## KWCH 12 November Sweeps:

Oct 31-Nov 4, All Newscasts

KWCH sent a crew on the road to visit a different town each day for a week. We called it "One of a Kind Kansas." We asked viewers to nominate their towns on Facebook. In all, people nominated more than 250 towns. We highlighted interesting people, places, schools, hospitals, etc.

Nov 6, 10pm

We gave people useful information to be prepared for an emergency, should they have to go to the hospital. We talked to Wichita hospitals and patient advocates.

Nov 8, 6pm

We explained to viewers what to do if pictures of you are posted on Facebook. We asked legal experts if you have any rights to take action. We also looked at what etiquette experts say.

Nov 10, 10pm

We talked to a Kansas native who, after having surgery, suddenly talked with a different accent. It's a mysterious condition that doctors can't explain. Very few people around the world are affected.

Nov 13, 10pm

We followed up on an investigation from a year ago into Watson Funeral Home. We talked to the State of Kansas about the findings of its investigation.

Nov 17, 10pm

We followed Wichita Police Department's gang unit as they patrolled the streets, showing what the officers do to keep tabs on gang activity. We looked back at the gang problem in the 90s and what has changed since then.

Nov 20, 10pm

We looked at weather patterns to forecast what the Winter would bring to Kansas. We showed how gulf stream and other factors determine how much snow we'll get, etc.

FOURTH QUARTER 2011

QUARTERLY SIGNIFICANT PROGRAMS REPORT

Covered the period beginning  
October 1, 2011  
Ending December 31, 2011

Station KWCH –DT is a CBS Network affiliate in its service area. In carrying out its responsibilities as a public trustee, the station deals with and is responsive to the principal issues arising in its community on a continuing basis. A variety of specials, public service announcements, public affairs programs and broadcasts on matter of concern to our community are supplemented, in some cases, with in-community projects. Our most significant programming, which has dealt with current community issues during the preceding three-month period, is set forth below.

### **Specific Treatment of Community Issues**

**News stories carried in any of five daily newscasts, Monday through Friday, and on three per day newscasts on Saturday, and on two per day newscasts on Sunday, ranging in length of 45 seconds or more, address community issues.**

## **COMMUNITY ISSUES**

**Crime** - Channel 12 reports regularly on criminal activity throughout the entire Channel 12 viewing area as well as the rest of the country and the world. Here we are listing just a few of the stories that were included in our newscast this quarter.

**Community** - Events impacting the quality of life, including community caring and involvement.

**Economy** - The economy is of major importance to Kansas residents. Continuing growth keeps our employment rate high; new contract acquisitions by the local aircraft manufacturers, old businesses leaving town, new businesses coming in, proposed tax increases/decreases, and major weather concerns for residences and businesses. All of these factors impact the community, and are of ongoing interest and concern for our viewing audience.

**Education** - Channel 12 has updated its method of covering educational issues in its viewing area, with the assignment of one reporter to focus solely on education.

**Environment** - Environment issues and concerns are of interest to the Channel 12 viewing area and are aired regularly in our newscasts to keep our viewers as informed as possible of the latest in Environmental technology, treatments, advisories, etc.

**Health & Safety** - The well-being of Channel 12 viewers is always our top concern and the Channel 12 News Team is on top of every issue from traffic hazards to severe weather warnings, school closings, fire safety, disaster preparedness and emergency situations. And, with severe weather season, storm spotter training meetings are held several times a week in locations throughout the Channel 12 viewing area all over the state.

**Politics** - Channel 12 makes sure to convey to viewers the issues and decisions by city, county and state government can affect them.

**FOURTH QUARTER REPORTS**  
**2011**

# CRIME

**10/2/11 10pm**

Police in Arkansas City are asking for the public's help in finding two suspects wanted in a convenience store robbery. They're releasing these surveillance photos. On Friday night the men came into a Casey's general store and robbed it at gunpoint. They got out of the store with an undisclosed amount of cash. Their vehicle is described as a white four door passenger car. You are asked to call police if you have any information about the robbery.

**10/3/11 5pm**

Wichita police want to know if you recognize these two men. They're accused of robbing the dollar general on west Pawnee. The men held two employees at knife point. They demanded the cashier to open the registers...then emptied them...and left. No one was hurt.

**10/4/11 10pm**

We begin tonight with a developing story out of northwest Kansas. Police are on the scene of a standoff in Goodland. We don't have many details... But we know it's in the 12-hundred block of Main Street. Deputies with the Sherman county sheriff and agents with the K-B-I are on the scene along with Goodland P-D. There are no reports of anyone hurt. The standoff has been going on for several hours. Expect updates on K-W-C-H DOT-COM and the latest on eyewitness news this morning started at five.

**10/6/11 6am**

The man accused of killing a great bend teenager is back in court today. Adam Longoria's second preliminary hearing resumes today. It was ordered after prosecutors changed the charges against him. Longoria is accused of killing 14 year old Alicia Debolt. Her body was found burned at an asphalt plant where Longoria worked. Charges against Longoria changed this summer...after prosecutors changed their theory about what happened to Debolt - they dropped a charge of criminal sodomy...and now attempted rape is the qualifying charge for the death penalty. One of Longoria's friends testified Wednesday afternoon - he said...Longoria asked him to lie to police ...about Longoria's whereabouts the night Debolt disappeared. "Did you tell the police that Mr. Longoria asked you to make an alibi for him? Not at that time. Why didn't you tell police...? I was scared. Id didn't know what to expect. It's an area I've never been in." Longoria's girlfriend told the judge...she thought text messages between Longoria and Debolt were inappropriate and she asked him to stop - she also said - the morning after Debolt disappeared- Longoria was washing his shoes in the bathtub with bleach...and asked her to throw out clothes.

**10/7/11 6pm**

New at six... Salina police arrest a pastor on suspicion of child sex crimes. Arresting charges include rape, aggravated indecent liberties of a minor and criminal sodomy. The man is a pastor at the Salina Seventh - day Adventist church. Eyewitness news is not naming the pastor until formal charges are filed.

**10/8/11 10pm**

New tonight... Police say the parents of a missing Kansas City infant are meeting with detectives... Two days after investigators say the couple had stopped cooperating. Parents of Lisa Irwin reported the 10 month old missing Tuesday... Saying she had been abducted from her crib sometime during the night. Communication between the girl's parents and police became strained late Thursday, when police said the parents had stopped cooperating. The parents insisted they'd never stopped, but that they simply needed a break from the constant police questioning. "Frankly i don't care what got them back to the table, we're just glad they are talking to us again, we just want to find this child." The parents are now offering a reward, hoping it could lead to information in the case. Police have no named suspects or solid leads in the case.

**10/9/11 10pm**

The parents of a missing Kansas City infant say they're talking with police once again. Tonight there is new activity at the family's Kansas City home. Detectives were seen trying to recreate the alleged kidnapping scene. 10 month old Lisa Irwin was disappeared almost a week ago. Her family went to the Kansas

speedway to pass out flyers to the tens of thousands of fans there. Investigators have said they have no solid leads or suspects in the case.

**10/10/11 6pm**

A saline pastor is now charged with more than a dozen sex crimes involving children... Today Birger Draget was charged with crimes including rape and indecent liberties with a child... Draget was the pastor of the seventh day Adventist church in Salina... He was arrested last Thursday... He'll be back in court again on October 17th.

**10/11/11 5am**

Authorities hope human remains found in Oklahoma...will bring an end to a search for a missing Winfield man. 77-year-old Richard May hasn't been seen since December 2009. The last major lead in the case was in March of 20-10. That's when May's van was found near Pawhuska (paw-hus-kah), Oklahoma. Now investigators say... Human remains have been found in that same area. The remains have been sent away for testing and identification.

**10/12/11 6pm**

Factfinder 12 shows you who prosecutes cases in the Wichita area... The district attorney's office here says most misdemeanor cases, including domestic battery, are handled in city courts... There are a few exceptions... Including crimes that happen in unincorporated areas.as far as domestic battery... First and second offenses are misdemeanors... But subsequent offenses can become felonies. The d-a's office handles all felonies.

**10/13/11 6am**

Another conviction in the killing of a Wichita man in Columbia Missouri Anthony car pleaded guilty to second degree robbery in the shooting of Aaron Hobson. Hobson was killed in a robbery outside a convenience store last year. He was in Columbia to see his cousin play in a university of Missouri game. Four others have pleaded guilty to various charges. Another defendant was found guilty last month of second degree murder.

**10/14/11 5pm**

There's now a 100-thousand dollar reward for the return of baby Lisa. Lisa Irwin disappeared from her Kansas City home last week. A private investigator announced the reward for the 11 month old's return today. He says an anonymous donor put up the money. "I hope this opens up someone's heart or someone's eyes and they realize this is serious and that we can get Lisa home safe and sound." Today family members hung signs up on their front yard with messages about Lisa. They say they wanted to thank Kansas City for all the support they've received.

**10/16/11 10pm**

A developing story out of northwest Kansas tonight. Officials confirm that a man visiting his family in Decatur county Kansas was shot in the face this morning. They aren't releasing many more details but they do tell us one person was arrested. An eyewitness tells us that the victim was airlifted to a hospital in Nebraska. Keep checking KWCH dot com for any new details on this developing story.

**10/17/11 6am**

New in the nation this morning... Sesame Street learns a new word starting with the letter "h" Sunday. Officials say hackers replaced Muppets with pornographic videos on the "sesame street" YouTube page. YouTube shows the page unavailable as this morning. It was taken offline yesterday afternoon. A message posted on the page accuses two YouTube users. One denied it in a statement on his own page saying... "I did not hack Sesame Street. I am an honest you tuber." It's not known when the page will be back up.

**10/18/11 5pm**

Also new in the crimewatch tonight a Salina mother is arrested...in the death of her 14-month-old son. Clayden Urbanek died earlier this month -- police say he was beaten. The boyfriend of Clayden's mother -- Antonio Brown -- was charged with murder and child abuse - but new tonight Salina police say... They're

arrested the baby's mother as well...e now faces... For felony murder, aggravated child endangerment and felony obstruction of the legal process charges.

**10/19/11                      6pm**

Fact Finder 12 shows you regulation of cold medicines began in 2005. Several months after the death of greenwood county sheriff matt Samuels... He was killed while serving a search warrant at a suspected meth lab... under the law... Medicines containing ephedrine or pseudoephedrine must be kept behind a pharmacy counter... Buyers must be 18 or older... Show a photo i-d and sign a log book... It also limits how much one person can buy...the law was strengthened in 2009... With an electronic database networked across the state... It records the name, address and signature of buyers... It's designed to catch people making purchases from multiple pharmacies.

**10/20/11                      NOON**

We're bringing you the latest in the trial of the Salina mom charged with murder... Brittany Betzold made her first appearance this morning... Betzold appeared via closed circuit television... She's charged with felony murder, aggravated endangerment of a child, child abuse, and obstruction of justice... The judge pin-pointed September 26th to October 4th as the period where the child was tortured... Betzold was emotional throughout today's hearing... Her bond is set at five hundred thousand dollars... She'll be back in court next week.

**10/21/11                      5am**

He used to give horse riding lessons in Butler County... Now he's charged with raping one of his students. Sixty-nine year-old Steve white is charged with three counts of rape. Authorities say it happened in 2007...while white was giving the 13 year-old riding lessons. White was leasing this land in rural butler county where he ran the training and boarding center. The butler county sheriff's office say the victim waited more than two years before telling her parents the story. "He has been to a preliminary hearing he has been bound over for trial he is in custody in the butler county jail and he has a 150 thousand dollar bond" white no longer lives in Butler County. The sheriff says he has no reason to suspect there are other victims that haven't come forward.

**10/22/11                      10pm**

Wichita police arrest a man suspected of murder...he was arrested yesterday afternoon in front of an elementary school. Eyewitness news reporter Dave Roberts has more in the crime watch. In front of the Isley Elementary School Friday afternoon...police arrest a man suspected of capital murder...police say they were following him for about a week for a possible parole violation...A relative of the suspect tells eyewitness news that he cut off his ankle monitoring bracelet police say they spotted the suspect walking down the street, then getting into a car, they pulled it over and arrested the suspect. Along with capital murder...the suspect is also charged with other crimes including aggravated kidnapping, aggravated robbery ...the suspect is being held in the Sedgwick county jail right now. Bail is set at a half a million dollar. Police are releasing few details about the suspect or the crimes he's accused of committing... In Wichita, Dave Roberts, KWCH 12 eyewitness news

**10/23/11                      10pm**

Continuing the crime watch. A man is critically injured after a shooting outside of a Wichita club. It happened early this morning near 21st street north and Woodlawn. When police arrived they found that a man in his 20's had been shot in the foot. He also suffered a skull fracture during a fight in the parking lot. He was taken to a Wichita hospital. The incident is still under investigation.

**10/24/11                      6pm**

A defense attorney says his client -- a Wichita doctor -- is charged in an accident that killed a landscaper this summer. The accident happened on Greenwich near central... Police say... The doctor then drove for three miles with the body of Ramon Martinez-Limon on the roof of his car. Now attorney Dan Monnat tells us... Dr. Mohammad Sarrafizadeh is accused of vehicular homicide and failing to stop at an injury accident. Monnat says...the doctor had a stroke that caused the accident...the stroke left him confused...and he didn't realize what happened. <1:34 - Dr. Sarrafizadeh did not consciously drive in an unsafe manner that day

instead Dr. Sarrafzadeh suffered a medical condition that caused the accident.> Monnat says...Dr. Sarrafzadeh will be summoned to appear in court within the next few weeks.

