**2016**

**4<sup>th</sup> Quarter Issues/Programs List**

**From October 1, 2016**

**to**

**December 31, 2016**

## WNDZ-AM Quarterly Issues/Programs List

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Government; Women's Issues; The Presidency; (Agriculture; Controlled Substances; Mental Health; Poverty; Community Activism; Education)	Viewpoints/Segment 1	10/02/16	4:01pm-7:11pm	10 minutes
	(Segment 2)		4:14pm-7:25pm	11 minutes

**Narration:** Everyone knows about the presidency of Franklin D. Roosevelt, but not many know about the powerful and loyal confidant FDR relied on, Marguerite "Missy" LeHand. We hear from our guest about the life and work of this remarkable woman, and how she helped and influenced one of the greatest chief executives of our time.

**(Segment 2)** Urban gardens are popping up all over the country, and they've provided "food desert" communities with fresh fruits and vegetables for their residents' tables and have taught urban dwellers to put abandoned plots of land to good use. But have you ever heard of an "urban farm?" Our guests talk about both of these projects and describe why they provide hope and employment for people in need as well as educational opportunities to students and residents.

Public Safety; Mental Illness; Police & Criminal Justice; Police Brutality; Education; Community Activism; Prisons; (Health Care; Public Health)	Radio Health Journal/Segment 1	10/02/16	4:33pm-7:44pm	11 minutes
	(Segment 2)		4:45pm-7:52pm	07 minutes

**Narration:** Police confrontations with mentally ill subjects can quickly turn tragic, as neither side may understand the other. Specially trained crisis intervention teams have spread around the country to prevent deaths, injuries, and unnecessary incarceration. Experts discuss how CIT works.

**(Segment 2)** Thanks in part to its Biblical past, the disfiguring disease leprosy carries more stigma than most diseases. We hear little about it today, but it still exists, and because it's now treatable, often the stigma is worse than the disease. An expert discusses.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Nature; Science; Technology; Public Service; Environment; (Natural Disasters; Animal Welfare; Public Safety; Community Activism)	Viewpoints/Segment 1 (Segment 2)	10/09/16	4:01pm-4:12pm 4:15pm-4:25pm	11 minutes 11 minutes

**Narration:** When we think of scientists, most of us think of college graduates working in laboratories on very important projects for the government or large corporations. Not many of us think of the retired bricklayer next door who likes to garden, or the ten-year-old girl who is fascinated by birds. Two “citizen scientist” advocates talk to us about the importance of having average citizens be the eyes and ears of large research projects, and how anyone can find a scientist project they can help advance in the world.

**(Segment 2)** Natural disasters such as floods, wildfires, and tornados can devastate a community, cause widespread health concerns, and push families out of their homes. We’re all concerned that the humans caught in these circumstances are taken care of, but what about the pets that live in the area? How can we help them survive and stay with their human caretakers? A Humane Society spokesperson, who has seen his share of disasters, talks to us about keeping your pets safe and secure during a catastrophe.

Youth At Risk; Parenting Issues; Adoption; Human Development; (Science & Culture; Human Development)	Radio Health Journal/Segment 1 (Segment 2)	10/09/16	4:33pm-4:44pm 4:45pm-4:52pm	11 minutes 07 minutes
--	---	----------	--------------------------------	--------------------------

**Narration:** People who are adopted have more psychological problems than others, yet they also tend to have other psychological strengths. Experts, both themselves also adoptees, discuss the roots and outcomes of these issues as adopted children grow up.

**(Segment 2)** Tickling is a unique application of the sense of touch that surprisingly has developmental and cultural importance. Experts discuss the science and sociology of tickling.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Mental Health; Occupational Training; Internet & Social Media; (Education; Government; Community Activism)	Viewpoints/Segment 1 (Segment 2)	10/16/16	4:01pm-4:12pm	11 minutes
			4:15pm-4:25pm	11 minutes

**Narration:** Halloween is coming up, and just about everyone likes to be scared on that day. It's fun and it can help heighten the excitement of the holiday. However, there are some people who have fear in their lives that isn't much fun; those who are facing big changes, uncertainties, and loss. Our guests tell us about how fear affects our lives, and how it can be decreased or eliminated by perseverance, positive thinking, and compassion.

