SWEETHEART SWINDLE

"20/20" takes viewers inside an all-time classic con, right out of a Hollywood script – a game of deceit and double dealing starring a mild-mannered millionaire who went looking for love in all the wrong places. Ralph Raines, a quiet and socially awkward heir to a \$15 million fortune built by his father, was a simple man living alone on his family's tree farm in Oregon. Ralph had little use for money; what he really wanted was a family – a loving wife, a child of his own.

Among his hobbies -- an interest in the occult. So he thought it was good fortune when a psychic reader named Rachel Lee came to town. Over time, Ralph will reveal everything about his desperate desire for companionship... and his family's money. That was the beginning of an intricate, decade-long scam hatched by Rachel Lee. Before the feds could bust the scam wide open, there would be millions spent on expensive homes and cars, first-class trips around the world, and the mysterious child who Ralph believed was his son.

- America's foster care system can be a lifeline for approximately 400,000 kids who need a place to call home. But sometimes the people who volunteer to take these kids in do it for the wrong reasons. What will happen when diners at a restaurant witness a foster mom treating her foster son differently from her biological daughter? Clearly the mom is in it just for the money.

- What happens when a young white woman with an urban style is told by a sales person at a clothing store that she should not try to dress the part of a black woman? How will other customers react?
- Recently a video went viral, showing a father pushing his six year old son down a 12 foot skateboard ramp. In this "What Would You Do?" scenario, a father is pushing his young son to go down a ramp, even though the boy is uncomfortable. The boy pleads with his dad, and tells him that he is just not ready - but the father will not take no for an answer. How will bystanders react?
- A mother and son are having a conversation at a toy store – she had promised him one toy, but now she can't afford it. The mom apologizes and tells her son that times are hard, and says she will try to get it for him another time. What will other customers do?
- An unhygienic ice cream store employee touches and (and even tastes!) your ice cream, right in front of you. The worker is coughing and sneezing, using dirty utensils and even dropping items on the ground, and still tries to serve them. How will customers react?

- At a nail salon, our actor faces rude behavior from a worker because she has vitiligo, a non-contagious condition that causes the skin to lose pigment. The nail tech refuses to touch the woman for fear that she could "catch" the disease. How will witnesses react? Chantelle Winnie, a model with vitiligo, joins us on set to witness and participate in this scenario.
- A group of three teenage boys are at a restaurant when two of them pull out bottles of an over-the-counter cough syrup, pushing the third boy to chug a large amount to get high (often called "Robotripping.") The third boy is hesitant to try. How will fellow diners react?
- While at a restaurant, a mom and dad announce to their son that they are getting divorced. The parents begin to blame each other, and then blame their child – exactly what experts say not to do. How will witnesses react?

- Thanks in part to Caitlyn Jenner and Laverne Cox, we are hearing more about those who are transgender than we ever have before. From reports and interviews, we have learned that many who are transgender identify being in the "wrong body" at a young age. "What Would You Do?" is at a hair salon where a young girl tells her mother that she wants her hair cut short because she feels like a boy on the inside. How will bystanders react?
- A mom coaches her clearly musically gifted son through playing the guitar, yet nothing the child does is good enough. How will bystanders react?
- A couple plans a romantic dinner at a nice restaurant but they instead encounter an overly flirtatious server. The server is an actor as is the target of the server's affection. What response will this flirting illicit from the target's significant other? "What Would You Do?" hidden cameras will be rolling while we test one of the most basic human instincts – jealousy.
- Three teenage girls come into an ice cream shop together and one is a little bigger than the other two. The thinner two criticize their "friend" and tell her she really should order low-fat frozen yogurt because if she wants to continue hanging out with them she better not get any fatter.
