Well Said Show

Hosted by Ira Nash M.D.

Engineered by WRHU Operations Manager John Mullen

Public Affairs Show

June 28, 2022 - Sept 30, 2022

This is a public service program to inform and educate the community about important health and wellness topics.

Schizophrenia

July 12, 2022 Ira Nash

Well Said has invited Dr. John Kane, Co-Director of the Institute of Behavioral Science, Feinstein Institutes for Medical Research and Professor of Psychiatry and Molecular Medicine at the Donald and Barbara Zucker School of Medicine to explain the ins and out of schizophrenia and the research that has improved the prognosis for many.

Multiple Sclerosis

July 18, 2022 Ira Nash

Well Said has invited Dr. Natasha Hameed, an attending physician at Northwell Health to explain just what multiple sclerosis is and provide up to date information about how to recognize and treat it.

Tick Borne Illness

July 25, 2022 Ira Nash

Well Said has invited Dr. Marta Feldmesser, Chief of Medicine in Infectious Disease at Lenox Hill Hospital to explain the symptoms, treatment, and prevention of Lyme disease, and touch on other tick-borne illnesses—including a mysterious allergy that could be triggered by a bite from a tick.

Tick Borne Illness

July 25, 2022 Ira Nash

Well Said has invited Dr. Marta Feldmesser, Chief of Medicine in Infectious Disease at Lenox Hill Hospital to explain the symptoms, treatment, and prevention of Lyme disease, and touch on other tick-borne illnesses—including a mysterious allergy that could be triggered by a bite from a tick.

Lupus

August 2, 2022 Ira Nash

Well Said has invited Dr. Richard Furie, Chief of the Division of Rheumatology at Northwell Health and a Professor at the Zucker SOM to explain the ins and outs of Lupus, a disease that affects 1.5 million Americans and the progress physicians are making in determining its causes and triggers.

Drug Allergies

August 9, 2022 Ira Nash

Well Said has invited Dr. Blanka Kaplan, Allergy and Immunology Specialist and an Assistant Professor at the Zucker SOM to explain how and why our immune systems react to medications and the potential consequences.

Monkeypox

August 16, 2022 Ira Nash

Well Said has invited Dr. Peter Silver, Senior Vice President, Chief Quality Officer, and Associate Chief Medical Officer at Northwell Health and Associate Professor at the Zucker School of Medicine to discuss what Monkeypox is; the severity of this outbreak; and what we can do to slow it down.

COVID Vaccination with Sandra Lindsay

August 29, 2022 Ira Nash

Well Said has invited Sandra Lindsay, a nurse who manages the Critical Care inpatient units at Long Island Jewish Medical Center as well as the first person in the United States to receive the COVID vaccine outside of a clinical trial. Sandra has played a critical role in the battle against COVID-19 and who continues to make major contributions to public health and wellbeing.

Heat-related Illness and Injury

September 13, 2022 Ira Nash

Well Said has invited Dr. Frederick Davis, Associate Chair of Emergency Medicine at LIJ, as well as associate professor of Emergency Medicine at the Zucker SOM and an assistant professor at the Hofstra Northwell School of nursing to talk about the effects exposures to high temperatures and heat waves have on our health.

Family Planning and Women's Health: Clinical Implications of Dobbs v Jackson

September 20, 2022 Ira Nash

Well Said has invited Dr. Sharon Gerber, Director of Complex Family Planning, Northwell Health and Assistant Professor at the Zucker School of Medicine and Cassandra Montgomery, a patient of Dr. Gerber to discuss the profound effects the overturning of Roe v Wade has had not only on reproductive rights but on women's health overall.
