At approximately 10:30 pm, on 8/15/2016 Sunnyside Police were dispatched to the Sunnyside Community Hospital regarding a 17 year old male victim with a gunshot wound to the leg. Officers arrived and collected initial information from the victim, at which time he stated that he was shot as part of a robbery, when he refused to give up his bicycle. The victim alleged that the incident occurred on the pathway between Sunnyview Park and Waneta Road within the City of Sunnyside. Through the investigation, physical evidence did not support the initial story provided to the investigating officers. Due to the angle of entry and the wound track along with a .22 caliber revolver found in the victim's backpack during a consent search, the case has been determined to be an accidental discharge which caused a self-inflicted gunshot wound to the boy's leg. The wounds were not life threatening and the teenager was treated and released. At this time the case is closed and will be forwarded to the Yakima County Prosecuting Attorney's Office for review to determine if charges for false reporting or obstructing should be filed.
