Conditions:	

This registration is effective upon completion of the described antenna structure and notification to the Commission. **YOU MUST NOTIFY THE COMMISSION WITHIN 24 HOURS OF COMPLETION OF CONSTRUCTION OR CANCELLATION OF YOUR PROJECT, please file FCC Form 854.** To file electronically, connect to the antenna structure registration system by pointing your web browser to <http://wireless.fcc.gov/antenna>. Electronic filing is recommended. You may also file manually by submitting a paper copy of FCC Form 854. Use purpose code "NT" for notification of completion of construction; use purpose code "CA" to cancel your registration.

The Antenna Structure Registration is not an authorization to construct radio facilities or transmit radio signals. It is necessary that all radio equipment on this structure be covered by a valid FCC license or construction permit.

You must immediately provide a copy of this Registration to all tenant licensees and permittees sited on the structure described on this Registration (although not required, you may want to use Certified Mail to obtain proof of receipt), and display your Registration Number at the site. See reverse for important information about the Commission's Antenna Structure Registration rules.

Neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934, as amended. See 47 U.S.C. Section 310(d). This license is subject in terms to the right of use or control conferred by Section 706 of the Communications Act of 1934, as amended. See 47 U.S.C. Section 606.

DECLARATION OF ANDREW FURLONG

I, ANDREW FURLONG, this 11th day of October 2007, hereby declare as follows:

1. I am the Engineering Manager for the Broward Education Communications Network ("BECON"), The department of the School Board of Broward County, Florida that oversees the operation of WPPB-TV and its related facilities.
2. In that capacity, I oversaw the application, licensing and construction of microwave stations WQEK353 and WQEK356 and therefore I am familiar with issues relating to their construction and operation.
3. Copies of licenses for both stations were received from our consultant John Theimer in late February of 2006.
4. While we were unaware of a specific completion deadline, construction of the microwave facilities was promptly commenced and completed, and stations WQEK353 and WQEK356 were placed into service on December 15, 2006. The stations have been operating as an integral component of WPPB-TV operations as of that date.
5. Because the licenses recited no post construction certification requirement, we wrongfully assumed that we were authorized to operate such facilities without further notice to the Commission until the license expiration date of February 1, 2013.
6. Upon learning of the mistake, we took prompt action to seek reconsideration, and as a step toward avoiding future oversights of this nature, authorized outside counsel to track all future filing dates related to our ancillary microwave facilities, a task that had formerly been maintained internally.

I hereby certify, under the penalty of perjury, that the foregoing statements and those contained in each reconsideration request are true, correct and accurate to the best of my knowledge, information and belief.

Re: Grant of Petition for Reconsideration
 FRN: 0009267774

The license(s) or license component(s) listed below were granted with a construction deadline for the system, location, or frequency. Our records indicated, however, that we did not receive the Required Notification of Construction or a Request for an Extension of Time for the license(s) or license component(s) in a timely manner. As a result, the Commission's Universal Licensing System (ULS) placed the license(s) or license component(s) in "Termination Pending" status and a Weekly Termination Pending Public Notice was issued on September 26, 2007 listing the license(s) or license component(s) in termination pending status.

On October 12, 2007, we received a petition for reconsideration demonstrating that the license(s) or license component(s) listed below were timely constructed. Accordingly, pursuant to Sections 4(i) and 405 of the Communications Act, as amended, 47 U.S.C. §§ 154(i), 405, and Sections 0.331 and 1.106 of the Commission's rules, 47 C.F.R. §§ 0.331, 1.106, we grant the petition filed by The School Board of Broward County Florida on October 12, 2007. By grant of this petition, the "Termination Pending" status for the license(s) or license component(s) listed below will be removed and returned to "Active" status and the associated construction notification dates will be updated in ULS.
