

KQSS MIAMI, AZ
PROGRAM LISTS AND REPORTS
3rd QUARTER 2022

The third quarter of 2022 was calmer than expected given the anticipation of the August Primary Election. While candidate posters were seen everywhere in July, little excitement was generated and August results were largely in line with expectations. The most notable race was the republican primary for governor, where Kari Lake, a former Phoenix news anchor endorsed by Donald Trump narrowly defeated a much better funded mainstream opponent. She will face Secretary of State Katie Hobbs in the general election on November 2nd.

In addition to airing regularly scheduled newscasts (seven in weekday mornings on the half hour, five in weekday afternoons between 3:30 and 5:30) focused solely on items of local interest including upcoming events and meetings, police reports, obituaries, and almost constant mentions of local job openings; KQSS airs public service announcements around the clock, scheduled hourly at a minimum with immediate coverage of breaking events such as weather and flood warnings, which are a near constant in Globe-Miami.

Beyond primary victories and losses, the most surprising **Election** news this quarter, given all the previous attention on the possibility of ballot irregularities in the 2020 race, was the near-devastating misstep made by neighboring Pinal County, which sent out over 63,000 incorrect ballots to early voters. Federal, State, Legislative District and County races were properly stated on each ballot, however municipal issues were mixed up. Voters in Superior, Casa Grande, Mammoth, Eloy, Maricopa, and Apache Junction received ballots with issues for a municipality in which they didn't reside, and no issues for their own municipality. Human error was responsible. What followed was chaos. At first the county was going to reissue all the ballots, but fears of lawsuits prevented that. Ultimately, voters were instructed to vote for all but municipal issues. A separate corrected ballot was sent out for those. Votes cast on the incorrect ballots were not counted.

Gila County has 33,205 registered voters. 19,689 early ballots were mailed out.

Mining continues to be the lifeblood of the Globe-Miami community. For that reason, mining stories are of greater interest to local residents than is the case elsewhere. Overall, metal prices were in serious decline this quarter, due in large part to lower demand largely blamed on China's zero Covid policies. The average 3rd Quarter 2022 price for a pound of copper was \$3.51. 2nd Quarter Reports were released by several companies:

Freeport McMoRan had a net profit his quarter of \$840 million, down from 1st quarter profits of \$1.5 billion. Consolidated sales were 1.1 billion pounds of Copper (at \$4.03 a pound), 476 ounces of Gold (at \$1827 an ounce) and 21 million pounds of molybdenum. Average cost of mining the metals was \$1.41.

Capstone Mining's 2nd Quarter 2022 report for their four operating mines, including the Pinto Valley Mine was of Miami was 45,200 tons of copper mined at \$2.78 a pound. Net income for the quarter was \$92 million. Sale price of copper dropped from \$4.78 in the first quarter to \$3.66. 13,300 tons of copper came from Pinto Valley, west of Miami; 6400 tons came from Cozamine Mine in Mexico; the rest (over 25,000 tons) came from Capstone's two mines in Chile. Work is progressing on the feasibility study to optimize the conversion of mineral resources and extend the life of Pinto Valley.

Grupo Mexico's 2nd quarter report including its nearby Asarco mine, showed total consolidated revenue of \$6.96 billion, down 5.25% from last year's 2nd quarter. Higher costs triggered by global inflation and a decrease in copper production were blamed. Workers at Grupo Mexico's Marana, Arizona mine voted to drop union representation. They had been part of United Steelworkers Local 137. With the long-term strike continuing at the Asarco mine, the decision is not a total surprise. Asarco workers have been striking going on three years with no resolution, and other than shuttering Grupo Mexico's nearby Hayden Smelter, operations continue.

BHP released its annual results for the Fiscal Year ending June 30th 2022 with an underlying profit of \$40.06 billion, and good news for Globe-Miamians. BHP is the third largest property owner in the area, with over 7,000 acres involving several former copper producing mines including, Old Dominion Underground Mine, Sleeping Beauty, and Copper Cities. This year an agreement was reached with Capstone to allow Capstone to conduct copper exploration on the former Copper Cities site. Capstone will pay BHP \$6.7 million for 18 months of drilling. Past estimates show 68.7 million tons of copper remain at that site.

In August, the EPA issued a draft underground injection control permit for Florence Copper. The 45 day comment period is now underway, and the outcome will bear heavily on whether the project gets final approval. If it does, Florence Copper predicts that the mine will create close to 800 jobs, \$2.1 billion dollars in economic activity, \$1.98 billion in personal income, and \$468 million in taxes as royalties for the state. Earlier this quarter, Florence Copper announced that it had successfully completed its 18-month production test demonstrating that copper ore can be safely extracted from the mine.

The ADEQ held a public comment period from August 2nd to September 25th on the air quality control permit it expects to issue to allow Freeport McMoRan to continue its local operations, mining copper and processing ore.

Rio Tinto received the Rocky Mountain Institute's 2022 Mine Safety Award this quarter for its work on the Resolution Copper Mine in Superior, displaying dedication to safety and responsible mining. But the fate of the project still hangs in political limbo. Previously celebrated for many things, perhaps most importantly as the driver of future economic stability in the area, concern about whether it will happen at all continues to rise as the congressionally approved land swap is being revisited due to concerns from tribal entities, the Biden Administration, and some Arizona politicians, most notably, US Representative Raul Grijalva. The last deadline to file an objection to the project closed September 6th. It was open only to those entities that had previously commented on the revised land management plan involving the mine.

Copper Mining now, and as far back as anyone can remember, is the biggest factor in the **Economy** of Globe-Miami and surrounding areas. While many residents, worried about the future of the Resolution Copper Project, voice dissatisfaction with what they feel is misguided concern over the **Ecology**, it is interesting to note that ecological concerns are at the heart of what could become the biggest increase in copper demand in our lifetime. Electric cars, heralded for their eco-friendly operation, require 2.5 times more copper to build than conventional gas-powered vehicles.

Therefore, the fate of Lucid Motors, in nearby Pinal County, impacts the local economy in multiple ways. It not only creates a source of jobs regionally, but it directly increases the demand for copper. This quarter came news that again the site of Lucid Motors is expanding. The plant in Casa Grande is now operating around the clock with workers in three shifts producing cars, and Casa Grande has approved the sale of an additional 1300 acres of land for the project.

More electric cars mean the need for more electric charging stations. This quarter it was announced that the state of Arizona will be getting \$6 million in federal funding for the building of charging stations throughout the state. In July, ADOT held a virtual public meeting soliciting input on plans for electric vehicle infrastructure deployment.

It was reported in July that statewide unemployment figures rose a fraction of a percent in June, still at a relatively low 3.3%, and non-farm labor increased year to year by 104,000 jobs.