**10/25/11 10pm**

<) Denise Stand up: They are law enforcement bulletins... Meant for law enforcement only... Now the Wichita police department wants to know how they got out. 1BK 2:30 this information was contained and intended and the information got out above that. That was not our intent. The documents have been circulating for several weeks. They were put together by the department's gang unit after a gang-related shooting last month. Inside... Are pictures of people police identify as gang members... Their addresses and aliases. Families say they're concerned. 2DV 9:19 they know how to stop by peoples to retaliate that is wrong, that is really wrong. There is also a warning to law enforcement about threats being made towards officers. Denise OUT: Police say there's no way to know how many copies are out in the public now. His information was initially released to law enforcement partners. The department says it's now revising who gets this kind of information... So this same thing doesn't happen again. Denise Hnytka KWCH 12 EWN.>

**10/26/11 5am**

<) 2:12 He almost hit my bumper 17-year-old Megan Merchant says she was in tears 4:05 all i knew was call mom and dad all she knew was someone was following her 2:58 he got behind me right close to my bumper 4:12 i was worried she was crying she said someone was following her and she didn't want to lead them home. Turns out--the man behind her--the one honking his horn and riding her bumper was a Wichita police detective--who tried pulling Megan over with a badge and a horn. The car he was in didn't have lights. 5:50 is it that important for the gentleman to follow her three and half miles and she was crying. This is where it started...on west Kellogg but it ended in Goddard where Goddard police pulled Megan over. And up to four marked patrol cars...all for illegal lane change. 44:56 i don't blame the young lady for not pulling over she did the right thing Wichita police tell Fact Finder 12 the detective didn't break policy...but... 44:35 there's always room for education next time maybe this is the best practice. Megan got a ticket for unsafe lane change--the detective had another officer drive out a ticket book--that's after he removed her from the car while other officers asked to search it. 8:21 they told me to get out of the vehicle 41:03 he said he wanted to speak with her about her driving behavior could that have been done inside the vehicle absolutely Megan's mom isn't fighting the ticket...she says her daughter may have deserved it...but that's not the point.4:56 if she really needs a ticket she has to pay I'm saying how she got the ticket was wrong. For Fact Finder 12 investigators, I'm Michael Schwanke.>

**10/27/11 6am**

A news conference is expected today in the case of a missing missouri baby. The attorney for the parents of lisa irwin will speak to the public. In the meantime..the search continues for the 11-month-old. Gil abeyta from colorado is now apart of those search efforts. His 7-month-old was abducted from his family's home in 1986...and never found. He's had a hard time gaining the trust of irwin's family. "i'm going to get in there one way or another. I want them to tell me you need our help and... You don't want my help? I know exactly what you're going through. So this is strange to me." Authorities plan to re-interview the baby's brothers friday. They were in the family's home the night she disappeared. Police say irwin's parents have not allowed the brothers to be interviewed since the disappearance october 4th. Police also plan to take d-n-a samples from the boys.

< 113019-28 "i just don't want him getting out and hurting other children, i know i have had to live with what he did to me my whole life, the nightmares it just doesn't ever stop." she's hiding her identity over fears her father may find her. He is convicted sex offender james rowray, who was sentenced in 1990 for molesting five children under the age of 14 while he worked as a neighborhood ice cream truck driver in wichita. Rowray was supposed to be released in august 2010 for time served. 1134:08-11 i don't think there is cure for him, he's just got to be locked away for the rest of his life the state agrees, prosecutors kept rowray behind bars in hopes a jury will deem him a sexually violent predator, which will send rowray to larned state mental hospital, perhaps indefinitely. Standup - rowrays family revealed an interesting twist in this case. Turns out rowray is the biological son of leroy hendricks. He was the first convicted sex offender sent to larned hospital under the state's sexual predator law." hendricks fought the conviction all the way to the u-s supreme court - and lost. That paved the way for other kansas sex offenders - like rowray - to face the same law. Rowray's daughter says she's willing to testify against her father, to keep him away from other kids. 11:3307-15 i don't know if i am strong enough to do it, but i would go and do whatever i need to do to keep him from getting out and hurting other people she may get that chance when rowray goes back to court, but that court date has not been rescheduled yet anne meyer kwch 12 eyewitness news

A consumer watch alert tonight form the better business bureau... A new take on an old scam... And your grandparents could be the target. It's called the grandparent scam--when someone calls claiming to be a grandchild in trouble. Usually that person says they've been arrested overseas and needs money. Now we're learning the scammers are targeting military families who have loved ones serving overseas. <sot verbatim: 4:40 he said grandpa i know you can keep a secret. 2:08 i thought what's he doing over there when he just got back from afghanistan.> in that couples case, a dillons employee stopped the them from wiring more than two money. She became suspicious after hearing the story. The better business bureau says you need to call their office or police if you aren't sure. It's also a good idea to talk to elderly people in your family about the scam.

This is the time of year when the amount of mail we get generally goes up. In Ark City...that makes easy pickings for thieves...as Brandon Robb discovered. Brandon Robb: 13:26:04 Me and my friend we were just sitting upstairs in our apartment and heard a knock at the door and opened it up and it was the cops telling us the mail had been stolen. Police handed them some bills and a letter from an insurance company...which someone had found thrown in the street. It's one of eight cases here so far of mail theft...from curbside boxes. So far no suspects. STANDUP: Ark City police suspect that whoever is doing this is not driving up to the mailboxes but rather is committing these crimes on foot. That's because empty envelopes and the mail the thief or thieves don't want...is always found scattered on the ground within a block away. Police say they've found evidence of prescription medicine and at least one check being stolen. Some suspect the time of year combined with the bad economy...is helping to fuel this crime spree. Robert Vincent: 13:29:26 People are desperate. There's going to be more theft, it's just going to happen. One way to protect your mail...is to do what Trulee Wells does. Her neighborhood has been hit...and she not taking any chances. Trulee Wells 13:34:10 Be prepared to have somebody pick it up if you're not going to be there or be there for the delivery. Or do what Brandon Robb and his roommate plan to do...and get a P-O Box. 13:27:48: Nobody can see out this way and the mailboxes are right there. So somebody could just walk up open the mailbox and take the mail. Money, medicine, personal information---it's all in jeopardy because of a sneaky menace with sticky fingers. Jim Grawe KWCH 12 Eyewitness News.

It's unreal. when corey and paulajeane smith walked out the door on christmas morning this was their dream home.... when they returned that evening...sorry if i break down over this. Their dream was shattered. it's very heartbreaking. burglars broke in through this garage door....and ransacked the place. i came in, i had to turn the light on because it was dark and this is what i saw. they spilled paint in the kitchen closet...and

tracked it all over. i don't know if it fell over and the lid busted off or if it was actually done on purpose or what. the thieves left what appear to be two sets of footprints....as they stole toolboxes...laptops...tv's and other electronics....all of paulajeau's jewelry....and two safes full of valuable coins. antique coins dating back to the 1800s all the way up the present day. in the process they destroyed furniture and carpet and then helped themselves to christmas cookies that sat on the kitchen counter.

and the topper is...all this happened while the smith's were here at salina's ashby house serving christmas dinner to the homeless. several ashby residents told us off camera they're upset about what happened and appreciated the smiths' help. it was very heartwarming and we're glad that we did it...that we gave back to our community and we're going to do it again. meanwhile.... Whoever ransacked their place while they were gone is a mystery. smith says extent of the destruction may indicate his family was targeted for a reason. if my wife or i somebody made them mad, i'm sorry. And if my kid made them mad, i'm sorry for that too. But i don't think we deserve this.

This man is a schemer the man Harris is talking about is contractor tin lu with american midwest roofing--who was hired to turn her flat roof into a pitched roof. she sued him for this job and won 33 thousand dollars--how much of that has she seen? 22:34 zero. Nor have we seen any improvement and there's more...factfinder 12 found city city fined tin lu for working without a proper license. He owes more than 700 dollars. 21:47 the first thing people ask me is how can this guy have a license. that's right--we discovered tin lu still has a wichita license to work on other homes--has pulled permits on almost a dozen other job sites this year--even though a city inspector saw this work--why? that's what we wanted to know--the city tells us--it was a mistake. 23:49 the gap from our perspective is the inspector who worked that case is no longer here and for whatever reason i don't know if it was the civil case but he closed the case and didn't come back to follow it up. Director of central inspection kurt schroeder says there's no excuse--the office didn't follow up after tin lu was taken to court and lost--he even owes money on a city fine. 30:16 we don't want this breakdown in our process i don't know why it was closed i'm glad she contacted you and we're back on this and we can try to make things right. (standup) we also talked to tin lu--again he hasn't paid any of 33 thousand dollars he owes on this house--we left voicemails, but our calls weren't returned. So we tracked him outside of his home...and asked him why he hasn't paid or corrected this problem. 56 i just don't appear because i don't see nothing wrong with it. The roof looks fine. It looks fine. Every roof look fine. Do you want to go over there and look at with me? Huh? Do you want to go look at it with me? Huh? 1:25 what's this about here. What's what this about here channel 12 what are you after. We're after you did that work for her. She sued you and won 33 thousand dollars and you haven't paid a dime of that money so she's out that money and she has a roof that's unacceptable. And it's leaking and has mold in the house. That house had mold before. that's what harris has dealt with for several years now 28:24 it's just frustrating we're stuck here. We're pretty much stuck in this home. harris may be stuck...but she says others shouldn't be--the city agrees, and will do what it can to correct this problem and stop tin lu from doing it to someone else. and once again...it's another hard lesson in home remodeling. (001411) 13:28 do your homework don't go with the lowest bid. This is an example where you can spend a lot of money and gain nothing for factfinder 12 investigators, i'm michael schwanke>

City officials say traffic around zoo boulevard is too congested... That's why they are building an over-pass that will make it easier to get onto i 2-35. Now city officials say they are planning an art project there as well. 21:18 it's something that we hope the citizens will enjoy as they make their commute (standup) the bridge will start here, by sedgwick county park and the zoo...on 13th street as it turns into windmill road. Windmill being the key word and inspiration behind the art...21:29 very simple, reminiscent of wind mill

road, clouds, birds, reminiscent of prairie and landscape, natural space, plays to that space and kansas this is what it will look like... Unlike similar artwork on kellogg...city officials say drivers will really get to enjoy it... Because windmill road will run parallel to the 200 foot retaining wall. 24:01 frontage road, more time to experience, speeds slower, different experience, orientation... The entire project costs 50 million dollars - but city officials couldn't tell us the exact cost of the artwork. They say it's a very minimal cost, and call it economical and worth it. 22:21 highly visible...special consideration...lot of people see them, enhancing them makes our community a better place... He's lost twenty pounds by riding to and from work every day. Quick nat? So its no surprise he rode to a meeting at wichita's city hall. All about making the city more bike friendly. 26:23 safety is a huge factor and education and convenience, point a to b. City officials say they're learning what bicyclists want... As riders write on this map... Showing their routes and problem areas. 26:04 thats done a good job of showing where problem intersections are. Some trails and where future routes may be located. The plan they develop... Will have some immediate projects and others for the future. Paths can be added later as roads are re-done. 25:49 really the challenge is priorities, to do for max impact right away. Maps will be unveiled in april. Callahan hopes it makes the city better for the people who already ride it on two wheels... And encourages others to try. 53:56 its very nice that wichita is considering us and making it a part of society. Denise hnytko kwch 12 eyewitness news.>

< when she laid her mother, beverly, to rest in 2009...patty newkirk, had no idea the questions she'd ask years later. Beverly's funeral was prearranged...and prepaid. But the day of the service...watson funeral home asked patty to pay an additional 1185 dollars. I just wrote the check and gave it to them and trusted that it was how it needed to be. Months later...a former watson funeral home employee filed a complaint

with the state. The employee accused owner doug watson of overcharging patty...as well as numerous other unethical business practices. The state board of mortuary arts looked into it but never contacted patty or other families mentioned in the complaint. So we did. We found the charges just didn't add up. We also discovered the final funeral contract had a forged signature. When we brought patty our information, she filed a formal complaint with the state. It was enough evidence to make the state re-open her case...and two others. We also went to doug watson, who declined numerous requests for an interview. But he did talk with the state investigator and as we discovered, drastically changed his story. For example...in another case - two former funeral home employees told the state watson had reused a casket that was supposed to be cremated with a body. During the first investigation...watson said "he does not remember the deceased being removed from the casket prior to cremation." but we contacted the family who told us they thought it was odd because there were no remnants, like handles or other metal pieces in the ash. When the state re-interviewed watson after our investigation aired...watson changed his story...to explain why the family saw no metal. Whereas before he didn't remember the deceased being removed from the casket...he now admits "the body was moved from the casket and temporarily placed on an air tray...so the metal bed in the casket could be removed prior to cremation." this isn't the only time watson changed his story. The state investigator even notes in a separate instance "upon interviewing mr. Watson"...his statement "is different from what he said when interviewed..." previously. \*we went back to the state...asking whether that's a violation. The state tells us the investigative committee noted and discussed watson's difference in responses. But in the end, did nothing about it. A third case alleges watson ordered a cheaper casket than what a family prearranged and paid for. The caskets looked similar but the prices were quite different. Months ago when we looked at the paperwork...we couldn't tell which casket was actually used because there were so many casket names listed on watson's paperwork. When asked a second time, watson tells the state "while the athena is considered the corporate name of the casket, the casket is also called primrose." but we found this is false. A quick check with an online casket dealer shows the athena and primrose are two separate caskets. In addition, we called three funeral homes around the country that sell this line of caskets. All confirm the athena and primrose are not the same. When we asked the state about watson's lie - the investigator told us the board decided not to punish watson because it was a minimal cost difference. So what did the state do? They had found i had been overcharged. The state board of mortuary arts ordered doug watson to pay patty more than 900 dollars for overcharging for her mother's service. In addition, the state fined him 500 dollars...and required him to complete classes in funeral directing ethics. But of the three cases we questioned...patty's is the only one the board took action on. Once again, just as we discovered with our initial investigation, the state didn't contact any of the other families in the complaint. The investigator with the state board of mortuary arts declined an on-camera interview but says he stands by both investigations. He says there's no reason to contact families and cause additional trauma to those who have lost a loved one...unless there's evidence to do so. But patty believes families should have the right to know...if there's any inkling of wrongdoing. Yes, definitely i would want them to contact me if there had been any sign that there was misconduct i think they should at least get the family's version of it and find out more information. She believes without our investigation which prompted her to file a formal complaint...she never would've known. They weren't interested in finding anything more out. It was totally up to me to bring it to them. For patty, she's says it's not about the money. It's about knowing the state is doing its job to make sure the funeral business is taking care of loved ones ethically and respectfully. For now, she questions whether that's being done in kansas. For factfinder 12 investigators, i'm kim wilhelm. >

**11/19/11 10pm**

It's a big night in wichita's college hill area. v-i-ps get sneak peek at the new and improved crown uptown theatre.