**(Segment 2)** We hear it all the time, why can't our kids read better? Our guest has some thoughts on the issue, and offers some suggestions to parents, educators, and policymakers about how expanding our children's knowledge base in school will help make them better readers overall.

Consumerism; Health Care; Public Health; Technology & Society; (Homelessness; Poverty; Health Care; Rehabilitation; Prevention)	Radio Health Journal/Segment 1 (Segment 2)	10/16/16	4:33pm-4:44pm	11 minutes
			4:45pm-4:52pm	07 minutes

**Narration:** Genetic testing is now available to consumers to satisfy a variety of desires, tracing heritage, gauging risk of inherited diseases in children, and screening for disease. However, risks come with what doctors say is incomplete knowledge. Experts discuss uses, risks, and future of consumer genetic testing.

**(Segment 2)** Research is showing that a remarkably high proportion of homeless men have suffered a traumatic brain injury in the past, raising possibility that TBIs may cause behaviors directly leading to homelessness. Experts discuss their research.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Recreation; Art; Architecture; Travel; History; War; Science & Technology; (Children & Family Issues; Education; Psychology & Mental Health)	Viewpoints/Segment 1 (Segment 2)	10/23/16	4:01pm-4:11pm	10 minutes
			4:13pm-4:24pm	11 minutes

**Narration:** When Americans take vacations, it's often to places like theme parks, resorts, or national parks. Our guest says that there's a treasure trove of unique destinations around the world if you veer off the beaten vacation path. He talks about a few of the places you probably never heard about, but which offer unique experiences, educational opportunities, and a lot of fun.

**(Segment 2)** Raising kids these days isn't easy. Parents have expectations for their children that they often don't live up to those expectations. We also hear about how his or her temperament can lead to problems with behavior that disrupt family life, and end up being counterproductive for the child. A psychologist talks to us about why kids behave the way they do in certain situations, and offer strategies for dealing with a child that can help them grow more responsible and independent.

Youth At Risk; Consumerism; Health Care; Public Health; Ethics; (Segment 2) Parenting Issues; State Government Regulation; (Pop Culture & Society; Psychology; Growth & Development)	Radio Health Journal/Segment 1 (Segment 2)	10/23/16	4:33pm-4:45pm	12 minutes
			4:46pm-4:53pm	07 minutes

**Narration:** A new survey shows more pediatricians are experiencing vaccination refusal among patients, and while the reasons are evolving, they still often result from misinformation. An increasing proportion of doctors are kicking these families out of their practices if they can't change minds and behavior, but is that ethical? Whose rights are paramount, the unvaccinated child or the rest of the practice? Experts discuss.

**(Segment 2)** During Halloween season, many people seek out frightening experiences. This controlled fear has a psychological and developmental purpose, as an expert explains.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
History; Military & Veterans; Women's Issues; (Technology; Children's Issues; Seniors' Issues; Mental & Physical Health; Education)	Viewpoints/Segment 1 (Segment 2)	10/30/16	4:01pm-4:12pm 4:15pm-4:25pm	11 minutes 10 minutes

**Narration:** We've heard a lot about the famous generals and other heroes of the Civil War, but very little has been written about women who fought as hard as the men for their beliefs. An author who researched these women, talks about the jobs they did, and how they risked their lives to find and carry intelligence from the enemy to their generals. We also hear about how they used their "feminine wiles" to get the information they needed to gain advantage in the war.

**(Segment 2)** Kids are always on their phones, tablets, or computers even when they're sitting across from one another at the lunch table! Does communicating via screens hurt kids? Two researchers talk to us about what too much screen time at the cost of face-to-face communication could decrease our ability to recognize emotions, and possibly even shorten our lives.