But once again this quarter, overriding everything else when it came to economic impact on Arizonans, was the high price of fuel. From its impact on the price of goods due to increased delivery costs, to what is being spent at the pump, Globe-Miamians continued to be greatly affected. On the surface it would seem like shorter daily commutes experienced here would reduce the impact, however the reality is most Globe-Miamians need to regularly make 100-mile trips to the Phoenix or Tucson areas for goods and services not readily available here. Even though throughout most of the quarter gas prices were stable or slightly lower, for many drivers, filling up the tank exceeded \$100. Adding to that challenge, gas prices suddenly began to rise sharply at the end of the quarter. Prices throughout the quarter averaged from a low of \$3.34 to almost \$5 a gallon.

Apart from cost, **Transportation** here continued to be impaired by the seemingly never-ending road construction projects, particularly on Highway 60 connecting Globe-Miami to the Phoenix area, where lane restrictions necessitating pilot cars and alternating one lane-traffic were announced on multiple occasions.

Gila County is constructing a much-needed bridge across Tonto Creek. This quarter, funding from the county and a grant was announced along with agreements with the US Fish and Wildlife department and Arizona Game and Fish department. While some residents across the creek voice objection to a bridge, preferring to be separated from the rest of the county, the creek is inherently unsafe to cross. Passing through the creek is usually without peril, but safe passage is far from guaranteed as evidenced by the drivers who have died trying.

Infrastructure issues perennially plague the local area, though some of this quarter's biggest concerns were weather-related. A series of heavy rains produced flooding due in large part to the lack of vegetation lost to massive wild-fires in the past. One upside to the recent flooding is that the Tonto National Forest was able to cancel all shooting restrictions in July as the monsoons greatly lowered fire danger.

It was also announced this quarter that the EPA will be working with the San Carlos Apache tribe on a pilot program to improve water treatment facilities on the reservation, which relies primarily on septic systems and cesspools. It will be funded by the \$8 billion set aside by the federal government to improve water infrastructure in the southwest.

On a positive note, the Tri City Sanitary District continues to move forward with the much needed sewer system for the unincorporated areas between Globe and Miami.

Education continues to be of concern to southern Gila County, which has a reputation for poor public schools, which many residents feel is well deserved. But for locals wanting higher education, there are several low and no-cost opportunities, including Eastern Arizona College's 100% tuition waiver for anyone over 55 years old who has lived here for more than a year.

Freeport McMoRan announced a new \$3 million scholarship program this quarter for Navajo tribal members. Two groups of 50 students each will receive up to \$6000 for yearly tuition, in addition to various services including tutoring and counseling, designed to keep students in school.

The biggest **Health** news this quarter was no news. While Covid-19 continues to be a factor and announcements of vaccine availability are ongoing, attention is returning to the more mundane day to day necessities, such as sports physicals and back to school checkups. Helping with that, Canyonlands Healthcare in Globe offered a free well-child clinic in July.

Creating interest and participation in **community meetings** is the often-elusive goal of local community leaders everywhere. To facilitate wider-reach and easier-access, the Chairman of the Gila County Board of Supervisors, Tim Humphrey uses KQSS as the origination point of his monthly meeting. Listeners and residents are invited to participate, but for those who miss the live meeting, it is replayed the

following weekend on KJAA, and is available as a download on KQSS.net. Here's a review of this quarter's meetings:

Tim Humphrey Community Meeting

July 11, 2022 5:30-6 PM

What happened to the fairgrounds? At one point, events were held regularly, ranging from horse racing to gun shows. Now virtually the only thing left is the annual Gila County Fair. Supervisor Humphrey detailed plans to demolish the outdated and dangerous race track, and the planned formation of committees, and possibly an employee, dedicated to developing events that will keep the venue busy, drawing tourists as well as locals. An update on flooding preparedness was also discussed.

Tim Humphrey Community Meeting

August 8, 2022 5:30-6 PM

Change in street addressing was the primary focus of this meeting. Now properties in Gila County that do not contain a residence or business with plumbing facilities qualify for a street address. This is particularly helpful in deliveries to sites that have industrial, storage or other buildings, which previously had no specific address. But to comply with 911 requirements and other county ordinances, many residential addresses have changed, with the result being longer and unappealing (for instance 500 Cedar Street may have morphed into 5722 South Cedar Avenue). Supervisor Humphrey was joined by the head of the Gila County Rural Addressing department to discuss the requirements and reasons behind them.

Tim Humphrey Community Meeting

September 12, 2022 5:30-6 PM

Water—not enough and too much. Recent rains brought flash flooding, but not in large amounts. The monsoon season is not over, and efforts continue to mitigate the results of flooding which is likely to occur during significant rains. A bigger problem in Arizona is the lack of water—particularly in Northern Gila County, but elsewhere as well. Citizens in nearby Tonto Basin are concerned with a new development that will be further taxing the water supply. The issue is that private wells have no protection from other wells being drilled nearby. When a new development comes in, even if it is served by municipal water supplies, that water comes from somewhere, and when it's a new and bigger well drilled nearby existing wells, the existing wells can, and sometimes do, dry up necessitating great homeowner expense to drill deeper into the earth. Also discussed was the timetable for the TRSD wastewater project, crucial to many homeowners utilizing cesspools. Present predictions have Phase 1 online by the end of 2023, Phase 2 by the end of 2024, and Phase 3 by the end of 2026, though unforeseen events may change that time table.

KQSS enhances its public service presence with three long-form nationally produced shows chosen for their coverage of issues impacting the local area. Unlike stations that choose to bury required public interest programs, KQSS is proud to offer an hour and a half long block of this information in morning drive on Saturdays.

Health Care is an issue of critical importance to all Americans. Not only is cost a factor for most people, in rural areas like Globe-Miami in particular, availability is an issue, from where to find care to what treatment options exist. **Radio Health Journal** is a weekly half hour program dealing with all facets of health care from scientific to sociological. This quarter, here are the topics covered and the time and date the programs ran:

Saturday July 2, 2022 7:00-7:30AM

SEGMENT 1: ORPHAN DISEASE RESEARCH: OVERCOMING YEARS OF INDUSTRYWIDE NEGLECT 12:30

Synopsis: Doctors diagnosed Patrick Girondi's son with thalassemia in 1992, declaring he'd die by age 14. Like most other rare conditions, treatments for thalassemia were slim to none. Dr. Stanley Nelson explains how orphan disease research has progressed in the last few decades and why a cure isn't always the goal.

Compliance issues covered: rare disease; rare disease research; pharmaceutical industry; public health;

consumerism; human genetics; experimental medication; food and drug administration; federal regulations; vulnerable populations; genetic diseases

SEGMENT 2: HOW JUST ONE NIGHT IN A HOSPITAL CAN CAUSE YEARS OF TRAUMA 7:11

Synopsis: Research has shown that hospitalized adolescents can walk away physically healthy, but years later, are still dealing with symptoms of posttraumatic stress from their experience. Dr. Justin Kenardy discusses the signs of posttraumatic stress and preventive measures both parents and medical professionals can utilize.

