

**KNAM-AM**  
Grand Junction, CO  
Issues/Programs List  
Second Quarter 2022  
July 1, 2022

**KNAM**  
Quarterly Issues / Programs List

**KNAM** provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the previous calendar quarter were:

- **Public Health:** Multiple issues including COVID-19, vaccines and boosters, baby formula shortage, flu, avian flu, product recalls and monkey pox being dealt with by the health department. A Community Health Needs Assessment spanning years 2019 – 2021 is completed minus effects of COVID in Mesa County. A specific pandemic report released the first week in April.
- **Transportation:** Issues with traffic volume on I-70 through the mountains, and several projects underway to try and address them. Construction continuing in Glenwood Canyon after last year's mudslide damage.
- **Education:** In Mesa County, School District 51 is working with CMU and the Mesa County DA's Office on a diversion program for at-risk youth. The Lighthouse Project is unique to the area and has been in operation since the beginning of the year.
- **Technology:** Colorado has a GoCode competition every year sponsored by the Secretary of State's Office and its Business Intelligence Center. Teams compete to build code for accessing available government data. Teams from Grand Junction took home 2<sup>nd</sup> and 3<sup>rd</sup> place prizes.
- **Drought:** Western Colorado's drought continues. The National Weather Service says much of the state is in severe to extreme drought. Because it's been ongoing for several years, it is not expected to ease any time soon.

**Section 1  
LOCAL PROGRAMMING**

Section 1 lists regularly-scheduled and special programs that represent the station's issue-responsive programming, proving the most significant treatment of the issues listed above. Insight is a half-hour program airing Sunday mornings at 6:35 AM.
