Section I. Issues

The stations have identified the following topics as significant issues facing our community in this quarter:

- A. Economy:** Home ownership in Yakima County continues to outpace the national average. The cost of purchasing a home has [increased by 17% over the past](#) year yet the median income is less than [\\$49,000 a year](#). The inflated costs of homes are hurting our generation's capacity to become home owners and discusses what factors are creating such inflation.
- B. Education:** Classroom diversity rates in the Yakima School district is at 80% "minority" among a reported 15,000+ enrolled students. In order to prevent these students from becoming challenged with education inequities, the YSD has created an initiative to make at minimum half of all graduating students to be both biliterate and bilingual by 2026. Blindness to incorporating diversity initiatives like these will create pockets of education inequities.
- C. Inflation:** The rising rates of inflation post-covid has reached stressful levels across the state of Washington. It is becoming more difficult for many families in Yakima County to keep up with the cost of groceries, utilities, and gasoline, let alone discretionary income. How can parents can find local government funding resources to support their children during critical developmental years?
- D. Law Enforcement:** Since the brutal death of George Floyd by Minneapolis police officers, local law enforcement departments in cities across Central Washington have been reviewing and updating their policing policies. For example, in the [Yakima Police Department oath of office](#), it states that they all must strive to "serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice." Policy revisions and increased hiring rates of women in law enforcement have led to some progress in policing.

Synopsis: YouTube was created by three friends in 2005 and, shortly after, was sold to Google in 2006 for 1.65 billion dollars. Since then, it's become the largest video-sharing platform in the world (with a quarter of the world's population on the site) and continues to thrive with revenue exceeding 28 billion dollars in 2021. We discuss some of the platform's shortcomings and where it's headed next.

Host: Marty Peterson**Producer:** Amirah Zaveri

Guests: Mark Bergen, journalist, Bloomberg, Businessweek, author of Like, Comment, Subscribe: Inside YouTube's Chaotic Rise to World Domination.

Compliance issues: Social Media, Technology, Consumerism, Career, Media, Business
