

*Climate Connections*  
**Programming Summary for December 25 – January 5, 2023**

<b>File Name</b>	<b>Air Date</b>	<b>Title</b>
<b>CX231225</b>	<b>Mon., 12/25</b>	<b>O Christmas tree: After the holidays, trees help restore wetlands in New Orleans:</b> Old Christmas trees protect marsh grasses planted along the shore, and the branches capture sediment and slow erosion.
<b>CX231226</b>	<b>Tue., 12/26</b>	<b>Electric buses could help clean up the air in Vegas:</b> The biggest contributors to the city’s air pollution are cars, trucks, and buses.
<b>CX231227</b>	<b>Wed., 12/27</b>	<b>The time to build a disaster kit is now:</b> Gather water, medicine, and food before a weather emergency strikes.
<b>CX231228</b>	<b>Thu., 12/28</b>	<b>Will our buildings be ready for the climate of the future?</b> If architects and engineers don’t design with climate change in mind, their projects may not perform well over time.
<b>CX231229</b>	<b>Fri., 12/29</b>	<b>Northern Minnesota couple stays warm with help from heat pumps:</b> New, advanced heat pumps can provide heating even in cold climates.
<b>CX240101</b>	<b>Mon., 1/1</b>	<b>Free rain barrel program helps Duluth residents get involved in flood prevention:</b> Climate change is making rain storms more intense and increasing flood risk in the Great Lakes region.
<b>CX240102</b>	<b>Tue., 1/2</b>	<b>Amphibians are in trouble:</b> They’re especially vulnerable to climate change because they’re coldblooded.
<b>CX240103</b>	<b>Wed., 1/3</b>	<b>The ‘Climate Action Handbook’ is a guide to protecting the climate:</b> This new book can help you improve your habits at home and champion climate solutions in your community.
<b>CX240104</b>	<b>Thu., 1/4</b>	<b>Climate change is hurting kids’ mental health, report finds:</b> They’re vulnerable even if they haven’t directly experienced a disaster.
<b>CX240105</b>	<b>Fri., 1/5</b>	<b>Farmer’s plants grow year-round in geothermal greenhouse in upstate New York:</b> The system needs only a little energy to run.

*Climate Connections*  
**Programming Summary for January 8 – January 19, 2023**

<b>File Name</b>	<b>Air Date</b>	<b>Title</b>
<b>CX240108</b>	<b>Mon., 1/8</b>	<b>How warming winters are hurting outdoor fun in Minnesota:</b> Skating, ice fishing, and skiing could all see consequences from rising temperatures.
<b>CX240109</b>	<b>Tue., 1/9</b>	<b>How climate change is affecting air travel:</b> One form of severe turbulence has increased by more than 50% over the north Atlantic during the past 40 years.
<b>CX240110</b>	<b>Wed., 1/10</b>	<b>Climate change could cost Montana's economy millions:</b> Warmer temperatures could hurt fishing, skiing, and other outdoor pastimes.
<b>CX240111</b>	<b>Thu., 1/11</b>	<b>Only 2% of all the electricians in the United States are women:</b> Tonya Hicks, who runs an electrical contracting company in Mississippi, says the clean energy transition offers a good chance for women to join the industry.
<b>CX240112</b>	<b>Fri., 1/12</b>	<b>Pedro the penguin teaches kids about disaster safety:</b> As extreme weather becomes more common, this printable game prepares families for emergencies.
<b>CX240115</b>	<b>Mon., 1/15</b>	<b>All-electric skyscraper nears completion in Brooklyn:</b> The 44-story building houses more than 400 apartments, a gym, a yoga studio, and a rooftop pool.
<b>CX240116</b>	<b>Tue., 1/16</b>	<b>To craft enticing vegan entrees, focus on flavor, chef says:</b> A meatless and dairy-free cafe at the University of North Texas is serving up dishes like crispy eggplant Parmesan and spring pea tofu.
<b>CX240117</b>	<b>Wed., 1/17</b>	<b>Could your community do this? Workshop participants trade tips on saving energy:</b> A Minneapolis-based nonprofit hosts workshops where participants learn from each other about how to stay warm in winter and keep the heating bill down.
<b>CX240118</b>	<b>Thu., 1/18</b>	<b>Report cards grade med and nursing schools on their response to climate change:</b> Climate change poses major threats to people's health.
<b>CX240119</b>	<b>Fri., 1/19</b>	<b>How cutting back on beef helps the planet:</b> Producing beef causes eight to 10 times more carbon pollution per serving than chicken.