Frederick laurino: 13:07:14 the arts community is very vibrant in wichita and its great to see that this once again is going to be a part of that community. reopening under new owners...the historic dinner theatre is prepping for a month-long run of the classic--white christmas. Matthew rumsey: executive artistic dir: it's bright, it's bold, it's wonderful and i think its what everybody wants to see back in this city which is live great theater. this actually marks the second theatre opening in the college hill area this fall...following the conversion of this old church into a live performance venue. Jim grawe: with two professional live theatres within a block of each other, high-end retail shops and restaurants all within walking distance...some are saying wichita now has a bonafide theatre district.

Robin van huss: not only are they beautiful buildings, the crown actually has one of the oldest neon signs in wichita. So there's a lot of history here, a walking area, really there aren't many cities even of larger of size that have theatres in this kind of walking district. and those behind this new surge of live theatre aim to prove that this is timeless entertainment that never goes out of style. Matthew rusey: there's nothing like live theater..when you have the actors that are right in front of you. Yes a conversation over the phone is great but i think most people would like to have a conversation right in front of you. that's the appeal that some hope will redefine this college hill area of wichita as a center for entertainment and culture.

Today marked the end of an era for catholics. And some say it's going to take some getting used to. The contemporary language of the liturgy spoken at mass is changing next sunday. Some portions will be replaced with an english translation that more closely reflects the original latin of the fifth century. These changes have been in the works for ten years to overhaul the current translation first adopted in 1970. <sot verbatim: 30-40 years out, people are a lot more sophisticated in understanding scripture, in understanding language and the prayers of the mass and that action that takes place in the liturgy of the mass so they wanted to take the alnquage and make it less like casual sunday and it a more sacaral context. > the change is taking place in all english-speaking churches. you won't find it on the list of the nation's top shopping destinations. Black friday is a pretty quiet day here in belle plaine. but you will find it right near the top of the best places to raise kids according to bloomberg business week. the magazine ranks this sumner county town as sixth best in the nation. the detrick family says they're surprised... Only because they didn't think the rest of the world had heard of their town. Maggie detrick: 14:10:00 we've kept this town so good for so long that it finally dawned on people that we're here. maggie's a college student... jack is high school freshman abby's in seventh grade. and marti, their mom, is a teacher at the school. Marti detrick: " after high school i moved away for about ten or eleven years and we moved back to belle plaine because of the town and because of the school system because i wanted my kids raised here. the ranking takes into account the school system...the family-friendly recreational opportunities such as parks...and swimming pools. also... Belle plaine's proximity to wichita means parents have ample employment opportunities...while at the same time can shield their kids from some of the dangers of the big city. Abby detrick: 14:12:50 it can be pretty safe here, like you can go anywhere and you'll be fine. Marti detrick: 14:13:30 they'll go with a friend and they'll go up to casey's to get something to eat, or walk to the pool or they'll play basketball at the courts by the pools and i don't have any problem with that. but the detrick's say they wouldn't mind sharing their town with a few more families. Jack detrick: 14:08:10 i think it's pretty cool. Maybe our town will get recognized and more people will want to come and raise a kid here or something. and it just might happen now that the word is out.

"were not unlike any post office...i think someone made a comment one time saying stand in the post office for thirty minuets and see how many people in line are under 35." salina is just one domino in the wave of consolidation that the post office proposes for 2012. If you're a costumer- the bad news is your overnight mail is no more...plan on two to three days instead. If you work for the postal service things dont get much better as 35-thousand jobs within the compnay will be cut nationwide. Changes would save 1 million dollars in just the salina region. It's not unusual to see boots lying around in a fire-house... But saturday, these will hopefully be filled with cash... As the wichita fire department starts their annual "boot block" fundraiser for the salvation army. 57:32 we participate every year bc we try to get involved in the community and assist in anyway that we can... Firefighters will stand at intersections across the city to get donations from drivers... But this year is different. Some wanted to ban street fundraising because of safety concerns... with a compromise. 58:52 everything's to be done in a safe manner, we don't want to become part of the problem but also for our own safety don't want to be in the traffic where we get hit firefighters now have to wear safety vests... And they must stay on the sidewalk or median unless drivers invite them over. 58:15 we're concerned with safety and citizen safety because we're an attractive nuisance there... (standup) "despite all the rule changes for intersection fundraising one thing remains constant, and that is need. Salvation army officials say they hope when people see these guys out here they put the money in the boot." 2:01 it's helping communities, everyone we serve, overall it's a good fundraiser one that will help those in need...to make sure they have a good christmas. It also creates the problem of...how do you move it? <25:51 - the biggest challenge was just finding a crane big enough to lift that kind of a weight and have it be able to get in and get out in a big hurry.> project managers say they had to rent a crane for the job. A job that included hoisting it up...guiding it into place...and doing it all in a way that crews aren't really used to. <25:09 - it makes it a bit more complicated, usually on a brand new bridge you can set the beams in sequence and don't have all the existing reinforced steel in your way so that's making it take a little bit longer today than normal but still manageable.> and with it in place...south bound lanes of seneca and the far right lane of westbound kellogg...are that much closer to accommodating holiday traffic. <23:43 - that will take some cure time so there's still some waiting to do for concrete to cure and gain enough strength to put traffic on that part of kellogg but we're getting there.> <32:23 - well here's the timeline for some of the roads re-opening in the area. with that beam in place project managers think seneca could re-open within a week and that far lane on kellogg...the hope is by christmas weekend, that will be open as well. The cost of doing business with Wichita is getting more expensive for surrounding communities. The city increased its wholesale water rate by more than 10-percent. And for cities like Derby, who buy water from wichita, there's only one choice--increase everyone's water bill. But Derby \*residents\* won't see the entire 10-percent increase in their bills. "Those rates I'm at least happy to say, will only increase 8.5-percent." City Manager Kathy Sexton says that translates into a few extra bucks each month for most Derby residents. But for Derby Floral and Gift Shop Manager, Dianna Moore, that hike is a lot of money for her small business that relies on water. "You've got to have water for flowers. You can't go around that." Derby plans to raise its water rate by about 8.5-percent each year, for the next five years. Moore hopes she doesn't have to pass the buck on to her customers.

Despite the rush of people, bright lights, and cheerful sounds...There's a dark side to gambling. "The general statistic is about three percent of the population in any one area is going to have a gambling problem. When there's a casino locally, then it usually goes up to about six-percent." Stephanie Roberts is a volunteer on the Wichita Area Problem Gambling Task Force. It's a state-funded program aimed to prevent and treat gambling addictions. By law, the state is required to give two-percent of its gambling revenue to the problem gambling fund. Despite the millions projected for the fund, the Topeka Capital-Journal says lawmakers only approved 717-thousand dollars for the next fiscal year. The journal says the rest of the money went to filling a budget gap and funding Medicaid.

"They weren't giving the full two percent to begin with, why would they take it away now when a new casino is opening in the Wichita area." The Kansas Star Casino opened Monday in Mulvane to crowds of people. The Hollywood Casino is scheduled to open new years day in Wyandotte County. One local lawmaker says legislators have no choice, but to put the proper amount in the problem gambling fund. Lawmaker: "We're going to have to have that funding there. That is a requirement to have that money there for those who have a gambling addiction." Senator Oletha Faust-Goudeau is on the Joint Committee of Administrative Rules and Regulations. She says the "problem gambling fund" is on the agenda next year.

Foodbanks across the country are worried...they may run out of peanut butter. That's because...peanut butter prices are expected to almost double...after a bad harvest in states like texas and georgia. Peanut butter is a staple during many food drives. The crunch is expected to take effect this winter... Fact finder 12 has a look at how it could affect many people. 90 percent of u-s household consume peanut butter - raw peanuts that cost about 450 dollars a ton ...now cost more than 1-thousand 150 dollars a ton. For you...the price increase could vary - national reports...including in the wall street journal show... Jif prices could go up 30 percent this fall - skippy could raise prices 35 percent - and peter pan...almost 25 percent. I talked to the kansas food bank in wichita...which purchases thousands of cases of peanut butter every year - hear how they'll deal with the high prices...tonight at nine on the kansas c-w.

It's a staple for many american homes--and it's about to cost you more...possibly a lot more. The hot, dry summer... Has hurt the u-s peanut crop. That means peanut butter prices are about to sky-rocket. As

eyewitness news reporter michael schwanke found... Food-banks are worried the most. At the kansas food bank--the mission is simple--provide food for those in need, and one food stands out above the rest. It's just something we have to have. Peanut butter "it's high protein so it gives them protein and something there not going to eat the who thing" but very soon prices are expected to increase-by 30, 40 or even 50 percent. "it does have a big affect on us." For the kansas food bank it's become it's a staple especially for the backpack for kids program these bags go home with children to eat on the weekends. Will go through 6,000 jars of peanut butter each month. It's one of those items every kids loves peanut butter. And while it may affect your budget at home this year--president and ceo brian walker it could have a big impact on the kansas food bank that buys up to a hundred thousand jars each year. "last year we spent 75 thousand on peanut butter increase that and of course it will have an impact." Walker says it's a must have--and that means finding a way to pay for it. Covering the nation tonight. Demonstrators take to the streets in cities around the nation as part of the occupy wall street protest. That includes new york where it all started. Protestors there marched on time square. That's where eyewitness news reporter drew levinson is with the latest.thousands of demonstrators packed into times square..... Moving their wall street protest into the middle of manhattan."banks got bailed out." "this is a people protest." while others danced. But they all seem to believe the system is slanted toward the rich. Mike and margaret vivona came here from new jersey. The parents of two college graduates lost their jobs and are afraid they could soon lose their home " it's the greatest place in the world - if we don't have a voice here - then where" demonstrators spent the day marching from lower manhattan to times square. "the most important thing right is for people to be out and voice their concern with the direction the country is taking." protests were peaceful for the most part - but police did arrest about two Dozen demonstrators when they refused to leave a chase bank. From the crossroads of the world to the crossroads of america.....protests like this one were held nationwide saturday. "banks got bailed out - we got sold out" in the nation's capitol demonstrators headed to a bank of america branch Protesting new debit card fees. "we have come here, we have come here, to close our accounts, "never be defeated." there were demonstrations from orlando to seattle. Hundreds marched through the streets of philadelphia..... It was a similar scene in denver. Protestors in arkansas descended on the steps of the capitol - while hundreds rallied in the center of oakland. "the process is broken." "there's too many people who are not making any money and only one percent that are." and until that changes - protestors across the country vow to continue.

But up until a few months ago...westerlund was stuck with whatever she could get in a can. The salvation army and charities seldom gave away any fresh produce. Donna sutterfield 5:16:36 it's really awesome that we can give families things that they need that they don't normally get from the grocery store because of the expense being so high. Jim grawe: that produce comes from the kansas food bank which over the past year has really stepped up distribution of fruits and

vegetables. From three hundred thousand pounds last year...to one-point-two million so far this year. Brian walker:5:10:24 we looked at the products we were distributing and decided there are a couple things we need to do. We need to provide a nutritious meal for the clients we're serving and one way to do that is through fresh produce. Some is grown in kansas...but most comes from the southwest. Because fresh picked fruit has such a limited shelf life...it comes here to the food bank and is quickly shipped out. The different charities usually designate one day a week for people to pick it up. Vicki westerlund: 5:19:24 i look forward to it every week. The price had left nutritious produce absent from many dinner tables... Good afternoon kara, this is great economic news for wichita. The expansion plan is a 52-point-7 million dollar project - that should bring 450 new jobs to this plant by the end of 2017 - and those jobs will bring an annual payroll of 47 million dollars. Under the plan, bombardier learjet would construct 3 new buildings - an aircraft delivery center, a new paint facility for the learjet 85 and a production flight facility to test aircrafts prior to delivery. So in addition to the new jobs for the plant, this project will also create a lot of construction jobs for the area. Company leaders roll cue to sot...continue to great relationships with the community. <sot verbatim: > this new expansion project will also require a new parking lot to be built, in an area just behind me. By the look of these lines, its clear black friday has taken over thanksgiving thursday. for die hard bargain shoppers, standing in line after their turkey meal is nothing new. but this year, they won't have to wait so long to get in the doors and start shopping. some shoppers are still standing in line at this hour...best buy is opening at midnight, so is target - an earlier start for both this year. we checked in on andrew ingram, who's been camping out in east wichita since wednesday afternoon to save some big bucks this holiday and if you're planning to hit the malls, better set your alarm clock earlier too. doors there will open at four a-m. and many of these black friday shoppers plan to hit a few stores, since the opening hours are staggered. so is it worth it, shoppers say yes

**11/25/11 10pm**

"Since three am. Since three o'clock this morning. Yep. You realize that was about eight hours ago yeah. Are you tired? Kinda, but i like shopping." "they've been shopping since 9 o'clock last night, these three. And then the three older ladies started at 6 this morning." the biggest shopping day of the year has come

and gone. That's reaction from just a couple of the hundreds of shoppers we ran into today. This was what town east mall looked like today as thousands of people hunted for discounted items. A recent survey by consumer reports says two thirds of the people shopping on black friday are buying for themselves...not others. An estimated 152 million are expected to hit the stores in the next three days.

