

KJAA MIAMI, AZ  
PROGRAM LISTS AND REPORTS  
1<sup>st</sup> QUARTER 2022

In addition to its unique blend of music, comprised primarily obscure soul and R&B from the 1950s and 1960s mixed with sambas, pop standards, instrumentals and early rock and roll chosen for its local appeal without regard to national popularity; KJAA airs public service announcements around the clock along with hourly weather, news items and immediate updates when dangerous conditions exist, as well as at least one full length morning drive local newscast each weekday morning including local job openings. KJAA does not attempt to compete with national news sources. Using a need-to-know approach, KJAA focuses exclusively on local events and concerns. KJAA is heard on 1240 AM, and on 106.1 FM via translator K291CU.

The first quarter of 2022 was one of relative calm with no defining issues for Globe-Miamians, much like the fourth quarter of 2021. Public attention focused on future planning—from the redevelopment of Globe’s pool, to how best to mitigate the coming fires, which are a way of life here.

As is always the case, **Mining** is crucially important to the well-being of the local community. Though diversification efforts have been made over the decades, nothing displaces the impact of the fate and fortune of mining here. While mining has undeniably declined since its high point many decades ago, the last few quarters have brought uplifting news, and the first quarter of 2022 continues that trend.

Highlights included glowing financial reports from Freeport McMoRan, Capstone Mining, Rio Tinto and Grupo Mexico, with record yields and earnings, and low production costs. (Grupo Mexico’s boast of the lowest costs of production in the industry at 84 cents a pound would be of great concern to local workers, if it were not the case that local costs of production are \$2.00 a pound. Grupo Mexico’s Hayden smelter remains immobile since the unresolved union strike two years ago.)

The big mining story was the announcement of a merger between Vancouver BC based Capstone Mining, owner of the Pinto Valley mine west of Miami, and Bermuda based Mantos Copper, which received full approval from all necessary authorities as the quarter came to a close. While the news appears rosy for the new giant Capstone Copper, which still trades on the Toronto exchange, there is a lingering Chile question. Mantos’ contribution to the merger is two mines in Chile, close to the Santa Domingo mine there owned by Capstone. But February news from Chile announced a vote in that country to nationalize all copper. Chile is the world’s leading copper producer and a bill to nationalize copper mining passed an assembly committee. It goes on to the full assembly and then a national referendum vote later this year.

Uneasiness closer to home continues over the fate of the Resolution Copper project in nearby Superior. This continues to be as much a story about the local **Economy**, as it is about mining. The issue highlights how mining and the economy have always been intertwined here, as great hope continues that the opening of what will be the world's largest underground mine, will be the event that turns the economic tide for the Town of Superior and the Copper Corridor including Globe, Miami and San Carlos. But it is San Carlos that continues to attempt to put the breaks on the project, which was on the brink of final approval until the changes in the federal government after the 2020 election. The issue is whether the necessary land swap endangers Oak Flat, an area the Apaches claim is a sacred religious site, though there is much evidence disputing it. The problem for the Apaches is the land is federal property and congress previously approved its swap for private land to facilitate the Res Copper project. The problem for proponents is that the current administration is leaning towards nullifying its passage. How that would be possible is still a question, but this quarter found a top Washington DC official coming to the region to meet with the Apaches in what was termed 'government to government' talks. Though Arizona Representative Raul Grijalva is resolute in his desire to undo the swap, the quarter ended without evidence of how those talks progressed.

Encouraging mining **Employment** news came from multiple sources including BHP, which issued a community notice of their intent to install air quality monitors and a weather station in April at its Solitude tailings site, a large flat swarth of ground near Miami, which shall remain in place until the end of 2024 in order to collect data to support ongoing engineering, operations and maintenance plans.

Non-mining employment also got a boost this quarter with the announcement that Casa Grande will be getting another factory. In addition to the huge electric car plant, plumbing manufacturer Kohler Company has inked a deal for a new multi million-dollar 250-acre site with a one million square foot building set to employ over 400 workers.

Good news also came from continually declining unemployment figures in the state. February 2022's 3.6% rate is almost half of what it was a year ago when unemployment figures topped 6%. January registered 3.7%, with December, November and October 2021, all at 3.9%.

Like the rest of the country, Arizona residents, including those in Southern Gila County, have experienced challenging gas prices. Prices in Globe-Miami hovered around \$4.24 this quarter. That compares to one service station in Scottsdale, which in February topped \$6.50 a gallon. The lowest recorded price was \$3.99 in Tucson. However, the undeniable effect of high inflation on economically challenged regions like Globe-Miami did not overtly manifest this quarter.

**Transportation** issues continued through the vital Hwy 60 corridor to Phoenix this quarter, due solely to the after effects of the Pinto Creek Bridge replacement project. Travel was reduced to one lane repeatedly with pilot cars as cleanup from the project including new guardrails, painting and striping continued. Hwy 77 to Tucson was also adversely affected as travel was restricted to one lane in alternating directions facilitated by automatic flagging operations for over a month this quarter as crews continued to mitigate last year's flood damage near Winkelman.

**Infrastructure** and **Blight** issues were addressed on multiple fronts this quarter. The news from the long-beleaguered Tri-City Sanitary District sewer project continued to be encouraging as it appears that the project is moving forward appropriately. Work on rehabbing the Globe Pool in time for swimming season continues. The Madeira Peak television translator location here received upgrades and is operational with local residents able to pick up Channels 3, 5, 8, 10 and 12 from Phoenix using outdoor antennas. And addressing a well-known housing shortage, were two public hearings. One in January rezoned the blighted Hill Street School so the building could be transformed into 70 residential units. Another in March granted a conditional use permit for 90 age-restricted, multi-family units on a vacant site adjacent to the TraveLodge on Hwy 60.

**Environmental** concerns were also tackled this quarter with prescribed burns in various areas to thin the Tonto National Forest in preparation for fire season, and specifically with the announcement from Tonto management that 115,000 acres of land in the Globe Ranger District would be handled as part of the Tribal Forest Protection Act. From the eastern boundary of the forest to the edge of the San Carlos Apache reservation, restoration of watersheds, reducing forest density, returning the area to a more natural and historical vegetative state, and landscaping to improve forest health and prevent burns, are part of the plans that will also reduce fire danger on the reservation.

