VIOLENCE AMONG YOL	PKG	0:00	X	Criminal Activity	7/18/2023	5p	From shootings to fights... it seems like more and more teenagers are choosing violence instead of other, peaceful options. It's not just a city or county thing, it's happening at the school level as well... while most of these incidents are isolated and are only a small percentage of students... the intensity of the fights make up for the small number. Just ask mike adkins, director of communications with ector county independent school district. "yes, our school district has seen an increase and we recognize that the incidents of violence involve only a small fraction of our students. But the district again has seen an increase in violent behaviors among students. The behaviors ranged from school threats to off campus fights. They seem to be more extreme than we had in the past these situations." there are a lot of factors at play... but social media has been playing a bigger role in it. Apps like snapchat, twitter and instagram can be used to instigate fights between groups. While messages and trash talking can be sent instantly to other people. "it plays a role, but but kids and even society in general will use the communication tools that are available on those platforms that are available. Kids find a way to use them. So yes, it does. It does play a role in it. There are more of them more readily available, they turn over faster in terms of keeping your eye on these things." meanwhile, every action has its consequences. But sometimes, you have to look past the surface to see what a child is really going through to help curb them from a path of violence. "there are incidents that we deal with and there are consequences to that, but we really want to dig into what is the behavior, what's the child and maybe the family experiencing this having them act this way, and then how do we find resources that can really try to fix it or make it better." the reasons for violent behavior are different for each kid... maybe they have a troubled home life or they just don't have anyone to talk to. But sometimes, all it takes is to just be present in a kid's life and set the right example to help keep kids from taking their anger out on each other. In ector county, i'm jason freund, newswest 9.>	
BROTHER SHOTS BROT	VO	0:33	00:33	X	Criminal Activity	8/3/2023	5p	One man is in critical condition in midland after being shot last night by his brother. NO REFUSAL WEEKEND	VO	1:10	01:10	X	Criminal Activity	9/1/2023	4p	If you plan on enjoying a few drinks for labor day, make sure to drink responsibly. I'm sure you all know this, but we bring it up, because the state's "no refusal" weekend is in effect. That means d-w-i patrols will be out looking for people driving under the influence. If you get pulled over and refuse a breathalyzer, police will issue a warrant for a "mandatory blood draw." odessa police does a joint operation with utpb police, ecisd police, mch, ector county sheriffs office and dps <"we're gonna open up our facility to allow these officers to bring in whoever they need to bring in, if they bring them in, we open our facility to get that warrant." (buted) "we're gonna be looking for drunk drivers along with any alcohol related violations. Our when we respond to a crash, one is too many. Our goal as officers is not to make as many arrests as we can. Our goal is to save lives."
PUPPY CRUELTY INVE	PICS	0:28	00:28	X	Criminal Activity	9/7/2023	5p	A midlander needs your help searching for the person responsible in a potential animal cruelty case. MPD ASKING FOR HELF	VO	0:50	00:50	X	Criminal Activity	9/8/2023	5p	Whenever crimes happen...naturally police begin to investigate...but more eyes on the streets are better than just one. This is especially true when it comes to pedestrian hit and run unturned in investigations...community help goes a long way...but, according to the midland police department...a lot of times the average person chooses not to get involved even if people who see crimes occur but they tend to be afraid to get involved. We get that answer a lot when we're talking with people... I think a lot of times they do that out of fear of retaliation.

GARDENDALE WATER U	LLPKG		00:00	X	Water	6p	8/8/2023		Good news for folks in gardendale you now have a secure secondary source of water for in the future. Since earlier today...ector county commissioners voted in favor of a service ad and the public utility that supplies water to gardendale.Christina burgess has more on what this means for people who live there. <yea crystal the greater gardendale water supply co arpa funding from the county with that funding and todays vote they can now construct a pipeline to be a secure secondary source of water in the future. something the board's been pkg"there are members on our board that have been on the board for decades looking for a secondary source because water out of wells around here the water table is dropping... chasing lots of rabbits to get to a point where we have a secondary source that will secure that for us." with ector county commissioners voting in favor of an agreement with enginee greater gardendale water supply corporation... a pipeline can now be constructed to serve as a secure secondary water source for gardendale residents.... To make this all possible million dollars in arpa funds from the state, doled out by the county. We were one of 6 recipients in ector county, and it will certainly go to pay for this it's for almost 4 and a half millio to do this anyway, so we are so thankful for the county that they recognized that water in this area is very important for the future. They also has an agreement with the city of odes as well. We are going to connect to the city of odessa's water which we have an agreement with them a contract for them, to take water from them. And it will go from 100th street th connect with our system on cottonwood the construction is expected to start the middle of next year. Reporting in gardendale christina burgess.
SATELLITE DETECTING	PKG		00:00	X	Water	6p	8/9/2023		< It cost \$2.5 million a month alone just to get water to the city of midland. And the city doesn't want to waste a single drop... so they'll soon be using a new satellite leak detection s before they become detrimental. This will help us find those leaks when they're small before they become big leaks that break the road. Saving lots of money in infrastructure damag crews. A company named asterra teamed up with nasa to create an a-i algorithm that allows a satellite to do two passes over the city of midland and see 10 feet below ground to det occur about 5 months apartso what this program is, is the satelilte leak the 2 passes, the computer program that helps monitor with that and we're also getting crews here that helps satellite will find it in a two block radius and then people are coming to pinpoint the exact location of that leak. So it's 212 thousand for the first process. This will also aid water conse repairs. So any loss in unknown loss of water below ground is a huge waste of money so water conservation is what we're looking at. We're trying to find leaks before they get huge nothingness, evaporation really. The satellite program can help us focus those efforts in areas where they may be a lot of breaks which means we may fix those leaks now, but that's more leaks. For newswest 9 in christina burgess>

SOCIAL MEDIA SAFETY	VO	1:08	01:07	X	Education	6p	8/8/2023		Most parents are eager to share their kids first day of school in a social media post online. But what you decide to post has the potential of putting your family in danger.no matter wh social media accounts, it's best to keep personal information to a minimum. Keeping details vague and to the point is recommended by experts and local law enforcement. For ex school, what grade they're in, or their teachers name are examples of giving direct information to people who may not mean well. Experts say what you share online has the poten if you're not careful. <"we do hear about it happening all over the in the country as far as you know people finding personal information online, so just do your part keep that personal instagram and other social media platforms and celebrate it in a safe way"> In addition to that, it is also recommended to avoid sharing your child's sports team or school name. of your kids... Just don't give someone a roadmap to track them down.

