We continue our regular series connecting listeners with Fairfield's City Council meetings, and other special segments, including select County Supervisor sessions, providing up to date information on city business and local issues ranging from new road construction, housing developments, city planning and budget, introducing new personnel, special entertainment and educational events, and much more. (4x weekly)

Educational 2-min segments air weekdays (5X each):

~*EarthDate*, produced by the Bureau of Economic Geology at the University of Texas at Austin, presents fascinating, enriching segments on the natural wonders of the earth.

Two local programs uplift and inform:
