PEOPLE'S COURT MONDAY – FRIDAY 1:00PM TO 2:00PM & 12:00AM TO 1:00AM

The honorable Judge Marilyn Milian returns to celebrate a decade of dockets on the courtroom series that launched the entire court show genre. Milian continues to render verdicts and dispense legal insight in the courtroom where justice and reality collide.

"The People's Court," draws on ordinary people who have filed grievances in civil court and have opted to have their cases heard and mediated by Judge Milian. An experienced team of researchers continually canvas courts across the country in search of the most compelling, unique and thought-provoking cases. Running the gamut from disputes between neighbors and family members, to dissatisfied customers suing businesses, Milian's decisions – based on current law – are final and binding. "These cases are never about the money, they're about

principle," Milian proclaims. "The People's Court" has been delivering reality television to viewers for over two decades.

Judge Marilyn Milian brings over 19 years of legal experience to the bench. Milian was appointed to the Miami Circuit Court in 1999 by Governor Jeb Bush, where she served in the Criminal Division. Prior to that, she spent five years in the Miami County Court in the Domestic Violence, Criminal and Civil divisions. She was appointed to the County Court by then-governor, Lawton Chiles. Before serving in the County Court, Milian worked for 10 years as an Assistant State Attorney for the Dade County State Attorney's Office, personally hired by Janet Reno.

Harvey Levin serves as the series' host and legal reporter. In addition to introducing the cases to viewers, Levin literally takes "The People's Court" to the people by polling viewers who watch the cases via monitor. These viewers' spirited comments and debates regarding the cases and Milian's decisions are then incorporated into the show. An attorney and law professor, Levin also examines and explains the legal issues and precedents introduced in the cases.

In-court reporter Curt Chaplin, and court officer Douglas McIntosh, assist Judge Milian in the courtroom. Chaplin interviews litigants after a decision has been rendered in their cases. As court officer, McIntosh helps Milian in maintaining courtroom order, as well as acting as an intermediary between the Judge and the litigants.

The idea of an entertainment district in downtown Prattville is gaining support from some city council members. Some say it would help the city, while others say it would hurt the city's reputation." It's almost opening time at Autauga Creek Crafthouse in downtown Prattville. And owner John Stewart is hopeful that an entertainment district could help not just his business but the city. The idea has recently re-emerged in Prattville. It hasn't been officially brought up by the city council but it is something that's on their radar. And Stewart is hoping people will give it a chance "an entertainment district is not bringing a cooler full of beer and sitting by the creek, it's you have to get it from a downtown establishment, has to be in a clear plastic cup and it's easy to monitor." "i hope and pray that he'll be alright" Raj Sharma, the Owner of this Raceway says the crowd outside of the 24 hours gas station late Sunday night is not uncommon. "it becomes a nuisance. and you know we are right on the exit and traveler they stop by and even our regulars those who live behind the store, if they are coming to the store to get something in the late hours they feel insecure." Sharma says he has been cooperating with Montgomery police as they investigate the shooting.handing over video of the inside of the store.but because of logistics, there is no security footage of the outside. "it's a big big lot.with the parking lot having like 20-25 cameras its a huge thing, so that's why we don't have any cameras outside." He says a security guard was present at the time of the shooting and that he helped the victim until police arrived. The owner, is now considering what else can be done to keep shoppers safe "if it's needed at least we might have a few cameras outside, not a whole lot but maybe 5-6 cameras we might look into it.we might have a few cameras outside" Two men have been sentenced on federal charges in connection with a business break-in. That will help them better serve the community. Governor Ivey announced today Alabama is now the 24th state to join the First responder network. This network will make it far easier for our first responders to do their jobs more efficiently and certainly more safely.' The goal of the First Responders network, or First net, is to provide a communications network available to use by first responders in times of crisis. It was first established by congress after a recommendation from the 9-11 commission "we know on September 11th 2001 412 first responders lost their lives and in some cases it was due to they couldn't get through because the networks were jammed because of the high volumes of traffic" First.Net will give first responders in Alabama priority wireless services during natural disasters or planned events "i can take you back to just a regular auburn football game and can you imagine going there with just the number of people that are there at the stadium and you're trying to get on the telephone and you're getting that busy signal." Montgomery County Sheriff Derrick Cunningham says that in a field where communication is key, First Net will be a big asset to local law enforcement communities ". so when we pick up the telephone and we call , they know that we're going to bump somebody else off the system , so that we're able to communicate back with dispatch because it may be a life or death situation." The montgomery county board of education has approved the sale of Georgia Washington Junior High school to the town of pike road. The board agreed to the sale agreement at a meeting today. 10/11/17	<p>Even though the Montgomery County School Board approved the sale of a school building to the town of Pike Road yesterday. They do have 30 days to back out of the agreement. Now, town leaders are sharing their plans for the school if the agreement stands. The board voted to sell Georgia Washington Middle School to Pike Road for around 11.25 million dollars.Pike Road will get the school and 23 acres of land "this fits perfectly into our plan for growth, it allows us to have another school investment in another town center from the initial two schools." Mayor Gordon Stone says the town would pay for the school over the next 9 years. But he expects student to be in the classrooms as early as next fall "it allows us now a seamless transition from an elementary school, to a middle school, to a high school it means so much, because it helps to take care of our needs for the foreseeable future." One of the most immediate needs for the school system is more space. Enrollment at Pike Road Schools is currently over 1600 and superintendent Dr. Chuck Ledbetter expects it to be close two thousand in the next couple of years "there's space for growth there too, there's more classroom space there then for 600 some of it we might want to do some things with</p>	<p>Crime Prevention Education Public Safety Youth Personal Development Family Values</p>