**Education** in the area continues to be a disappointment. Though various efforts are made, the lack of results is evidenced by this quarter's announcement: The Gila County Science Fair was cancelled due to lack of entries. The issue is much deeper than the distance learning blamed by school administrators.

**Healthcare** here was no different than the rest of the state and country this quarter. An eye continued on Covid infection and vaccination stats, but overall the pandemic was palpably winding down. Hope from all corners is that this will continue. Sad news was had when life-long Globe resident Lilly Machado passed away. After the community raised funds for an off shore procedure when this otherwise health middle age woman was denied surgery in Arizona due to insufficient finances, she traveled to Mexico. High hopes were dashed last quarter when her donor was disqualified and she began the long wait for a suitable liver.

Hopes again rose this quarter when a donor was found and she was deemed healthy enough to undergo the surgery. She came through the procedure and initial indications showed success. However, weakened by unrelated infections, she did not survive.

Once again this quarter, **Election** news was dominated by redistricting plans. It was determined that the final 2020 census figures mandate redistricting, but by the quarter's end, new district boundaries had not been finalized.

January 2022 voter stats showed that Arizona now has 4,703,880 registered voters with 1,605,575 independents; 1,594,602 republicans; and 1,464,303 democrats. Registered libertarians accounted for 39,970.

Creating interest and participation in community meetings is the often-elusive goal of local community leaders everywhere. To facilitate wider-reach and easier-access, the Chairman of the Gila County Board of Supervisors, Tim Humphrey uses KQSS as the origination point of his monthly meeting. Listeners and residents are invited to participate, but for those who miss the live meeting, it is replayed the following weekend on KJAA, and is available as a download on KQSS.net. Here's a review of this quarter's meetings heard on KJAA:

Tim Humphrey Community Meeting  
January 16, 2022 8:00-8:30 AM

There's no avoiding it, redistricting is required in Gila County for the three supervisor districts. Tim Humphrey explained that District One is over-populated due to the growth of Payson, and District Two is under populated. Suggestions and maps from the public were solicited. Humphrey expects that to even out the three districts, part of District One will be moved to District Three, and a portion of District Three will be moved to District Two. The reasons for these seemingly complicated solution is that District One Supervisor Woody Cline lives in Young, and therefore Young can not be removed from the district as the supervisor of it must reside within it. Further districts must be contiguous. Firm decisions will be made before the next monthly meeting.

Tim Humphrey Community Meeting  
February 20, 2022 8-8:30 AM

It's possible there is no more beleaguered group in the history of Globe Miami than the Tri-City Regional Sanitary District. The TRSD has been at it for over a dozen years, creating a sewer system for the unincorporated land between Globe and Miami, with until recently over nothing to show for it. With a history of taxing owners they'll never serve, to taxing properties in another district, few positive thoughts are on any resident's mind about this group. Adding to the consternation is the undeniable fact that the properties covered by the district are in imminent danger of condemnation. Most are served by cesspools, which by law can not be repaired should they fail, and almost all are on lots too small to accommodate a septic system under USDA requirements. While no one likes the prospect of higher taxes for government services, it's even less desirable to have no usable property at all. Finally, the tide appears to be turning. With a new board, and more impactful, a new lawyer for the district, plans have been made and dates have been set. Board chairman Robert Jacques joined Tim Humphrey for this meeting to review the current situation and the expectations for upcoming events, including potential dates for long awaited services.

Tim Humphrey Community Meeting  
March 20, 2022 8-8:30 AM

This meeting was primarily an update of programs, events, and involvements of the Gila County Board of Supervisors including the current status of redistricting, which is mandated due to population shifts; plans to rehab the Globe Pool— competing plans for a regional aquatic center are now off the table and all

stakeholders are in agreement that enhancing the existing pool is the way to go; preparation for the upcoming wildfire season (to be discussed in full at a future meeting); and a variety of topics of interest such as Gila County's abandoned cemetery. Though burials continue to this day on the Central Heights grounds, the cemetery is claimed by no entity. Segments of the cemetery such as the Serbian section are maintained by interest groups, but the cemetery itself has no known owner.

In addition to extensive reporting on the foregoing, KJAA enhances its public service presence with three long form nationally produced shows chosen for their coverage of issues impacting the local area. Unlike stations that choose to bury required public interest programs, KJAA is proud to offer an hour and a half long block of this information in morning drive on Saturdays.

Health Care is an issue of critical importance to all Americans. Not only is cost a factor for most people, in rural areas like Globe-Miami in particular, availability is an issue, from where to find care to what treatment options exist. **Radio Health Journal** is a weekly half hour program dealing with all facets of health care from scientific to sociological. This quarter, here are the topics covered and the time and date the programs ran:

Sunday January 2, 2022 7:00-7:30AM

SEGMENT 1: HOARDING DISORDER: MORE THAN JUST TOO MUCH JUNK 12:02

Synopsis: Hoarding disorder affects at least five percent of Americans, and despite TV programs showing its effects, it is still widely misunderstood. Experts discuss the danger hoarding poses to others, including neighbors, children, and first responders; why those with the disorder are so attached to things; and the right and wrong ways to address the problem. Compliancy issues covered: mental health; family issues; public safety and first responders; youth and children at risk

SEGMENT 2: DEALING WITH LIFELONG DISEASE 7:43

Synopsis: Life-threatening, lifelong chronic diseases from infancy are at the top of the list of medical challenges. A woman who has dealt with cystic fibrosis her entire life discusses how mindset is often the biggest factor in living a full life with such a disease, and sets out her recipe for shoring up one's approach. Compliancy issues covered: health care; public health; consumerism; mental health; children & youth at risk

Sunday January 9, 2022 7:00-7:30AM

SEGMENT 1: CAN 911 RESPOND TO MENTAL HEALTH CRISES? 12:15

Synopsis: Up to 15 percent of calls to 911 involve people having a mental health breakdown, yet many call centers, especially in rural areas, have no one with any training on what to do or who to dispatch in those cases. Typically they send police, who may also have no training on how to handle mental health crises and may inflame the situation. Experts discuss why this happens and how communities can respond better.

