**Section III. RECRUITMENT INITIATIVES**

In January 2002, WFCR established a program with the University of Massachusetts Amherst and Amherst, Smith, Hampshire and Mount Holyoke Colleges to provide paid internship opportunities for students in the areas of News, Programming and Marketing. Internships are offered for a minimum period of one semester, or during summer break, with the expectation of 8 – 10 hours per week of student time. Each internship period has its own application deadline and a separate pool of applicants is considered for each period.

Information about the internship program is available on WFCR's website and on the websites of all the participating colleges. Interested students are required to fill out an application indicating their area of interest and submit it to the station with a cover letter and resume.

The following is a list of the number of interns we had from 12/1/17 thru 11/30/18.

## **2. Participation in activities for an on behalf of several local high schools and colleges**

Through a series of workshops called Media Lab, we train students from several area high schools in audio journalism and storytelling through sound. The program also includes paid interns from local colleges who serve as mentors for the high school students. We separately conduct similar classes for the students of local colleges. Most of the teaching takes place in our studio facilities, so the students can experience a professional radio station in person and use its production facilities.