	<p>and prepare." He says the plan is a huge money saver as opposed to building a school from the ground up. But some changes will have to be made "there will be some things that we want to modify and do differently and we'll make plans to do that moving forward." Ledbetter believes the building will serve as a high school for Pike Road students. And he and Stone say this is a win-win situation for everyone involved "it's a great opportunity for students in the county, it's a great opportunity for students in Pike Road." Pike Road officials also say they plan to preserve the history of the Georgia Washington Middle School. MPS leaders have 30 days from yesterday to back out of the agreement. Holton was indicted on a murder charge in the death of his father, Mike Holton. He was not formally charged in the death of his mother, April Holton. Authorities say the shooting followed a dispute over a party last September. Mike Holton died at the scene. April Holton later died at a hospital. Prosecutors say they won't be able to seek capital murder charges against Holton because the supreme court ruled that minors are not subject to the death penalty. He was 17 at the time of the shooting.</p>	
10/12/17	<p>Montgomery Mayor Todd Strange speaks out about violence in the capital. Following a recent shooting at a gas station. Some believe violent crime is on the rise in Montgomery. But the mayor adamantly says. That is not the case. The perception is crime is up, the reality is, it is not." Montgomery Mayor, Todd Strange, on what many are calling a spike in violent crime in the city. .But after a weekend shooting at a gas station the got lots of attention on social media. District attorney Darryl Bailey spoke out Tuesday with a different opinion, saying "We are under siege right now with this violent crime and that we need to "take our city back". Mayor Strange did not directly address Bailey's comments Thursday morning, but says that the police in Montgomery are not getting enough credit "things that happen in our city happen because of mental health, because of drugs and because of alcohol, homicides are very very unfortunate but there's always a story behind a homicide if you are minding your own business and you are not involved in a lifestyle that on the edges , or in criminality you're going to be perfectly fine 99.9% of the time. The Mayor says there is a need to</p>	<p>Crime Prevention Education Youth Personnel Development Health Issues Legal Resources Public Safety</p>

	<p>hire more police officers, and says that it is within the city's budget to do so. but that the burden to make Montgomery safer should be shared. "You expect us to solve and to prevent crime, we need our citizens we need our parents we need everybody putting their shoulder to the wheel to be able to do this." Montgomery Police Chief Ernest Finley gave a similar response "make us accountable make us build that trust in us and what we do , how we protect and serve the community cause if you don't call and you want to just put everything on the social media as opposed to calling us right then when things are happening we're going to have some issues and concerned we are going to be behind the 8 ball". The mayor says that violent crime is in fact down from last month's numbers and that there has been less violence in the city this year, compared to 2016. And the mayor says - for those who have doubts about the authenticity of those numbers the mayor pointed out that those statistics have to be audited by ALEA. 10/13/17	<p>We are crunching the capital city's crime numbers. Montgomery Mayor Todd Strange spoke out yesterday, referencing statistics that say violent crime in the city has actually decreased. "Are we having incidents of crime? absolutely is it higher or is it lower, we can demonstrate that it is lower." Mayor Strange has maintained that despite perception crime is down in Montgomery. Referencing statistics over the past month That indicate crime in the city is decreasing. "if you take August of this year to September of this year, violent crime was down 2 percent, non violent was down 15 percent, so an overall 14 percent. " When you compare year to year, some reports are up, while others are down. In September of 2016, there were 50 burglary reports, this past September there were 23 - a difference of 27. But aggravated assaults are up by 3. The number of car break-ins are also up there were 9 more this September compared to last year. But burglaries are way down - there were 241 in September of last year, but there were 98 less this past September. Overall - crime was down 11 point 6 percent. The Mayor has commended Montgomery Police for their high solve rate, when crimes do occur. "We're 10 percentage points above what the united states is doing. Montgomery Mayor Todd Strange, weighing in on recent crime statistics that indicate violent crime has decreased in the last 3 months " and 6 of the 9 months we have this year violent crime is less than it was." Overall all crime in the city however, up by just under 2% this year. The half empty glass of water person would say yeah but you still have these murders you still have these shootings you still have these robberies, yes we do because we are a community on the move it is is moving, it is moving from west to east. Mayor Strange believes some of the city's recent initiatives are working to fight crime, such as the gun buy back program and the youth task force.both the mayor and police chief ernest finley agree that increased police presence will play a big role in lowering over all crime in the city "we've established a number of initiatives in the last 3 or 4 months that have put more cops on the dots more police officers in the cars moving in the neighborhood, less people in administration more people in the actual patrol , and we're going to do more than that. "A homicide a robbery a burglary these are the individuals that are really plaguing our community so we really believe in targeting those particular areas that we really get hit hard." A murder investigation is underway after an early morning shooting in Selma. Lt. Tory Neely says the victim was discovered after a patrol officer began pursuing a speeding vehicle that was leaving an area where the officer had heard gunfire. More than 30 shell casings were later collected from the scene. He activated his lights and siren but the vehicle did not stop. At some point the vehicle, the</p>	<p>Crime Prevention Education Public Safety Legal Resources Community Resources & Issues Family Values</p>