Health Care; Consumerism; Tech- nology; (Youth At Risk; Parenting Issues; Public Health; Sports & Society; Education)	Radio Health Journal/Segment 1 (Segment 2)	10/30/16	4:33pm-4:45pm 4:46pm-4:53pm	12 minutes 07 minutes
--	---	----------	--------------------------------	--------------------------

**Narration:** Lupus results when the immune system turns on the body, producing inflammatory attacks on virtually any organ. A minority of patients have lupus only on the skin, and while this is not life threatening, it can still be psychologically devastating. Experts discuss.

**(Segment 2)** Concussions have prompted many parents to question whether their sons should play high school football. A well-known sportswriter and parent who was given nearly unlimited access to a high school team for a year shares the red flags he saw as well as the benefits of playing.

<b><u>Description of Issue</u></b>	<b><u>Program/Segment</u></b>	<b><u>Date</u></b>	<b><u>Time</u></b>	<b><u>Duration</u></b>
Education; Philanthropy; Community Services; Employment; Community Activism; African-American Issues; Latino Issues; (Bullying; Teen Pregnancy; Technology/Internet; Mental Health; Juvenile Justice; Family Issues; Poverty)	Viewpoints/Segment 1 (Segment 2)	11/05/16	8:01am-8:13am 8:15am-8:25am	11 minutes 10 minutes

**Narration:** The public library system in the U.S. is one of our most cherished community services, yet in these days of government budget cuts, libraries around the county are feeling the pinch of shorter hours, fewer staff, and old technology. Our guests discuss why funding and supporting our libraries is a way to raise smarter kids, help residents with social service navigation, boost the economy, and help immigrants become full American citizens.

**(Segment 2)** Bullying and shaming are two of the most damaging activities kids, and many adults, face today. One of our guests discusses the psychological ramifications of bullying, and the other relates her own experience as an unwed teen in the 1970s. We hear about how the shame of that incident and the support she received from other young women in the same situation made her stronger and more compassionate to others.

Health Care; Ethics; HIV & AIDS; Radio Health Journal/Segment 1 Public Health; Consumerism; (Health; Pop Culture)	(Segment 2)	11/05/16	8:33am-8:44am 8:46am-8:53am	11 minutes 07 minutes
--	-------------	----------	--------------------------------	--------------------------

**Narration:** Skyrocketing drug overdose deaths are adding to the supply of transplantable organs. Contrary to the beliefs of many, and their designation as “high risk” donors, these are often high quality organs from youthful people. Even organs carrying disease that never would have been acceptable before are now able to be used if recipients accept them. Experts explain.

**(Segment 2)** Virtually all animals have a backbone yawn, but scientists don’t know what purpose it serves or why yawns are so contagious. Experts discuss what’s known, and what’s behind a yawn.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
African-American Issues; Minorities; Violence; Law Enforcement; Poverty; Labor; (Popular Culture; Mental Health; Aging; Work)	Viewpoints/Segment 1 (Segment 2)	11/12/16	8:01am-8:14am 8:17am-8:25am	13 minutes 08 minutes

**Narration:** In 2004, we spoke with activist and former California legislator Tom Hayden who passed away last month. The topics were gangs and violence, how and why young men and women join gangs, and how we can stem the violence of these groups. We also heard about how we could help the young people who belong to them to live better, safer, and more productive lives. In these days of continued strife on urban streets, we can still benefit from his hopeful, yet controversial, ideas on the topic.

**(Segment 2)** Does working crossword puzzles, Sudoku, and playing other games help prevent Alzheimer's and dementia? Why does time seem to crawl when we're young and speed up as we age? Does multitasking really help us get more done? A psychologist and author talk to us about these popular ideas, and we get the real story about how our minds can sometimes trick us into thinking things that really aren't true.

