Occupations, organizations, interests, and titles:

Communications, Virginia Department of Agriculture and Consumer Services, Customer Division

What are the most important needs and problems facing your community? What are the major needs and problems facing your community as they concern your group or organization?

The loss of farm land because of residential and commercial development in Virginia is becoming a crisis for the agriculture industry. If farmers make a good living, being supported by people buying local, then they will not be forced to sell their land. The impact of natural disasters and the climate continues to create issues with cost/supply and demand.

General Practitioner

What are the most important needs and problems facing your community? What are the major needs and problems facing your community as they concern your group or organization?

People need to take advantage of their health plan annual wellness exams and have regular physicals. Women and men's health also differs greatly, especially when they age. Children should also see a doctor and be educated about health from a young age. Making a new resolution to lose weight or get healthy is important, but too many people jump into routines without consulting a doctor first, which can be dangerous.