	<p>driver lost control of the vehicle and hit a telegram pole and crashed into a yard. Neely says the crash happened on the 300 block of Cahaba Road. He says two people jumped out of the car and one ran away. He says a third person was found shot in the backseat of the car. I can tell you several weapons was found inside the vehicle. We have seen a couple bullet holes in the vehicle. Unknown if they're old or new. The subject that is deceased it appears that he has a gunshot wound to the torso but we have to confirm it with the department of forensic scientists, do an autopsy to determine the cause and manner of death. Neely says the shooting remains under investigation but no arrests have been made. We have new information on the sale of Georgia Washington Middle School. Two Montgomery County School board members who voted for the sale of the school last week to the town of Pike Road are now having second thoughts. As it stands now. Pike Road would pay more than 11 million dollars to Montgomery Public Schools, and have nine years to make payments. But the Montgomery County school board still has time to back out of the deal. Andrew James has more on why the two school board members have changed their minds "do you think this is going to go through? Well if I have my way it won't." Board member Mary Briers is speaking out about the sale of Georgia Washington Middle School to Pike Road, which plans to turn it into its own school. She was one of four yes votes at a board meeting last Tuesday. "I think that it would be ridiculous for us to sell to Pike Road when we have needs of our own students." Briers tells me she didn't initially realize that Pike Road would have nine years to make payments. For that reason she doesn't think the impact on students would be worth it. because they would have to be shifted to other schools "everybody's angry, they don't want to lose their school, and I don't blame them." Board Member Melissa Snowden oversees Georgia Washington's district and has been hearing from parents non-stop since the vote "the only reason I voted yes in that study was for the feasibility study." That study will look at enrollment, capacity and consolidation opportunities across the Montgomery Public School system. The board is expected to make a final decision on the sale after the study is</p>

Financial issues have been no secret.it's one of the reasons for the ongoing state intervention into Montgomery Public Schools. Snowden says decisions and hires by former state superintendent Michael Sentance only hurt the district more. She says this sale could help alleviate some of that financial stress but it could also have lasting impacts across the entire district "if this were to happen, there will be a district wide middle school attendance zone shift, everybody is going to have to shift." Time is ticking for the school board, the decision has to be made by November 9th. In Montgomery, Andrew James, Alabama News Network.</p>	
10/17/17	<p>Law enforcement officials from across the state were in Montgomery today for the Attorney General's Law Enforcement Summit. Organizers say this is a great way for officers to improve their crime fighting tactics. A rare sight in Montgomery Tuesday. Law Enforcement from Montgomery all the way to Huntsville or Mobile all gathered in one place "it's an opportunity for us to be able to translate best practices in the state." Alabama Attorney General Steve Marshall says this is a very special occasion because it brings together the brotherhood of law enforcement and allows them to learn from each other "it's a broad spectrum of issues but one that we think law enforcement will be able to take back with them and use effectively in their communities." Everyone in attendance attended sessions on topics like safely dealing with mental illness, cybercrime fighting, and school safety "we have to be able to grow and change just as those issues that we face change." The ever-changing nature of law enforcement is something Marshall says makes it all the more important for officers to stay ahead of the curve. That means putting a bigger emphasis on social media, something that Capt. Regina Duckett with the Montgomery Police Department is already doing "that's what a lot of these kids are using, they're using snapchat and a lot of children don't understand the dangers when it comes to using social media and sometimes they don't understand some of the things they say can get them in trouble as well." But it's not all bad news</p>	<p>Crime Prevention Education Public Safety Family Values</p>

when it comes to social media. Duckett says it's also being used to help stop crimes before they even happen "it is a tool for us, I'm not going to get specific but it is a tool and it's something that we can monitor that helps us as well." That's the type of information Marshall hopes is shared at the summit. And he says law enforcement will be better because of it. And also at the Law Enforcement Summit, Officers from around the state honored two officers who died while in the line of duty. Officer Thomas Pace of the Florala Police Department, and Deputy Sheriff Levy Pettway of the Lowndes County Sheriff's Office. They were honored for their sacrifice, as well as law enforcement men and women from around nation who have made the ultimate sacrifice to keep their communities safe. Around 25,000 residential fires and more than 300 deaths are caused each year by space

	<p>heaters. Lt. Jason Cupps with Montgomery Fire and Rescue says most of these incidents are preventable. "As long as you're safe with them they work great but its just keeping that safety in mind, keeping children away from them, pets where they wont knock them over, most of them that are sold now have an automatic shut off when they are knocked over, always make sure that you do by them with that feature." Experts say to keep space heaters at least 3 feet away from furniture or other materials that could catch fire like curtains, bedding, carpets or rugs. And the safest place to plug in electric space heaters is directly in to the wall. "this is a big deal as well electricity, with your extension chords." .If you must use an extension chord to power your space heater, make sure its a heavy duty one. "you wanna make sure that they are UL approved you will see the circle with the UL in there," Lt. Cupp is also issuing a warning for those that plan to light up their fire place this year "its definitely recommended to get them cleaned once a year, I know a lot of people may not do that since they don't use them that often but that build up over the years, can catch fire and be a bad situation." The LT. says that while it may sound trivial, its always important to have an escape plan.in case your home does catch fire "develop that with your family and practice it at day and at night and that will help avoid confusion and everyone will know what to do in the event of a real emergency. Lt Cupps says having a working smoke detector is the number one thing that you can do to increase your chance of surviving a house fire.</p>

10/20/17	<p>The Doug Jones for Senate campaign rolled through Linden Friday.Jones met with more than a dozen elected officials and community leaders from Marengo, Hale, Greene and Sumter counties. This was the candidate that we felt was equipped, not only equipped but qualified to go to Washington D-C and speak for us. If you look at other candidates, everybody's trying to satisfy what the president wants, what we can do to support the president, I</p>	<p>Crime Prevention Education Public Safety Volunteerism Legal Resources Family Values</p>

