Dear Dan:

As I was returning to my office from an appointment this afternoon and listening to your Country Challenge Program, I thought that I should take this moment to write you and thank you for the many things that you do personally and professionally to help make Lawrence County a better place in which to live.

Your strong voice on WLX Radio has been a constant for a number of years. Clearly, you are the preeminent Country Music DJ in South Central Tennessee, in my mind in the entire Southeastern part of the United States.

Your knowledge of genre, your smooth presentation, and your warmth with your audience all contribute to making your time on air much sought after and listened to.

In addition to that, your contributions to your community certainly do not go unnoticed. Your long time dedication to scouting has had a dramatic influence on the lives of young people throughout our community. You have been active in your church, you have responded whenever called upon for civic activities, and are one of the primary reasons why we are proud to say that in Lawrence County our people are our most important natural resource.

Given the opportunity to come into the homes of so many Middle Tennesseans on a daily basis, you have honored that opportunity and have made your presence in our homes and in our automobiles warm, pleasant, and comforting. In these days of many concerns for personal and even national security, in the Southern vernacular that ain't all bad.
