Fac Id: 2709

Dear Licensee:

This refers to your request dated May 30, 2019, for special temporary authority (STA) to operate at variance. You indicate the purpose of this STA application is to increase Effective Radiated Power (ERP) to 635 kW. You state that the combination of reduced parameters and tower distortion resulting from a side-mount antenna, the station is receiving a high volume of phone calls from viewers stating that they can no longer receive the off-air signal from the station. The station determined that it can increase the ERP of the interim facility to 635 kW which would significantly improve the "lost coverage" issue.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **September 6, 2019**.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