	<p>think Doug is going to be looking at what the people of Alabama want, what is needed for the citizens of Alabama and how we can grow our state. The democratic nominee laid out his platform -- and talked about the issues he says voters really care about. What I call "kitchen table issues" those issues mean a lot to people on a daily basis. Jobs, healthcare is such an important factor in people's lives right now, those issues are resonating. People are looking for common ground. They want somebody they can talk to them, that will listen to them. They don't like divisive figures. They don't want somebody that's just going to create chaos in Washington. They want somebody's going to get something done. Jones says his campaign is picking up steam -- and his message is resonating with voters. I tell them to look at my record. Look at Doug Jones and what he wants to try and accomplish on all the issues that affect them, to try to be somebody that reaches across party aisles to try to have that common, you know that dialogues rather than monologues to find consensus and common ground. It's the only way we can move people forward. The Salvation Army served about 600 turkey dinners in all. Two hundred were delivered in the community and 300 more were boxed up for people to take out. I look at it this way, we're all God's children and any one of us could be in any type of situation. Voters will find answers to those questions at polling locations.</p> <p>"One of the things that we've done to make sure that people know that their vote will count if they choose to write-in a name, is an instruction sheet that will be available at each polling site." But her mom doesn't want avoidance to keep Avery from trick-or-treating every year. That's why she's promoting the Teal Pumpkin Project this Halloween "just lets kids know that this is an all-inclusive place where you can get treats and we give non-food items." It's a simple concept, a teal pumpkin outside of a home signals that treats will be food allergy friendly. Things like bouncy balls, toys or other halloween themed items "when you go to the grocery store get your reeses cups and then get a bag of vampire teeth. It's a small gesture that will help make Avery's Halloween just as special as everyone else's.</p>

	<p>who's considered very dangerous police say a man rented a truck in New Jersey and went on a deadly drive in New York City. Tonight -- eight people are dead and about a dozen others are injured. Authorities say the 29 year old suspect, from Uzbekistan, is in police custody</p> <p>James P. O'Neil/ NYPD Commissioner: "The dead and injured were just going about their days." shortly after 3pm, officials say a man driving a rented home depot truck hopped a curb at west houston street in lower Manhattan. The suspect drove south on the bike path, striking people indiscriminately. The driver ultimately stopped after smashing into a school bus and wrecking his vehicle. James P. O'Neil/ NYPD Commissioner: "After the collision, the driver of the truck, a 29-year-old male, exited the vehicle, brandishing two handguns. A uniformed police officer assigned to the first precinct confronted the subject and shot him in the abdomen." the suspect - brandishing fake firearms - was shot by police. According to the nypd, he was taken into custody and brought to the hospital for treatment. Bill de Blasio/ Mayor, New York City: "Based on the information we have at this moment, this was an act of terror and a particularly cowardly act of terror." first lady melania trump, who is in new york city tuesday for meetings, tweeted a short time ago about the incident saying "my heart breaks for#nyc today. Thoughts & prayers as we monitor the situation." Gov. Andrew Cuomo/ -D- New York: "There's no ongoing threat, there's no evidence of that at this time. So there is no reason to have any undue anxiety. You will see more security forces but that's only because it's an abundance of caution. A worker with the state department of transportation has died. after he and two others were hit by a car in Montgomery. It happened in the 4 thousand block of Atlanta Highway today. Police say the three men were part of a survey crew on the side of the road, when they were hit by a buick LaSabre. 62-year-old Leo Fournier was taken to the hospital, where he later died. The two other workers' injuries were not life-threatening. Police say the driver of the car that hit them was driving the wrong way in the eastbound lanes when the incident happened. The victim was able to get out of the trunk and get help when they stopped at a gas station in Clanton. Police say Wyatt has texted the victim since the incident, saying he wants to see her and the children one last time before he dies. They say Wyatt should be considered armed and dangerous. If you know where Wyatt is tonight. Call Crimestoppers at 215-STOP. It's a problem many alabama counties are dealing with. Deteriorating roads and bridges. Reporter danielle wallace spoke with pike county officials about the issue. Officials tell me each county road is inspected at least once a year. By the county engineer or other assistant engineers. These photos from the pike county road department are from a portion of a collapsed county road. "This type of failure was obviously a surprise to us. We were not aware that there was a severity of this issue." The road collapsed as someone drove over it. Fortunately, no one was hurt. But it is leaving county officials footing the bill due to a lack of funding. "There are certain maintenance responsibilities that we have, that have been deferred over the years due to a lack of resources." the incident is just one of many reasons why they are calling on the legislature for help. "We've tried for years to unsuccessfully so far, to get the legislature to increase that we have." The primary source for county roads and bridges is the state gas tax revenue.</p> <p>"That revenue has been flat for many years. It was last increased in 1992." And out of more than 400-miles of paved roads. Officials estimate 190 miles of pike county roads need resurfacing. Which is why they are counting on state law makers. "It would be up to them to increase the revenue that we have to work on the roads and bridges." pike county engineer russell oliver tells me he's is hoping to repair the portion of the collapsed road for less than 15-thousand dollars.</p>