Compliancy issues covered: mental health and mental illness; public safety; police; 911; emergency and first responders; criminal justice system; prisons; local government; economics

SEGMENT 2: CHILDREN'S "PSYCHOTIC-LIKE EXPERIENCES" 7:53

Synopsis: Children and young adolescents may experience perceptual distortions or strange thoughts, but if they become frequent and disruptive, they can be an early tipoff to serious future mental health distress. An expert discusses this new field of mental health research in adolescents. Compliancy issues covered: mental health; public health; children and youth at risk; education

Sunday January 16, 2022 7:00-7:30AM

SEGMENT 1: WEATHER DISASTER CLEANUP: COSTLY & INEFFICIENT, BUT NECESSARY 12:05

Synopsis: Severe life-threatening weather, such as the rare December tornadoes that tore through Kentucky and other states in December, 2021, will likely become more frequent with climate change. Experts discuss the difficulties in cleaning up large scale disasters and how planning could improve the results cheaply.

Compliancy issues covered: natural disasters; climate change; waste disposal and landfills; recycling; local and state government; pollution and environment; hazardous materials

**SEGMENT 2: THE LINK BETWEEN OBESITY AND CANCER 7:26**

Synopsis: Studies are finding that obesity significantly increases a person's risk for a variety of cancers. However, not all forms of fat carry equal risk. An expert discusses who is more at risk and why. Compliance issues covered: health care; public health; consumerism

**Sunday January 23, 2022 7:00-7:30AM**

**SEGMENT 1: THE SLEEPIEST WORKERS? YOUR LOCAL POLICE 12:54**

Synopsis: Studies show that law enforcement is the most sleep deprived of all professions, with potentially damaging and even fatal consequences for decision-making and reaction time, as well as long-term health damage. Experts discuss the unique challenges in having a poorly rested police force and in fixing it.

Compliance issues covered: police and law enforcement; public safety; local government; public health

**SEGMENT 2: PET FOOD: NOT AS SIMPLE AS MOST PEOPLE THINK 6:28**

Synopsis: A growing number of pet owners are tempted to put their dog or cat on vegan, gluten-free or raw diets. An expert pet nutritionist and veterinarian discusses what pets should and shouldn't eat to be healthy. Compliance issues covered: pets and people; nutrition

**Sunday January 30, 2022 7:00-7:30AM**

**SEGMENT 1: KIDS WHO'VE LOST PARENTS TO COVID 11:23**

Synopsis: New estimates show that more than 167,000 children under 18 (a number growing rapidly) have lost a parent or major caregiver to Covid-19. Psychologists say deaths under such circumstances are also much more difficult for survivors to adjust to and will have a major impact on the US. Experts discuss how these "forgotten grievers" are coping and what actions might help ease the impact on them and to the nation.

Compliance issues covered: children and youth at risk; health care; family and parenting issues; education; charitable organizations; Federal government and policy; economics; diversity issues

**SEGMENT 2: HOW WARFARE DESTROYS HEALTHCARE 8:12**

Synopsis: According to the Geneva Convention and other agreements, health facilities and workers are supposed to be protected from the violence of war. However, they're targeted much more often than most people know. A noted expert in the field discusses how this violence happens, its consequences, and how international organizations may be able to turn this trend around. Compliance issues covered: health care; military and warfare; charitable organizations

**Sunday February 6, 2022 7:00-7:30AM**

**SEGMENT 1: PUNISHING COVID-LYING DOCTORS 13:17**

Synopsis: There's a growing number of complaints to state medical boards regarding doctors lying about Covid-19 and vaccines. The doctors spreading misinformation are not always reprimanded by state medical boards and are allowed to continue voicing the misinformation. They cite freedom of speech as a defense, but other doctors say licensed professionals have an obligation to the truth. Experts explain the controversy.

Compliance issues covered: children and youth at risk; health care; free speech; education; Federal government and policy; public health, charitable organizations

**SEGMENT 2: NEEDLE PHOBIA 6:47**

Synopsis: Some people who have not yet gotten the Covid vaccine are simply afraid of the needle. Bad childhood experience can keep people from receiving necessary medical treatments. A needle-phobic and a physician explain how parents should discuss injections with their children from a young age. Compliance issues covered: health care; family and parenting issues; mental health; public health; children and youth at risk; consumerism

**Sunday February 13, 2022 7:00-7:30AM**

**SEGMENT 1: CLIMATE CHANGE & NATIONAL SECURITY 13:26**

Synopsis: The future of climate change impacts a lot more than our crops. Natural disasters and mass migrations of people threaten the health and safety of populations and governments around the world.

Experts discuss how climate change creates economic, sociological, political, and military issues. Compliance issues covered: children and youth at risk; public health; climate change; national security; Federal government and policy, economics, sociology, political strategy, military

#### SEGMENT 2: THE VEGAN FUTURE 6:09

Synopsis: Some experts believe that the future of food is vegan. With the increasing effects of global warming, changes to farms are inevitable. Experts talk about why eating animals is inefficient, and why our planet won't be able to support it in the future. Compliance issues covered: agriculture; climate change; public health; children and youth at risk; consumerism; environmental impacts; health and wellness.

#### Sunday February 20, 2022 7:00-7:30AM

##### SEGMENT 1: CHILD DEVELOPMENT IN PANDEMIC 12:07

Synopsis: New research suggests the pandemic negatively affects child development. Many children born after the start of the pandemic score lower in child development than children born before. Researchers explain possible theories for these children's slower development scores. Compliance issues covered: children and youth at risk; health care; education; public health, charitable organizations; pregnancy and expecting mothers; family and parenting issues; child development

##### SEGMENT 2: SEASONAL AFFECTIVE DISORDER 8:06

Synopsis: Seasonal Affective Disorder can occur any time of year but is most prevalent during the winter months. SAD can develop into non-seasonal major depression if left untreated. An expert gives advice on how to combat SAD and reduce the risk of getting it next year. Compliance issues covered: health care; mental health; public health; children and youth at risk; consumerism; fitness; physical health; depression