Compliancy issues covered: posttraumatic stress; youth at risk; hospital stays; patient safety; mental health; long-term trauma

Saturday July 9, 2022 7:00-7:30AM

SEGMENT 1: HOW CLICKBAIT HEADLINES GAVE FALSE HOPE TO SIDS FAMILIES 13:03

Synopsis: Sudden Infant Death Syndrome has baffled the scientific community for years. What causes the condition is still unknown, though media headlines for a recent SIDS study would make you think differently. Dr. Fern Hauck explains the confusion and where SIDS research stands today. Compliancy issues covered: sids, safe sleeping, child safety, child and youth at risk, family issues, health care, parenting, public health, public safety

SEGMENT 2: HOW HAS COVID-19 SHAPED THE PUBLIC RESPONSE TO MONKEYPOX? 6:59

Synopsis: An outbreak of monkeypox, a viral disease, has popped up in numerous countries around the world. Public health agencies have issued safety recommendations, but with growing mistrust in these institutions, will anyone heed the advice? An expert discusses how the pandemic helped foster this rocky relationship.

Compliancy issues covered: monkeypox, covid-19 pandemic, infectious diseases, emergency preparedness, federal and state regulations, health care, public health, public safety, vaccination

Saturday July 16, 2022 7:00-7:30AM

SEGMENT 1: FOREVER SMALL: MUSCLE DYSMORPHIA'S PLACE IN BODYBUILDING CULTURE 11:35

Synopsis: Bodybuilding is a sport that requires athletes to constantly monitor their physiques. This fixation can often develop into a subtype of body dysmorphic disorder called muscle dysmorphia. Dr. Roberto Olivardia explains how the condition fits into the culture of bodybuilding. Compliancy issues covered: body dysmorphia, diet and nutrition, eating disorders, mental health, mental illness, public health, public safety, social media, sports and society, consumerism

SEGMENT 2: WHY ARE MEN SKIPPING THEIR ANNUAL CHECKUPS? 8:15

Synopsis: A recent survey by Orlando Health finds that many men overestimate how healthy they are, prompting one-third of them to skip their annual health screening. Dr. Thomas Kelley addresses common fears that keep men away from the doctor's office, and why annual checkups are crucial to overall health management. Compliancy issues covered: gender issues, health care, patient safety, prevention, public health, public safety, health screenings, annual checkups 23

Saturday July 23, 2022 7:00-7:30AM

SEGMENT 1: "IT'S LIKE LOSING A BODY PART": WHY ALOPECIA IS MORE THAN JUST HAIR LOSS 12:09

Synopsis: Alopecia is an autoimmune disease that can lead to a partial or complete loss of hair. While the condition appears to be purely cosmetic, we speak with one patient, Deirdre Nero, about how it can lead to a plethora of physical problems and can greatly affect daily life. Dr. Brett King, a dermatologist at Yale University, explains how one new FDA-approved treatment is the first systemic therapy for severe alopecia. Compliancy issues covered: autoimmune diseases, health care, medication, vulnerable populations

SEGMENT 2: ENDING THE EPIDEMIC: LIFE-SAVING TREATMENT FOR HIV 7:37

Synopsis: For many years, an HIV diagnosis was thought to be a death sentence. Although this is no longer the case, many affected individuals still face barriers to receiving treatment. Dr. Timothy Harrison, a deputy director at the U.S. Department of Health and Human Services, explains the still-persistent social stigma and how government entities are increasing access to HIV care. Compliancy issues covered: HIV/AIDS, discrimination, federal and state government, health care, infectious diseases, local government, prevention, public health, public safety, sex education, vulnerable populations

Saturday July 30, 2022 7:00-7:30AM

SEGMENT 1: STRANGER THAN FICTION: USING ELECTRONIC TATTOOS TO MONITOR HEALTH 11:50

Synopsis: Scientists are bringing temporary tattoos into the medical realm using nanotechnology. Electronic tattoos are patches placed on a patient's skin that will be able to both monitor and treat their specific condition. Dr. Aaron Franklin discusses how this technology will revolutionize patient care. Compliancy issues

covered: nanotechnology; health care; patient safety; consumerism; technology; theragnostics

SEGMENT 2: WHY BEATING CANCER DOESN'T MEAN THE BATTLE'S OVER 7:47

Synopsis: Cancer treatments like radiation or chemotherapy elevate a patient's risk of fatal heart disease, even decades after beating the cancer itself. Fortunately, a new medical discipline called cardio-oncology is working to reduce this heart damage in cancer patients. An expert explains how this new role fits into cancer care. Compliancy issues covered: cancer; oncology; cardo-oncology; cardiology; fatal heart disease; chemotherapy; patient safety; radiation; multidisciplinary care

Saturday August 6, 2022 7:00-7:30AM

SEGMENT 1: HOW MERCURY'S INVADING OUR AIR, WATER, AND FOOD 11:20

Synopsis: It's no secret mercury can harm our health, so why are dangerous exposures still prevalent? Well, it might be due to the unexpected contacts many people don't know about. Dr. Charles Driscoll explains how mercury has invaded all parts of our lives, and the government's erratic policies surrounding the element.

Compliancy issues covered: mercury poisoning; skin cancer; vulnerable populations; environment; air pollution; mining; water pollution; federal government; federal regulations; food safety; public health

SEGMENT 2: MIND OVER MATTER: HOW SCIENCE IS UTILIZING THE PLACEBO EFFECT 8:21

Synopsis: Though the placebo effect has been the downfall of much research, one scientist aims to change that. Dr. Emiliano Santarnechchi hopes to use it as a supplemental therapy to medicinal treatments. He discusses the potential applications, as well as the ethical dilemma behind this idea. Compliancy issues covered: neuroscience; patient safety; health care; consumerism; ethics; psychology

Saturday August 13, 2022 7:00-7:30AM

SEGMENT 1: WHAT YOU SHOULD KNOW ABOUT INGESTING MICROPLASTICS 11:54

Synopsis: When broken down, plastic products create tiny particles called microplastics. These nearly invisible specks seep into our water, air, and have recently been found inside our bodies. Experts discuss how we ingest microplastics, and what potential effects they may have on our health. Compliancy issues covered: public health; consumerism; plastic; microplastic; air pollution; water pollution; drinking water safety; environment; food safety; public safety; pollution

SEGMENT 2: FIRST RESPONDERS HAVE A NEW ROBOTIC SIDEKICK 7:42

Synopsis: While the public safety industry has slowly evolved, entrepreneur Doron Kemple says there hasn't been a large push for innovation in recent years. Kemple founded Bond – a private security company that's betting big on drones working alongside first responders in emergency situations. He explains how these robots can advance the field by improving response times, providing more on-scene information through video, and more. Compliancy issues covered: public health; public safety; first responders; emergency situations; drones; technology; surveillance; private security; public security; robots