The shooting happened near the hospital's emergency room entrance. Police say a the victim suffered non-life-threatening injuries. They say the shooting stemmed from an ongoing dispute between two men, and that the victim approached the other man in an aggressive manner. Baptist security confirms the hospital was on lockdown during the incident. 36-year-old Timothy Wyatt was arrested during a traffic stop in Chilton county. He's charged with robbery, kidnapping, domestic violence and possession of a controlled substance. Wyatt was wanted for kidnapping a woman Monday morning. Police say he entered her home, choked her and demanded money before forcing her in the trunk of a car. She was able to escape at a Clanton gas station. Wyatt is being held in the the Chilton County Detention Facility. Studies show one of the most dangerous places for police, state troopers, emergency responders and maintenance personnel is on the side of the road. Montgomery county sherriif derek Cunningham says that's why it's important to remember alabama's move over law. The law requires drivers to safely move over when they see flashing lights on the roadside. And if a driver can't move over, they need to slow down! This reminder comes after 62-year-old Leo Fournier was killed and two others injured after being Hit while working on the Atlanta Highway "i got guys and girls, fathers, grandfathers and daughters and sons that are out here working on the side of the road and i don't want to lose a single one of them, its very important for people to obey that move over law". Police say the driver responsible for the accident is in custody with charges pending. The city of Greenville has taken ownership of L V Stabler Memorial Hospital. "We're excited about a new day and a new hospital." It is multi-million dollar deal that leaders say will ensure growth and stability. 	<p>CEO, L V Stabler Memorial Hospital "We're thrilled that the city council, the mayor, did what they did to ensure Greenville that has a hospital and the surrounding areas." Residents will help fund the purchase through a half a cent sales tax increase. "That generates about \$825,000 a year and that is what's going for the hospital to help turn it around." That turnaround is critical. Like other hospitals. L V Stabler has suffered from financial problems for several years. "We need our people that live in the surrounding areas and in Greenville, we need you to use this hospital because this is not the fix all because the city's with it. We've got to turn this around financially and we will." CG Kimberly Hyde "There are more than 100 health care professionals on staff here at the hospital in Greenville." And more jobs - and services - could be added. The city has started a partnership with UAB Health Systems to operate the hospital. "They have all kinds of education programs that we hope to tap into to bolster the already strong staff we have, but we're always looking for specialists, primary care providers, and other clinical experts. We're very excited about the prospect of bringing those folks on." Montgomery Public Schools Chief Education Officer Dr. Reginald Eggleston approved a new budget yesterday without approval of the board. The budget doesn't include the sale of Georgia Washington Middle School but it does include some big cuts. And parents are speaking out. According to montgomery school officials, the budget includes around 5 million dollars of cuts. That could be as many as 81 positions. So far, officials haven't said what those positions could be. Yesterday, we heard from school board members worried about the impact this will have on the school system. Today we spoke with concerned parents about what they would like to see happen. "I would like for them to have more schools and more teachers, less than taking schools away and taking teachers away because we need to teach our children alot, we need to build our kids up." "I feel like they could just do a lot of fundraising everywhere, there's always something to be done in Montgomery why not take it off of Georgia Washington and start on another project." 	information on a feasibility study concerning the possible sale of Georgia Washington Middle School.	
11/2/17	<p>Parents of students at Georgia Washington Middle School in Montgomery had one last chance to voice their concerns about the potential sale of the school to the town of Pike Road. The second public forum was held tonight in downtown Montgomery. Earlier this month, the School Board approved the sale of the school to Pike Road. The town would pay about 11 million dollars to MPS over the next 9 years. This week, chief education officer. doctor reginald eggleston. approved the budget for montgomery schools. Which did not include the sale of the school. But it did include around 5 million dollars of cuts. Including 81 positions officials say enrollment in montgomery public schools has been declining since 20-14. Losing an average of 585 students a year. Because of that. The amount of money given to MPS from the state education trust fund will decrease by 1-point-2 million dollars this year. And officials say the general fund will have to be reduced by 6 point 3 million dollars within the next two fiscal years. And that consolidating facilities is a way to do that. The board is waiting on the results of an impact review. and will vote tomorrow on the sale of Georgia Washington Middle School. A Wetumpka high school student is in custody after a threat was called into the school today. Police say the student threatened to shoot up the high school. They were able to track the call and arrest the male student a short time later. He's being held in the Elmore county jail. The school was placed on lockdown for 30 minutes during the investigation A homeless shelter in Montgomery is asking for your help to keep their mission going. Friendship Mission shelter helps those who are homeless get back on their feet. and officials there say you can help by simply shopping. The thrift store helps fund 2 homeless shelters for men, women and children. Plus, a soup kitchen that serves around 8,000 meals every month. Middleton says much of their outreach would not be possible without the thrift store's profits, though she says they're having a hard time getting more people through the doors. "we need the donations but we also need people to come in here and shop, its just a huge store its got lots of great stuff, and lots of new things a lot of things for christmas presents. We all are looking for that deal for christmas and I always tel people come here first." Your donation or purchase could help fund more of the shelter's success stories, and keep their mission going "there is nothing more amazing, than to see a mother with her children work the program to the point that when she moves out she moves into her own apartment she's standing on her own feet supporting her children for the first time".</p>	
11/3/17	<p>Selma police are investigating a rash of armed robberies in downtown. And now some residents are concerned about their safety. You can be anywhere and get robbed but it just concerns to me that so much is going on in Selma. A series of armed robberies in downtown Selma -- has residents like Dianne Cooper -- concerned about their safety. I have some pepper spray so if anybody was to come near me I could spray it at them. And then I have this alarm thing, its very loud, and it would scare somebody away if they came up. You never know when it might be my turn, you know and I always think about that, you know. Hope it don't never happen, don't ever come to that but we just got to get out here and just look out for one another. Police say there've been about six armed robberies downtown over a two week period. And all of them have happened within a one mile radius. We are actively working the cases and do want to make an apprehension. We don't want to put too much information out into the media as far as the exact dates and times and places. Neely says always being alert and on guard -- especially when out and about - - could prevent YOU from becoming a victim. It appears the Montgomery Public School Board has had a change of heart. After much public outcry and a recently released feasibility study. Board members today voted NOT to sell Georgia Washington to the town of Pike Road. The Department of Corrections has announced that it plans to hire a project management team to develop a master plan for the construction of new prisons and renovation of existing facilities. The department asked interested companies to submit qualifications for the work. Alabama prisons have come under fire for overcrowding, understaffing and the quality of mental health care. Lawmakers had debated a plan to build four new prisons, but the legislation failed over questions about cost and possible jobs lost. A military judge announced that Bowe Bergdahl will serve no prison time for endangering his comrades by walking off his Afghanistan post. Trump issued his tweet from Air Force One today - calling him a complete disgrace as he embarked on the first leg of his trip to Hawaii and Asia. The president has long been a critic of Bergdahl. During the presidential campaign, Trump called him a traitor who deserved serious punishment. As president donald trump departs for a critical overseas test, he's not holding back his criticism over issues on the home front. Shortly before boarding marine one, he tried to shift the focus from special council robert mueller's russia probe to his political opponents - and even his own justice department. The president was also asked about a march 2016 meeting when, according to court documents, papadoplous - who was in touch with russian officials -pitched a trump/putin sit down. President Donald Trump: I don't remember much about that meeting. It was a very unimportant meeting, took place a long time, don't remember much about it. On his trip, the president will face a series of challenges - including the looming north korea threat. The u.s. will need china's help - but president xi jiniping could demand more favorable trade terms, something president trump has vowed to fight. The president - for now at least - expressed optimism. President Donald Trump: We'll be eliciting the help of a lot of people and countries. We'll see what happens, but I think we're going to have a very successful trip. There's a lot of good will.</p>	
11/6/17	<p>Investigators are still trying to determine a motive for the worst mass shooting in texas history. 26 people were killed and many more injured at a small town church on Sunday. It is a community in mourning after the worst mass shooting in texas history. Sherri Pomeroy / Wife of Pastor Frank Pomeroy: We were very close family. We ate together, laughed together, we cried together and we worshipped together. Now most of our church family is gone. On Sunday, a gunman opened fire at the First Baptist Church in Sutherland Springs. The dead ranging from 17 months to 77 years-old and include the pastor's 14 year-old daughter, Annabelle Pomeroy and eight members of another family. Freeman Martin / Texas Department of Public Safety: One thing everybody wants to know is why did this happen. It's a senseless crime, but we can tell you that there was a domestic situation going on within this family. The shooter -- 26-year-old devin patrick kelley had a history of domestic violence and had reportedly been sending threatening text messages to his mother-in-law, a member of the church's congregation. Kelley was later found dead. Freeman Martin / Texas Department of Public Safety: Investigators found evidence at the scene that indicates the subject may have died from a self-</p>	<p>Crime Prevention Education Family Values Legal Resources Public Safety</p>