#### Sunday February 27, 2022 7:00-7:30AM

##### SEGMENT 1: WHY OMICRON COULD END THE PANDEMIC 13:55

Synopsis: Although the Omicron variant accounts for 99 percent of Covid cases in the U.S., it's far less lethal. Experts say this is the perfect combination that could bring us back to normalcy. It's likely that life with Covid will start to resemble how we handle the flu. Compliance issues covered: children and youth at risk; public health, consumerism; COVID-19 pandemic, patient safety, vaccination; infectious diseases; prevention

##### SEGMENT 2: HOW LATER SCHOOL START TIMES AFFECT BOTH STUDENTS AND PARENTS 6:23

Synopsis: Sleep deprivation affects about three out of four teenagers in America. Inadequate sleep has been linked to depression, anxiety, weight gain, and worsened heart functioning. An expert shows through a case study how implementing later school start times allows students and parents to get more sleep. Compliance issues covered: mental health; public health; children and youth at risk; physical health; family issues; schools and education; prevention

#### Sunday March 6, 2022 7:00-7:30AM

##### SEGMENT 1: PIG ORGANS COULD SOLVE THE ORGAN SHORTAGE CRISIS 13:03

Synopsis: Thousands of people die each year due to the organ shortage crisis. Recently, doctors successfully transplanted pig kidneys into a brain-dead human for the first time in history. An expert discusses how pigs could be the future of human organ transplants. Compliance issues covered: public health; consumerism; patient safety; organ shortage crisis; xenotransplantation; organ donating; ethics; kidney disease; vulnerable populations

##### SEGMENT 2: CAN WE TRUST COMPUTERS TO DRIVE OUR CARS? 7:04

Synopsis: Self-driving cars seem to be our future, but how safe are they? Researchers have identified 32 major impacts automated cars could have on public health, and 17 of them are negative. Experts discuss what a possible future of self-driving cars will look like. Compliance issues covered: public health; physical health; auto safety and highways; automated vehicles; public safety; traffic safety, air pollution

#### Sunday March 13, 2022 7:00-7:30AM

##### SEGMENT 1: HOW FITNESS APPS CONTRIBUTE TO EATING DISORDERS 12:12

Synopsis: Fitness apps can be helpful, but for some people, obsessive meal tracking helped them develop an eating disorder. Experts talk about the slippery slope of the fitness industry, and discuss proper recovery methods. Compliance issues covered: public health; consumerism; patient safety; eating disorder; mental health; fitness apps; fitness industry; diet and nutrition; rehabilitation; social media; technology; sports and safety

##### SEGMENT 2: WHY YOU SHOULD FLUSH YOUR GOLDFISH DOWN THE TOILET 7:27

Synopsis: Spring is a popular time for fish owners to get rid of their goldfish. Most people think that letting them loose in a pond is the best option, but you may want to rethink that. Experts discuss why goldfish should be flushed down the toilet instead of thrown into a neighborhood pond. Compliance issues covered: consumerism; environment; ethics; invasive species; ponds and lakes; animal safety

Sunday March 20, 2022 7:00-7:30AM

SEGMENT 1: A LOOK AT THE BLOOD DIAMONDS HELPING FUND RUSSIA'S INVASION OF UKRAINE 11:05

Synopsis: Russia produces one-third of the world's rough diamonds. The Russian government owns 33 percent of Alrosa, a Russian company that owns 90 percent of Russia's diamonds. An expert discusses how a global embargo of Russian diamonds would send a strong economic message to its leaders. Compliance issues covered: consumerism; diamond industry; luxury jewelry; economic sanctions; global politics; ethics; federal regulations; youth at risk; human rights; political strategy

SEGMENT 2: WHY ASPD IS STILL A MYSTERY: THE DISORDER FORMERLY KNOWN AS SOCIOPATHY 9:15

Synopsis: ASPD is a disorder where those affected don't feel empathy. Many serial killers and rapists have ASPD, so why haven't we been looking for a cure? An expert talks about the challenges facing ASPD research. Compliance issues covered: mental health; mental illness; public health; clinical research; research funding; youth at risk; public safety

Sunday March 27, 2022 7:00-7:30AM

SEGMENT 1: WHO'S RESPONSIBLE FOR A MASS SHOOTING? 12:18

Synopsis: Even as many students switched to virtual learning, school shootings didn't stop. One recent school shooter used his parents' gun, and now they are facing charges for their role in the incident. Experts discuss how the accountability of mass shootings doesn't always just fall on the shooter. Compliance issues covered: consumerism; ethics; gun legislation; mass shooting; school shooting; gun violence; criminal justice; children and youth at risk; prosecution; prevention, public safety

SEGMENT 2: THE PROBLEM WITH A NEW ROAD PHENOMENON CALLED 'SUPER SPEEDING' 7:55

Synopsis: Less congested roads during the pandemic gave room for drivers to increase their speed, creating a whole new type of driving called 'super speeding'. The issue is that there's also been the largest number of car crash deaths since 2006. Experts talk about the dangers of speeding and how we can slow drivers down. Compliance issues covered: public safety; speeding; consumerism; auto safety and highways; prevention; road design; public health; car crash; traffic safety

*Radio Health Journal is produced by MediaTracks. Guest information for each of the above segments is available at [www.radiohealthjournal.net](http://www.radiohealthjournal.net)*

**Viewpoints** is a weekly half hour program devoted to difficult social issues. Topics are wide ranging, such religion in prison, or parenting transgender teens. This quarter, the following programs aired:

Sunday January 2, 2022 6:30-7:00AM

SEGMENT 1: FINDING EMPLOYMENT AFTER INCARCERATION 11:11

Synopsis: In the U.S., there are roughly 19 million people with felony convictions. For this population, finding stable work can be a tumultuous and draining process. Without a job, it can be all too easy to slide back into a past life and end up behind bars once again. This week – we explore the role of work in prison, the lack of skills gained and the importance of employers opening their doors to second-chance hiring. Compliance Issues Covered: Incarceration, Poverty, Recidivism, Inequality, Employment, Human Resources, Business, Education, Criminal Justice

SEGMENT 2: A SEASON OF SADNESS 7:21

Synopsis: Researchers estimate that around 10 million Americans suffer from seasonal affective disorder each year. The milder version of this diagnosis is commonly referred to as the winter blues and is estimated to affect 10 to 20 percent of people. We speak with psychologist Dr. Carrie Ditzel about the prevalence of SAD and how people can combat these feelings and find additional support. Compliance Issues Covered: Mental Health, Psychology, Psychiatry, Sleep, Fitness, General Health