Saturday August 20, 2022 7:00-7:30AM

SEGMENT 1: 988: THE NEW NUMBER FOR SUICIDE AND CRISIS PREVENTION 11:32

Synopsis: In many households, mental health isn't talked about until it's too late. Fortunately, the Substance Abuse and Mental Health Services Administration created a suicide and crisis hotline in 2005 to help those struggling. This year, the ten-digit number was changed to just three: 988. Experts explain how this change will help increase awareness and access to prevention resources. Compliancy issues covered: suicide; prevention; crisis; mental health; public health; public safety; consumerism; mental health awareness; suicide and crisis lifeline; emergency preparedness; vulnerable populations

SEGMENT 2: THE TATTOOS THAT GIVE BREAST CANCER SURVIVORS THEIR IDENTITY BACK 8:11

Synopsis: Tattoos can be a sign of expression, but for survivors of breast cancer, the art means something different. Areola restoration is a subset of medical tattooing – an advanced form of cosmetic tattooing. It can provide a sense of closure for the women who've battled cancer and undergone mastectomies. Shana Irish discusses how medical tattooing can help these women finally feel comfortable in their own skin. Compliancy issues covered: medical tattooing; breast cancer; cancer survivors; mastectomy; areola restoration; vulnerable population; patient safety; mental health; scar therapy

Saturday August 27, 2022 7:00-7:30AM

SEGMENT 1: OFFSHORING MEDICATION: WHERE ARE YOUR GENERIC DRUGS BEING MADE? 12:44

Synopsis: According to Georgetown University's Health Policy Institute, 66 percent of all U.S. adults use prescription drugs – and a majority of those are generic. So why don't we know where these products are made? Dr. Rena Conti shares non-public data to show where much of the medication Americans ingest every

day are manufactured. Compliancy issues covered: prescription medication; generic drugs; public health; consumerism; trade secret; pharmaceutical industry; patient safety; vulnerable populations; ethics

SEGMENT 2: WHY CHEMOTHERAPY MAY NOT ALWAYS BE THE BEST OPTION 7:05

Synopsis: Cancer is a ruthless disease, which is why the traditional treatment methods are so aggressive. But does everyone need chemo? Dr. Jeanne Tie doesn't think so. She's created a blood test that determines whether chemotherapy is necessary for patients living with colon cancer. Compliancy issues covered: cancer treatment; colon cancer; chemotherapy; radiation; precision medicine; patient safety; cancer survivors colorectal cancer

Saturday September 3, 2022 7:00-7:30AM

SEGMENT 1: PARASOCIAL RELATIONSHIPS: HOW CELEBRITIES INFLUENCE YOUR DECISIONS 11:39

Synopsis: If you've ever felt connected to a movie star or celebrity, you've experienced a parasocial relationship. This one-sided connection gives the celebrity influence over your daily decision making and creates a feeling of friendship with someone you've never met. An expert explains both the benefits and drawbacks of parasocial relationships. Compliancy issues covered: relationships; consumerism; social media; psychology; mental health; public health; technology

SEGMENT 2: ENDING THE TRIAL AND ERROR TREATMENT METHOD FOR RHEUMATOID ARTHRITIS 8:39

Synopsis: Many patients with rheumatoid arthritis are forced to try numerous, expensive medications until they find one that works. Fortunately, Scipher Medicine's new blood test offers a precision approach, discovering what medication will work the first time. Dr. Sam Asgarian discusses how the blood test works and how it's helping to change the future of autoimmune disease treatment. Compliancy issues covered: precision medicine; trial and error medicine; autoimmune disease; consumerism; rheumatoid arthritis; genetics; patient safety; vulnerable populations; molecular testing

Saturday September 10, 2022 7:00-7:30AM

SEGMENT 1: IT'S ALL IN YOUR HEAD: THE SCIENCE BEHIND EMOTIONAL INTELLIGENCE 12:33

Synopsis: The field of emotion research is flooded with more opinions than facts, however, one main theory says our emotions are an instant response to the world around us. But does that mean we have no control? Two experts discuss the role of emotions and how you can foster your emotional intelligence. Compliancy issues covered: emotion; psychology; emotional intelligence; neurology; public health; consumerism; education; child psychology; parenting

SEGMENT 2: THE UNCLAIMED BODIES OF AMERICA 7:19

Synopsis: Funerals happen nearly every day and are typically organized and paid for by loved ones. But what happens to the bodies that are never claimed? Dr. Pamela Prickett explains how states handle the dead who are left without any relatives or loved ones to bury them. Compliancy issues covered: death; state legislation; cremation; funerals; unclaimed bodies; autopsy; vulnerable populations; economy; gender issues; homelessness

Saturday September 17, 2022 7:00-7:30AM

SEGMENT 1: ESPORTS: VIRTUAL GAMEPLAY WITH REAL LIFE CONSEQUENCES 11:52

Synopsis: Even though e-sport players compete online instead of on a field, the growing sport still requires the same team of trainers and medical staff as football or soccer. And given the intense practice schedules, injuries are thought to be unavoidable. Experts discuss both physical and ergonomic strategies to best prevent career-ending injuries. Compliancy issues covered: esports; athletics; injury risks; ergonomics; osteopathic medicine; gaming; video games; youth at risk; vulnerable populations; public health; gamer health; posture; consumerism

SEGMENT 2: A DROP IN VACCINATION RATES PUTS US ALL AT RISK 8:19

Synopsis: The World Health Organization reports that the pandemic fueled the largest drop in childhood vaccination rates in the last thirty years. In fact, New York recently revealed the first case of polio America has seen in over three decades. Experts explain how vaccines are made and why parents need to update their children's vaccines as soon as possible. Compliancy issues covered: vaccines; childhood vaccinations; covid-19; polio; public health; public safety; infectious diseases; state legislation; consumerism

Saturday September 24, 2022 7:00-7:30AM

SEGMENT 1: HOW OUR MIND'S NATURAL DEFENSE CAN BE DEADLY FOR SOCIETY 10:51

Synopsis: Why are we able to function after mass tragedies? The answer is a defense mechanism in our mind that Dr. Paul Slovic calls the Arithmetic of Compassion. He explains how three components essentially numb

our feelings to help us move on after traumatic experiences. Unfortunately, the Arithmetic of Compassion can also influence us to turn our backs on others who are suffering. Compliancy issues covered: psychology; empathy; compassion; neuroscience; evolution; vulnerable populations; mass tragedy; trauma; genocide; emotions; psychic numbing; war

SEGMENT 2: OUR MEMORIES ARE LYING TO US 8:46

Synopsis: The Mandela Effect is a phenomenon where large groups of people falsely remember the same information. But how is this possible? Experts discuss the possible causes, as well as how these false memories lead to errors in fields such as education and criminal justice. Compliancy issues covered: memory; psychology; vulnerable populations; Mandela effect; criminal justice; education; false information; public safety; consumerism; technology

Radio Health Journal is produced by AURN. Guest information for each of the above segments is available at www.radiohealthjournal.net

