2/29/2024	DC	Education America- Why Handwriting is Better for Memory and Learning	Rec 2/29/24 AIR 3/23/24	N/A	N/A	Abigail and Rebecca talked about what happens when the world gets too reliant on technology. In order to play it safe, we should write stuff down instead of type it, basically play it old school instead of rely on machines or technology. Rebecca mentioned a recent psych study that showed through the test subjects that brain activity and functionality is far stronger in those that do things manually, compared to those that rely on tech for things such as spelling, typing, or now even reading. Both Abigail and Rebecca agreed that people that write everything and rely on older school methods tend to remain more organized both mentally and physically. Abigail referenced to a book that explained why writing vs typing puts writing in the stronger mentality group, and those that only rely on technology such as typing, your using less of your brain, which causes you to not to retain information as well.Rebecca brought to light that since the growth of technology over the years has started to hit crazy high tech levels, they have started removing important curriculum from schools such as writing, due to the invention of writing. She also brought up the removal of classes or curriculum from schools that teach kids how to spell because now we have spell check built in to the devices we type on.	Education

3/17/2024	DC	World of Aviation	1000-1100	Curt Brown - Professional Aviator	N/A	Al Malmberg visited with Curt Brown, who flew six shuttle missions with NASA. Al and Carl spoke about Carl's illustrious career in the U.S. Air Force flying A-10's and F-16's. After serving his country he flew for many years with Sun Country Airlines Curt's time in the Air Force Academy, and what motivated him to get into aviation. Curt explains his time Flying the A-10 Fighter Jet, and what gave it the nickname "Warthog". Curt explains how a warthog is an animal that is very aggressive and very ugly. Much like the A-10, "Very ugly plane, with a very aggressive attitude". Curt also explained what learning how to fly this plane was like, as they didnt have simulators when this plane was introduced.Curt then explained to AL what the gun systems were like on the plane, how the weapons are deployed, and the way the barrels are made. Curt then explained the difference between the A-10 and the F-16. Curt described this difference by comparing it to the difference between a 4 wheel drive truck to a corvette. Curt then explained the comfort and convenience of the cockpit of the F-16 compared to the A-10. Curt then explains his journey into becoming a Suttle Pilot for Nasa. Curt and Al discuss what its like to go through specific levels of "G's" and how they affect your body. Curt explained what it was like to re-enter the atmosphere from orbiting the earth as a pilot of a space shuttle.	Aviation

3/17/2024	DC	NARN - Brad Carlson	1300-1400	Jim Abeler - Minnesota State Senator (R-Anoka)		Dan from Inver Grove Heights to discuss the fact that school violence could be cut down in many easier ways but that legislation doesnt seem to see it that way. Dan raised a great question: "why can we not single out the violent and problematic children in the education system, and separate them from the good kids who really want to learn the curriculum. Dan made it clear as well that the kids would be identified as problematic, based strictly on their actions, and would have nothing to do with race, home life, or gender.	Brad was joined by Minnesota State Senator Jim Abeler (R-Anoka). Sen. Abeler will be on to discuss recent legislation to provide clarification for School Resource Officers who were not present in schools over the past year-plus. Senator Abeler goes over how sometimes people want to try to fix "Problems" that are not entirely problems. Senator Abeler goes on to explain why its important to have SRO's in schools. Senator mentioned that the rise in school violence, whether student vs. student, student vs. teacher, or student vs. school faculty in general. Senator Abeler told us that across MN, School Resource Officer's (SRO'S) have been almost entirely pulled out of schools. Brad also spoke about DFL efforts to enact "gun control". Brad mentioned that the news has been released that the shooter that committed the heinous and homicidal acts of shooting and killing three Burnsville MN first responders, and injuring one, had illegally obtained his firearms that he used through a straw purchase made by his girlfriend. The shooter was lawfully prohibited from owning or being even near a firearm, and the shooter's girlfriend, of whom was one of the reasons for the domestic dispute call that ended in tragedy, is undergoing legal trial for many counts of injustice. Brad mentions some of those charges included straw purchasing and conspiracy. Another topic Brad covered was a task force to address mental health issues due to climate change. Brad elaborated on how there may be some confusion with how "climate change" is affecting mental health, and raised the question is the mentality altering climate change from chemicals in the air or is it more from all of these apocalyptic predictions on the mainstream media causing mass anxiety. 