SEGMENT 3: CULTURE CRASH: SPIDER-MAN'S BACK ONCE AGAIN 3:04

Synopsis: The new film release, "Spider-Man: No Way Home" is a massive blockbuster hit. We discuss what makes these crossover movies such a success and what's coming up next in the Marvel universe. Compliance Issues Covered: Culture, Film

Sunday January 9, 2022 6:30-7:00AM

SEGMENT 1: OUR RESILIENT FOOD SYSTEM 9:09

Synopsis: 20 million people work within the food production industry in the U.S. The pandemic has altered this sector and resulted in many pressures placed on this population. This week – we highlight the people behind these various roles and the changing landscape of this 24/7 food supply chain. Compliancy Issues Covered: Supply Chain, Food Production, Agriculture, Career, Food Shortages, Personal Finance

SEGMENT 2: STARRY NIGHT 9:10

Synopsis: More than 80 percent of the world's population lives under light-polluted skies, according to a 2016 study published in the journal "Science Advances". Light pollution can impact sleep, general health and negatively impacts the environment, killing millions of birds each year and disrupting the seasonal cycle of trees. Another effect? The beautiful stars in our skies are clouded by the bright beams of lights all around us. We discuss the issue of light pollution and how stargazers can bring about change in their local communities. Compliancy Issues Covered: Light Pollution, Environment, Astronomy, Education, Culture, History

SEGMENT 3: CULTURE CRASH: "SPIDER-MAN" NOSTALGIA 3:23

Synopsis: We rewind back to 2002 to the very first "Spider-Man" movie starring a young Tobey Maguire and Kirsten Dunst. The iconic film started it all and led to decades of spin-offs. Compliancy Issues Covered: Culture, Film

Sunday January 16, 2022 6:30-7:00AM

SEGMENT 1: GETTING YOUR \$\$\$ IN ORDER 10:35

Synopsis: If an unexpected \$400 charge came up, it's estimated that 40 percent of Americans would struggle to pay this amount, according to data published in 2019 by the Federal Reserve. Life happens. Circumstances change. And that's why it's so important to be financially secure with savings, an emergency fund, investments and more. We speak with financial expert, Emily Guy Birken this week about how to start budgeting and saving. Compliancy Issues Covered: Personal Finance, Money Management, Financial Technology, Economy, Labor

SEGMENT 2: AN ILLUSTRATOR'S ART 7:40

Synopsis: Before photography, the most commonly used medium to capture a single moment in time was painting and illustration. Though photos and video have flooded most media outlets, illustration as a whole has not been replaced. It's still used to this day because of its unique ability to convey emotions and integrate a single moment within a broader context. Career illustrator Tim 'O'Brien has created some of the most famous magazine covers, book covers and more in recent history. He joins us this week to help us understand the skill and work it takes to become a successful editorial illustrator. Compliancy Issues Covered: Art, Illustration, Career, Comedy, History, Politics, Government, Culture, Media

SEGMENT 3: CULTURE CRASH: CATCHING UP ON RECENT RELEASES 3:23

Synopsis: We binge and review some of the new movies we've missed in recent months, including a critique of "The Novice" and "Mass". Compliancy Issues Covered: Culture, Film

Sunday January 23, 2022 6:30-7:00AM

SEGMENT 1: ADVANCEMENTS IN ANTI-AGING 10:24

Synopsis: By 2030, 74 million Baby Boomers in the U.S. will be 65 or older. As people age, this means bigger burdens on the healthcare system, senior housing and care. But, what if one day, we could slow down this process of biological aging? Two researchers from Northwestern University join us this week to share some of the latest innovations in the anti-aging field. Compliancy Issues Covered: Health, Aging, Retirement, Disease, Technology, Science, Medicine

SEGMENT 2: A NEW PERSPECTIVE ON COOKING AT HOME 8:24

Synopsis: Ever find yourself staring at a recipe and feeling completely lost or overwhelmed? Us too. Cooking doesn't have to be this big production, but can instead be a time to unwind, experiment and not always aim for perfection. Cookbook author Leanne Brown joins us this week to unpack how to become a calmer cook this year by planning ahead and setting new expectations. Compliancy Issues Covered: Cooking, Diet, Health, Mental Health, Organization, Literature

SEGMENT 3: CULTURE CRASH: BINGING THE ROM-COM SERIES "LOVE LIFE" 2:48

Synopsis: The series, "Love Life" is a whimsical ride through the ups and downs of modern dating, relationships and finding love. Seasons 1 and 2 are now out on HBO Max. Compliancy Issues Covered: Culture, TV

Sunday January 30, 2022 6:30-7:00AM

SEGMENT 1: LIVING LIFE IN A 24/7 SOCIETY 9:08

Synopsis: We play many roles in life: coworker, manager, partner, parent, caregiver. The list is seemingly endless. It can be all too easy to get wrapped in these many roles and forget all together about spending time on yourself as an individual. We speak with acclaimed writer and author, Eve Rodsky about the mental toll of our daily lives and how to get back to finding a balance. Compliancy Issues Covered: Mental Health, Psychology, Self-Identity, Parenting, Education, Literature

SEGMENT 2: A COMPREHENSIVE GUIDE TO FANDOM 9:27

Synopsis: What was your favorite comic book series, video game or card game growing up? Depending on your age, it could have been Magic: The Gathering, Batman or Minecraft. In fact, you still could be a fan of these no matter what your age is. This week – we discuss the vast world of fandom and just what it means to be a part of this community. Compliancy Issues Covered: Comics, Art, Entertainment, Technology, Parenting, Hobby, Personal Interests, Community

SEGMENT 3: CULTURE CRASH: THE DEBUT OF "SHIVA BABY" 3:05

Synopsis: New writer & director Emma Seligman is generating a lot of buzz across Hollywood. This week, we discuss her debut film, "Shiva Baby" that's now streaming on HBO Max. Compliancy Issues Covered: Culture, TV

Sunday February 6, 2022 6:30-7:00AM

SEGMENT 1: SPIN, SWEAT, REPEAT: THE EVER-EVOLVING FITNESS LANDSCAPE 9:39

Synopsis: It feels like the fitness market has more options than ever before. Between the rise of at-home fitness, traditional gyms and focused classes, consumers can pick and choose to workout whichever way they like. This week – we speak with two fitness experts about evolving trends in exercise and what's next.

