Wichita, KS 67203-1205

Dear Tom:

Making a difference for kids makes a difference for the community's future! I have a success story to share with you because I know making a difference in our community matters to you. Child Start positively impacts young children and their families by preparing them for lifelong success.

Priscilla, a staff member, recently shared her story with me and permitted me to share it with you. She said she is one of the lucky ones who began her education in a Head Start program. As the daughter of migrant workers who moved often, the program offered her the opportunity to learn and understand English in addition to her native Spanish. The proof that early education programs work and are important to families and communities is the success of the individual. Priscilla graduated high school, is a sophomore at Wichita State University in the Barton School of Business while working fulltime, and loves learning. Her brother was not able to begin his education in Head Start, did not graduate high school, and still struggles with learning.

Priscilla and her family illustrate the difference excellent early childhood programs make: the skills and education she received at age three and four helped her **move forward in life, in a way that positively impacts her own life and the lives of others**. Priscilla's parents benefited from attending parent meetings and significantly grew in their parenting and social skills. They were able to work their way out of poverty; they broke the inherited chains of field work and are now successful entrepreneurs. Her family continues to break boundaries with every new generation. Not only did Priscilla begin her education in a Head Start program and succeed in school, as a staff member she is using her skills and knowledge to pay it forward to a new generation. What a testimony to the value of early education!

I am convinced that the smartest way to help secure our community's future is by supporting the work of Child Start. Please join me in making a generous contribution to Child Start's annual fund. We need your help to make sure children like Priscilla don't face unfair barriers and are prepared for lifelong success. For more examples of how you can be involved with Child Start, log on to our website at www.childstart.org and check out the enclosed pamphlet for more success stories.

Warm regards,

Teresa Rupp
Executive Director