Viewpoints is a weekly half hour program devoted to difficult social issues. Topics are wide ranging, such religion in prison, or parenting transgender teens. This quarter, the following programs aired:

Saturday July 2, 2022 6:30-7:00AM

SEGMENT 1: GAINING A GREATER UNDERSTANDING OF THE MILITARY EXPERIENCE 8:58

Synopsis: There are close to two million Americans serving in the U.S. Armed Forces, according to 2021 data from the Department of Defense. The U.S. is considered to have the world's strongest military, yet many Americans are disconnected from this subset of American culture. We speak with two experts about why this is and how the gap can be bridged between civilians and those who serve. Compliancy Issues Covered:

Military, Military Service, Armed Forces, Government, Culture, Mental Health, Career, Psychology, Communication

SEGMENT 2: A PARENT'S PLIGHT 10:16

Synopsis: With the Child Tax Credit coming to an end, many U.S. parents are finding it hard to make ends meet with little help from the government – especially amid rising inflation. We speak with Dr. Dana Suskind about how this lack of support severely impacts children during critical development years. Compliancy Issues Covered: Health, Child Development, Government Funding, Personal Finance, Parenting, Politics, Childcare

SEGMENT 3: CULTURE CRASH: THE NEWEST OFFERINGS OUT TO STREAM NOW 2:35

Synopsis: We explore some of the latest TV shows and movies now available on streaming platforms from Netflix to HBO Max. Compliancy Issues Covered: Culture, TV

Saturday July 9, 2022 6:30-7:00AM

SEGMENT 1: THE COST OF MORE FREQUENT WEATHER-RELATED DISASTERS 10:42

Synopsis: In 2021, climate disasters cost the U.S. more than 145 billion dollars and led to the deaths of 688 people. Each year, these extreme weather events are growing to be more frequent as the climate shifts. We discuss the growing economic toll of these mass destruction events and what can be done to switch course.

Compliancy Issues Covered: Natural Disaster, Extreme Weather, Climate Change, Environment, Economy, Federal Aid, Climate Economics

SEGMENT 2: THE GIFT ECONOMY 9:09

Synopsis: There's more spots to find secondhand items apart from Goodwill or a local antique store. Next time you're in the market for something specific, go online and search if your area has a Buy Nothing group. This week – we highlight the 'buy nothing' mentality and how the platform works. Compliancy Issues Covered: Personal Finance, Consumerism, Technology, Environment, Waste Management

SEGMENT 3: CULTURE CRASH: THE BOX OFFICE BOOM 1:42

Synopsis: We explore some of our favorite films at the box office that have struck gold so far this summer. Compliancy Issues Covered: Culture, TV

Saturday July 16, 2022 6:30-7:00AM

SEGMENT 1: REIMAGINING BEACH TOURISM CULTURE 9:56

Synopsis: Almost two-thirds of all Americans will be jetting away this summer. For some, this means traveling to a tropical paradise filled with relaxation. While the all-inclusive resort is an easy pick, it might be worth rethinking this choice. We cover the highly popular global beach tourism industry and the dark side of this

foreign tourist-focused culture. Compliancy Issues Covered: Tourism, Travel, Sustainability, Environment, Land Development, Culture

SEGMENT 2: LEARNING ABOUT WINE 9:00

Synopsis: Finding the right wine can be extremely intimidating if you don't know what you're looking for. Strolling through the wine aisle, it can sometimes be easier to give up and choose a bottle based off whether you like the label or not. It's true that wine is complex – after all it dates back to 6000 B.C. Expert sommelier Elizabeth Schneider joins Viewpoints this week to give us an introduction to all things wine. Compliancy Issues Covered: History, Culture, Hobby, Food and Beverage, Literature, Business, Agriculture

SEGMENT 3: CULTURE CRASH: THE WORLD OF HARRY POTTER 2:43

Synopsis: Are you more of a *Harry Potter* book fan or film fan? We discuss this expansive wizarding world this week on Culture Crash. Compliancy Issues Covered: Culture, Literature, Film

Saturday July 23, 2022 6:30-7:00AM

SEGMENT 1: LEFT IN THE DUST: FORGOTTEN BLUE-COLLAR U.S. CITIES & TOWNS 9:41

Synopsis: Orick, California; Lawrence, Kansas; Detroit, Michigan. These are just a few of the towns and cities across the U.S. that have fallen off the map. Stanford University law professor and author Michelle Wilde Anderson joins us this week to explain why these areas have declined over time and how residents have suffered during this downturn. Compliancy Issues Covered: Housing, Wealth Inequality, History, Local Government, Tourism, Personal Finance, Innovation, Public Resources, Politics, Community Revenue, Small Business

SEGMENT 2: PROGRESS IN POLICING INITIATIVES SINCE GEORGE FLOYD'S DEATH 8:38

Synopsis: What's changed in policing since May of 2020 when George Floyd was murdered by Minneapolis police? Two experts in law and police policy join us this week to share some current statistics on police violence in the U.S. and some of the updated policies that have taken hold over the last two years.

Compliancy Issues Covered: Law Enforcement, Public Safety, Law, Police Reform, Government, Race

SEGMENT 3: VIEWPOINTS, EXPLAINED: AN UPTICK IN U.S. GUN VIOLENCE 1:19

Synopsis: This week – we cover some of the recent mass murder shootings across America and the increasing rate of these horrific events. Compliancy Issues Covered: Politics, Public Health, Law, Gun Violence

SEGMENT 4: CULTURE CRASH: OUR FAVORITE SCI-FI FILM PICKS 2:00

Synopsis: We highlight some of our favorite movies, new and old, in the sci-fi genre. Compliancy Issues Covered: Culture, Film

Saturday July 30, 2022 6:30-7:00AM

SEGMENT 1: SUPPORTING REFUGEE RESETTLEMENT 8:25

Synopsis: There are more than 27 million refugees in the world. This population has lost their homes, their culture and their identities as a result of conflict, persecution, etc. We speak with two experts about the refugee experience and just how difficult it can be to start a new life somewhere else. Compliancy Issues Covered: War, Conflict, Human Rights, Culture, Immigration, Diversity, Government

SEGMENT 2: AN UNTOLD NARRATIVE OF AFRICA & THE MODERN WORLD 9:07

Synopsis: Are you familiar with the African leader, Mansa Musa? Most people have never heard this name. However, he was an instrumental figure in early Europe's expansion. This week – we highlight a lesser-known narrative about how Europe exploited African gold and labor in order to fuel its expansion. Compliancy Issues Covered: History, Trade, Economy, Natural Resources, Racial Inequality, Exploration

SEGMENT 3: VIEWPOINTS, EXPLAINED: THE INFLATED COST OF OWNING A HOME 1:39

Synopsis: In many markets across the U.S., home prices are reaching an all-time high. We discuss what factors are driving this increase and what's being done to help Americans. Compliancy Issues Covered: Affordable Housing, Personal Finance, Inflation