Traffic & Highway Safety; Transportation; Public Safety; Technology; Insurance; Ethics; Infrastructure; (Disabilities; Mental Health Issues; Pets & People; Housing Issues)	Radio Health Journal/Segment 1 (Segment 2)	11/12/16	8:32am-8:45am 8:46am-8:54am	13 minutes 08 minutes
---	--	----------	--------------------------------	--------------------------

**Narration:** Self-driving cars are being developed more rapidly than most experts thought possible. But even if they're technically possible, can we be assured of their safety? Trust is a major hurdle to adoption of what could be a major step forward in transportation, as experts discuss.

**(Segment 2)** A woman who suffered severe abuse as a child describes the mental health benefits of owning a dog. We hear from an expert on the American with Disabilities Act about the requirements for emotional support animals.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Military Veterans; War; PTSD; Movies & The Arts; History; Technology; (Psychology & Human Behavior; Business & Entrepreneurs)	Viewpoints/Segment 1 (Segment 2)	11/19/16	8:01am-8:12am 8:15am-8:24am	11 minutes 09 minutes

**Narration:** The late actor, Jimmy Stewart, gave us some very memorable characters during his time in Hollywood; many very funny, others endearing, and still others dark and villainous. Perhaps Stewart's most dramatic role was the one that not many people know about, but that molded his life and his psyche, not to mention his acting, to most of his career: fighter pilot in World War II. An author, who delved into Stewart's war service talks to us about how flying missions over Europe and seeing his comrades die affected the actor and his choice of roles and acting style for the rest of his life.

**(Segment 2)** In about six weeks, people will be celebrating the New Year and many of them will be resolving to change something in their lives, the ubiquitous "New Year's Resolution." A behavior specialist and coach talks to us about how bad habits are created and why. She also gives us some ways to help give those resolutions some staying power for the year ahead.

Education; Health Care; Legal System; (Health Care; Alcoholism & Substance Abuse)	Radio Health Journal/Segment 1 (Segment 2)	11/19/16	8:32am-8:44am 8:45am-8:53am	12 minutes 08 minutes
---	---	----------	--------------------------------	--------------------------

**Narration:** Doctors have often been advised to avoid emotions regarding patients to keep their decisions objective. However, this has led many patients to believe doctors don't care about them. A new movement in medicine seeks to reverse the trend and put compassion back in medicine, led by a "Healer's Art" class in many medical schools. Experts who teach the class explain.

**(Segment 2)** A variety of liver diseases may cause test results that mimic alcohol-related cirrhosis. One, known as PBC, is the second largest reason for liver transplants in women. A patient and an expert discuss.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Education; Science & Technology; Women's Issues; (Youth At Risk; Education; Children's Psychology; Consumerism)	Viewpoints/Segment 1 (Segment 2)	11/26/16	8:01am-8:12am 8:15am-8:25am	11 minutes 10 minutes

**Narration:** Schools are emphasizing science, technology, engineering and math, the STEM subjects. Many people believe science is too technical for kids to understand. We hear from two experts who say children take to science readily if it's presented in the right way by tapping into the "ick factor" that seems to fascinate them.

**(Segment 2)** During the holidays, many parents fret over the materialistic messages their children are exposed to. We hear from a mom and author who together have created a children's book and game designed to make giving back to others a fun pursuit.

Health Care; Mental Health; Consumerism; Disability; (Health Care; Psychology; Obesity; Mental Health; Consumerism)	Radio Health Journal/Segment 1 (Segment 2)	11/26/16	8:32am-8:44am 8:45am-8:52am	12 minutes 07 minutes
---	--	----------	--------------------------------	--------------------------

**Narration:** Doctors have long known that people feel depressed when they're ill with a cold or the flu. But it may be more than simply feeling bad. Inflammation, which is part of many illnesses and infections, has been found in brain cells and is being implicated as a cause of depression, one of the world's most debilitating disorders. This creates the possibility of treatment with an anti-inflammatory medication. Experts on the frontlines of this research discuss.