DISTRICT LAWSUIT	FS VO	0:56	00:56	X	Education	4p	9/1/2023		Thanks for joining us on newswest 9 at four. Seven school districts across the state are jumping on a lawsuit, against the texas education comissioner, mike morath.Two of those districts are in west texas. Fort stockton , and peccis barstow toyah isd are both on the suit. The districts are suing because they say the commissioner is unlawfully lowering the "a" thru "f" performance ratings for the 20-22 to 23 school year. The suit claims that by retro-actively changing the rules, it will lower performance ratings for school districts, even though performance improved. The texas education code says that the commissioner must provide an accessible document that explains the accountability performance measures, methods and procedures that are applied for that school year --- and that must be done "every" year.The suit says if districts receive lower grades, that also affects enrollment. Eventually, that would reduce the amount of funding from the state.

RORY MCKINNEY	VO			1:43	01:43		Politics	4p	8/7/2023	{***Jolina***} Thanks for joining us on newswest 9 at four. Rory mckinney, former chief deputy of the midland county sheriff's office, is announcing his candidacy for midland county sheriff. This is the announcement for his run in 20-19. Mckinney worked at the midland county sheriff's office under the late sheriff gary painter for 34 years. He was appointed to chief deputy in 2019 and shared the news on his facebook page this weekend, saying he'll make a formal announcement later this month. His statement reads: after multiple discussions with family, friends, and community, I have decided to run for midland county sheriff. My decision comes based on the love and appreciation that i have for my community. Over the last several years, law enforcement has noticed a rise in drugs, human trafficking, and alcohol related crimes. He goes on to say, "as the permian basin grows, it is imperative time has come for our community to come together as one and choose the right path for midland county. The county needs known, local, leaders who have dedicated their careers to the problems at hand, and are willing to take them on. It's time for all agencies in the area to work together to combat these issues prevalent in midland county. End quote." mckinney announced on friday, august 25th at 6-30 pm at the conference center at the homewood suites in midland. He says he's inviting the community to join him. Keep in midland, app start at the earliest, november this year. So nothing is official yet. We asked midland county sheriff criner if he will be seeking re-election, and he said yes.

SCHLEMEYER AIRPORT	VO	0:40		X	City & County	7/11/2023	4p	A master plan is in the works for schlemeyer field in ector county. County commissioners approved it today. It's a long range planning study for schlemeyer field for the next 20 years. So what's the next step? <the next step for us in this process is to submit the plan to both tdot and the faa. They will go through their review process with the faa lines of business will look at the airport layout plan drawing, they'll do an air space analysis to make sure that there's no red flags and then we will get their approval and we'll be done with the project. > it can take two to three months for the faa and t-dot to respond. The plan lists the demands and needs at the facility...in terms of hangars, terminals and runways.		
RENT AND TEACHERS H	VO	0:16		X	City & County	7/11/2023	4p	Hello everyone. I'm crystal crews. tonight on newswest 9 at six we are following new developments involving the nueva vista golf course in midland. we've learned it will be closing its doors for good. that announcement was made in an email sent to members by jon crain. after 24 years in midland, the golf course will close at the end of the day on july 24th. this decision will certainly impact midlanders. <i think it's unfortunate that it's closing. I hope it stays a golf course. There (are) a lot of kids and a lot of individuals that use that and it's a sad that thing that we'll be losing for the city.> stretcher-burkes noted she's received many concerned calls and texts today with the golf course in her district. What will happen to the green space is uncertain. At this time we don't know if the property has been sold to someone else. this comes two years after the midland city council voted unanimously against rezoning the property for housing. after protests from nearby homeowners and the community.

ECTOR CO. COMM COL	PKG	0:00		X	City & County	7/11/2023	6p	<"All those in favor signify by saying i...motion passes 5-0..." during ector county commissioners court... Commissioners voted to move forward with the master plan on the odessa schlemeyer field airport "this is a long-range planning study for schlemeyer field we're looking at 20 years into the future this is an faa prescribed process that we follow where we forecast aviation demand over the next 20 years to determine what facility needs are necessary at the airport. Now that commissioners have approved the plan...it will be sent to tdot and the faa for further review... the next step for us in this process is to submit the plan to both tdot and the faa. They will go through their review process with the faa lines of business will look at the airport layout plan drawing, they'll do an air space analysis to make sure that there's no red flags and then we will get their approval and we'll be done with the project. During the presentation to commissioners...burks does stress how everything in the plan is not a for sure guarantee... what it is not it is not a guarantee that any of the projects that we show depicted on our drawing are going to be done. There's no guarantee they'll be funded there's no guarantee that the county would move forward with any of those. But what the airport layout plan does is we have these projects depicted on there because if they do want to move forward it has to be depicted on that drawing. once review comes back from the faa and tdot... everything's in the hands of the county. It will be up to the county to execute the plan at that point. As far as the plan itself once it concludes once we have that faa approval it's done and it's in the county's hands to do what they want with it