03/17/24	DC	NARN - Brad Carlson	1400-1500	N/A		During the second hour Brad discussed more on his closing topic from hour one covering how "Climate Change" is affecting mental health. Brad brought up the current legislature involving Uber & Lyft ceasing operations in Minneapolis as of May 1. Brad discussed that the reasoning to why they are pulling out from the cities is because the cities want to make it so that the Uber/Lyft drivers make equal pay to those that work in the cities, however the problem would arise that if they raise mileage rates it will have a chain reaction, higher mileage rates will turn to higher ride fees, which will turn to less riders, considering less people will be able to afford it. So the rideshare companies are pulling out of picking up riders in the city. You can get a ride TO the cities, but NOT FROM . Brad brought up when Biden repeatedly asking for help remembering dates during his discussion on the HAMAS attacks. Brad spoke about some of the big changes to the roster of the Minnesota Vikings Football Team, and asks listeners to call in with their opinion on us losing Kirk Cousins. Katelynn explained that she was inspired to become a pilot after being a flight attendant, and getting chances to step into the cockpit of the flights she was attending on. Al asked how common it was for people to decide they want to be pilots. Katelynn explains that through her flight attendant experience she met plenty of co workers who thought about it but it was kind of a thought that remained on the fence. Some people that she met, as Katelynn explained, wish that they would have went back and tried to take the steps to become a pilot. Al spoke wit Micah about what its like to become a flight dispatcher and what his inspirations were to get into the more executive side of aviation.	Aviation			
3/24/2024	DC	NARN - Brad Carlson	1300-1400	1330-Dr Phillip Magness	Bob from Shoreview called to comment on the "Bloodbath" commentaries.	Brad discussed how Trump Derangement Syndrome has gone off the charts, so much so that progs and their media lapdogs aren't even trying to hide it anymore. Brad also spoke on how the people in politics can be hypocritical and show large amounts of disconnect with the people they govern. Brad brought up that Trump encouraged a group of people to try to overthrow the government. Brad also entailed that there could be some rioting if Trump is or isnt elected. Brad pointed out the medias overuse of the term "Bloodbath".Brad brought up the point that people dont like to be deieved, and the government that is supposed to be for the people, but has proven to be very decietful. Brad also stated that the same goes for the media.at 1:30 PM CDT Brad was joined by Dr Phillip Magness to discuss President Joe Biden's insane Federal budget proposal. Brad explains how its unfair to have to deal with the burden of all of these tax prices but yet billionaires only have to pay 8.2 percent. Dr Magness mentioned that Biden has a plan to start a 25 percent "Billionaires Tax". Dr Magness talks about capitol gains and explains the many different variations of gains, such as sales of real estate property, stocks, bonds, etc., and how they relate to taxes. 3/24/2024	DC	NARN - Brad Carlson	1400-1500	N/A		Brad went over how Democrats' continue hostility towards civil liberties. Brad touched back to the last episode and mentioned the departure of uber and lyft from the twin cities, being due to a bill passed that raised mileage rates for the ride share companies, ultimately ending up in the ridshare companies having to pull out of operating in the cities. Brad played a cut from senator Julia Coleman, who spoke on the issue of the burnsville tragedy, involving the death of three first responders. Senator Coleman went on to explain her biggest fear being the spouse of an ex firefighter, and the daughter of an active duty Peace Officer, and describes her letter that she wrote to the wife of one of the fallen first respnders, telling the spouse of the first responder that she (Senator Coleman) is so apologetic that she (First Responders wife) had to live her biggest fear. 3/24/2024	DC	Victory Hour (Pre Rec)	REC: 03/24/24 15:45 AIR's 03/31/24 1600	Congresswoman Michelle Fischbach		Andrew Discussed some of the issues in the congressional department. Andrew spoke with Congressman Fischbach about a situation where a state trooper was doing his job, and doing it the way he was trained, and is now being prosecuted by Hennepin County. Andrew also spoke on how the George Floyd situation caused an epedemic of violence, and that it makes a bad stand on law enforcement officers and all of what they truly stand for. Andrew speaks about his recent trip to Israel, and explains how it was good to see the people of israel seeming optimistic despite all of the extremely violent and heinous acts that they are all going through. Andrew talked about how we need good global leaders who can clearly see the difference between good and evil, and that there are too many people in power positions who do not have that clarity. Andrew explained that due to them not having that clear difference in their mind between good and evil causes leaders to make poor decisions that lead to a bigger hole being dug, or that makes those leaders look bad in the aspect of refusing assistance or to bat an eye.
