

Certification Regarding Commercial Limits in Children's Programming
Certification Period: 2nd Quarter, 2018

I, Jazelle Merritt, Administrative Assistant, and authorized representative for Western Pacific Broadcast, LLC, hereby certify that, during the second quarter (April 1st – June 30th) of 2018:

1. I am familiar with the commercial limits imposed by the Federal Communication Commission's rules and policies;
2. No internet website addresses were displayed during the programming in a manner which constitute commercial content within the meaning of the Rules;
3. The children's programming, including any commercial spots and promotional content contained therein, as broadcast on WMDE, complied with the commercial limits of the rules and policies of the Federal Communications Commission's commercial limits during children's programming;
4. Attached as Exhibit 1 is a true and correct list of all children's programming aired during the second quarter of 2018; and
5. Attached as Exhibit 2 is a complete list of all instances in which the commercial time limits imposed by Section 73.760 were exceeded for the programs listed in Exhibit 1 during the second quarter of 2018.

Certified by me this 10th day of July, 2018.

Jazelle Merritt
Administrative Assistant

Commercial Limit Certification
Exhibit 1

Mondays – 9:30 a.m.

36.4

America's Heartland

Mondays – 7:00 a.m.

**Jack Hanna's Animal
Adventures**

Mondays – 7:30 a.m., 8:00 a.m., 8:30 a.m., & 9:00 a.m.

**Marty Stouffer's Wild
America (E/I)**

Mondays – 9:30 a.m.

**Animal Rescue (E/I)**

Animal Rescue serves the educational and informational needs of children 13 to 16 years of age with its program content, including safety tips and information about various animals and their habitats. The programs also show real life in-the-field experiences of professional and ordinary people taking care of, treating, and helping various animals, as well as exhibiting good social responsibility and promotion of strong personal and community values.

Missing (E/I)

Missing is a weekly half-hour educational/informational series focusing on actual cases of missing persons. The series provides information and descriptions of missing children, including endangered runaways as well as victims of abductions. The show also presents peer-to-peer advice on safety in public places and in cyber space, including real world examples of how to avoid potentially dangerous situations. The program emphasizes taking active responsibility for personal safety and promotes situational awareness, presented in a calm and non-threatening manner suited for teenagers.

Dog Tales (E/I)

Dog Tales serves the educational and informational needs of children 13 to 16 years of age with its program content, including dog safety and care tips, as well as lessons on the responsibility of owning a dog. The show also provides informative segments on various dog breeds and showcases various veterinary experts explaining different issues affecting canines.

Dragonfly TV (E/I)

Dragonfly TV is a weekly half-hour science television series for children ages 13 to 16. The program highlights children "doing" projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem-solving skills, while providing valuable information to reach answers. Each episode is engaging, entertaining and educational in structure, allowing children to investigate science on their own.

Biz Kids (E/I)

Biz Kids is a weekly half-hour series focusing on financial literacy and entrepreneurship for teens, targeting 13 – 16-year-old viewers. Using a mix of strong financial education tools, dynamic sketch comedy, and inspiring true stories of young entrepreneurs, Biz Kids provides important information for future success. Each episode features math, language arts, and social studies, as well as teaching teens about money and business.

Think Big (E/I)

Think Big serves the educational and informational needs of children 13 to 16 years of age with its program content, including the importance of having a working knowledge of math, science, and physics. The series shows children actively solving problems using scientific principles, combining skill and creativity. The series also demonstrates real-world applications for math, science and engineering, proving that the physical sciences can be useful, challenging and fun. Each episode presents an invent-off challenge, where teenage teams must invent a machine designed to perform a specific task in a limited amount of time, promoting creative thinking and practical skills.

Animal Rescue .2 (E/I)

Animal Rescue serves the educational and informational needs of children 13 to 16 years of age with its program content, including safety tips and information about various animals and their habitats. The programs also show real life in-the-field experiences of professional and ordinary people taking care of, treating, and helping various animals, as well as exhibiting good social responsibility and promotion of strong personal and community values.