Covering the nation tonight... More americans are going back to work these days. A new "labor department report" shows... Hiring is up... And unemployment is down. The report shows... 120-thousand new jobs were added last month. The unemployment rate is at 8-point-6 percent. That's the lowest in two and a half

years. The president says... It's progress. But republicans say... More than 13-million people are still out of work... And that's the president's problem. <sot verbatim: today marks 34th month unemployment above 8%, and as you may remember, the obama administration promised would not exceed 8%, if passed their stimulus bill, that promise has gone unfulfilled. > private sector hiring went up... Especially in the retail industry. But the numbers show... More people dropped-out of the "job hunt"... Than were hired.

--Reporter pkg-as follows -- it's the season of giving, but giving to everyone gets expensive. Alexandra kovach is a graduate of the protocol school of washington and an etiquette coach, and recommends managing your list, by keeping it to those you deal with directly. It is your babysitter, your child's teacher, your hairdresser, your doorman, people who are taking care of you on a daily basis -- that make a difference to your day, throughout the year. Some guidelines for good tips from the emily post institute. Your hair salon -- the cost of one visit divided among those who take care of you. Your babysitter -- one evening's pay plus a small gift from the kids. Your newspaper carrier -- ten to thirty dollars in cash or a gift. Housekeepers -- up to one week's pay and/or a gift. Cash is perceived as a tip for a service, kovach says, and as such, isn't appropriate for a child's teacher. You can, however, give them a gift card. And to avoid getting caught empty-handed when someone has a gift for you, keep some small, wrapped items in your office and home. Always good to have a couple of bottles of wine with a bow on it at the house in case someone shows up with something. You can spend an evening baking cookies and it can be a lot of material for you and be very good on the budget. No matter what you're giving, kovach says to include a handwritten note with your gift. It's a nice added gesture -- that won't cost you a thing. In washington, i'm karin caifa.

Also out of city council this noon... Problems with your water and sewer bills may soon have a fix. They voted to hire a Colorado consulting firm to study the issue, and suggest solutions. A vote was supposed to happen last week, but a local consulting firm was given more time to present a proposal to do the work instead. But council selected the colorado firm instead, because it could complete the study for less money and faster. Billing problems were the most frequent complaint voiced by customers during recent public hearings in Wichita about raising water rates. It could cost the city 20-million dollars to improve metering through out the city by next year.

Ok here we go. Rolling the roulette ball is not something michael miller thought he'd do for a living...everybody told me it would be a great thing, i'd be really good at it, i like to play cards so i went from school and made it through and here i am. He was working at a lumber yard when he applied online to be a dealer at the new kansas star casino....i had some gambling experience but none actually dealing. He went to dealer school...got his dealer's license...and now he's doing more than just roulette...poker, black jack, 3 card, 7 card, let it ride. Miller was one of the twelve thousand people who applied for jobs ... Casino officials interviewed five thousand of them...and hired five hundred of those...we've targeted, with our commitment the unemployment market (3:59:53) but we're still looking for additional team members. before the casino can be opened 24 hours a day, 7 days a week, they need to hire about fifty more people. And most of those people need to be dealers. we're looking for experienced dealers The casino says it is approaching the previous applicants to fill the jobs currently available...but many are no longer available for work. they went on to other opportunities, so definitely we're still looking for

qualified customer service focused applicants. And it turns out the job was good for miller...who doesn't miss the lumber yard...this is a lot easier, not as bad on my back!

A kansas college wants to start a new dental program... But it all depends on action by the legislature... Fort hays state university wants to offer the state's first bachelor's degree program for registered dental practitioners... They perform services like cleanings and fillings... But the school's waiting on the legislature to approve a bill to allow dental practitioners in kansas. The school's president says it's needed to provide access to dental care in rural areas... But the kansas dental association says dental practitioners would jeopardize public health.

A different culture... And a different way of communicating. Now the liberal school district want to hire someone... To help with an influx of students from myanmar. The southwest kansas district has about 35 students from the southeast asian nation. To help them... School board members approved creating a new para-professional position in teaching english as a second language. School officials say finding someone qualified is difficult... But the position is badly needed...<"what we are finding is that a lot of the parents have limited english skills, so we can't even communicate with the parents, so there is definitely a barrier between our families, our students and our teachers."> the new position is being funded with money set aside for bilingual classrooms.

< It may seem like there's a lot of time--but not when you consider what has to be done. It really starts tomorrow night...with the first superintendent focus group--selected by the superintendent--he says to serve as a check and to help guide the decision. 36:33 students parents community members and some staff i really wanted this group to have a community focus because it have an impact on the community for years to come. Here's the rest of the timeline. Next month--another meeting....this is when the group could get its first look at a map that has proposed boundary changes on it. There will be another meeting in december--

And then it's the public's turn...and although there has been a public meeting already...by this point in january..we should know all of the proposed changes. There are four of them...and these are sure to bring a lot of people out as thousands of families and students could be affected. There will be one more focus group meeting at the end of january and then it's decision time. The school board will receive the final recommendation and then vote february 27th. And that's when wichita school boundaries as we know them...could drastically change. Students may have to change schools--- some schools could even be forced to close- Michael schwanke kwch 12 eyewitness news.>

Speaking of new... Wichita state hosts the grand opening today for its advanced education in general dentistry. And appropriately, it was a floss-cutting rather than a ribbon-cutting. School officials say the facility will make it possible for all aspects of dental training to be available. They are hoping it will make dental care more accessible, especially for rural areas of kansas. <"it's a focal point for education and training. It certainly helps with recruitment as well. Recruitment and retention of young dentists to kansas"> wichita state hopes to eventually extend the dental curriculum to a two year program.

(package script) president obama ended his 3-day western swing in front of a cheering crowd of university of colorado students...eager to hear his plan to help americans drowning in student loan debt. (sot: president obama) - "when a big chunk of every paycheck goes towards student loans instead of being spent on other things, its not just tough for middle class families, it's painful for the economy." for those in debt, the plan reduces loan payments to 10 percent of their income after monthly bills -- and helps them consolidate certain loans, with lower interest rates. Graduate student shakia seabrook is one of more than 7 million americans who could benefit from the president's plan. (sot: shakia seabrook, graduate student) - "i don't think it's enough but him just recognizing that we do need help is a step forward." (danielle nottingham, bridge) - "it's no coincidence the president is promoting a program targeting struggling graduates. Young voters helped put him in the white house and he needs their support in 2012." the president says the economy can't wait. The white house will go around congress once again and get this plan rolling through an executive order. Grad student jason diaz is worried - the student loan help could mean higher taxes down the road. (sot: jason diaz / graduate student) - "it's great for me but at the same time it could hurt me because where are they getting that money from?" student loans are now the number two source of debt in american homes just behind mortgages. Danielle nottingham, cbs news, the white house.

The president is trying to help families struggling with the second biggest source of debt... Right behind a mortgage... Student loans. His plan could help about seven million americans re-pay their debt.... Including some kansans. But there are some restrictions. Jeremy thomas is a freshman at wichita state university. But he's well aware of the 16-thousand-dollar debt waiting for him after graduation. "does 16-thousand dollars in debt scare you?" "a little because i know i will have to start paying it back eventually." president barack obama wants to ease that burden. Part of his plan would impact the income-based repayment plan. The maximum payment would be reduced to 10-percent of discretionary income, compared to 15. "which is going to be a huge benefit for families who are struggling day-to-day to make those payments." wsu financial aid assistant director april keim (kym) helps break it down. "for some families then, their payments might not be enough to make principal payments. If they've paid on it for 25 years, any debt on that would be forgiven. This lowers that to 20 years." the president's plan also calls for better student loan consolidation.... Where you might not necessarily lose a good interest rate. "kind of in the past, the way student loan consolidation works is you gotten a weighted average and you may lose some of those up front benefits ." "this plan is nothing new. President barack obama is just bumping up the start date from 2014 to next year." "that's very good news."critics say obama's plan could help him shore-up re-election support among young voters... Who helped him in 2008. But thomas will take any help he can get. "when i get into my career i don't want to be haunted by over-extraneous debt. Especially since a recent study shows tuition is up 8-percent compared to just a year ago.

The lack of rain and scorching temps have been tough on Kansas farmers... But that's just one of many problems that face those who raise organic produce. Clint Brauer took over his family's farm last year. He decided to grow produce organically, and sell it to local restaurants. The constant heat made everything Brauer tried to do harder, especially without chemically based pesticides and herbicides. "the tomatoes really struggled at times" "we had spiders start appearing, and I used to have birds and they'd sit on top of here and you'd see them diving in and see them grabbing stuff." Clint Brauer also has long term plans to sell his produce directly to customers... He says he's working on a way to have people order his food directly from the farm and he'll deliver it to their homes...

In a state that's used to strange creatures...it's one that's got local officials in florida really worried. It's a giant snail from east africa. It's one of the world's most invasive species. It's still unclear how the snails got in the state. In the last month a few were spotted at a south florida home. Now at least nine neighborhoods are infested and more than 20-thousand snails have been recovered. For ryan kesser, the snails took his garden and he says his appetite. <sot verbatim: (---sot: ryan kesser, lived there for 5 year, tape # 5, 16:46---) 'i see gigantic snails and they're really slivery and juicy and they have all kinds of fluids coming out (16:50).'" Don't forget to protect your plants as the weather cools down -- fact finder 12 says...water plants well the day or night before...that's because moist soil and higher humidity moderate temperature extremes. Mulch the plant with leaves, or cover with a light sheet-and get tender plants in a protected area -out of the wind. On the ground is ok-but not on concrete. Another alternative is to bring plants inside. And if your plants have frost after a freeze-don't wash it off....that will raise the temperature too quickly-and can damage cell tissue in the plant.

An earthquake could be felt in parts of kansas. A four point seven magnitude earthquake hit 50 miles east of oklahoma city early this morning. A number of aftershocks were felt in the area a short time later. There were no reports of serious damage from the quake.

**11/8/11            6pm**

What you felt last night... Has been called an aftershock... Factfinder 12 shows you how that's determined... Earthquakes come in clusters... Classified as foreshocks, the main shock and aftershocks. Foreshocks and aftershocks are just quakes that happen \*before\* or \*after\* a bigger quake in the same location. They can still be damaging. Aftershocks happen as the earth adjusts to the affects of the main earthquake. Scientists say they could continue for weeks or even months.

It will help our drought...but not fix it. That's the consensus following the two days of rain we've had this week. while the few inches that did fall will help things like recently seeded lawns...it didn't do much to turn around low level lakes. wellington city lake is about six feet below where it should be - this week's rain only raised the level three inches. if we have a couple more of those types of situations we feel pretty comfortable that we'll be getting back to pool or the level that we need to be based on the past . the wichita area is about eight inches below where it should be in regards to rainfall.

It attracts thousands of hunters to kansas each fall, but this year the pheasant and quail season could be a little disappointing. The season opens today, but experts say there may be fewer birds to aim at this year, and it's all because of mother nature. A lack of moisture in kansas may keep pheasants away. The best areas for hunting this year are expected to be north of eye-70 and west of u.s. 81. Those areas have been least affected by drought condition. Opening weekend typically draws fifty to 70-thousand hunters to our state, bringing with them lots of money for the economy.the season runs through january 31.

When a multi-million-dollar ticket scalping scam rocked the jayhawks last year, ku's chancellor reported it to the kansas board of regents.() the 9-member board also supervised the handling of former k-state football coach ron prince and his so-called "secret agreement" with the former athletic director.

((must have nats here)) but who would investigate a situation like penn state's scandal, if it happened here?

59:18 "this would be a situation where our board of regents would be interested in." 07 wichita state university vice president and general counsel ted ayres believes... The board of regents would take action.

08:51:26 "the members of the board of regents are appointed by the governor. And, confirmed by the senate. And they're appointed on a rotating basis." 51:35 we looked into how the board of regents works. Here's what we know. The board governs the six state universities. But the schools create their own policies and procedures. A university's respective president or chancellor makes sure those rules are enforced. The board basically oversees financial matters. When it comes to all other issues, a board spokeswoman says there's an "expectation" to report to the board. After all, it hires and fires university presidents. 59:57 "we feel we have an obligation to not surprise the board of regents." 3

Ayers served as the general counsel for the board of regents for a decade, before coming to wsu. He doesn't think a policy is needed for every controversial issue that pops-up. 08:56:11 "i think melissa, it's a situation of taking the time, to self-evaluate, use it as a learning experience, and suggest to people, there are ways to handle certain situations. You should always be comfortable in reporting a situation." 56:30 but the penn state situation has at least one state university re-thinking its procedures. In a letter to students and staff, ku's chancellor says the university is "examining its policies" when it comes to reporting crimes. K-state feels it has all the appropriate policies in place. And, ayers doubts wsu will add more rules. 57:19 "how many policies do you need? How specific can you be? Do you try to address every situation with a policy?" 57:27 for the factfinder 12 investigators, i'm melissa scheffler.