**(Segment 2)** Patients who have bariatric surgery stand to lose not only lots of weight, but often an identity and way of life as an obese person, which changes many of their relationships. Experts discuss these changes and means of coping with them.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Education; Family; Employment; Social Issues; (Family; Food & Nutrition)	Viewpoints/Segment 1 (Segment 2)	12/04/16	3:01pm-3:13pm 3:15pm-3:24pm	12 minutes 09 minutes

**Narration:** High school graduates who plan to go on with their education are making plans to head off to college this fall. Not all of them were accepted to the college that was their first choice, and many are disappointed about it. Some young people didn't get into college at all because they weren't offered the help they needed to find a college that suited them financially and culturally. An author and a high school counselor talk to us about the myths surrounding acceptance to an "elite" college, and why a small or state school can be a better fit. We also hear about how high school counselor can better serve diverse and often financially strapped students.

**(Segment 2)** With Thanksgiving over, it's time to start looking toward our December holiday parties and the meals that come with them. Author Julia Turshen joins the show to talk about her tips and tricks to make those Christmas and Hanukkah dinners a little less daunting. With advice on dressings, sides, desserts, and more, Turshen breaks down some basic techniques to make great food with little experience.

Public Health; Economics; Poverty; Youth At Risk; Employ- ment; Worker Safety; Health Care; Consumerism; (Health Care; Youth At Risk; Parenting Issues)	Radio Health Journal/Segment 1 (Segment 2)	12/04/16	3:32pm-3:43pm 3:45pm-3:53pm	11 minutes 08 minutes
---	---	----------	--------------------------------	--------------------------

**Narration:** Average life expectancy in the U.S. is increasing, but among lower income people it is not, and the lifespan gap between rich and poor is increasing. Even middle class people have shorter lifespans than the rich. Experts discuss how a large income buys extra years of life, and why a lower income produces barriers to a longer life.

**(Segment 2)** Children with serious chronic diseases often have a tough time transitioning from pediatric care, which has much support built in, to adult care, which has to be managed by the patient. Experts discuss how parents can make it easier with a gradual transition.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
U.S. Government; Economics; Politics; Business & Industry; (Government; Transportation; War; Law; Slavery; History)	Viewpoints/Segment 1 (Segment 2)	12/11/16	3:01pm-3:12pm 3:15pm-3:25pm	11 minutes 10 minutes

**Narration:** The “Wage Gap” has been a persistent topic in America for years and it played a big role in determining the outcome of the recent election. We’re joined by two experts who both agree that closing the wage gap should be a top priority in this country, but who have very different takes on how that can be achieved. We hear about governmental regulations, tax codes, charity, and much more in regards to bringing the haves and have-nots together. Our experts tell us that doing so may just bring a very divided country together before the wedge between the two groups changes America into a very different, and likely very worse-off, place for our children to inherit.

**(Segment 2)** Most of us have heard the name of Henry Clay, but he’s not one of the people we usually remember the way we do George Washington or Thomas Jefferson. Our guest says that Clay was just as important to our nation as the founding fathers, and he discusses the great contributions this Speaker of the House made to keep our country together, fight for justice, and create the foundations of our extensive modern U.S. transportation system.

Public Health; Drugs; Drug & Alcohol Addiction; Youth At Risk; Education; Police & Law Enforcement; Mental Illness; (Health Care; Technology; Ethics; Education; Religion)	Radio Health Journal/Segment 1 (Segment 2)	12/11/16	3:32pm-3:44pm 3:45pm-3:52pm	12 minutes 07 minutes
--	--	----------	--------------------------------	--------------------------

**Narration:** Drug and alcohol addiction and abuse is rising. Researchers have found that “fear mongering” educational efforts to combat it in adolescents doesn’t work. New science has discovered that certain personality types are predictably predisposed to addiction risk, and that educational efforts can be targeted to them effectively. Experts discuss.

