

During the Spring Semester of 2018, W.A.R.Y. exhibited a variety of on air personalities and live mix DJs who broadcasted on our airwaves from eight o'clock in the morning until ten o'clock at night. Whenever someone wasn't on the air, our Audio Vault system ran a six-hour playlist containing a variety of music, sweepers, and Public Service Announcements while still sounding our legal identification at every half hour mark. We ensured that our radio personalities and/or DJs played a Public Service Announcement at least once during their two-hours, thus fulfilling our obligation for our community license, but as a community radio station this is not all that we've done this semester for the public. On campus, we hosted and contributed to a variety of events that strengthen our community as a whole. Notably, we launched our first annual local music festival that showcased up-and-coming artist from our community. We did this as a way to support local artist and share the power of radio by giving our time and talents to our campus and our surrounding community. W.A.R.Y. has proudly established a network of community members, as well as Westchester Community College alumni, to return for shows and events we facilitate, further exhibiting the humanness of radio to all of W.A.R.Y. family and friends.

Spring 2018 Schedule

For all 12pm to 2pm slots, the first hour (12pm to 1pm) is an All Request Power Hour. This means that between talk segments any song, regardless of genre, that is requested via our hotline will be played on air. Immediately following the All Request Power Hour is our Dance Party in which a live DJ takes over and mixes for the remaining hour.

Monday

8am-10am Micah Dale- Multiformat/Talk
