

Community Issues and Responsive Programs
2nd Quarter 1999
April 1-June 30, 1999

In an ongoing effort to serve the public interest, KJAC-TV offers a variety of programming responsive to the viewing audience. There follows a listing of some of the significant issues responded to by station KJAC-TV, Port Arthur, Texas along with the most significant programming treatment of those issues for the period April 1 through June 30, 1999. This list is by no means exhaustive. The order in which the issues appear does not reflect any priority of significance.

Issue: Crime (C)
Program Title: News 4 Texas at 6
Air Times: 6:00 p.m.-6:30 p.m., Monday-Friday

Viewer concern in our area regarding the problem of crime prevention continues as a focus for KJAC-TV's programming.

Issue	Date	Length	Brief Narrative
C	04/15/99	:30	A feature story covering the use of half-way houses in this area as a way of rehabilitating violent offenders and ways the residents living around half-way houses can protect themselves.
C	04/16/99	:45	A feature story on the pending possible release of a violent offender, what this means to the public at large and why the convict's family still feels he is a menace to society.
C	04/18/99	:60	A breaking story regarding a jail break to alert viewers of the escaped convicts, along with advice on what a viewer should do if they encounter one of these felons.
C	04/19/99	:60	A follow-up report on the recent jailbreak in Newton, along with reminders of what viewers should do if they encounter the violent offender.
C	04/19/99	1:45	A feature story on a program that goes to local high schools to show teens the dangers of drinking and driving.
C	04/21/99	2:00	Local police ask for viewer's help in solving a recent homicide.
C	04/21/99	:30	A feature story on the Orange County Sheriff's Department new sub station and the ways the sub station will enable them to fight crime more efficiently.
C	04/21/99	1:55	A Millennial Mark presentation showing how hi-tech will make it harder for the bad guys to find a target in the future.
C	04/22/99	2:30	A feature story on the rash of bomb threats that are occurring in the area after the violence of the Columbine High shootings, measures that local police and school officials are taking to protect students and what this means to the children attending the school (such as a longer school year to make up for days missed due to threats).
C	04/22/99	:30	A special report alerting viewers that the Port Arthur Police Department may be calling their home this week to take a random poll. This PAPD is trying to get feedback to have an idea about what they need to change to better serve the citizens.
C	04/27/99	:30	A special report detailing the possible approval of the James Byrd, Jr. Hate Crimes Act. This bill would increase the criminal penalties for hate crimes and is a result of the dragging death of James Byrd, Jr. in a local town.
C	04/27/99	:30	Orange county police asked for help in solving a recent homicide.
C	05/03/99	1:50	A feature report on where personal protection is heading in the high-tech age. Police departments will soon be able to tract people through the use of satellites, so personal protection will be just a click away.
C	05/05/99	1:45	After a recent child disappearance, NBC-4 gives tips to parents and students about what students should do to stay safe after school.
C	05/11/99	:60	A feature report on the overcrowding in the Jefferson County Juvenile Detention Center and what is being done to alleviate the situation along with community concerns that offenders are getting off "light" to ease overcrowding.
C	05/12/99	:35	A feature story on the tougher standard for drunken driving. Governor George W. Bush says he'll sign legislation to lower the