Compliancy Issues Covered: Fitness, Health, Technology, Business, Community, Exercise, Fitness Industry

SEGMENT 2: THE HISTORY OF TIMEKEEPING 9:59

Synopsis: From sundials to mechanical clocks to atomic clocks, humans – throughout the centuries – have kept track of time using many different methods. Physics and astronomy professor Chad Orzel joins us this week to highlight just how much we rely on accurate clocks and how timekeeping technology has evolved across human history. Compliancy Issues Covered: History, Invention, Innovation, Culture, Ancient Civilization, Archaeology

SEGMENT 3: CULTURE CRASH: A NEW TAKE ON A POPULAR SERIES 1:59

Synopsis: The hit sitcom, "How I Met Your Mother" ran for nine seasons between 2005 and 2014. Now, producers are creating a new take on the original show with the launch of the series, "How I Met Your Father". We discuss if the new release is worth the hype. Compliancy Issues Covered: Culture, TV

Sunday February 13, 2022 6:30-7:00AM

SEGMENT 1: THE JOURNEY OF ADDICTION 9:36

Synopsis: More than 101,000 Americans died from a drug overdose between April 2020 and April 2021, according to the Centers for Disease Control and Prevention. Substance abuse, or addiction, is a national crisis that's only continuing to worsen as new drugs enter the market and treatment has been disrupted due to the pandemic. Recovering addict Dr. Carl Erik Fisher joins us this week to share his own story with addiction and what can be done to improve treatment for people suffering from substance abuse issues. Compliancy Issues Covered: Addiction, Substance Abuse, Mental Health, Medicine, Healthcare, History

SEGMENT 2: THE MANY MODES OF TRANSPORTATION 9:59

Synopsis: You can love biking, but if your city or town isn't bike friendly, it can be difficult to get around safely. Dr. Susan Shaheen, a professor of civil and environmental engineering at the University of California-Berkeley, joins us this week to highlight the country's current infrastructure and what more needs to be done to promote greater citizen mobility with bikes, scooters and other non-motor modes of transportation. Compliancy Issues Covered: Transportation, Sustainability, Environment, Mobility, Aging, Urban Planning, Infrastructure

SEGMENT 3: CULTURE CRASH: A FRESH TAKE ON "NIGHTMARE ALLEY" 2:31

Synopsis: We discuss the new film, "Nightmare Alley" which is a remake of the 1947 film of the same title. It's filled with a star-studded cast and does not disappoint. Hear why this movie makes our 'Best of 2021 Films' list. Compliancy Issues Covered: Culture, TV

Sunday February 20, 2022 6:30-7:00AM

SEGMENT 1: FOSTERING CURIOSITY AND A GREATER PASSION FOR LEARNING EARLY ON 9:23

Synopsis: Most parents know that reading is vital to a child or teen's development and learning. But reading isn't everything. To fully understand many topics, experiences and encounters help to fully engrain what's being taught. We speak with an education expert and clinical psychologist this week about how to bring more curiosity, creativity and critical thinking to learning. Compliancy Issues Covered: Child Development, Parenting, Mental Health, Education, Technology, Psychology, Communication.

SEGMENT 2: THE INTERESTING LEGACIES OF PAST U.S. PRESIDENTS 10:17

Synopsis: Ahead of Presidents Day on Monday, February 21, we highlight some of our past presidents and their accomplishments and failures. What's a common trait amongst the men who've held this role? Which president championed environmental policy? How have political campaigns changed or stayed similar over the last hundred years? Ronald Gruner, author of *We the Presidents*, joins us this week to answer these questions and more. Compliancy Issues Covered: American History, Literature, Politics, Government, Domestic Policy, Culture, Leadership.

SEGMENT 3 CULTURE CRASH: THIS YEAR'S 'BEST PICTURE' NOMINEES 1:57

Synopsis: From *Belfast* to *King Richard*, we breakdown this year's highly anticipated list of Academy Award 'Best Picture' nominees. The Oscar's will be held on March 27, 2022. Compliancy Issues Covered: Culture, Film

Sunday February 27, 2022 6:30-7:00AM

SEGMENT 1: THE COACHES THAT CHANGED THE GAME 10:15

Synopsis: Millions have heard of 23-time Olympic gold medalist swimmer, Michael Phelps. But how about Bob Bowman? Most likely not. Bowman was Phelps' longtime swimming coach who started working with the young swimmer when he was just 11 years old. He was there every step of the way in Phelps' athletic career, crafting him into the Olympic swimming superstar he is today. It makes you wonder – where would many of the top athletes be today without the coaches who guided, motivated and supported them? Compliancy Issues Covered: Sports, Sports History, Leadership, Career, Culture, Global Affairs

SEGMENT 2: THE LARGER APPEAL OF "HARRY POTTER" 9:22

Synopsis: The *Harry Potter* series is one of the most beloved stories of all time, unlocking a world of wizarding magic, adventure and intrigue to millions of young readers. We discuss how its unconventional storyline and character development can shift thinking and teach real life lessons to young and old readers alike.