Residents living near the old cornejo and sons landfill now know what will happen to the gas that's developed there. The old cornejo and sons construction landfill on southwest boulevard hasn't accepted waste in almost a year. But the landfill is producing gas--and the state wants to make sure it doesn't move to the south and east. In a meeting last night..residents were told a system will be in place by the end of the week to get the gas out. <sot verbatim: 59:10 passive gas venting system, with wind blown turbines to extract the gas from subsurface environment and disperse it into the air in the immediate environment of the landfill. > degner says they're most concerned about methane gas and hydrogen sulfide. Student sound 4:02: i love playing in the snow...nats of winter driving student sound 1 4:54: i absolutely love cold weather nats of winter driving track: are you ready for winter? Student sound 2 5:39 nooooo..  
Student sound 3 6:40 heck no...i just know it's going to be really cold this winter  
Track: a lot of people think...we're bound to have a harsh winter...because of the very hot summer we just saw... Student sound 3 7:13 typically when summer is extremely hot we have extremely cold winters so i just expect an extremely cold winter. Track: well... Don't be so sure... In the past, winters following a hot dry summer...have been milder with below normal snowfall. (cover with 1981 summer video) take for example, after the scorching summer of 1981, wichita only recorded about 3 inches of snow through the entire season **weather video in chroma**: standup: making a seasonal forecast is a difficult thing to do because there are so many variables that come into play. A strong la nina is influencing the pattern once again, so this winter could be similar to last winter. A strong la niña has been partially to blame for the extreme drought we've been seeing La niña is colder than normal water in the pacific - that setup often means much of the central and southern u-s experience dry and warm weather. **Graphics in chroma** the drought will likely continue through the winter months for much of the area, as this is typically a dry season anyway. Cold, arctic outbreaks this winter should be brief, with milder stretches of weather in between. I'm expecting 3-4 good winter storms with rain, snow, and even some ice possible in the state. When it comes to temperatures and snowfall, i think we'll be near normal on both. Normal snowfall in wichita is about 15 inches kdot sound 28 we're ready to tackle the chore as it comes snow or ice this winter...road crews say they'll be ready kdot sound :14 trucks and equipment are ready, we have the snow plows ready to be attached to the trucks...our salt bins and sand bins are full so yes we're ready... K-dot covers more than 12-hundred lane miles in sedgwick county alone... Clearing all the highways, entrance and exit ramps can take a while -- so...be careful.... Student sound 1: 5:22 i just hope i don't get in a car crash honestly, but i don't feel it's going to be too bad because like it or not...winter is almost here...for at least a few months... Kdot sound :10 we're looking forward to spring (laughs)

Countries from around the world are getting into the holiday spirit. This was the scene in rio de janeiro today. They put the worlds largest floating christmas tree up. The 278 foot metal structure was built by a company in brazil and is wrapped in three-point three million bulbs. In comparison, the tree in new york's rockefeller center is only 73 feet high and has 30-thousand lights. However, that tree is real.

**11/28/11            6pm**

"I sheared it back right there. So this is going to be next year's growth." bob grelinger knows his scotch and virginia pines. He's been growing christmas trees on his derby farm for about 30 years. "now that tree looks awful sad right there."...and he knows a dying tree when he sees one. Grelinger says the summer drought caused him to lose more than a hundred trees and several thousand dollars..."a tree right here that's dead. He just died because of bad weather." grelinger says over the summer he was watering 24 hours a day. He even added a new hydrant and dug a new well just to save his crop..."all that was full of 6-8 trees and they all died probably because of the hedge row sapping al the moisture out." other tree farmers we spoke with had similar stories. Grelinger says the real effect of the unusually dry summer will come years from now with fewer of this year's seedlings alive to sell market. "i won't have a lot of profit this year but it'll be better next year." Grelinger says there are plenty of trees to go around...so there's no need to go for the other kind of tree. "we don't call them artificial. We call them fake."

The Kansas population grew between April 20-10 and July of this year. New census bureau figures released Wednesday show more than 18-thousand new people call themselves Kansans. That's up point-six-percent from the official count released a year earlier. The rate of growth is 32nd in the nation. Governor Sam Brownback has put a focus on growing rural populations - by creating some financial incentive programs to attract more people.

There's an old saying that a bad day on the golf course is better than a good day at work. What about a warm winter day on the golf course. "I have other things that I should be doing, but I'm not doing.(laughs)" We caught up with this three-some at Braeburn Golf Course. Actually, it's not unusual for them to be out in any kind of weather. "We'll play if it's 32-degrees and we'll play if it's 100-degrees." But 60-degrees just before New Year's? "Late December, this is unusual" Ronald told us he played better when our photographer showed up, but really, who's counting? "The golf is almost second for me anyway...just being out here on a day like this is worth it whether I'm shooting well or not." There was a man of the cloth in the group....so did that have any impact on the weather? "I prayed hard it would be a great day, no wind, beautiful and it turned out perfectly."

It wasn't a record...but certainly today was one of the warmest december 31sts we've ever lived through. the warm temps helped kansans end 2011 on a high note. we caught people wearing shorts and flip flops...enjoying summertime activities in what is normally the dead of winter. it's a sharp contrast from one year ago...when the temp never rose above freezing and parts of the state got pounded by snow. Kissing 2011 goodbye in style. I couldn't ask for better weather. It's just beautiful. Pretty unusual. It's cool. I wouldn't think that on december 31st we'd be sitting outside in shorts in old town with our dogs. a lot of people tell us the warm weather was a nice way to end what has been a tough year for them.

Remembering that you are going to die is the best way I know to avoid the trap of thinking you have something to lose. You are already naked. There is no reason not to follow your heart." that's apple founder and former CEO Steve Jobs talking in 2005 to graduating seniors at stanford. today, the world is mourning the loss of Jobs who died Wednesday. Jobs was the creative forced behind the I-pod, I-pad, and I-phone and was credited with turning Apple into the world's most valuable technology company . Steve Jobs founded Apple with his friend, Steve Wozniak. In August, C-N-N's Piers Morgan talked to Wozniak about his business partner and what made him great at his job. "He was always a step above and ahead, like a more advanced level of thinking. He was always very fast. He thought things out that you would ask questions, why don't you do it in red. He'd have five different good reasons why it should be blue, always well thought out." Jobs and Wozniak built their first commercial product, a primitive computer, in Jobs' parents' garage in 1976. Steve Jobs was 56-years-old.

A quiet sunday afternoon explodes in disaster. Randy henderson: 52:48 there's nothing left. Just debris spread over probably 100 yards in all directions. Charred remnants of a home blown apart in an instant. Neighbor charlie davis felt and heard the blast and rushed to the scene. Charlie davis: 32:43 there were people walking around, they came out of the house burned up, their clothes were burned up, their hair was burned. Four people were in the house...three were taken to the hospital. An emergency worker found the body of the other person buried in smoking rubble. Jim grawe: 1:09:50 people felt and heard the explosion from miles away. Margie eder: 1:07:20 it shook the house. It shook the windows. Margie eder lives a ways away...but heard the address on her scanner and grabbed her camera. She took some of the first photos of the scene. Eder: 1:06:40 it took me a little while to remember that, hey, that was the log house that i have admired ever since i moved out here. It was a pretty house. Now what's left of it...is unrecognizable. Investigators have one possible lead. Henderson: 50:37 there was some indication that yesterday they had a utility replaced, a hot water heater. That's the only thing we know of right now that is

out of the ordinary. While authorities ponder why the house blew up...friends and family wonder about the fate of the survivors who somehow got out of this alive. Jim grawe kwch 12 eyewitness news.

There's a lot of uncertainty about the future of the health care system.. Many states including kansas have joined in a lawsuit to challenge president obama's health care reform law. Meanwhile yesterday it was announced that the plug had been pulled on a major program in the law. With so many questions about health care...people in the hutchinson area got a rare chance to be examined for free. As eyewitness news reporter jim grawe shows us...it was a welcome opportunity at a time when seeing a doctor is becoming more and more of a challenge for people. It's new at 10. Most of us don't go to the doctor because we enjoy it. So...when more than a thousand people come on a saturday morning to be poked and screened for diseases...they clearly feel a need. Last year promise regional medical center's health and wellness expo likely saved betty webster's life. "the melanoma was here and the lymph glands are here and it had not had time to make it to the lymph glands or it would have been every where." Skin cancer is one of many illnesses that get diagnosed here on this day when doctors work free of charge. For some people, this is the only way they can see a doctor. "as a person who has some interest through my church in people who get left out of health care...there are a lot of them." While she has medicare now....frances burnett remembers when nobody needed health insurance. "i lived in a small town and we had a little small town doctor--in a small town we had a doctor--but maybe a dollar a visit." But many people here say its becoming harder and harder to get care in some cases.... Even with insurance. Dr. Emily horner 2:41:33 lately with dermatology it's incredibly difficult to get an appointment--you know, three to four to six months out. And

so people can come and get screened today. This is a one-stop shop... "if you were going to try to do this you might have to see several specialists so you can kind of do this in one stop." but it's only once a year.... There's no treatment...just diagnoses.. However...people like betty webster realize...that's nothing to sneeze at. "it may have very well saved my life." Jim grawe kwch 12 eyewitness news.

Nurses call it the most vulnerable time of your life...sick and in the hospital. Angie gragg would know, after working with thousands of patients at via christi st. Francis. She says there are ways for you to make it easier to navigate in and out of the hospital. And \*out of the hospital is where planning should start. Who is your spokesperson? Gragg says it's the first thing hospital staff will need to know-you would be surprised how many patients come here with no family members or no one they can contact for help. Graff recommends choosing someone to act on your behalf, or putting your wishes in writing, in case you're not able to communicate them.

It's called a durable power of attorney-you don't want to come into the hospital and be all doped up on medicine and try to make that decision. She says it's especially helpful for parents who have a child going to school out of town.

Durable power of attorney forms can be kept on file, for years, in case of emergency...if you keep it at home make sure someone knows where. But what if you don't have anyone? it is kind of a new

profession. Simone Kahn is an independent patient advocate...an extra set of eyes and ears is invaluable to that patient, to catch things to ask questions they might have not thought to ask. A patient advocate can also research treatment options for a patient's diagnosis and in some cases save the family money. If they need somebody there in the hospital setting to insure their safety and rights then that is what we will do for them or at the doctor's office to help reinforce things for them. Once you're \*in the hospital...Wesley's case manager Fran Bue, tells patients to keep a note pad and paper close by...you can think of a question to write down and at the time the doctor makes rounds or nurse comes in you may have already forgotten it. Standup, other things you can do... Ask about insurance coverage quickly, some plans only cover your stay if you've been admitted as a patient not just for observation. Have a list of all medication including their dosage and schedule with you. Carol Stricker is a liaison to patients at Wesley. She says your satisfaction with a hospital is more important than ever. Patients don't want to say anything because they feel like someone is going to take it out on them but we try to assure them that, that is not going to happen. Two years ago Wesley introduced the patient action line, where people can voice their concerns. It could be anything from my meal was cold to I can't get my call light to work. Standup, so speak up - for example, don't feel uncomfortable asking all staff who touch you to wash their hands first...it prevents infection. Today patients are viewed more as a consumer... And hospitals recognize they have to do more to get your business and make your experience a good one. And a little planning ahead...can improve \*your road to recovery.

Aftershocks continue to rattle Oklahoma... After a weekend earthquake that could be felt all over Kansas. But the rumbling Saturday night... Caught many by surprise. "Sedgwick County 911 in what city is your emergency? Actually it's not an emergency, it's an inquiry. Sedgwick County's 9-1-1 dispatch center received hundreds of calls like that one after Saturday's quake... but all the calls jammed up the system. At one point there was a ten minute wait for 9-1-1 callers. Officials say those calls could have prevented dispatchers from getting help to a real emergency..." "In a situation like this a person should turn on TV or radio and let local media tell them what's going on. It's certainly not an emergency call. It's newsworthy but not an emergency call. Because of situations like this... A new "non-emergency" system is being put in. As we told you last month... It will help dispatchers determine which calls are \*not\* an emergency... that program should be up and running in the next two weeks.

A viewer emailed us this photo. She found a black widow spider in her home. She found it in her sitting room. So are black widow spiders common to kansas? We went to carrie tiemeyer (tee-myer) who's known as the bug lady. She has a large collection of spiders including black widows. She says the spider is common to kansas but it's not everyday you find them in your house. "Carrie Tiemeyer/ bug lady (collects spiders) (spider2) 33:49 "you can find them in your house, generally they're not in your house. Usually on a back porch, front porch kind of in brush, but typically not in your house like brown recluses are. 34:01 tiemeyer says the reason they are probably in a home is because of the strange summer we had. If you see one it is best to kill it by stomping on it. Also, if you find one in your house, generally you will find more because spiders can lay hundreds to thousands of eggs at a time.

Losing harvey county's domestic violence response team is a big deal to city and county officials. It was discerning and disturbing to me...the program started almost two years ago...thanks to a federal grant. a grant that's been taken away. For daling mcmoran, and everyone at the university of kansas hospital poison control center...Every poison death...is one they take personally. I had read about the story in the newspaper and that i was interested in coming out and helping the community by providing some ways to make it safer for them. The story he heard...was that of two year old davin manly. According to his father, the child drank a clear liquid while under the care of an arkansas city babysitter...Police say the liquid was likely some sort of rust remover. Poisons often happen...just out of the clear blue. A fact brought these men and women here wednesday night...A refresher on the dangers of poison...

Among the crowd...davin's mother and grandparents...I know people at my work, after it happened, her husband built a cabinet that locked, so people have learned through this already. One thing they really try to get across in the program is how confusing it can be for a child to tell the difference between something they should drink and a chemical. As an example they take these two gatorade bottles...one has gatorade in it, the other filled with windshield washer fluid. But the presentation went beyond just chemicals...Cosmetics, that's the second leading cause of poisonings in the united states and it's not just mom's make up she has in a drawer, it's dads deodorant. Both organizers and the family of manly say if the information saves another child from being hurt...it was successful.

In the line of duty, radios are vital tools for communication.. but they aren't perfect - and officers know there are dead zones around town, where their radios don't work. kim pennington 51:54-12 a lot of times when we go into butler county to assist them, we lose radio communications even within cars with our responding units, so our dispatcher has to get on the phone, call their dispatch center and then we relay what our officers have said to us to their dispatcher and then they relay it to their field units. that delay, is about to go away. on tuesday, the wichita city council is set to approve a plan to replace the mobile radios with new digital ones. kim pennington 52:32-37 the radios will look identical on the outside, its the inside of them that become little computers. computers at the 9-1-1 dispatch center will change too. this new system should be faster and more clear to hear. eventually every radio will be switched out from police officers, to fire fighters to city maintenance crews, plus computers have to be changed, and that's going to be costly. The city's contribution is 4 million dollars, the county's side, more than 10 million. even though the city's money will likely be approved tuesday, it will take time to finish the change. look for the new system to be up and running by late 2012 or early 2013.

