Occupations, organizations, interests, and titles: Executive Director, Mental Health Free Clinic. We are a non profit 501 c 3. Interests include a passion for working with people who have few options. I also love learning all about Virginia, the history, the wineries, and being so close to the mountains or water. Love it here.

What are the most important needs and problems facing your community? What are the major needs and problems facing your community as they concern your group or organization?

Adequate funding to be open far into the future. FCS has been here for 50 years and I'd love to see it here for at least another 50 years. Our community does not have enough mental health providers for this region. For the people without insurance and very little money (our clients) we need to work on helping get their needs met. We work on this with case management for our patients. Over all though, funding. More people making donations, more people looking at estate planning and possibly considering adding a trust or donation to FCS Clinic helps with the future.

Mental health over all will never be cured. There will always be a need in some fashion. FCS will continue to train graduate and post graduate interns for they are the future of our field.
