

EDUCATIONAL MEDIA FOUNDATION

March 5, 2018

This memo is to note that KLUW (FIN # 85971) in E. Wenatchee, WA experienced delays in complying with the March 1, 2018 deadline for the Online Public Inspection File. This delay was due to a glitch in the FCC's database that did not have the proper FRN associated with KLUW, which is owned and operated by Educational Media Foundation. As a result, there was no access to the online public file site.

As of today, Monday, March 05, 2018, EMF has access to the online public file for KLUW and has uploaded the required documents. The file is now on and certified.