Greg Abbott / -R-Texas: Devin Kelley sought to get a license to carry a gun in the state of Texas, but the state of Texas denied him the ability to get a gun. So how was it that he was able to get a gun? It's been one week since an Alabama Department of Transportation Worker was hit and killed while working on the side of Atlanta Highway. Now Friends are opening up about the life and legacy of 62-year-old Leo Fournier. Traffic flows smoothly Monday on Atlanta Highway near Perry Hill Road. A far cry from the scene just one week ago when three ALDOT workers were hit by a wrong-way driver in the Eastbound lanes "leo was the guy who was always jovial, friendly, bigger than life very outgoing." James Cooper remembers Leo Fournier well. They were roommates for three years at Tuskegee University "we considered them to be brilliant in their own right because to do football and be in engineering at the same time was pretty tough." He says Fournier was someone he looked up to, admiring the effect Fournier could have by just walking into a room "he knew how to inspire people with his personality, his attitude, with his just lets get it done type personality those are the kinds of things that you don't prepare for, it's hard you ask yourself why." Frank Lee was a fraternity brother of Fournier. He also grew up with his wife "oh I can just imagine how tragic it has been for her to lose her husband." Now both men are hopeful for some answers for the family's sake as to what exactly happened last Monday. "it's something you don't expect a spouse to go to work in the morning and not come home. He's not in a combat zone so you wouldn't expect that to happen." And they hope their memories and stories will comfort anyone who knew their dear friend Leo "you never get used to it, you just basically take each day at a time and it gets a little better." The other two ALDOT workers who were hit had non-life threatening injuries. Last week Montgomery Police told us the driver of the vehicle was in custody with charges pending. Mcghee is being held on bonds totaling 525-thousand dollars Veterans used to have to take documentation to the drivers license office and wait in long lines. But now, veterans can take the documentation straight to the probate judge's office. The documentation on licenses allows veterans to take advantage of benefits, such as discounts. With this new streamline process a veteran can now add veteran status to their Alabama drivers license by going to their local license office or probate judge's office which ever the case may be locally with their military documentation to accomplish this much faster and with less wait time. The new process went in to effect September 1st. But officials made the announcement in time for veterans day.</p>	
11/7/17	<p>Montgomery Public Schools are facing 5 million dollars in cuts under the new budget. That's according to school officials. So what's the next step? There is a lot of Uncertainty, As to what budget cuts, and downsizing could mean for Montgomery School Systems. "It could go from custodial to principles, teachers, and to the central office administration" Montgomery School board Vice President Lesa Keith, says schools can't afford to lose any teachers right now "we don't have a pool of teachers to go to, that is why we have 53-57- depending on what day it is. permanent substitutes in our Montgomery School system." Parents, also weighing in on what the cuts to faculty and staff would mean for their students. "it's a sad situation, i think the kids deserve better in Montgomery." "first thing comes to my mind is that they should try to work out something kind of alternative to help these teacher keep these jobs because we really need the teachers school board member Melissa Snowden, says the goal is to keep cuts away from the classroom, Though she says consolidating schools could be in the future." "Dr. Richardson let us know that yesterday, that there were going to have to be some school closures, to right size our district.i hope that there is going to be a way that we can do it that doesn't just hit one particular side of town". Right now police are investigating what may have led up to that shooting. No arrests have been made in the case. Governor Kay Ivey is pushing the state's workforce council to help more Alabamians get college degrees. The council was created by former governor Robert Bentley, and works to help state officials and education leaders better tailor the state's educational programs to meet the needs of employers. Ivey says the demands of the state's workforce are going to change soon, requiring more workers to have higher education degrees. The state hopes to have 65 percent of Alabamians to gain some sort of certification or degree by the year 2025. The Boy Scouts of America and the Salvation Army are teaming up to help needy families during the holidays. But they need your help. The cupboard is bare. The food pantry at the Salvation Army in Selma is running low. We help anywhere between 30 to 50 people a month with food and as you can see looking around, our shelves are bare. Area boy scouts are working to full up those shelves -- but they need help to make it happen. They put flyers on mailboxes in neighborhoods around town -- asking people to donate canned goods or non-perishable food items. We ask them to put it in a grocery bag and place it by their mailbox. These scouts get up early in the morning. They pick up all this food. They come in with truck loads of food that they have picked up and then we sort it. Boy Scout officials say the food drive is a service project for the scouts. Plus, it teaches them the importance of giving back to their community. It's part of the scouting advancement and leadership to teach our young men and students about the community and that there's need besides themselves. There is a huge need in this area. We have a high poverty rate. The food that</p>

