KNOV-CD Class A Eligibility Certifications 2010-2012

Certification of Continuing Eligibility for Class A Status

In accordance with FCC Rules 73.3526(e)(17) and 73.6001(b), I hereby certify that for the period from January 1, 2010, to March 31, 2010, Class A TV Station KNOV-CA is on the air 24 hours per day. I further certify that the station aired at least an average of three hours per week of locally-produced programming, consisting of the following programs:

~~KNOV CD 41, New Orleans Television, is the Official Visitor Information Television Station for the New Orleans Convention & Visitors Bureau; therefore, hyper-local. On average, less than 5% of our content comes from outside sources. New Orleans Television locally produces virtually 95% of its editorial and commercial content, therefore a complete list of locally produced content in any Quarter would require many, many pages. Our ever-changing hourly current Local News program, alone, satisfies the three hour per week local content requirement.~~

<u>Program Title</u>	<u>Days of the Week</u>	<u>Time of Day</u>	<u>Duration</u>

Certification of Continuing Eligibility for Class A Status

In accordance with FCC Rules 73.3526(e)(17) and 73.6001(b), I hereby certify that for the period from July 1, 2010, to September 30, 2010, Class A TV Station KNOV-CA is on the air 24 hours per day. I further certify that the station aired at least an average of three hours per week of locally-produced programming, consisting of the following programs:

~~KNOV CD 41, New Orleans Television, is the Official Visitor Information Television Station for the New Orleans Convention & Visitors Bureau; therefore, hyper-local. On average, less than 5% of our content comes from outside sources. New Orleans Television locally produces virtually 95% of its editorial and commercial content; therefore a complete list of locally produced content in any Quarter would require many, many pages. Our ever-changing hourly current Local News program, alone, satisfies the three hour per week local content requirement.~~

WPFN-CA Class A Eligibility Certifications 2010-2012

Certification of Continuing Eligibility for Class A Status

In accordance with FCC Rules 73.3526(e)(17) and 73.6001(b), I hereby certify that for the period from January 1, 2010 to March 31, 2010, Class A TV Station WPFN is on the air 24 hours per day. I further certify that the station aired at least an average of three hours per week of locally-produced programming, consisting of the following programs:

~~WPFN, Beach TV, Panama City Beach, is the Official Visitor Information Television Station for the Panama City Beach, therefore, hyper-local. On average, less than 5% of our content comes from outside sources. Beach TV locally produces virtually 95% of its editorial and commercial content, therefore a complete list of locally produced content in any Quarter would require many, many pages. Our ever-changing hourly current Local News program, alone, satisfies the three-hour per week local content~~