Compliancy Issues Covered: Literature, Pop Culture, Education, Equality, Feminism, Child Development

SEGMENT 3: CULTURE CRASH: THE DRAW OF NOSTALGIC MUSIC 2:00

Synopsis: This year's Super Bowl halftime show featuring Eminem, Dr. Dre, Snoop Dogg and Mary J. Blige was an instant hit. It was a blast to the past and reinvigorated that the nostalgic music of our younger years will always hold a special place in our hearts. Compliancy Issues Covered: Culture, Music, Sports

Sunday March 6, 2022 6:30-7:00AM

SEGMENT 1: AN INFLUX OF NEW NEIGHBORS 10:49

Synopsis: Eagles. Sea lions. Black bears. What do all these animals have in common? A surprising number of each of these species are now calling cities home. Countless different species of wildlife were driven out of cities centuries ago, but in recent decades have begun returning in greater numbers and adapting to the human-centric infrastructure. Two wildlife experts join us this week to highlight how we can both coexist in these settings. Compliancy Issues Covered: Environment, Wildlife, Ecology, Urban Development, American History

SEGMENT 2: THE PANG OF REGRET 8:41

Synopsis: Ever wish that you could turn back time and do something differently? Everyone's been there at one point or another. Regret is an all-too-common feeling that's simply part of life, but it's what we learn from our mistakes that matters. Writer Daniel Pink joins us this week to breakdown the intricacies of this emotion and share how people can avoid self-pity and constructively move forward. Compliancy Issues Covered: Psychology, Emotional Wellness, Personal Development, Self-Growth, Mental Health, Career, Communication

SEGMENT 3: CULTURE CRASH: NEVER GETTING TIRED OF THE FILM, "THE PRESTIGE" 2:09

Synopsis: "The Prestige" was released in 2006 and features some of Hollywood's biggest names, including Christian Bale, Hugh Jackman and Michael Caine. We discuss why it's a remarkable movie that never gets old watch after watch. Compliancy Issues Covered: Culture, Film

Sunday March 13, 2022 6:30-7:00AM

SEGMENT 1: A MORE SUPPORTIVE MENTAL HEALTH SYSTEM 9:34

Synopsis: In President Biden's State of the Union speech earlier this month, he addressed the many pitfalls of the current mental health care system. Millions of Americans are falling through the cracks and failing to get the consistent and comprehensive help they need. More so, the isolation of the pandemic has taken a big toll on young people as rates of depression, anxiety and other mental disorders have sharply risen in children and adolescents. What are the key areas that need to be fixed? Why is mental health just as important as physical health? Compliance Issues Covered: Mental Health, Psychology, Public Health, Health Insurance, Health Policy, Technology, Innovation, Science

SEGMENT 2: THE ECONOMIC SQUEEZE OF INFLATION 9:56

Synopsis: Inflation just seems to keep on rising month after month. Between January 2021 and January 2022, prices across the board went up by 7.5 percent. What's next? Economics professor Dr. Christian Vom Lehn joins us to breakdown what's fueling these continued price hikes and how the invasion of Ukraine by Russia may make certain goods and services pricier. Suburban wife and mom Carrie Leonard also joins us this week to share how her family is dealing with inflation and saving money where they can. Compliance Issues Covered: Personal Finance, Consumerism, Economy, Manufacturing, Labor Issues

SEGMENT 3: CULTURE CRASH: GETTING BACK TO THE 90'S 2:10

Synopsis: We travel back in time to the 1990's as author Chuck Klosterman highlights the iconic culture, media and politics of this infamous decade. Complia

Sunday March 20, 2022 6:30-7:00AM

SEGMENT 1: THE EXPANDING LANDFILL IN SPACE 8:43

Synopsis: From weather forecasting to cellular coverage to global imaging, we heavily rely on space satellites in our day to day lives. The growing amount of litter just past Earth's atmosphere threatens these services as well as astronauts living in space. We discuss the serious issue of human-created space debris and what's being done to curb this problem before it reaches catastrophic levels. Compliance Issues Covered: Space, Technology, Waste Management, Science, Environment

SEGMENT 2: PAVING A NEW FUTURE FOR CLASSICAL MUSIC 10:57

Synopsis: Less than 2 percent of all classical musicians are African American. Despite a push for more diversity and inclusion in recent years, the industry largely remains the same in makeup. Two classical music experts join us this week to help us understand the barriers for entry into classical music and how those in the field are helping younger populations gain exposure and greater access to the genre. Compliance Issues Covered: Music, Diversity, Career, Arts, Equity, Literature, Education, Nonprofit Organization

SEGMENT 3: CULTURE CRASH: THE DARKER "BATMAN" 1:57

Synopsis: "The Batman" starring Robert Pattinson has dominated box office charts the last couple of weeks. We discuss if the new take on the classic franchise is worth the hype. Compliance Issues Covered: Culture, Film

Sunday March 27, 2022 6:30-7:00AM

SEGMENT 1: CARING FOR AN AGING POPULATION 9:33

Synopsis: More than 54 million Americans ages 65 or older are living in the U.S. today. This accounts for almost 17 percent of the total population. This number is only set to rise over the next two decades as millions more baby boomers transition into this next phase of life. As this population further ages, many will require care. So often we talk about the healthcare system and the patients themselves, but what about the caregivers who provide these services? In many cases, this role falls on family members shoulders, and for this group, it can be all too easy to quickly lose sight of personal health, wellness and relationships. We discuss the ups and downs of caregiving in a world that can feel isolating and hard to navigate. Compliance Issues Covered: Senior Care, Aging, Healthcare, Relationships, Health

SEGMENT 2: WHEN THE GUILTY ARE MARKED AS INNOCENT 9:58

Synopsis: Why do we believe one person but believe another is lying? This week, author Sarah Weinman joins us as we discuss the story of one American man in the 1950's who was able to dupe millions and get released from prison. Compliance Issues Covered: Crime, History, Criminal Justice, Law, Psychology, Media

SEGMENT 3: CULTURE CRASH: "HEAT WAVES": A SONG THAT SEEMS TO NEVER GO OUT OF STYLE 2:07

Synopsis: The song, "Heat Waves" by the British indie pop rock band, Glass Animals continues to be a hit track almost two years after its release. We discuss its continued popularity and what else is worth a listen from Glass Animals. Compliance Issues Covered: Culture, Music

*Viewpoints is produced by MediaTracks. Guest information for each of the above segments can be found at [www.viewpointsonline.net](http://www.viewpointsonline.net).*

***American Radio Journal*** is a half hour weekly program exposing listeners to points of view not covered in depth, or in many cases not covered at all, by major media outlets. Emphasis is on the political debate about public policies that affect the lives of every American. Topics covered this quarter include:

Sunday January 2, 2022 7:30-8:00AM

Lowman Henry talks with Peter Wood author of the new book *Wrath: America Enraged*; Scott Parkinson from the Club for Growth has the *Real Story* on key Congressional elections in 2022; Eric Boehm from *Reason* Magazine talks with Eric Riedle of the Manhattan Institute about the impact of rising interest rates on the national debt; And, Colin Hanna from Let Freedom Ring, USA has an *American Radio Journal* commentary on peace in 2022.