**(Segment 2)** Advancements in genetic science are often clouded in ethical controversy. Experts discuss a new platform where scientists and public can debate it, and from which education can be disseminated.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Military; War; Religion; History; (Psychology; Mental Health; Self- Help; Science)	Viewpoints/Segment 1 (Segment 2)	12/18/16	3:01pm-3:12pm 3:15pm-3:25pm	11 minutes 10 minutes

**Narration:** This year, many families will spend the holidays with family members away, in combat in Iraq and Afghanistan. It's tough being on the battlefield at any time of year, but during Christmas it's especially hard. A historian and author talk to us about one Christmas, in 1944, when American soldiers spent a freezing holiday in the Ardennes forest, fighting for their lives against Hitler's army during the Battle of the Bulge. We also hear about how a general's prayers could have been the key to turning the tide in the Allies' favor.

**(Segment 2)** Hearing voices in your head comes with an unfortunate stereotype that you must be mentally ill. However, experts tell us the "voices in your head" can be used to talk to, and about, yourself in a healthy, productive way. In fact, most people hear voices in their head, and, already use inner speech daily. Our guests discuss tips and techniques to use "self-talk" as a way to get yourself through tough decisions and lower stress.

Public Health; Health Care & Health Policy; Federal Govern- ment; Regulation & Politics; State Government; Unemployment; Medicaid & Medicare; Economics; Insurance; Privatization; (Youth At Risk; Mental Health; Law & Crime; Ethics)	Radio Health Journal/Segment 1 (Segment 2)	12/18/16	3:32pm-3:46pm 3:47pm-3:52pm	14 minutes 05 minutes
---	---	----------	--------------------------------	--------------------------

**Narration:** The incoming Trump Administration and Congressional Republicans have made "repeat and replacement" of the Affordable Care Act one of their primary goals. But there are many options in how it might be replaced, and some popular aspects of Obamacare will likely remain. Experts discuss scenarios and how they would affect Medicaid, Medicare, insurance exchanges and the overall market.

**(Segment 2)** Rich people receive deference that the rest of us don't, but how much can they get away with? Some young criminals have escaped jail by claiming "influenza," saying that their wealthy parents instilled no moral compass, so they believed they could do anything without consequences.

<u>Description of Issue</u>	<u>Program/Segment</u>	<u>Date</u>	<u>Time</u>	<u>Duration</u>
Addiction; Mental Health; Family Issues; Diet & Nutrition; (Technology; Commerce; Law; Privacy; Internet Security; Government)	Viewpoints/Segment 1	12/25/16	3:01pm-3:11pm	10 minutes
	(Segment 2)		3:14pm-3:25pm	11 minutes

**Narration:** The holidays, with their family gatherings, crowded shopping malls, and unpredictable weather, are a time of stress for many people. Two stress specialists talk to us about tips and tricks to help you calm down a bit during this hectic time of year. We also hear about how to prevent undue stress at other times.

**(Segment 2)** It seems you can't get away from email spam, Internet scams, and companies using your online purchases and web browsing to badger you with shopping opportunities. Every time you sign up for a blog or make a purchase, you are inundated with unwanted, and sometimes dangerous, intrusions into your personal and private information. A journalist, who has tried to erase her digital footprint, and an attorney who deals with online privacy talk to us about ways you can get rid of some third parties who spy on your online activities. They also tell us about better password protection, and we find out why we are probably never going to be able to rid ourselves of all snooping in the future.

Education; Children At Risk; Disabilities; Mental Health; (Disabilities; Pop Psychology)	Radio Health Journal/Segment 1	12/25/16	3:32pm-3:44pm	12 minutes
	(Segment 2)		3:45pm-3:52pm	07 minutes

**Narration:** Many people feel that gifted children don't need any help because they're so talented. But many gifted kids are so bored in school they become disruptive and do poorly, so they're not identified and their need for a challenge isn't met. Other gifted children have disabilities, such as learning disabilities, that are not identified because they are masked by their gifts. Experts discuss how to meet the needs of these children educationally and emotionally.

**(Segment 2)** Some people simply have no rhythm. A small percentage may be "beat deaf," the rhythmic equivalent of tone deafness, and have a biological deficit in their body's timing mechanism. Experts discuss the problem and other body timekeeping clocks that may be affected
