Strategic Decisions: A Framework for the Future

Last fall, MVU published *Strategic Decisions: A Framework for the Future*. This document serves as a strategic compass for Michigan Virtual University. Working with a group of internal and external stakeholders, we prepared this planning tool to help guide important decisions as we strive to better serve Michigan's K-12 community and policymakers as a trusted leader, partner, innovator and capacity builder. The state's health agency has partnered with several public and private organizations in the hopes of bringing up vaccination rates among children and adolescents in Michigan.

The Michigan Department of Health and Human Services announced a campaign Monday dubbed "I Vaccinate," which includes a [website](#), social media and television public service ads encouraging parents with questions about vaccines to seek out more information.

The goal of the program is to raise awareness and eventually bring up vaccination rates among vulnerable populations, said Eden Wells, the chief medical executive of the Department of Health and Human Services.

"Michigan's low immunization rates threaten the health of all residents," she said. "Both here and nationally, we're seeing the unfortunate return of vaccine-preventable diseases because some parents are choosing not to vaccinate based on misinformation."

According to the 2015 National Immunization Survey, Michigan ranks 43rd in the U.S. for children ages 19 to 35 months, and data from the Michigan Care Improvement Registry shows 54 percent of children ages 19 to 35 months and 29 percent of teens aged 13 to 18 are fully up to date on vaccinations.

Officials also cited a series of 2016 chickenpox outbreaks in schools and child care centers in Michigan and a rise in whooping cough cases in Michigan in recent years as another big reason to address vaccinations.

WLAV aired announcements provided by the Michigan Association of Broadcasters and the Michigan Department of Health & Human Services Promoting the Michigan Tobacco Quitline and other services available to help Michigan residents quit smoking.

A total of 175 announcements aired from April 27 to May 31, 2017.

The announcements were worth a total of \$30,625 in station inventory.

MGCB / PROBLEM GAMBLING

Compulsive / Problem Gambling

The Michigan Department of Health and Human Services (MDHHS) maintains a 24-hour toll-free helpline, 1-800-270-7117, to call if you or someone you know has a gambling problem. Trained professionals under contract with MDHHS answer the helpline calls, coordinate the initial consultations with qualified counselors, provide financial assistance information and oversee ongoing treatment of clients when necessary.

You may find additional information at the MDHHS website.

Disassociated Persons List

To help those with gambling problem, the Michigan Gaming Control Board (MGCB), with the assistance of Detroit's commercial casinos, have developed a list of Disassociated Persons, pursuant to Michigan law (MCL 432.225). Participation in the Disassociated Persons program is completely voluntary - no one but the voluntary participant may be added to the list. Persons placed on the List voluntarily pledge to make a lifetime commitment to never visit a Detroit casino.

If You Have a Gambling Problem, You Can Request the Michigan Gaming Control Board to Permanently Ban You From the Licensed Detroit Casinos. Call 1-888-223-3044 for application information or [click here](#).

Don't let drugs ruin your story.

If you're lucky, using drugs may not kill you. But it can kill your opportunities. Your GPA. Your relationships. Your savings account. Your college plans.

The Michigan Department of Health and Human Services is working to educate Michigan teens about the harmful effects and consequences of drug use. It is our hope that Michigan teens and parents understand the dangers associated with substance abuse and the problems that may occur as a result.

Don't let drugs determine your future.
