-- Ameren is warning customers about scammers misrepresenting themselves and reps for the utility. Recent victims say the identity thieves showed up at their homes posing as Ameren repairmen. They requested personal information as if they were verifying the customer's account, which didn't set off red flags. However, Ameren officials say it should have. The company says it never conducts business that way and doesn't come to a customer's home unless requested. If you do encounter a person claiming to represent Ameren at your door, make sure to ask for ID.
