WILL WE BE READY FOR A COVID VACCINE?

Dur.

A COVID-19 vaccine is on the horizon, but while billions have been spent on its development, little has been done and there are still many unanswered questions. Experts discuss how vaccine distribution might be carried out, how long the steps needed to make it work.

FOOD INSECURITY IN 2020:54

35 million people were food insecure last year, and the dislocations due to COVID-19 have made it much worse now.

the consequences of hunger, the strategies families are using to cope with economic dislocation, and one local effort programs to feed hungry children in need.

Pence.

SEGMENT 2: SEARING PAIN IN THE FACE: TRIGEMINAL NEURALGIA

VIRTUAL CLINICAL TRIALS

the new acceptance of telemedicine as an opportunity during clinical trials. Along with Zoom visits, numerous could provide constant monitoring of health conditions without traveling to see doctors, making control better.

roducer: Reed Pence.

A searing, stabbing pain on one side of the face can be so severe it's sometimes called "the suicide disease,"

diagnosis. Trigeminal neuralgia is often caused by a throbbing artery in contact with nerves at the base of the brain. Tre

though often ultimately successful. Two experts discuss.

MEMORY CARE FARM ANIMALS: HELPFUL MENAGERIES

Nursing homes with a large number of patients with dementia have found that farm animals on-site and even in rooms can be helpful in reducing the need for medications. A therapist and program director at one such nursing home discusses how and why mini horses have found a home, to the benefit of residents.

Time Segment

1:47 SEGMENT 1: SHOULD WE REPORT “BAD PARENTS?”

Synopsis: Just about anyone can report a parent to a child abuse hotline. It’s meant to protect children, but often, parents are reported when no abuse or neglect exists in order to retaliate for a divorce or some other grievance. Some parents are reported for merely letting children play outside or walk to school without an adult in attendance, what was once thought of as normal. Some activists say this robs children of independence. An expert and a woman who went through an unjustified child abuse investigation discuss.

Host & Producer: Reed Pence.

Guests:

- Corey Widen, mother reported to child abuse hotline, Wilmette, IL
- Rachel Rutenberg, Director of Policy, Heartland Alliance

Compliance issues covered: youth at risk; child abuse and neglect; child welfare system; police and justice system; child safety; public safety; family issues

Links for more information:

- <https://www.heartlandalliance.org/research-and-policy/experts>

15:20 SEGMENT 2: NERVE GROWTH FACTORS: HOPE FOR TBI’S, MS, ALS?

Synopsis: Unlike most cells in the human body, the central nervous system cannot repair itself. People who suffer brain or spinal cord injuries, or neurological disorders such as MS and ALS have few alternatives. A neurological researcher describes how he has discovered previously unknown nerve growth factors that could someday allow such injuries and diseases to heal.

Host: Nancy Benson. **Producer:** Reed Pence.

Guests:

- Dr. Benjamin Segal, Chair of Neurology and Director, Neuroscience Research Institute, Ohio State University

Compliance issues covered: health care; public health; disabilities; neurology; research
