayparts which start and end between 12m and 5a are based on the 5a-5a broadcast day. Estimates for all other dayparts are based on the 12m-12m calendar day. Stations qualify to be reported if they have received five or more minutes of listening in a single quarter-hour in at least 1 in-tab diary in the market, Monday-Sunday Midnight-Midnight (total week), during the survey period. Encoded stations qualify to be reported if they have received credit for five or more minutes of listening within a quarter hour from at least one PPM Panelist during the Monday - Friday 6am - Midnight daypart for the survey period.

Estimates are derived from the diaries that provided the audience data for the Nielsen Radio Market Report and are subject to the qualifications and limitations stated in that Report. PPM estimates are derived from the PPM technology and methodology and are subject to the qualifications and limitations stated in that Report. The TAPSCAN Web software product is accredited by the Media Rating Council and reports both accredited and non-accredited data.