Donations are also accepted at the Selma Salvation Army headquarters at 21-04 Franklin Street.</p>	
11/8/17	<p>And Pike County officials may be a step closer to a new jail. We've got details on the a feasibility study that's being conducted right now. Voters will soon hit the polls, casting their votes for Alabama's next U.S. senator. Democratic candidate Doug Jones spoke to local clergymen in Montgomery Wednesday morning. He outlines what he says voters care about most "particularly healthcare and education I think those are I think the drivers right now people are concerned about jobs, income and raising the wages but I think health care is the biggest concern right now. Current polls indicate that Jones is trailing republican opponent Roy Moore, though, Jones says he says he's not too concerned with numbers right now "i think about polls the way Nick Saban and Gus Malzahn think about polls there's only one that matters on December 12th." Roy Moore visited with local sheriffs who have pledged their support. Despite a nearly 10 percent lead in current polls, Moore says low voter turnout still remains a concern. "i think you always have to be concerned with low voter turnout in a special election, A special election is just that, it's not the usual, time you vote and there's a lot of apathy among voters these days." Moore says much of the remainder of the campaign will aim to drive home the importance of heading to the polls. "It's very important not only to this state but to the united states we've got people in washington and people across the country watching the results of this election. Pike county officials may be a step closer to a new jail. A feasibility study is now underway to assess the potential project. Pike county's jail was designed for 40-inmates but holds sixty. There is also concern over ongoing structural issues. Officials say they are trying to find a balance between the wants and needs of county officials. "Our job is to find a balance between the two so that</p>	<p>Crime Prevention Education Public Safety Youth Personal Development Family Values</p>

	<p>the commissioners can provide the citizens of Pike County everything afford but also what they can operate going forward, officials say the study should be done sometime in January. Montgomery police are investigating an overnight shooting of a teenage girl. That shooting happened in the 11 hundred block of Avondale Road early this morning. The girl was taken to the hospital with non-life-threatening injuries. Police say she is not cooperating, telling investigators quote: "I ain't no snitch." No arrests have been made in the case. Police say a man is in custody after fleeing from police officers in downtown Montgomery this afternoon. They say the man spotted officers while they were doing a special operation in the area and took off. He then lost control of his vehicle and ran up onto the sidewalk near Dexter Avenue and Hull Street. Police slay a drugs and a weapon were recovered from the vehicle. The suspects name has not yet been released. Two suspects have been arrested after police say an undercover officer caught them in the middle of a robbery Police say 25 year old David Carter and 24 year old Derrick Posey are both behind bars on a million dollars bond each. They say the two suspects were spotted Monday night at a downtown ATM with a third person -- who had his hands in the air. Convenience store owner Aneek Islam was that third person. He says he had just made a deposit at the ATM -- when two men came up and demanded money and a ride. And I was so scared. I was very scared, very scared! Islam says that when suddenly another car pulled up out of nowhere. Then he come out. He said I'm police. I was so happy! I am so happy and I cannot describe, I cannot describe that. Sgt. Michael Kizer noticed a guy, showing actions as if he was being robbed, had both of his hands up. And one of the guys that was with the other guy was in the back seat of the victim's car. 	<p>seconds after he arrived and I was able to detain the second suspect. Hardy says both suspects were taken into custody without incident. He says police started working a robbery detail in the downtown area in response to reports of about a half dozen robberies committed in the area. What we do on these type of details, robbery details, we don't always be in police cars, and on this particular night we wasn't in a police car. I am happy for Selma police. I love them. A longtime Montgomery business owner says signs were stolen right off of the roof of his restaurant. This happened at Country's Barbecue on Atlanta Highway. Tonight, the owner is hoping someone knows who took his signs. Running a business is never easy. "we try to treat our customers fair as well as our employees." That's the motto for Larry Powell at Country's Barbecue. And it's one that's kept his doors open for over three decades. "we've got a following that's been with us for the last 35 years." But this past weekend someone didn't treat him as fairly as he strives to treat his customers. When they took his coca cola signs right off of his roof. "somebody wanted them more than we did, I guess." Powell tells me the signs are vintage and they aren't very cheap or easy to find. He says they're worth at least 500 dollars a piece. But that's not the only thing about this that makes him uncomfortable. "it's the idea that somebody climbed up on the roof of our building and broke the mounting on the signs off and took them." Powell says he has coca cola signs on both the front and the back of his building. Right here you can see on the front his signs are still there, but if you walk over to the back, you can see that these signs, they're gone." "it just burns me up that somebody after being owned the building since 2004 decided that they wanted them worse than I did." Country's Barbecue will continue serving barbecue to their loyal customers. But in the meantime, Powell hopes the person who took the signs has a change of heart. "I hope they'll have the intestinal fortitude to bring them back and if so I will not press charges." Montgomery Police are investigating this incident. Powell says he has security camera footage he's reviewing. He also says he may get even more cameras in the near future.</p>