SEGMENT 4: CULTURE CRASH: THIS YEAR'S SUMMER ANTHEM 2:27

Synopsis: This 1980's hit by artist Sophia Bush is making a resurgence thanks to a recent *Stranger Things* episode. Compliancy Issues Covered: Culture, Music

Saturday August 6, 2022 6:30-7:00AM

SEGMENT 1: THE EARLY HISTORY OF THE NBA 8:50

Synopsis: The NBA was founded in 1946 in New York City. For many years, the organization was predominantly white. Today, more than 75 percent of its players are black. We speak with basketball expert and former NBA player and coach Ray Scott about the league's early years and its efforts to evolve in a time when segregation and discrimination ran rampant. Compliancy Issues Covered: History, Sports, Media, Sports Culture, Civil Rights, Equality, Career, Business

SEGMENT 2: THE STYLES THAT PERSIST TIME & FAST-FASHION TRENDS 8:09

Synopsis: There are some items of clothing that truly never go out of style. Whether it's a pair of crisp blue jeans or a classic little black dress, these pieces persist time and seasonal trends. Fashion writer and author of *The Ten* Lauren Cochrane joins us this week some of the most iconic clothes in fashion history and how these pieces shaped American style culture. Compliancy Issues Covered: Fashion, History, Culture, Garment Production, Global Trends, Consumerism

SEGMENT 3: VIEWPOINTS, EXPLAINED: A LACK OF DIVERSITY IN U.S. CLASSROOMS 1:40

Synopsis: Millions of U.S. K-12 students attend schools where the class population is predominantly one race or ethnicity. This week – we highlight how this lack of diversity furthers inequality in education. Compliancy Issues Covered: Affordable Housing, Personal Finance, Inflation

SEGMENT 4: CULTURE CRASH: THE RACE TO STAY PRESENT FOR SOCIAL MEDIA SITE 2:59

Synopsis: With Tik Tok continuously adding new users, many platforms like Instagram and Facebook are fighting to stay current with new updates mimicking Tik Tok. But, what if some of us like these OG platforms the way they are?

Saturday August 13, 2022 6:30-7:00AM

SEGMENT 1: ELEVATING SOLAR ENERGY 8:42

Synopsis: In the first quarter of 2022, solar power made up 50 percent of all new electricity-generating capacity in the country. On top of this, residential solar installations also had its biggest quarter ever, with a 30 percent increase in demand year-over-year, according to the Solar Energy Industries Association. While current solar energy relies on the sun, scientists are now developing new technology that would allow for 24/7 energy absorption. We speak with an expert about this exciting development and what lies ahead.

Compliancy Issues Covered: Renewable Energy, Sustainability, Innovation, Engineering, Climate Change

SEGMENT 2: THE WORSENING TEACHER SHORTAGE 9:05

Synopsis: Over the last two years, 10 percent of teachers have left the field. That equates to 300,000 teachers gone. There are many reasons for this exodus, but with millions of students heading back to school this fall – what's being done to get more teachers back in the classroom? Compliancy Issues Covered: Career, Public Education, Personal Finance, Mental Health, Infrastructure

SEGMENT 3: VIEWPOINTS EXPLAINED: TIK TOK'S DOMINANCE 1:29

Synopsis: Seems like everyone is learning something new from Tik Tok these days. With the platform's popularity surging, we discuss how other sites are changing, for the better or worse, as a result. Compliancy Issues Covered: Social Media, Technology, Culture, Business

SEGMENT 4: CULTURE CRASH: SAYING YES TO JORDAN PEELE'S "NOPE" 2:24

Synopsis: We cover the release of "Nope" – a new film written, directed and produced by Jordan Peele. Compliancy Issues Covered: Culture, Film

Saturday August 20, 2022 6:30-7:00AM

SEGMENT 1: THE RISE OF BOOKTOK 9:41

Synopsis: More young people are reading these days thanks to one community on TikTok. We discuss the rise of BookTok and how publishers and authors are using this platform to better engage with consumers.

Compliancy Issues Covered: Social Media, Literature, Hobbies, Education, Publishing, Diversity

SEGMENT 2: DECISIONS, DECISIONS: UNDERSTANDING CONFORMITY BIAS 8:03

Synopsis: Ever agree in the moment, but then look back and wish you spoke up and said something? This action of wanting to go with the flow is a very real phenomenon. We sit down with two experts to uncover how people's actions and opinions are altered by conformity bias. Compliancy Issues Covered: Psychology, Communication, Human Behavior, Career, Society, Culture

SEGMENT 3: VIEWPOINTS EXPLAINED: A NEW POLITICAL PARTY 1:34

Synopsis: The Forward Party is a new, independent political party catering to the centrist voter. We discuss its founding principles and the uphill battle it faces in the already crowded political landscape. Compliancy Issues Covered: Politics, Government

SEGMENT 4: CULTURE CRASH: THE END OF "BETTER CALL SAUL" 2:17

Synopsis: We discuss the series finale of the six-season show "Better Call Saul" featuring actor Bob Odenkirk as attorney, Saul Goodman. Compliancy Issues Covered: Culture, TV

Saturday August 27, 2022 6:30-7:00AM

SEGMENT 1: 1 MAN, 2 PATHS: BUILDING A CAREER IN THE NFL AND APPLIED MATHEMATICS 9:41

Synopsis: John Urschel is not your typical mathematician. Before earning his PhD in applied mathematics from MIT, Urschel played college football at Penn State and then went on to play in the NFL with the Baltimore

Ravens. For several years, he was able to juggle both passions and reach the top echelons of both sport and academia. This week – we touch on his unique path & what he's learned along the way. Host: Gary Price. Guests: John Urschel, former NFL offensive guard, Baltimore Ravens, junior fellow, mathematics, Harvard University, author, *Mind and Matter: A Life in Math and Football*. Compliancy Issues Covered: Sports, Career, Higher Education, Mathematics, Personal Development

SEGMENT 2: HAVE AMERICANS STOPPED KEEPING UP WITH THE NEWS? 8:02

Synopsis: If you were to guess what the fastest growing news source for adults is what would you say? If you jokingly said Tik Tok...you're right. More Americans are turning to social media for their news instead of seeking out information from established news outlets. This shift applies to both conservative and liberal consumers of news. We discuss what's driving this push and how it's affecting the accuracy of information.

Compliancy Issues Covered: News, Media, Global Issues, Politics, Mental Health, Social Media

SEGMENT 3: VIEWPOINTS EXPLAINED: GETTING MORE WOMEN INTO LAW ENFORCEMENT 1:31

Synopsis: Just 12 percent of police officers are women and only 3 percent are in leadership positions. We cover one initiative that's focused on getting more women into this sector. Compliancy Issues Covered: Law Enforcement, Gender, Community Relations

SEGMENT 4: CULTURE CRASH: A REVIEW OF "THE BEAR" 2:24

Synopsis: We discuss the new Hulu series "The Bear" which takes places in Chicago, Illinois. Compliancy Issues Covered: TV, Culture

Saturday September 3, 2022 6:30-7:00AM

SEGMENT 1: THE INVISIBLE POWER OF PRIVILEGE 9:07

Synopsis: How often do you think about the privileges you have in life? What life experiences may have looked a bit different if you had darker skin or lighter skin? This week – we highlight conversations about the role of white privilege in American society and how the average person can push for greater racial justice.