Issue	Date	Length	Brief Narrative
			legal blood alcohol limit in Texas from .01 to .08 percent. This opens up the door for law enforcement to get people off the streets even more and quicker before DWI wrecks occur.
C	05/12/99	:40	A special report on state lawmakers trying to change the way a prisoner's stay is paid for and will save taxpayers money. Currently taxpayers pay for the jail stay, but if passed, this new bill would force offenders to pay \$25 per day in jail.
C	05/28/99	1:45	A feature story to alert local residents to the possibility that a serial killer is in the area. Authorities believe Rafael Resendez-Ramirez may be in the area. The report gave a physical description, announced that he considered armed and dangerous and told viewers where to call should viewers see the suspect.
C	05/28/99	:30	A feature story on what to look and listen for when someone calls on the phone to solicit donations, as well as tips on what information a legitimate caller would not need.
C	06/01/99	:30	Beaumont police asked for help in finding the perpetrator who recently robbed a local fast food franchise.
C	06/04/99	:30	Beaumont police asked for help solving a recent missing person's case.
C	06/04/99	:30	Port Arthur police asked for help finding the man who is believed to have embezzled funds from a local charity organization.
C	06/08/99	:45	A feature story on the new plane purchased by the Jefferson County Sheriff's Department to transport prisoners and an explanation of how this plane will actually save taxpayers money in the long run over having to transport prisoners by car.
C	06/08/99	:30	Beaumont police asked for help in solving a recent missing person's report.
C	06/09/99	1:45	A feature report on the Beaumont Police Department's using the latest technology to help prosecute criminals.
C	06/11/99	:30	A Crimestopper's from Port Arthur police asking for help in solving a recent murder.
C	06/14/99	:45	A feature story on a new program set up by the Beaumont Police Department called "Beyond the Badge," designed to educate Beaumont residents about local law enforcement.
C	06/18/99	2:45	A feature story on changes that were recently made to federal laws governing the sale of handguns, restrictions on gun sales at gun-shows, and a 24-hour time limit for the government to complete background checks on potential buyers.
C	06/25/99	:30	A Crimestoppers report by Nederland Police asking for help in apprehending a car thief working in their city.
C	06/29/99	:30	A feature story on the ordinance that the Port Arthur City Council is considering adopting. The ordinance would increase Lieutenant positions by two and decrease the number of beat cops by two. This is at a time when the city is already short on patrol officers.
C	5/21/99	:30	Port Neches Police asked for help in identifying the perpetrator who stole a large barbeque pit from the local Lion's Club.

Issue: Economy (EC)
Program Title: News 4 Texas at 6
Air Times: 6:00 p.m.-6:30 p.m., Monday-Friday

In times of economic uncertainty, KJAC-TV telecasts a variety of programs dealing with the economic situation, from those impacting on the local level to those with worldwide significance.

Issue	Date	Length	Brief Narrative
EC	04/15/99	:30	A feature story on the expansion at the local Huntsman refinery and what this expansion could mean for permanent jobs in the area.
EC	05/05/99	1:50	A look at how online retailers are impacting local shopping malls and what those malls are doing to try to keep the business in the area.
EC	05/06/99	2:00	A look at the booming local economy and what is driving this economic engine.
EC	05/11/99	:30	A feature story on another bank merger in the area and how this will affect Southeast Texans.
EC	05/18/99	2:15	Many local residents were angry when they opened their recent property appraisals, but this report explained why the appraisals rose and that this is one result of our booming economy.
EC	06/17/99	2:30	A feature report on the new 50 million dollar entertainment complex coming to this area and what it will mean to the local economy.
EC	06/17/99	:30	A feature story on the ground breaking for a new national restaurant chain and what this addition will mean to our economy.
EC	06/17/99	:30	In more good news for the local economy, this special report announced plans by the local Goodyear plant to locate a new plant next to the one currently in this area and what this expansion will mean to our economy.
EC	06/30/99	:30	A special report on the Federal Reserve Board's decision to raise interest rates for the first time in four years and what this means to the average consumer.

April 1-June 30, 1999

Issue: Education (ED)
Program Title: News 4 Texas at 6
Air Times: 6:00 p.m.-6:30 p.m., Monday-Friday

Many viewers, as well as community leaders, feel upgrading the state's educational system is vital in this era of increased computer sophistication and technological advancement. Thus, education issues remain a focus of our telecasting.

