Don Shaw  
Director of Operations & Engineering  
Cox Media Group – KIRO  
2807 3<sup>rd</sup> Avenue  
Seattle, WA 98121

May 26, 2019

Dear Don,

The letters announcing the intention of KIRO to begin testing and/or broadcasting on it's new channel were mailed on May 03, 2019 to 495 medical facilities within KIRO's predicted coverage area.

Enclosed is a copy of the Medical Notification Letter, a list of the addresses, and proof of mailing stamped by the US Post Office in Orlando, Florida.

RF Notifications will store the undeliverable letters returned by the USPS until 6 months after Phase 6.1 is complete. If at any point they are required please let us know and we will send them to you ASAP. Please note that the average return rate is generally eight to ten percent and letters are typically returned due to: the facility relocating and forwarding has expired, the name was changed, the facility refused to accept the letter, or the operation merged with, or was acquired by another company.

The returned letters along with the total list of facilities notified and the proof of mailing will be evidence of your sincere attempt and good faith effort to identify and notify health care operations in your coverage area. Please place these documents in your Public File.

In closing, it has been a pleasure to serve you and your station, and I look forward to helping you with any other notification needs as they arise in the future.

Sincerely,

Lisa Sockett  
COO – RF Notifications

## NOTICE OF CHANNEL AND BROADCAST FREQUENCY CHANGE OF KIRO-TV

**THIS LETTER CONCERNS TELEMETRY OPERATION. THE RESPONSIBLE PARTY FOR OVERSEEING AND/OR MAINTAINING CLINICAL OR BIOMEDICAL ENGINEERING EQUIPMENT AT THIS FACILITY MUST RECEIVE THIS LETTER.**

Dear Administrator or Biomedical Engineer,

KIRO-TV has retained RF Notifications, a broadcast TV consultant, to notify you of the impending change of the Station's digital television channel in your area.

We are notifying you of this channel change because patients at your facility may use biomedical telemetry devices that operate in the television broadcast band and may be affected when this change takes place.

As early as September 07, 2019, KIRO may begin testing their new DTV broadcast transmission equipment on UHF channel 23. This testing is in preparation for full time operations on channel 23 to commence no later than October 19, 2019. During this testing phase KIRO's current channel will remain on-air.

Certain biomedical telemetry devices have been allowed to use unoccupied TV channels in their area on a **secondary basis**, according to the rules of the Federal Communications Commission (codified at 47 CFR 15.242 (a)(1)). If interference to or from these devices arises with regard to the TV broadcast service, the devices must cease operation on that channel. It is the responsibility of the medical facility or operator of the device to identify and retune its equipment to an alternative non-interfering channel.

The purpose of this letter is to provide you information and give you reasonable opportunity to resolve any issues. It will be important for you to discuss these changes with your technology supplier, especially if there is a possibility that biomedical devices used in your facility are likely to malfunction when KIRO changes TV channel operations. **If you plan to replace your biomedical equipment, we urge that you purchase equipment designed to operate in the frequencies set aside for medical use.**

The contact information for the broadcast executive in charge of the TV station, along with the commencement date, TV channel and frequency band for each station are listed on the attached page(s). Please contact the individual listed on the attached page who is associated with the specific channel, if you wish for more information or want to report anticipated or actual interference problems.

Kind Regards,

*Lisa Sockett*

Lisa Sockett, COO - RF Notifications

## Relevant Technical Information

This notice is being sent to announce that KIRO-TV will change its DTV broadcast transmission to UHF channel 23 as described below.

In order to prevent interruption in patient care, please review the following pertinent information for the new facilities and compare to your telemetry equipment immediately. This is the only notice you will receive.

### KIRO-TV

Virtual Channel	7	(the channel position on the viewers' TV receiver)
New DTV Channel	23	(the actual broadcast frequency)
Frequency	524-530 MHz	
Earliest Testing date:	09/07/2019	
Scheduled full time operations no later than:	10/19/2019	
Effective Radiated Power:	715 kW	
Antenna Location:	47-37-58.9 N 122-21-23.9 W	
Antenna Height (center of radiation)	Above Ground	176 meters
	Above Mean Sea Level	29709 meters
	Above Average Terrain	257 meters