In all honesty, if you didn't see the arrow you would not know anything was wrong with this dog, it was bouncing around just care free. We had to sedate it to keep him from hurting himself. ARROW was brought in for medical treatment after he was spotted roaming around the county dump Tuesday -- with an arrow sticking out of his head. We X-rayed it to be sure, we didn't know what type of arrow it was shot with and it was shot with a target arrow rather than a hunting arrow so it didn't have the blades on the edge so it was able to be extracted fairly easily. But --- how will the controversy translate at the polls? The Montgomery County Board of Registrars Office was a busy place Monday with voters turning in their last minute registration forms. "NAT - phone" Interest remains high in the U.S. Senate special election between Roy Moore and Doug Jones. "NAT - We are at a tipping point here." Even so, Secretary of State John Merrill says he is lowering his initial prediction for voter turnout on December 12th. "With all of the things that have been introduced and the wavering support for candidates and the national media attention that has really discouraged a lot of people from being interested, I've dropped that projection to around 18 to 20 percent." Merrill's initial expectation was as high as 25 percent of the state's more than 3-point-3 million registered voters. "It could go up if things continue on this plane that we've seen today where it really has not been dominating the national media as much." Merrill, however, does expect a possible surge in write-in votes. "We've had a lot of inquiries about write-in candidates and how does someone write a person's name in, are there any specific qualifications for a write-in candidate to be considered." Voters will find answers to those questions at polling locations. "One of the things that we've done to make sure that people know that their vote will count if they choose to write-in a name, is an instruction sheet that will be available at each polling site." Merrill says there has been no sign of an organized campaign to write in a new candidate's name. "That has not happened at a statewide level." He reminds everyone to exercise their voting right. Any registered voter can cast a ballot in the upcoming election - even those who did not vote in a primary. Flags are flying at half-staff at the courthouse and the county jail in honor of long-time Chief Deputy Randy Pugh. Pugh died Thursday night after suffering a massive heart attack. He's going to be missed, truly loved. He was more than a boss, he was a brother. He just loved the Sheriff's Office. He loved this community. He did a lot of work and people never even knew. Pugh served as Chief Deputy for more than 30 years -- 23 under current sheriff Harris Huffman -- who was too overcome with grief over Pugh's sudden death to do an interview for this story. District Attorney Michael Jackson says Pugh was known as a man who got things done. He was the go-to guy at the sheriff's office. He was second in command. The sheriff really relied on him to help run things. Grantham says Pugh left work Thursday in good spirits -- looking forward to cheering on his beloved Crimson Tide in the Sugar Bowl. He loved Alabama Crimson Tide. You can't find nobody that liked the Tide as much as him and, he was just happy. I tell you, and we talked about death and me and Chief's talked about death before and I promise you now that he's seen heaven and there's no doubt in my mind that's where he's at, he wouldn't come back here. Pugh is survived by his wife Tammy and two adult children. He was 55. Funeral arrangements are as follows. Visitation will be Sunday, December 17th from 5 pm to 7 pm at Lawrence Brown Service Funeral home. Choose Water believes that we can do something big to change the world in a sustainable way, and use the model of connecting one group with one village in need of water to accomplish this task. We will visit a specific African village and tell the story of that village through video and pictures so that the group knows the people they are helping and the depth of their plight.

CENTRAL ALABAMA CRIMESTOPPERS

- Local, nonprofit, community-based program that uses the public, media, and law enforcement to wage war on crime
- Designed to help law enforcement fight crime by gathering information from the public
- CrimeStoppers encourages the public to help them fight crime by offering tipsters anonymity.
- Unlike other reward programs that only give awards after the accused have been convicted, CrimeStoppers offers rewards to the public only upon the arrest and indictment of anyone charged with a serious felony.
- CrimeStoppers also offers rewards for information leading to the recovery of stolen property and illegal narcotics.

HOW DOES IT WORK?

- The media reenacts a criminal offense broadcast on:
 - Television

- Newspaper
 - Radio
- The contact number is supplied at the end of each broadcast, and persons having any information on the broadcast are asked to call the contact number (215-STOP)
- The Montgomery Police monitor the lines, taking in the anonymous calls.
- Once the case has been solved with the help of the caller, the CrimeStoppers Board will weigh the crime and determine the amount of the award. Then, an anonymous exchange is arranged so the caller can remain anonymous.

BUSINESS WATCH PROGRAMS

OBJECTIVES:

- To unite businesses in an effort to network information
- To decrease the crime within an area by increasing the business

COMMUNITY INVOLVEMENT

- To heighten crime prevention awareness
- To create a safer environment for customers and employees through crime prevention practice.
