

## WCUW Quarterly Issues Report Second Quarter 2020

Show Name	Air Date	Time	Duration	Subject	Issue
Democracy Now	4/8/2020	1-2 PM	60 min	World News	Costs of War: After 9/11 Attacks, U.S. Wars Displaced at Least 37 Million People Around the World: As the United States marks 19 years since the September 11 terrorist attacks that killed nearly 3,000 people, a new report finds at least 37 million people in eight countries have been displaced since the start of the so-called global war on terrorism since 2001. The Costs of War Project at Brown University also found more than 800,000 people have been killed since U.S. forces began fighting in Afghanistan, Iraq, Syria, Pakistan and Yemen, at a cost of \$6.4 trillion to U.S. taxpayers. "The U.S. has played a disproportionate role in waging war, in launching war and in perpetuating war over the last 19 years," says report co-author David Vine, a professor of anthropology at American University.
Democracy Now	5/21/2020	1-2 PM	60 min	World News	Seattle & Portland Activists: Protest Federal and City Police Crackdowns & Keep Focus on BLM Agenda: As nationwide protests against systemic racism and police violence stretch into their second month, President Trump has sent a team of federal agents to Seattle, following a controversial deployment of federal forces in Portland, Oregon. "We don't know exactly what the federal officers are doing. What we do know is we are in a situation where local police are welcoming those federal agents into our city," says Seattle community organizer Nikkita Oliver, co-executive director of Creative Justice. We also speak with Pastor E.D. Mondainé, president of the Portland, Oregon, branch of the NAACP.
Democracy Now	6/23/2020	1-2 PM	60 min	World News	Trump vs. Masks: Attacks on CDC, Doctors & Scientists Undermine a "Pillar of Pandemic Control": As the official United States death toll from COVID-19 approaches 200,000 people, we speak with infectious disease expert Dr. Monica Gandhi, who says President Trump's refusal to promote face masks has made the pandemic much worse. "Masks are a pillar of pandemic control. They are incredibly important," says Dr. Gandhi, a professor of medicine at the University of California, San Francisco, as well as a division head at San Francisco General Hospital. "There is no country in the world right now that has been fighting masks like this, especially at the presidential level. If we could have started mask wearing, consistent mask wearing, at the beginning, we would have averted deaths and cases."