Compliancy Issues Covered: Racial Issues, Race Relations, Inequality, Education, History, Poverty

SEGMENT 2: PUBLIC TRANSPORTATION: SEEING A RESURGENCE OR RUNNING ON EMPTY? 8:56

Synopsis: Public transportation – from trains to buses to trams – took a big hit in ridership and profits during the COVID-19 pandemic. Now, as more people are back and relying on these community systems once again, the future is unclear as many municipalities face record challenges. We speak with two experts in the sector about the current state of public transit in the U.S. Compliancy Issues Covered: Transportation, Government Programs, Community Affairs, Environment, Personal Finance, Labor Shortages, Mobility

SEGMENT 3: VIEWPOINTS EXPLAINED: AN UNDERWATER EXPLOSION 1:37

Synopsis: Earlier this year, there was a massive submarine volcano eruption off the coast of Tonga in the South Pacific Ocean. We discuss just how large this disaster was and the prevalence of these lesser-known, underwater volcanoes. Compliancy Issues Covered: Environment, Natural Disasters, Government

SEGMENT 4: CULTURE CRASH: NATHAN FIELDER IS BACK 2:00

Synopsis: We explore the new docu-comedy series, "The Rehearsal" produced and directed by Canadian comedian Nathan Fielder who's best known for his parody reality show, "Nathan for You". Compliancy Issues Covered: TV, Culture

Saturday September 10, 2022 6:30-7:00AM

SEGMENT 1: CONVERSATIONS ABOUT LOSS AND DEATH 10:01

Synopsis: Death is a natural part of life, yet we avoid talking about it in American society. We speak with a psychiatrist and expert in grief and trauma about how parents, caregivers and adults in general can best have conversations with young people about loss and death. How do you broach the subject? What shouldn't you say? We answer these questions and more this week on Viewpoints. Compliancy Issues Covered:

Communication, Mental Health, Parenting, Death, Child Development

SEGMENT 2: THE MENTAL HEALTH EPIDEMIC PLAGUING COLLEGIATE SPORTS 7:40

Synopsis: 35 percent of collegiate athletes have experienced a mental illness at some point in their lives. We speak with a sports psychologist this week about the rising prevalence of mental health disorders among young athletes and what's being done to improve support services and get rid of stigma both on campus and off-campus. Compliancy Issues Covered: Mental Health, Higher Education, Psychology, Sports, Athletics

SEGMENT 3: VIEWPOINTS EXPLAINED: BIG PHARMA'S PROFITS 1:31

Synopsis: We highlight how pharmaceutical corporations benefited from the opioid epidemic by twisting politicians and policies in their favor. Compliancy Issues Covered: Addiction, Corporate Greed, Opioid Epidemic

SEGMENT 4: CULTURE CRASH: FALL MOVIE RELEASES 2:27

Synopsis: We cover some of the blockbuster films making their debut this fall at a theatre near you. Compliancy Issues Covered: TV, Culture

Saturday September 17, 2022 6:30-7:00AM

SEGMENT 1: BREAKING GENDERED ROLES IN THE HOUSEHOLD 7:57

Synopsis: More men and women these days are both working full-time, yet household tasks are still unevenly handled predominantly by women. We sit down with gender expert Kate Mangino about this imbalance in cognitive labor and physical chores and how more of a balance can be carved out in current relationships and future generations. Compliancy Issues Covered: Relationships, Gender Norms, Equality, Relationships, Parenting

SEGMENT 2: THE LOST WORLD OF SHIPWRECKS 9:41

Synopsis: There are an estimated three million shipwrecks lying under the ocean and underground. We speak with author Daniel Stone this week about these fascinating structures that give us a fascinating look into a past era. Compliancy Issues Covered: History, Science, Culture, Literature, Oceanic Exploration

SEGMENT 3: VIEWPOINTS EXPLAINED: A DRY & SCORCHING WEST 1:11

Synopsis: Record-breaking temperatures are hitting many parts of the West this month. We discuss the extreme weather's impact on residents and how this heat is increasing the risk of deadlier wildfires this fall.

Compliancy Issues Covered: Climate Change, Extreme Weather

SEGMENT 4: CULTURE CRASH: A TRUE VIEWING EXPERIENCE 2:49

Synopsis: We cover the dilemma of cropping full screen shows and films to fit our modern, widescreen.

Compliancy Issues Covered: TV, Culture

Saturday September 24, 2022 6:30-7:00AM

SEGMENT 1: THE INCREASING OCCURRENCE OF WEATHER CALAMITIES 9:46

Synopsis: Record-breaking flooding hit Pakistan this summer resulting in 1,500 lives lost and an estimated 10 billion dollars in damages. Around the world, countries are seeing weather extremes from excess flooding to severe drought and higher than average heat. We speak with two climate experts about the correlation between climate change and these extreme weather events. Compliancy Issues Covered: Climate Change, Extreme Weather, Attribution Science, Engineering

SEGMENT 2: THE RISE OF YOUTUBE 8:09

Synopsis: YouTube was created by three friends in 2005 and, shortly after, was sold to Google in 2006 for 1.65 billion dollars. Since then, it's become the largest video-sharing platform in the world (with a quarter of the world's population on the site) and continues to thrive with revenue exceeding 28 billion dollars in 2021. We discuss some of the platform's shortcomings and where it's headed next. Compliancy Issues Covered: Social Media, Business, Technology, Career, Media, Consumerism

SEGMENT 3: VIEWPOINTS EXPLAINED: THE SMARTPHONE RACE 1:30

Synopsis: Last month, Apple hosted their annual event featuring the new iPhone. Despite the hype, pre-order sales have fallen flat. Are people over these constant upgrades, or is it something else? Compliancy Issues Covered: Climate Change, Extreme Weather

SEGMENT 4: CULTURE CRASH: A LIGHT FRIGHT FOR FALL 2:13

Synopsis: We review the new Netflix series, "Devil in Ohio" which offers a less-scary take than your typical gore-filled, killer-at-every-corner horror show. Compliancy Issues Covered: TV, Culture

Viewpoints is produced by AURN. Guest information for each of the above segments can be found at www.viewpointsonline.net.

