But even though 94% of Americans recognize it's dangerous to send a text while driving, and 91% recognize it's dangerous to read one, many people still do it. To address the disconnect between awareness and behavior, our campaign addresses the fact that people are personally engaging in a behavior that they know is dangerous. The campaign reminds drivers from 16 to 34 that no one is special enough to message while driving. See more at: <https://www.adcouncil.org/campaign/distracted-driving-prevention>

Our campaign targets young men aged 18 to 35, many of whom reject the common stereotypes of marijuana users - and reminds viewers that if you feel different, you drive different. Don't drive high.