He's been honored the world over...and has a permanent place in u.s. History. But today...former senator bob dole was finally recognized for something he did years ago for south central kansas. Eyewitness news reporter jim grawe has the story from hutchinson. The senator bob dole bypass has been making travel around hutchinson easier since 2004. But the road's namesake had never been officially recognized for it until now. "i know this dedication is late. The bypass is almost worn out by now." Better late than never--- the former senate majority leader and presidential candidate... And his wife, former senator elizabeth dole were honored at the cosmophere. Dole helped secure the 40 million dollars in federal funds it took to build the bypass. "i didn't design it but at my age you'll take anything you can get." Now at 88, mr dole says he's enjoying the role of elder statesman...but not enjoying what he sees on capital hill these days. "i don't criticize a place i was in for 35 years, but it has gotten a little more confrontational. We had our differences but were usually able to work out something." Meanwhile mrs. Dole says kansans are a breath of fresh air for her after living so many years in washington d.c. "i have always thought of kansans as people who are down to earth, who are genuine, honest, tell it like it is. No hidden agendas, which is often quite different from what you find in washington." So revered at a time when politicians are more often reviled...the doles now head back to retirement in d.c. Although, they say kansas will always be home. Jim grawe kwch 12 eyewitness news.

I'm so fed up with what i consider the misuse of my property tax. So, some are trying to reverse a decision at wichita's city hall. Efforts are underway to let the public decide on whether a developer deserves tax incentives. Americans for prosperity started a petition drive today. The group is upset with the city

council's decision to provide millions in incentives for a boutique hotel. Eyewitness news reporter kim hynes has our continuing coverage... With what it's hoping to change. If you can print very carefully. By collecting one name at a time... "they have to live in wichita and they have to be a registered voter." This group hopes to give all citizens a chance to voice their opinion on giving wichita tax dollars to a downtown developer. "we have to put a stop to this insanity, at least what i consider insanity with our taxes." Donald fender and others here are upset with the city council's decision to provide millions of dollars in tax incentives to turn this old building into a boutique hotel. "who would go down now knowing this hotel was subsidized so heavily?" To prove their point...they have 60 days to collect about 25 hundred signatures. If that happens...the public will vote whether to take back a portion of the incentives...about two million dollars. "it's going to give people a voice to be involved with downtown development." But the developer says losing the incentive would not only hurt the hotel...it could also hurt future projects. "when you see this being challenged it makes it more difficult for a developer looking at this market to take this risk." It's a risk this group believes is worth taking. "this issue downtown needs to be resolved with a defeat."Kh eyewitness news.

Covering the nation tonight. President obama's administration says america will continue to support iraq even though us troops are coming home by the end of the year. One day after the president's announcement , the g-o-p candidates vying for his job are criticizing his handling of the iraq withdrawal. Drew levinson has the latest from new york. Iraqi's woke up to the front page news--all 40-thousand us troops will be out of their country by december 31st. "the iraqi people have the chance to forge their own future." the obama administration pushed to keep thousands of troops in baghdad if the us could work out an agreement with the iraqi government. The deal was off after iraq's prime minister nouri al-maliki said those forces could not be shielded from prosecution or lawsuits. Republican presidential candidate mitt romney questioned why it fell apart. "was the presidents administration out negotiated by the iraqi leaders? Was there failure to communicate the needs of their military and our own? Or was it a simply political recalculation?" others criticized the president's withdrawal announcement. "i think it is bad strategy, going to leave iraq vulnerable, very vulnerable and secondly you shouldn't announce it to the enemy." saturday prime minister al-maliki said he still wants america's help training iraqi forces .. Secretary of state hillary clinton says the us is committed to supporting iraq as it transitions to a stable democracy. "we want to emphasize that america will stand with our allies and friends, including iraq, in defense of our common security and interests." the united states expects to keep about 17-hundred americans in iraq to continue diplomatic relations. protestors interrupt a meeting on child poverty. wichita was the second stop on a series of srs forums. one of the featured speakers was robert rector. he's from the conservative-minded "heritage foundation." rector believes... child poverty could be reduced if single mothers got married. "These young women are not hostile to marriage. They dream of being married at some point in their lives. But they don't think it's important to be married before they bring children into the world. And that's a tragedy for them. And it produces long term poverty for them and the children." Rector says... The state should educate young people on marriage. And, he says he is \*not\* advocating reducing aid to single mothers.

Covering the nation tonight. Time is running out for lawmakers to figure out how to cut the deficit. A 12 member committee is in charge of cutting one point two trillion dollars from the deficit over the next decade. The panel needs to present a deal blueprint by tomorrow. The congressional budget office then has two days to review the proposal before a vote. The white house says congress needs to do its job and make tough choices. Democrats and republicans on the committee are deadlocked over taxes. <sot verbatim: (:52-1:01) (sen pat toomey/(r) pa - cbs) "on the other side there was an insistence that we have a trillion

Protesters fled from an armed vehicle as it tried to chase them down in the city of alexandria. For a fifth straight night, demonstrators clashed with police throwing stones... And molotov cocktails. Security forces fought back launching cans of tear gas. "it is disgusting they have to go they have no right to have any claim on any authority to make any decisions in this country ever again!!" protesters are demanding an immediate end to military rule in egypt. So far, the country's leaders have only agreed to move up presidential elections. Wednesday, one of the candidates called for the violence to stop. "this has to come to an end. This is unacceptable." the u-s and the u-n have condemned the violence against demonstrators. U-s officials are also trying to secure the release of three american college students accused of throwing fire bombs at security forces. "our officials in cairo do remain in close contact with egyptian authorities regarding their cases." egyptian police questioned the students again wednesday. One of them -

19-year-old derrick sweeney - had a 90-second phone conversation with his mother. "i asked him if he threw anything off a roof and he said, 'no, we didn't do anything wrong.'" egyptian authorities say the students will be detained for at least several more days pending an investigation.

A kansas teen's tweet lands her in trouble...because she tweeted a few joking words about the governor during a statehouse field trip. emma sullivan got called to the principal's office this week, with a request for a letter of apology to the governor. the reason is this post that she made on monday. "he started off with saying that he had to do a bunch of damage control. And that i needed to do damage control and that i needed to fix this." one issue sullivan has is how the district found out about the tweet. it was from an e-mail sent by a brownback staffer, forwarding her remark to a district official. emma says she hasn't written the apology letter yet and hasn't decided whether she will. a spokesperson for the governor says the actions were taken because the comments weren't respectful.

A kansas teen who wrote a disparaging tweet about governor brownback says she won't apologize. Emma sullivan said today that she's not sorry about what she tweeted and an apology letter won't be necessary. The shawnee mission east senior was in topeka last monday when she sent the tweet. Brownback's office saw her post and she was called to the principal's office and told to write an apology letter. The letter is due tomorrow. Sullivan has received a lot of support with many saying she shouldn't have been targeted.

From aviation to agriculture and even infastructure carl brewer 113226-29 they are one of the largest growing economies, just like china. Both are also aware of the concerns brought up by councilmember michael o'donnell, who says he didn't know the total cost of the trip. Michael o'donnell i absolutely would've changed my vote had i had all that information in advance. Turns out, the trip cost two thousand dollars less than expected -- the total was just over 13-thousand dollars. The mayor says there is usually a cost to pay for generating business, whether it be in africa or oklahoma. And he feels o'donnel's concerns could have been addressed before the trip. I'll be quite honest with you, many of the council members came and asked me ok mayor what are we getting from this, what are you hoping to achieve, so they had that conversation with me from the jeff longwells, to james

clendenon, those guys had that conversation with me, so its about communication". Despite the controversy, brewer says it will never deter him from making similar trips in the future. Carl brewer we are always going to work aggressively to bring new businesses here, and thats one of our number one goals is to diversify what we have and grow what we have.

**Community Calendar:**

Sunflower Broadcasting provides a beneficial service for our community by providing an online Community Calendar to our viewing public. The Community Calendar is available for local groups and individuals to promote their events free of charge. It can be accessed through three of our websites: [kwch.com](http://kwch.com), [fetchtoto.com](http://fetchtoto.com) and [kansascw.com](http://kansascw.com). We've designed our calendar to be used by the public and monitored by our staff. Each month we list hundreds of events that happen throughout our viewing area that services nearly the entire state of Kansas. Some of these events include, but are not limited to, non-profit events, fine arts events, civic club meetings, city hall meetings, family celebrations, church functions, movie screenings and local music performances.

Third Quarter 2011

***Tours***

KWCH offers tours to groups interested in learning how a television station operates. Tours are tailored to the individual needs of the group, which usually consists of school-age children. It focuses on the history of the broadcasting facility and explains the types of jobs offered in each department. Tours are conducted by the Promotions Department, and questions are welcome throughout.

Also includes comments by Sandy and Barb Herzlich, Mark’s parents; Tedy Bruschi, stroke victim and former NFL player, now an ESPN analyst; Tom Coughlin, head coach, New York Giants. (C: Byron Pitts - P: Clem Taylor)

## 48 HOURS MYSTERY

- 10/01/11      PREEMPTION

## 48 HOURS MYSTERY (continued)

- 10/08/11      **48 HOURS MYSTERY: “Playing with Fire” (9:00-10:00p)** - In the early morning hours of September 2, 2002, two young men were found executed in a burning Mercedes SUV in an upscale North Hollywood, California neighborhood. The victims were Michael Tardio, 35, a part-time model and doorman at The Garden of Eden – at the time Hollywood’s hottest nightclub – and his friend, 31-year-old Christopher Monson. What initially looked like a drug or gang-related murder, turned out to be something entirely different, but the crime scene left little forensic evidence to go on. Retired veteran Los Angeles Police Department Detective Bill Cox, who spent four years on the case learned that Tardio’s girlfriend was Sandy Bentley, who along with her twin sister, was a former live-in girlfriend of Hugh Hefner at the Playboy Mansion. She was also an ex-girlfriend of Mark Yagalla, a former Wall Street hedge fund manager who was convicted of running a multi-million dollar Ponzi scheme. During her relationship with Yagalla, he gave her more than \$6 million worth of expensive gifts. When federal officials came after these gifts, Bentley secretly kept \$1 million worth of jewels and furs she was legally required to forfeit. Police believe that Tardio and Monson were murdered when Tardio set up a deal to sell the jewelry to an unidentified buyer. When Bentley was questioned by police, she initially denied the fact that Tardio and Monson were selling the jewelry. When threatened with a possible jail sentence, she told them the truth. The strongest lead police had was a telephone number Tardio gave to Bentley for Michael Jacobs, a convicted felon who was seen with Tardio at the Garden of Eden. Police believe he was the middle man in the jewelry transaction and the only person who knows the identity of the intended buyer, known only as “Mister Big”. Jacobs has refused to give any information to the police or 48 HOURS. Authorities are hoping that viewers of this broadcast may provide a new lead that could help them in solving the case. Interviewed: Retired LAPD Detective Bill Cox; Andrew Blankstein of the Los Angeles Times; Izabella St. James, former girlfriend of Hugh Hefner; Mark Yagalla; Brian Bieber, Yagalla’s lawyer; Michelle Braun, Internet madam; Mike Degnan, FBI Special Agent; Attorney Eugene Licker; Linda Kim, jewelry collector and international weapons broker; Chris O’Connell, 48 HOURS investigative producer. Onscreen graphics: The Los Angeles City Council has renewed a \$75,000 reward for information leading to a conviction in this case. (C: Peter Van Sant - P: Chris O’Connell, Ira Sutow, Greg Fisher) (OAD: 02/19/11)
- 10/08/11      **48 HOURS MYSTERY: “Amanda Knox: The Untold Story” (10:00-11:00p)** - a followup to “A Long Way From Home” (OAD: 04/12/08) and “American Girl: Italian Nightmare” (OAD: 04/11/09), the story of Amanda Knox, an American exchange student who was convicted, along with her Italian boyfriend, Raffaele Sollecito, of murdering Amanda’s British roommate, Meredith Kercher in 2007. On Monday (10/03), Knox and Sollecito had their convictions overturned and were acquitted. This report details the manipulation and sexual intimidation Amanda endured while behind bars, in her own words, from a letter she wrote. Also included, are exclusive video diaries, collected over the course of ten months, from Madison Paxton, Amanda’s best friend, who moved to Italy to support her friend. Interviewed: Madison Paxton (friend); Bob Graham (investigative journalist/CBS News Consultant); Curt Knox (Knox’s father); Edda Ellis (Knox’s mother); Nina Burleigh (author, investigating the case). (See also: “A Long Way From Home” (OAD: 04/12/08); “American Girl, Italian Nightmare” (OAD: 04/11/09), which was a followup to “A Long Way From Home”; and “American Girl, Italian Murder: The Verdict” (OAD: 12/05/09), a followup to both “American Girl, Italian Nightmare” and “A Long Way From Home”). (C: Peter Van Sant - P: Doug Longhini, Clare Friedland, Paul LaRosa, Sara Ely Hulse)