Issue	Date	Length	Brief Narrative
ED	04/20/99	1:45	A feature story on the school board's approval of a new school in Newton and what the new building will mean for area students.
ED	04/20/99	30	A feature story on why a judge is forcing the Beaumont Independent School District to restructure its Pastors-in-Schools program and how the judge and school superintendent differ on whether the program is a violation of the separation of church and state.
ED	04/20/99	:30	A feature story on an innovative new method to teach children what it is like to learn to live in space without ever leaving the earth and how other teachers can copy the method.
ED	04/21/99	1:45	A feature story on the ways Beaumont ISD educators are helping students cope with the very real fear they are facing after the massacre at Columbine High School in Colombine, CO.
ED	04/26/99	:40	A feature story on the heightened awareness of classroom security spreading across the area after last week's rampage at Columbine High School.
ED	04/26/99	:35	A feature story on Entergy's contribution to the power of learning and how Lamar University will use the endowment.
ED	04/28/99	1:25	In an effort to stop the current rash of bomb threats in schools, this feature story showed the very real consequences for teens making these threats and the criminal charges that will be imposed on these "children."
ED	04/28/99	:30	A special report detailing the special precautions that educators in Orange County are taking to ensure student and faculty safety during this time of bomb threats following the massacre in Littleton, CO.
ED	04/29/99	2:15	A feature story on what is being done to stop the chain of bogus bomb threats at local schools in Southeast Texas.
ED	05/03/99	1:45	A feature story on why school officials chose the cancel classes for a day due to recent bomb threats. News 4 Texas showed what's being done to make schools in the Port Arthur ISD safer and what happens each time a bomb threat occurs.
ED	05/05/99	:60	A look at the Port Arthur ISD's racial unity conference sponsored by the district and the Institute for the Healing of Racism. This educational effort gave middle school students a forum to talk about racial problems at their schools and hopefully, gave them something to reflect on.
ED	05/05/99	:30	A feature story explaining how area volunteers can help local elementary school students through a program named H.O.S.T. or Helping One Student at a Time.
ED	05/10/99	1:45	A look into what the cost of higher education may be in the next millennium and the very real possibilities of getting some of this schooling online, as a college in Denver is already doing.
ED	05/19/99	:60	A feature story showing how Beaumont Independent School District's reading teachers are working toward having all students reading on their grade level by the end of third grade.
ED	05/24/99	:60	A feature story on how a local Mayor is getting children to read through a summer reading program.
ED	06/04/99	:30	A feature story on what is being done in area schools to help children whose first language is not English.
ED	06/08/99	:30	A feature story on Governor Bush's decision to raise teachers' pay in an effort to keep good teachers in the profession.
ED	06/08/99	:30	A look into the bill Governor Bush signed that will strengthen the state's high school graduation test and to limit social

2nd Quarter 1999
April 1-June 30, 1999

Issue: Environment (EN)
Program Title: News 4 Texas at 6
Air Times: 6:00 p.m.-6:30 p.m., Monday-Friday

In an area where industry creates great amounts of toxic waste, when oil spills are becoming more common and where our landfills are rapidly being used up, the problem of caring for our environment is of great interest to KJAC-TV viewers.

Issue	Date	Length	Brief Narrative
EN	04/15/99	:60	A feature story on a burn warning issued by the Beaumont Fire Department to warn viewers about impending dangers due to high winds and no rain in the area.
EN	04/16/99	:30	A special report on a local refinery's pledge to reduce pollution under a new voluntary program. The report discussed the areas in which they will reduce emissions and what this means for our local air pollution.
EN	04/16/99	:30	A feature report on the Junior Water Rights Bill that is now being considered by a House Committee after passing the Texas Senate, focusing on what local residents who do not want to share their water with other Texas cities during droughts can do to defeat the bill.
EN	04/21/99	:45	A follow-up story on the group of residents who traveled to Austin to help protect the water rights of Southeast Texans and what fellow viewers can do to help.
EN	04/22/99	:35	A feature story on the Earth Day Festivities at a local school and the ways they are learning to protect the earth.
EN	05/05/99	:60	A special report explaining what Ozone Action Days is and tips on keeping emissions at a minimum on these days.
EN	05/11/99	:45	A feature story on what is being done to control the mosquito problem that area residents are now facing.
EN	05/14/99	::60	A feature report on the local environment, why Texas is on top of the Environmental Protection Agency's list of toxic producers and what this will mean for upcoming Ozone Action Days.
EN	05/17/99	:45	A feature story on what will happen if the Environmental Protection Agency decides to change Jefferson County's designation to "serious" from "moderate" and what this could mean in getting permits and approval for construction of roads, highways and other developments in our area.
EN	06/01/99	:45	A special report on the beginning of a 30-day burn ban that is in effect in Jefferson County and how they hope this ban will prevent any out of control fire.
EN	06/08/99	:30	A special look at what viewers can do to rid their homes and yard of fleas during this heavier than normal "flea season."
EN	06/09/99	:45	A feature story on the problems with aggressive killer bees brought on the recent dry weather and how these bees can be spotted.
EN	06/09/99	:30	A special report on why a burn ban remains in effect for Jefferson County until the end of June.
EN	06/21/99	:35	An update of the reconstruction of Highway 87 in South Jefferson County. Jefferson County Commissioners have hired a company to conduct an environmental impact study of the area between Port Arthur and Galveston before recommendations are made concerning the building of the highway.
EN	06/25/99	:30	A special report on what happened when lightning struck the pipeline of a local refinery and causing the line to catch on fire and releasing a small amount of crude on the ground.
EN	06/30/99	:30	A special report regarding the lifting of a recent burn ban by the county.
EN	5/24/99	:45	A feature story on why Southeast Texas is not meeting nationally set ozone standards, how this affects health in the area and what the Texas Natural Resource Conservation Commission is doing to improve air quality in the area. The story also notified residents as to what days are designated as Ozone Action Days and how these days can help reduce or eliminate pollution.