American Radio Journal is a half hour weekly program exposing listeners to points of view not covered in depth, or in many cases not covered at all, by major media outlets. Emphasis is on the political debate about public policies that affect the lives of every American. Topics covered this quarter include:

Saturday July 2, 2022 7:30-8:00AM

Lowman Henry talks with Greg Wrightstone of the CO2 Coalition about a U.S. Supreme Court ruling curtailing the regulatory power of the Environmental Protection Agency; Scott Parkinson from the Club for Growth has the *Real Story* on primary elections in Utah, Oklahoma, Illinois and South Carolina; Eric Boehm of *Reason* magazine explains why states giving out new stimulus checks are fueling inflation; And, Colin Hanna from Let Freedom Ring, USA has an *American Radio Journal* commentary on the impact of the U.S. Supreme Court's overturning of Roe v Wade.

Saturday July 9, 2022 7:30-8:00AM

Lowman Henry talks with Merrill Matthews from the Institute for Policy Innovation about how the Biden Administration's policies have caused the spike in gasoline and home heating costs; Scott Parkinson from the Club for Growth has the *Real Story* on a looming recession; Eric Boehm of *Reason* magazine discusses the recent U.S. Supreme Court ruling reigning in the power of the Environmental Protection Agency with Devin Hartman of R Street; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on gas station services in a by-gone era.

Saturday July 16, 2022 7:30-8:00AM

Lowman Henry talks with Dean Clancy from Americans for Prosperity about a proposed Health Savings Account program; Scott Parkinson from the Club for Growth has the *Real Story* on the economic and political impact of soaring inflation; Eric Boehm of *Reason* magazine reports the Food & Drug Administration admits blame for the baby formula shortage; And, Jonathan Williams from the American Legislative Exchange Council (ALEC) has an *American Radio Journal* commentary on a major funding problem for state pension funds.

Saturday July 23, 2022 7:30-8:00AM

Lowman Henry talks with EJ Antoni of the Heritage Foundation about inflation and the looming recession; Scott Parkinson from the Club for Growth has the *Real Story* on primaries in Maryland, Wyoming and Arizona; Eric Boehm of *Reason* magazine gets details of corporate welfare for the micro-chip industry from Scott Lincicome of the Cato Institute; And, Colin Hanna from Let Freedom Ring, USA gives the Biden Administration's energy policies an F minus on this week's *American Radio Journal* commentary.

Saturday July 30, 2022 7:30-8:00AM

Lowman Henry talks with Myron Ebell of the Competitive Enterprise Institute about President Biden's plans to declare a climate change emergency; Scott Parkinson from the Club for Growth has the *Real Story* on another tax and spend plan in the U.S. Senate; Eric Boehm of *Reason* magazine explains why we are in a recession; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on the tradition of parents and grandparents teaching the young how to handle guns.

Saturday August 6, 2022 7:30-8:00AM

Lowman Henry talks with Brenda Hafera of the Heritage Foundation about how Presidential homesteads have been infiltrated by woke ideology; Scott Parkinson from the Club for Growth has the *Real Story* on Primary Election results in Missouri, Arizona, Michigan and Washington; Eric Boehm of *Reason* magazine learns the "Inflation Reduction Act" won't actually reduce inflation from Chris Edwards of the Cato Institute; And, Jonathan Williams from the American Legislative Exchange Council (ALEC) has an *American Radio Journal* commentary on the tax and spend provisions of the "Inflation Reduction Act."

Saturday August 13, 2022 7:30-8:00AM

Lowman Henry talks with Tomas Philipson from the University of Chicago about the impact of the "Inflation Reduction Act" on health care costs; Scott Parkinson from the Club for Growth has the *Real Story* on 83,000 new IRS agents; Eric Boehm of *Reason* magazine examines the deficit reduction provisions of the "Inflation Reduction Act"; And, Colin Hanna from Let Freedom Ring, USA has an *American Radio Journal* commentary on media bias.

Saturday August 20, 2022 7:30-8:00AM

Lowman Henry talks with David Beckworth from the Mercatus Center at George Mason University about potential Federal Reserve interest rate hikes; Scott Parkinson from the Club for Growth has the *Real Story* on results of the Wyoming Primary; Eric Boehm from *Reason* magazine talks with Anastasia Boden of the Pacific Legal Foundation about Certificate of Need laws hindering health care options; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on the real world impact of inflation.

Saturday August 27, 2022 7:30-8:00AM

Lowman Henry talks with Andrew Crapuchettes of RedBallon.work about the death of big city downtowns; Scott Parkinson from the Club for Growth has the *Real Story* on Primary election results in Florida and Oklahoma; Eric Boehm of *Reason* magazine details Joe Biden's student loan "forgiveness"♦ executive

order; And, Jonathan Williams from the American Legislative Exchange Council has an *American Radio Journal* commentary on why the Inflation Reduction Act is economy malpractice.

Saturday September 3, 2022 7:30-8:00AM

Lowman Henry gets an update on the Heritage Foundation's *Election Integrity Scorecard* from Hans von Spakovsky; Scott Parkinson from the Club for Growth has the *Real Story* on what threatens Democracy; Eric Boehm of *Reason* magazine reports on candidates distancing themselves from harsh COVID-19 policies; And, Colin Hanna from Let Freedom Ring USA says President Biden's college loan "forgiveness" program is radical socialism.

Saturday September 10, 2022 7:30-8:00AM

Lowman Henry talks with Taylor Barkley from the Center for Growth and Opportunity at Utah State University about results of a new poll on Americans' attitudes toward Big Tech; Scott Parkinson from the Club for Growth has the *Real Story* on Congressional Republicans' new 'Commitment to America' plan; Eric Boehm of *Reason* magazine and Emily Ekins of the Cato Institute report on voter support for "college loan forgiveness"; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on the passing of Mikhail Gorbachev.

Saturday September 17, 2022 7:30-8:00AM

Lowman Henry talks with Lindsey Burke of the Heritage Foundation about their new Education Freedom Scorecard; Scott Parkinson from the Club for Growth has the *Real Story* on the impact of inflation; Eric Boehm from *Reason* magazine talks about whether all that COVID-19 spending was necessary with Jonathan Bydlak of the R Street Institute; And, *Jonathan Williams* from the American Legislative Exchange Council has an *American Radio Journal* commentary on Idaho becoming the latest state to adopt a flat tax.

Saturday September 24, 2022 7:30-8:00AM

Lowman Henry talks with David Beckworth from the Mercatus Center at George Mason University about the latest Federal Reserve interest rate hike; Scott Parkinson has the *Real Story* on competitive U.S. Senate races; Eric Boehm of *Reason* magazine reports on how the end of the COVID-19 pandemic will affect 'student loan forgiveness'; And, Dr. Paul Kengor from the Institute for Faith & Freedom at Grove City College has an *American Radio Journal* commentary on why 'student loan forgiveness' takes from the poor to give to the rich.

American Radio Journal is produced by The Lincoln Institute of Public Opinion Research. Additional information can be found at www.americanradiojournal.com

PSAs air at least once an hour throughout the day, and at least twice an hour in morning and afternoon drive. All PSAs are done in-house, with an emphasis on local impact. Unless included in a newscast, PSAs run as stand-alone items. This is a sample of what was aired this quarter:

4H Clubs – Fees waived
