

## Q1 2020 KNCE Community Issues Reporting

Below is a list of some of the significant issues responded to by KNCE 93.5 Taos, New Mexico, along with the most significant programming treatment of those issues for Q3 2019 – the period **1/1/2020 – 3/31/2020**.

Obviously, during this time the COVID-19 pandemic and resulting stay-at-home mandates began. KNCE has shifted to a skeleton crew so as to follow public health orders and not endanger members of the public or our DJs. Thus, you will see that the primary community interest programming was hosted by Howie Roemer, Rita O’Connell, and Jerry Schwartz beginning in mid-March.

In addition to programming such as the below, KNCE provides local weather reports at the top of every hour, reads local, regional, and national news headlines during drive time, and is a participating station in the Emergency Alert System.

This list is by no means exhaustive. The order in which the issues appear does not reflect any priority or other significance.