Issue: Healthcare (H)
Program Title: News 4 Texas at 6
Air Times: 6:00 p.m.-6:30 p.m., Monday-Friday

KJAC-TV chose to present a variety of health issues that are of continuing importance to our viewers. These issues cover areas of health care from infants through adults.

Issue	Date	Length	Brief Narrative
H	04/19/99	:30	A product recall warning telling local viewers on the recall of 100,000 cans of Slim Fast as it was contaminated with cleaning liquid.
H	04/21/99	:40	A feature story on National Infant Immunization Week telling viewers where they can go to get free shots and at what age infants should be immunized.
H	04/22/99	:60	A feature story explaining why the serotonin levels in a woman's chemistry may be the key to unlocking the mystery of Pre-Menstrual Syndrome.
H	04/26/99	:60	Due to the large number of people beginning to rely on herbs to heal their illnesses, this special report focused on why certain types of herbs should not be taken before surgery.
H	04/27/99	1:45	A feature story on the newest advancements in cancer research and treatments that are available at M.D. Anderson Cancer Center in Houston.
H	05/06/99	:30	A feature story on the closing of a local hospital, what it will mean to area residents and what some folks are trying to do to prevent the closing.
H	05/18/99	:45	A look at a local program that helps women prevent breast disease by getting information about early detection out and also offering free mammograms to those who qualify.
H	05/19/99	2:25	A feature story on the state of healthcare in the United States. Unfortunately, many uninsured Americans wait until they are extremely ill before seeking medical attention and then they go to the local emergency room. This report looked at the possibilities of having all Americans on insurance, or if not at least for local hospital to open "Urgent Care" facilities.
H	05/25/99	1:40	A feature story on new equipment purchased by the Red Cross to help teach CPR and gave information on how local residents can take those classes.
H	06/01/99	:45	A follow-up report on the closing of a local hospital, but also the possible reopening of the hospital by summer's end under a new owner.
H	06/04/99	2:45	A special report on the upcoming Children's Miracle Network Telethon and in what manner the funds are put to use for ill children in this area.
H	06/10/99	2:00	A special report looking at how long leftovers can last in the refrigerator without spoiling and causing botulism.
H	06/21/99	:45	A feature story on an astounding new student that claims women with silicone breast implants are no more likely than anyone else to develop serious illnesses.
H	06/21/99	1:55	A special Millennial Mark presentation showing how painless a doctor's visit will be in the future as doctors begin using light to diagnose problems rather than needles.
H	06/23/99	1:55	A feature story on new technologies that could cut the death rate from prostate cancer in half by the year 2010 or 2015.
H	06/29/99	1:45	A special report focusing on how to protect oneself from the deadly heat and extremely high temperatures this area has been recently facing.