## 48 HOURS MYSTERY (continued)

- 10/15/11      **48 HOURS MYSTERY: “Redemption Song”** - a report on the 1985 death of Natalie Antonetti, a woman who was part of the Austin, Texas music community. She was found beaten at home by her son, Johnny Goodie, and remained in a coma for two weeks before she died. The police investigation at the time focused on Marty Odem, a restaurant manager and sometime male stripper, who had a track record of violence. Police just did not have enough to go on, and he was never charged. He was later convicted of an unrelated rape and sent to prison; police then considered the case closed. In 2007, Austin Police Detective Tom Walsh reopened the cold case when an anonymous call came in naming Dennis Davis, a well-known name in the Austin music scene as a suspect. Davis had dated Antonetti, and at the time had what seemed like a solid alibi. But now, his wife, Becki Davis, was the one who called the police. Detective Walsh has found several women who have become key players in the investigation: Davis’ then-girlfriend Ampour Garcia-Crow is certain he was not with her on the night in question; Linda Bless, who has seen his anger; and an ex-girlfriend Gelinda, who says that Dennis Davis confessed the murder to her. In 2009, 24 years after the murder, Davis was arrested. In April 2011, the case went to trial. Though the prosecution’s case was largely circumstantial, they had the phone call that started it all. Dennis Davis was found guilty of the murder. At the sentencing hearing there was another shock: Becki and Dennis Davis had reconciled. He was sentenced to 36 years behind bars. The defense team still insisted they had a solid rebuttal but were unable to present their case. On screen graphic: Dennis Davis will be eligible for parole in 2028. He will be 78. He is appealing the verdict. Included interviews with: Natalie Antonetti’s son and musician Johnny Goodie; Mark Pryor, Austin Assistant District Attorney; Mark Hallman, Antonetti’s friend; Austin Police Detective Tom Walsh; Dennis Davis, the suspect; Davis’ former girlfriends, Amparo Garcia-Crow and Linda Bless; defense attorneys Wade Russell, Efrain De La Fuente. (C: Tracy Smith - P: Chuck Stevenson, Sarah Prior)
- 10/22/11      **48 HOURS MYSTERY: “The Killing Fields”** - a report about a desolate strip of land between Houston and Galveston where over 30 young women and girls have disappeared or have been murdered, and a followup to “Killer in Friendswood” (OAD: 05/01/97), which detailed the disappearance and death of 12-year-old Laura Smither. With this weekend’s release of a film entitled “The Texas Killing Fields”, attention has been rekindled about some of the cases, including the story of Krystal Baker. In 1996, Baker, whose great-aunt was movie star Marilyn Monroe, disappeared from Texas City and was found two weeks later near the Louisiana border, beaten to death and sexually assaulted. In 1997, Laura Smither went out to jog and disappeared and her body was found weeks later. When another young woman disappeared, the Smithers joined the search, as did Tim Miller, whose daughter, Laura Miller, was kidnaped and murdered when she was sixteen. Laura was one of four young women murdered and dumped along a remote area that earned the name “the killing fields”. Journalist Skip Hollandsworth chronicled the case for Texas Monthly, in which a brilliant scientist, Robert Abel, became a suspect, but police could never find a connection. Police detectives Brian Goetschius and Michael Land are investigating, but as Hollandsworth says, it’s clear that it has been various men who have done different things to these women, not one serial killer. As the movie is released, there is the reality that many of these cases remain unsolved. The actors hope that the film will help make a difference. Just after the film wrapped, a big break came up in the Krystal Baker case: DNA was submitted to a nationwide computer data bank, and a Louisiana man, Kevin Edison Smith, arrested on a drug charge, came back as a match. He has been charged with murder and will go on trial in December. The Smithers don’t have DNA evidence, but they believe they know who killed their daughter: William Reece, the prime suspect in another case. Motivated by his loss, Tim Miller founded the rescue group Equusearch, which over the years, has helped look for missing people and located scores of bodies. For now, the killings seem to have stopped: no new cases of murder have arisen. Included interviews with: journalist Skip

Hollandsworth; screenwriter Don Ferrarone, actor Sam Worthington; investigators Brian Goetschius and Michael Land; Jeanie Baker, mother of victim Krystal Baker; Bob and Gay Smither, parents of victim Laura Smither; Tim Miller, father of victim Laura Miller. (See also: "Killer In Friendswood", OAD: 05/01/97 and "Prime Suspect", OAD: 10/23/97) (C: Erin Moriarty - P: Lourdes Aguiar, Alec Sirken, Jenna Jackson, Chris O'Connell)

## 48 HOURS MYSTERY (continued)

10/29/11

**48 HOURS MYSTERY: “Murder In The OC”** - A report on the 1994 murder of millionaire businessman Bill McLaughlin in his Newport Beach, California home. After his divorce, McLaughlin, a devoted father and family man became involved with the much-younger Nanette Johnston, who it was later discovered, made a habit of seeking out wealthy men to date. Following the murder, police initially considered a business associate, but then focused their investigation closer to home. His ex-wife and daughters had airtight alibis. Nanette Johnston’s alibi did not exactly check out: she had been at her son’s soccer game with another man, Eric Naposki. McLaughlin’s family, when asked, knew nothing about him, but police referred to him as Nanette’s boyfriend. In his first on-camera interview regarding the case, Naposki, once a professional football player for the NFL, says that Nanette Johnston was his girlfriend in 1994, and he had his own plans of marrying her. He says that Johnston told him that McLaughlin was once her boss but had become her business partner and that there was no romantic relationship -- she had led him to believe that McLaughlin’s money was her own. Though he was a suspect, police never had enough to bring the case to trial. Nanette was charged with theft, pleaded guilty, served some time, and then married and divorced several very wealthy men. Naposki moved on with his life; moving to the East Coast and becoming a personal trainer. In 2009, police called the McLaughlin family and told them they had arrested Nanette Johnson Packard McNeill and Eric Naposki for the murder. According to Naposki, the only person to profit from McLaughlin’s murder was Nanette. With no fingerprints or DNA, Orange County Deputy District Attorney Matt Murphy had no problem with Naposki’s attorneys blaming Johnston, but still believes Naposki pulled the trigger. After four weeks of trial, the jury convicted Naposki of murder. **On screen text graphic:** Nanette Johnston sued the McLaughlin family soon after his murder for money she felt she was entitled to. They settled for \$220,000. Eric Naposki's lawyers have filed to overturn his conviction. They argue favorable evidence was lost because prosecutors waited so long to file charges. Included interviews with: daughters Jenny McLaughlin and Kim McLaughlin; brother Patrick McLaughlin; Don Kalal, McLaughlin’s best friend; lead detective Tom Voth; Eric Naposki; Angela Licata, Naposki’s sister; Angelo McDonald, defense attorney. (C: Troy Roberts - P: Patti Aronofsky, Gayane Keshishyan)

## **48 HOURS MYSTERY (continued)**

11/12/11

**48 HOURS MYSTERY: “Pvt. Needham’s War”** - a report on the case of Pvt. John Needham, a decorated soldier diagnosed with traumatic brain injury (TBI) and post-traumatic stress disorder (PTSD), and who investigators say beat his 19-year-old girlfriend Jacque Villagomez to death with his bare hands in September 2008. Needham took responsibility for the murder, but remembered little of the crime, recognizing only that something inside him had snapped. After serving in Iraq, Needham had returned home, shattered physically and emotionally. He also suffered from combat injuries and was prescribed drugs which he downed with alcohol. He had known Villagomez, who had also struggled on and off with drug addiction, for only a few months when she moved in with him; his drinking escalated after that. After his father, Mike Needham Sr., told Jacque that she had to move out and she had agreed, an old girlfriend, Renee Stoner, came to the house, which upset Villagomez. An argument between the two women broke out, resulting in Stoner’s departure and a call to 911. When police arrived, they found Jacque Villagomez battered and near death, with John Needham naked, crying, and smeared in blood. There was no evidence that anything other than Needham’s fists were used to beat Villagomez and he was never able to provide a clear explanation for the killing. Released on bail, his father sought to get his son the care he believed he needed and insisted that the crime was not murder. The father argued that if not for Needham’s war injuries, Villagomez would be alive today. To make his case, Mike Needham Sr. allowed investigative reporter Michael de Yoanna and a team of filmmakers to document the unraveling of his son’s life. Before his trial, John visited his mother in Tucson, AZ in 2010 for additional back surgery. His brother, Mike Needham Jr., came to visit from California. Shortly after his arrival, Mike found his brother unresponsive -- he was dead at the age twenty-six. His death was determined to be from an overdose of painkillers, but the question remains as to whether it was an accident or suicide. The prosecutors in the Villagomez case says that John Needham may have been a good soldier, but that he needed to be held accountable for what he did. On screen text graphic: 48 Hours Mystery reached out repeatedly to the Army for a response to John Needham’s story. The Army declined to comment. Interviewed are: Villagomez’s close friends Sarah and Spencer Savino; Mike Needham, Sr. (father) and Mike Needham, Jr. (brother); Joe Gaul, Orange County homicide detective; Michael de Yoanna, investigative journalist and CBS News consultant; Dr. Richard Friedman, Professor of Psychiatry, Weill Cornell Medical College; Michael Becker, public defender; Steve McGreevy, Orange County prosecutor. (C: Troy Roberts - P: Chris Young Ritzen, Daniel Junge)

## 48 HOURS MYSTERY (continued)

11/19/11

**48 HOURS SPECIAL PRESENTATION: “Vanity Fair: Hollywood Scandal”** - a trio of investigations presented by staff writers of *Vanity Fair* magazine. 1) **“Natalie Wood’s Fatal Voyage”** - Sam Kashner reports on the just re-opened case of actress Natalie Wood’s death by drowning. This past weekend, after thirty years of rumors, the Los Angeles police department has re-opened the investigation. On Thanksgiving weekend in 1981, Natalie Wood, her husband Robert Wagner and Christopher Walken, her co-star in her latest film, were boating off of the coast of Catalina Island, on Wagner’s vessel, the *Splendour*. Hours later, Wood’s body was found floating in the Pacific Ocean. An investigation found no suggestion of foul play and it was ruled an accidental drowning. Now, based on new information, the police have re-opened the case. Interviewed are: Dennis Davern, the captain of the boat, who now admits that he lied to police about that night; Marti Rulli, a longtime friend of Davern’s who has spent thirty years investigating the death; Mart Crowley, a close personal friend of Natalie Wood and Robert Wagner; Marilyn Wayne, who was on a nearby boat that night; Detective Duane Rasure, the original investigator on the case. In a written statement, the Wagner family says that it supports the investigation and trust the new information will be judged on the credibility of the source. 2) **“The Gangster and The Goddess”** - Patricia Bosworth reports on the 1958 stabbing death of gangster Johnny Stompanato. Actress Lana Turner was a much-married, Academy Award-nominated actress who became involved with Stompanato, not knowing he was gangster Mickey Cohen’s bodyguard. She tried to break off the relationship, and during an argument between the two at her Beverly Hills home, he was stabbed to death by her daughter Cheryl Crane. Crane was charged with murder, put on trial and the event was eventually ruled a justifiable homicide. Turner continued her career and died at age 75, though many still believe that Turner was the one who did the stabbing. Today, Cheryl Crane writes murder mysteries. Interviewed are: Cheryl Crane, Turner’s daughter; Hollywood producer George Schlatter; John Ibrahim, the son of Johnny Stompanato, who doubts the official account of the crime; Eric Root, hairdresser to the stars, who says that Turner admitted to him that she did it. 3) **“The Miranda Obsession”** - Brian Burrough reports on Miranda Grosvenor, a woman who for the past forty years was known to have befriended, over the telephone, dozens of Hollywood actors, directors, rock stars and politicians. Self-described as a leggy, beautiful blonde, she was viewed as something of a muse to many of these powerful men. Writer Buck Henry was one of those who became a friend, and after a time he realized she was misrepresenting herself. Music producer Richard Perry became obsessed with her and demanded to meet her. When he did, in a darkened hotel room in New York City, it was clear she was not the person she was presented herself to be. He soon ended the relationship. Whoever she was, she was not a stalker -- she just called people on the phone and developed ongoing telephone relationships. For the first time since Burrough located her twelve years ago, she agreed to an interview, with the understanding that her real name not be revealed. Featured are interviews with Buck Henry; Richard Perry; and Miranda Grosvenor. Special correspondents for this 48 HOURS SPECIAL PRESENTATION: Sam Kashner, author, “Natalie Wood’s Fatal Voyage”, *Vanity Fair*; Patricia Bosworth, author, “The Gangster and The Goddess”, *Vanity Fair*; and Bryan Burrough, author, “The Miranda Obsession”, *Vanity Fair*. ## **48 HOURS MYSTERY (continued)**

11/26/11

**48 HOURS MYSTERY: “Murder at the Manor”** - a report about Harold “H” Landry, a self-made Cajun millionaire who left behind his life in Louisiana to pursue an international romance with a British woman he met online and how this seemingly perfect relationship ended when Lucy Landry was murdered at their home in February 2010. Landry confessed to stabbing his wife to death. Landry, or “H”, as he is known to his friends, is a larger-than-life man who, after making a fortune in Louisiana, went looking for love online at the age of fifty-three. In 1989, he met Lucy Davies, a 28-year-old woman with a child who lived in the United Kingdom. His friends thought the romance seemed more like a business deal, and when Lucy became pregnant, Landry settled into a new life as a retiree and new father. Ten years later, Lucy asked for a divorce. According to his friends, he was in a terrible state and didn’t know what to do. Then Lucy Landry was dead. He didn’t deny that he killed her. The trial began for “the American Millionaire Murderer”, as he was known in England, and the past came back to haunt him. In 1994, Landry had shot a man named Chris Pine, the angry husband of his girlfriend at the time. According to his attorney, who subsequently became a friend, his defense was that it was self-defense. He listened to his lawyer and was found guilty of the much lesser charge -- aggravated battery. He appealed, and eventually all he got was probation, a fine and some community service. Shortly afterwards, he began his new life with Lucy, who, he says, knew all about his previous crime. According to his friends, the marriage was collapsing because Landry believed Lucy was having an affair. He went to Mexico to cool off and when he returned, she had moved her boyfriend into the house. He was furious; divorce proceedings began -- and then Lucy Landry was dead. Shortly afterwards, the trial began, with Landry receiving an initial advantage: the Chris Pine shooting was ruled as inadmissible. His lawyers argued that the fight was the latest and last example of Lucy goading him with never-ending financial demands and threats. In a relatively brief trial, very different from American standards, that lasted eight days, Landry was convicted of murder. On screen text graphic: Landry is planning to appeal both murder conviction and sentence, a process which may take years. Interviewed: Harold “H” Landry; Lucy Landry’s son James, from a previous marriage; Landry friends Wanda and Ernie Richardson; Pat Fanning (lawyer and friend); Helen Knifton; Police Officers Steve Elcocks, Ian Booth, Barney Tyrney; Kristin Harton (Landry family babysitter from 1994); Richard Vernalls, reporter, Worcester News; Andy Childs, one of Landry’s attorneys. (C: Richard Schlesinger - P: Allen Alter)

