

# List of Issues for Q4 2007

## KIKU-TV

### Honolulu, Hawaii

In accordance with 47 CFR 73.3526(e)(11)(i) of the Federal Communications Commission's rules<sup>1</sup>, the station has prepared this report to identify the programs that have provided the station's most significant treatment of community issues during the preceding three month period.

#### Section I: Issues

The station has identified the following as significant issues facing our community this quarter:

1. Aging Population – Hawaii's senior population is increasing dramatically and the elderly are especially vulnerable. Providing education about the resources available to them is important.
2. Healthy Hawaii Initiatives – Childhood obesity, aging population, diabetes, high blood pressure, and heart disease are common in Hawaii. Promoting healthy lifestyles is important.
3. Stop Smoking Initiatives – Cigarettes are a leading cause of cancer and heart disease. Efforts are needed to encourage people to stop smoking, and prevent people from starting to smoke.
4. Pedestrian/Driving Safety – DUI impairs driving and puts other drivers and pedestrians in danger.
5. Economy – Hawaii has one of the highest costs of living in the country. Residents struggle with high housing, gas, and foods costs, and reduced government services.

---
