

KOTA & KEVN FCC for January through March, 2024

Gray Television Rapid City continued its commitment to covering issues impacting the local community across its platforms KOTA-TV and KEVN-TV.

- Public Safety stories topped our stories once again. In the past 3 months, we've done more than 1,000 stories that fall within this category, including judicial and crime stories, domestic violence prevention tips, and staying safe during cold weather.
- Local government stories included the various city council reporting, but also bills making their way through the state legislature and following our 2 US Senators and lone Representative in Washington, D.C. A number of road closures, as well as other transportation plans were also filed under local government.
- The almost 300 arts stories we did included local book releases, some "restaurant week" highlights, and various pop-up marketplaces.