**48 HOURS MYSTERY: LIVE TO TELL: “Hunting Humans” (9:00-10:00p)** - On July 29, 2007 Shea McDonough of Chelmsford, Massachusetts, returned home and left the back door open for her brother, not knowing he was spending the night at a friend’s house. Hours later, her parents were startled by a sound coming from her room. They thought Shea was having a bad dream. When her father Kevin went to her room to check on her, he saw a large masked man standing over her with a knife at her throat. He jumped on top of him and they struggled and tumbled to the floor. His wife Jeannie came to the room and tried to grab the blade of the knife with her bare hand. Kevin told Shea to call 911. When the police arrived they were able to apprehend the intruder, Adam Leroy Lane, a trucker from North Carolina. A search of his truck revealed more weapons and a DVD about a serial killer, entitled “Hunting Humans”. Police put out an APB to other police departments on the East Coast to see if there were similar incidents. Seventeen days before the attack on the McDonough family, a Pennsylvania woman, Darlene Ewalt, was murdered while talking on the phone on her front porch. Her husband Todd would become the prime suspect. One day before the attack on the McDonough family, Monica Massaro of Bloomsbury, New Jersey was murdered in her home, which was in the vicinity of a truck stop. Detective Sergeant Geoff Noble had seen the APB about Lane and contacted the police in Chelmsford. They told him they had found a receipt in Lane’s truck from Bloomsbury, New Jersey. When Noble arrived in Chelmsford, he and his team inquired about the whereabouts of Lane’s truck and were told that the rented truck had been returned to its owner, who threw Lane’s possessions into a dumpster. They retrieved his personal property and sent it back to their forensic lab in New Jersey. Before they returned home, they questioned Lane, who realized they knew he had killed Monica Massaro so he eventually confessed to stabbing her. Several weeks after his knives were submitted to the forensic lab in New Jersey, the results showed that they contained DNA from Monica Massaro and Darlene Ewalt. This information exonerated Todd Ewalt. Lane reached a plea bargain in the McDonough case and was sentenced to 25-30 years in a Massachusetts state prison. For the murder of Monica Massaro, he was sentenced to serve 50 years in a New Jersey state prison. As part of another guilty plea deal, Lane was sentenced to life in prison for killing Darlene Ewalt. The McDonough family attended all of the sentencing hearings to support the other families. Jeannie McDonough wanted to know what would make someone like Lane start killing people and decided to write a book about it. Onscreen graphics: Adam Leroy Lane was convicted of assaulting another woman in Pennsylvania. He will spend the rest of his life in prison. Jeannie finished her book, “Caught in the Act”. Narrated by: Shea, Jeannie and Kevin McDonough; Detective George Tyros of the Chelmsford Police Department; Todd Ewalt; Ed Marsico, Jr., District Attorney from Pennsylvania; Nicole Pogasic, Todd and Darlene Ewalt’s daughter; Kerry Ahern, Assistant District Attorney from Massachusetts; Detective Sergeant Geoff Noble of the New Jersey State Police Department. **48 HOURS MYSTERY: "Secrets of a Marriage" (10:00-11:00p)** - a report on questions surrounding the apparent suicide of Jocelyn Earnest, a successful businesswoman who was found dead in her Forest, Virginia home in December 2007, from a gunshot wound to her head -- with a revolver by her side and a suicide note on the floor. Investigators believe that the scene was set up: she was shot, her body was then moved and the scene arranged to suggest a sexual assault. Also, the note mentioned financial problems and a new love. To the investigators, it did not seem like a suicide note. They also found two fingerprints on the note they say matched those of her estranged husband Wesley Earnest, who was living and working in Chesapeake, Virginia -- more than three hours away. Jocelyn and Wesley Earnest met and married in 1995. With both making good salaries, they decided to build a multi-million dollar vacation getaway home on Smith Mountain Lake; but soon after, the couple's nine-year marriage was crumbling. Wesley was seeing another woman, Shameka Wright. When Jocelyn learned about Shameka Wright, she and Wesley separated and she filed for divorce. As the divorce proceedings started, it was the lake house they fought over: she wanted it sold. Investigators say he didn't want to let it go. In fact, Wesley, who was in charge of the couple's finances, was in a fix with loans, credit card debt and a more than \$6000-a-month mortgage on the lake house. Investigators thought Wesley Earnest had killed Jocelyn for money. Fifteen months after the death, another bizarre twist occurred in this case: the multi-million dollar lake house burned to the ground while Wesley Earnest was out on bond awaiting trial. Investigators believed he was involved because the huge insurance payoff would resolve a lot of debt. At his April 2010 trial, the prosecution painted Earnest as a manipulative, desperate, greedy man who staged the murder scene and typed the suicide note himself. The jury found him guilty, but a mistrial was declared when it was revealed that jurors had read Jocelyn's journals, which had been ruled inadmissible, but were mistakenly provided to the jury. Seven months later, and more than two-and a half years after Jocelyn Earnest's death, another trial began. Once again, Wesley Earnest was found guilty of first-degree murder. The jury recommended a sentence of life in prison plus three years. The judge agreed. Onscreen text graphic: Wesley Earnest's first appeal was denied. Earnest and Shameka Wright have ended their relationship. Included interviews with: Wesley Earnest; his mother Patricia Wimmer; his girlfriend Shameka Wright; Jocelyn Earnest's sister Laura Rogers, mother Joyce Young and father Bill Branham; Marcy Shepherd, close friend of Jocelyn's; investigators Mike Mayhew and Gary Babb; Joey Sanzone, defense lawyer; prosecutors Wes Nance and Randy Krantz; Wesley Earnest's friends Tim McGovern, Sonya Stevens; Jocelyn Earnest's friend Jennifer Kerns. **48 HOURS MYSTERY: LIVE TO TELL: "Three Days Before Christmas"** - the story of sisters Linae and Tricia Tiede who in December 1990, were held hostage by two men -- Von Lester Taylor and Edward Steven Deli. Taylor and Deli invaded the family cabin in Oakley, Utah and shot their mother, father and grandmother. The sisters owe their lives to their quick-thinking uncle, Randy Zorn, and their heroic father, Rolf, whose fierce determination gave him the super-human strength needed to ignore his own pain and save his daughters. The Tiede family had gone to spend Christmas at the family cabin. Sisters Linae and Tricia Tiede, only twenty and sixteen years old respectively, were forced to witness the murders of their mother and grandmother. They also planned to burn down the home and take the sisters hostage. The sisters drove the men on snowmobiles past their Uncle Randy, who realized something was dreadfully wrong. His brother, Rolf, though wounded, was somehow able to get on a snowmobile and alert Randy as to what had happened and Randy called 911. The police caught Taylor and Deli and rescued the girls. Taylor and Deli were charged with the murders, aggravated kidnapping, arson and the high-speed chase. Taylor eventually pled guilty to two counts of capital murder. He opted to go before a jury instead of a judge, and was sentenced to death for the two murders. Deli went to trial. The sisters testified at the trial, as did their

father, whom Deli had not realized had survived. Deli was convicted of second degree murder, with no option for the death penalty because of a jury member holdout. Today, the family continues to return to the cabin, enjoying their life there. In November 2008, Rolf Tiede died from cancer. On screen text graphic: Von Lester Taylor, sentenced to death for two murders, has been fighting for his own life ever since. He remains on death row, appealing his case. Included interviews with sisters Linae Tiede and Tricia Tiede; their uncle, Randy Zorn; Joseph Offert, lead investigator; Brad Wilde, patrol deputy; their aunt, Claudia Tidwell Nelson; Thomas Brunker, assistant attorney general; Nathan Coats, Linae's husband. ## 48 HOURS MYSTERY (continued)

- 12/17/11      **48 HOURS MYSTERY: "Long Island Serial Killer"** - a followup report on the disappearance of professional escort Shannan Gilbert, near Gilgo Beach, New York. The search for Shannan led to the discovery of a total of ten bodies in the scrub brush of Gilgo Beach, Long Island, New York, leading police to suspect the work of a serial killer. In this report, Suffolk County Police Commissioner Richard Dormer appears in his first one-on-one interview with Correspondent Erin Moriarty since remains identified as Shannan's were found this week. The other identified bodies included: Melissa Barthelemy, Amber Costello, Megan Waterman, and Maureen Brainard-Barnes, all who had been working as escorts, advertising their services on Craigslist. After police found and identified the previous four women, they discovered more bodies and body parts along the beach. Possible suspects include: Joseph Brewer, who hired Shannan; Michael Pak, Shannan's driver, who took her to Brewer's house; and Peter Hackett, a retired emergency services doctor who called Shannan's mother a few days after she went missing. Interviewed: Sherre and Sarra Gilbert, Shannan's sisters; Suffolk County Police Commissioner Richard Dormer (new and original footage); Attorney Robin Sax who was hired by the Gilbert family to help with the investigation of Shannan's disappearance; Gus Colletti, whose house Shannan ran to for help, resident of Oak Beach and neighbor of Joseph Brewer; Lynn Barthelemy, Melissa's mother; Steven Cohen, the Barthelemy family attorney; Vernon Geberth, retired New York City homicide commander; Dave Schaller, Amber Costello's roommate; Lorraine Ela, Megan Waterman's mother; and Melissa Cann, Maureen Brainard-Barnes' sister. (Andrew Strickler, a crime reporter with Long Island's Newsday, who had appeared in the original 07/12/11 broadcast, did not appear in the 12/17/11 rebroadcast.) Onscreen graphics: Suffolk County Crime Stoppers is offering a cash reward of up to \$25,000 for information leading to an arrest in the Long Island Serial Killer case. - 12/24/11      **48 HOURS MYSTERY: "Drawn To Murder" (9:00-11:00p)** - a report on the February 1987 murder of 37-year-old Peggy Hettrick in Fort Collins, Colorado. Her mutilated, half naked body was discovered in a field near the home of Tim Masters, a 15-year-old who lived near the crime scene. He said he had seen the body on his way to school but, thinking it was a mannequin, he did not report it to the police. He then became a suspect when police searched his home and found his collection of knives and his drawings of graphic images of murder and mutilation. Under interrogation, he adamantly denied any knowledge of the murder -- and since police had no actual evidence linking him to the crime, he was not arrested. Ten years later, prompted by the opinions of Dr. Reid Meloy, an expert on sexual homicide, the police did arrest Masters for the murder. He was put on trial, convicted and went to prison in 1999, sentenced to life without parole. After losing two appeals, he appealed again, claiming ineffective counsel. His defense team then uncovered important items of evidence never given to Masters' original lawyers, although they had been entitled to them. This included, among other things, questions surrounding Dr. Richard Hammond, a prominent eye surgeon who also lived near the crime scene and who had been arrested for voyeurism. And now, for the first time, DNA tests were done on Peggy Hettrick's clothing. These tests found no DNA of Tim Masters, but did find that of Hettrick's ex-boyfriend, Matt Zoellner, and that of two other males. Tim Masters' conviction and sentence were vacated, and he was released from prison after more than nine years. Updated concluding text graphic for this 12/24/11 rebroadcast: Tim Masters was exonerated in June by the Colorado Attorney General. He has received \$10 million in settlements for wrongful imprisonment. Jim Broderick is under indictment for perjury in the case. (C: Susan Spencer - P: Joshua Yager, Marc B. ## **CBS RELIGIOUS AND CULTURAL SPECIALS**

- 12/04/11      **“Finding Common Ground”** - a report focusing on how the interfaith movement has evolved over the years and become more mainstream, especially since the 9/11 terrorist attacks. Examples include: (1) The work of the Chicago, Illinois based “Council for a Parliament of the World’s Religions”, which hosts the world’s largest interreligious gathering. Meeting every five years in a different part of the world, people of every faith are invited to share their religious identities and dialogue, as well as voice their hopes and concerns for the future. (2) The “Interfaith Youth Core” (IFYC), a nonprofit organization based in Chicago, focuses on the notion that the most powerful common ground between all faith traditions is the inspiration to serve others. IFYC works with college students as a means to thwart religious extremism and encourage interfaith understanding and leadership. In addition, IFYC advised and partnered with the White House on the “President’s Interfaith and Community Service Campus Challenge”. (3) The work of the student interfaith leaders of Albright College, a private liberal arts school in Reading, PA. Participating in President Obama’s challenge, students apply what is achieved on campus to the larger community. (4) The leaders of the religious community in Reading, which has the largest share of residents living in poverty per capita, have come together in order to help alleviate the symptoms of poverty in their community. This partnership has reinforced the belief in the need for interreligious dialogue and cooperation at the local level. Includes interviews with: Reverend Dirk Ficca, “The Council for a Parliament of the World’s Religions”; Dr. Eboo Patel, Founder and President, “Interfaith Youth Core” (IFYC); Sharon Parker, Executive Director, “Berks Coalition to End Homelessness”; Michael Kaucher, “Reading Berks Conference of Churches”; Ann Marie Wallace, “New Journey Methodist Church”; Barbara Rosenzweig, “Reform Congregation of Oheb Sholom”; Rabbi Brian Michelson, “Reform Congregation of Oheb Sholom”; and El Sayed Elmarzouky, “Islamic Center of Reading and Berks County”. (Narrator: Ted Holmes. Producer & Writer: Elizabeth Kineke. Associate Producer: Jonathan Hall. Executive Producer & Director: John P. Blessington.