Sunday January 9, 2022 7:30-8:00AM

Lowman Henry talks with John C. Scott of the Pew Charitable Trusts about automatic IRA programs; Scott Parkinson from the Club for Growth has the *Real Story* on the 2022 Congressional agenda; Eric Boehm from *Reason* magazine reports people are moving from COVID restrictive states to less restrictive states; And, Jonathan Williams from the American Legislative Exchange Council has an *American Radio Journal* commentary on a big tax cut for the rich.

Sunday January 16, 2022 7:30-8:00AM

Lowman Henry talks with Keith Naughton of Silent Majority Strategies about Joe Biden's Russia challenge; Scott Parkinson from the Club for Growth has the *Real Story* on the so-called voting rights bill; Eric Boehm and Joe Lancaster of *Reason* magazine debunk Sen. Elizabeth Warren's claim grocery stores are the cause of inflation; And, Colin Hanna from Let Freedom Ring USA has an *American Radio Journal* commentary on President Biden's divisive "voting rights" speech.

Sunday January 23, 2022 7:30-8:00AM

Lowman Henry talks with Michael Farren from the Mercatus Center at George Mason University about the latest jobs numbers and the state of the U.S. economy; Scott Parkinson from the Club for Growth has the *Real Story* on the Democrats' failed effort to end the Senate filibuster; Eric Boehm of *Reason* magazine looks at the Biden Administration's plan to distribute free masks; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on conscientious objections to mask mandates.

Sunday January 30, 2022 7:30-8:00AM

Lowman Henry talks with David Beckwith from the Mercatus Center at George Mason University about Federal Reserve plans to raise interest rates; Scott Parkinson from the Club for Growth has the *Real Story* on filling the U.S. Supreme Court vacancy; Eric Boehm of *Reason* magazine finds out how far private sector labor union membership has dropped from Chris Edwards of the Cato Institute; And, Jonathan Williams from the American Legislative Exchange Council has an *American Radio Journal* commentary on people continuing to leave high tax states.

Sunday February 6, 2022 7:30-8:00AM

Lowman Henry talks with Olivia Enos of the Heritage Foundation about holding China accountable during the Winter Olympics; Scott Parkinson from the Club for Growth has the *Real Story* on the latest federal budget delay; Eric Boehm of *Reason* magazine reports the national debt has hit a new milestone; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on "Mansion Marxists."

Sunday February 13, 2022 7:30-8:00AM

Lowman Henry talks with Timothy Head of the Faith & Freedom Coalition about President Biden's low job approval numbers; Scott Parkinson from the Club for Growth has the *Real Story* on the skyrocketing inflation rate; Eric Boehm of *Reason* magazine discusses state budget surpluses with Josh Goodman of the Pew Charitable Trusts; And, Colin Hanna from Let Freedom Ring, USA has an *American Radio Journal* commentary on what Republicans are for.

Sunday February 20, 2022 7:30-8:00AM

Lowman Henry talks with Ambassador Terry Miller from the Heritage Foundation about the new *Index of Economic Freedom*; Scott Parkinson from the Club for Growth has the *Real Story* on Congressional redistricting; Eric Boehm of *Reason* magazine explores a possible federal gas tax holiday; And, Jonathan Williams from the American Legislative Exchange Council has an *American Radio Journal* commentary on making components of the Tax Cuts & Jobs Act permanent.

Sunday February 27, 2022 7:30-8:00AM

Lowman Henry talks with Christine McDaniel from the Mercatus Center at George Mason University about the impact of economic sanctions on Russia; Scott Parkinson from the Club for Growth has the *Real Story* on the political impact of the Russian invasion of Ukraine; Eric Boehm of *Reason* magazine reports on Americans moving on from the COVID-19 pandemic; And, Colin Hanna from Let Freedom Ring, USA has an *American Radio Journal* commentary on "useful idiots."

Sunday March 6, 2022 7:30-8:00AM

Lowman Henry talks with William Luther of the Bitcoin Policy Institute about the role of cryptocurrency in the Russian invasion of Ukraine; Scott Parkinson from the Club for Growth has the *Real Story* on the State of the Union Address; Eric Boehm of *Reason* magazine discusses the power of the Environmental Protection Agency with Mario Lewis from the Competitive Enterprise Institute; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on universities that forced students to get a COVID-19 vaccine.

Sunday March 13, 2022 7:30-8:00AM

Lowman Henry talks with Amir Handjani from the Quincy Institute for Responsible Statecraft about the U.S. ban on importing Russian oil; Scott Parkinson from the Club for Growth has the *Real Story* on a massive omnibus spending bill being approved by congress; Eric Boehm of *Reason* magazine talks with Philip Rossetti of the R Street Institute about how the Russian oil ban preserves American foreign policy integrity; And Jonathan Williams from the American Legislative Exchange Council (ALEC) has an *American Radio Journal* commentary on pro-taxpayer reforms enacted in Iowa.

Sunday March 20, 2022 7:30-8:00AM

Lowman Henry gets an overview of gubernatorial races around the country from John Gizzi of *Newsmax*; Scott Parkinson has the *Real Story* on key U.S. Senate races; Eric Boehm of *Reason* magazine explains why Putin isn't responsible for runaway inflation; And, Colin Hanna of Let Freedom Ring, USA has an *American Radio Journal* commentary on giving Ukraine the weapons they need to defend themselves.

Sunday March 27, 2022 7:30-8:00AM

Lowman Henry talks with Thomas Hoenig from the Mercatus Center at George Mason University about the impact of Federal Reserve interest rate hikes; Scott Parkinson has the *Real Story* on the confirmation process for a new U.S. Supreme Court Justice; Eric Boehm of *Reason* magazine gets details on a change in Prevailing Wage calculations from Daniel Boschof the American Action Forum; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on why Putin didn't invade neighboring countries during the Trump Presidency.

*American Radio Journal* is produced by The Lincoln Institute of Public Opinion Research. Additional information can be found at [www.americanradiojournal.com](http://www.americanradiojournal.com)