Biz Kids .2 (E/I)

Biz Kids is a weekly half-hour series focusing on financial literacy and entrepreneurship for teens, targeting 13 – 16-year-old viewers. Using a mix of strong financial education tools, dynamic sketch comedy, and inspiring true stories of young entrepreneurs, Biz Kids provides important information for future success. Each episode features math, language arts, and social studies, as well as teaching teens about money and business.

Dog Tales .2 (E/I)

Dog Tales serves the educational and informational needs of children 13 to 16 years of age with its program content, including dog safety and care tips, as well as lessons on the responsibility of owning a dog. The show also provides informative segments on various dog breeds and showcases various veterinary experts explaining different issues affecting canines.

Dragonfly TV .2 (E/I)

Dragonfly TV is a weekly half-hour science television series for children ages 13 to 16. The program highlights children "doing" projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem-solving skills, while providing valuable information to reach answers. Each episode is engaging, entertaining and educational in structure, allowing children to investigate science on their own.

Missing .2 (E/I)

Missing is a weekly half-hour educational/informational series focusing on actual cases of missing persons. The series provides information and descriptions of missing children, including endangered runaways as well as victims of abductions. The show also presents peer-to-peer advice on safety in public places and in cyber space, including real world examples of how to avoid potentially dangerous situations. The program emphasizes taking active responsibility for personal safety and promotes situational awareness, presented in a calm and non-threatening manner suited for teenagers.

Think Big .2 (E/I)

Think Big serves the educational and informational needs of children 13 to 16 years of age with its program content, including the importance of having a working knowledge of math, science, and physics. The series shows children actively solving problems using scientific principles, combining skill and creativity. The series also demonstrates real-world applications for math, science and engineering, proving that the physical sciences can be useful, challenging and fun. Each episode presents and invent-off challenge, where teenage teams must invent a machine designed to perform a specific task in a limited amount of time, promoting creative thinking and practical skills.

Launch Pad .2 (E/I)

Launch Pad is targeted to teens 13 to 16-years old and features programs that apply STEM topics learned in the classroom and from real world challenges. Launch Pad is produced by members of the National Institute of Aerospace and presents space themed programming with stunning visuals and corresponding scientific information from NASA, the International Space Station, and other space agencies.

MAKE TV .2 (E/I)

MAKE TV meets the educational and informational needs of children 13 to 16 years of age with its program content. The series fosters imagination and creativity while demonstrating both basic and advanced scientific principles. It allows teen viewers to see the various innovative ways people are producing new inventions, emphasizing practical engineering applications. In each episode, viewers can see how simple everyday items can be transformed for new and exciting uses, taking objects destined for the junk yard and up-cycling them for a whole new purpose. MAKE TV challenges young viewers to combine their imagination with science; while encouraging critical thinking.

America's Heartland .3 (E/I) *America's Heartland* is a weekly half-hour series featuring everyday Americans and their families, telling fascinating stories across America's heartland. From learning how to make maple syrup to riding with teenage ranchers, this series explores various ways of life, showcasing the diversity of how Americans live and work. It is a prominent offering of positive stories about American agriculture. *America's Heartland* has given hundreds of farm and ranch families across all 50 states the opportunity – in their own words – to share the diverse story of agriculture with consumers. Through the show's programming these agriculturalists have been able to emotionally connect urban and rural viewers alike. Their stories forged common ground to unite through values and needs – more than about just the essentials like food & shelter – but about our love for families and generations to come, an appreciation for the land, and caring for the environment.

**Jack Hanna Animal
Adventures .3 (E/I)**

This program is a half-hour live-action program designed to meet the educational and informational needs of children 13 – 16 years of age. In each episode, the cameras follow Jack as he spends time with nature's creatures across the continents. Jack talks with people knowledgeable about each animal and habitat, teaching as he goes. Each episode is designed to reveal to children the world around them in a way that presents positive role models and pro-social values within an environmentally responsible universe.

**Marty Stouffer's Wild
America .3 (E/I)**

Wild America is a half-hour documentary series targeted to children 13-16 years of age. The key educational objective of the program is to familiarize children with the animals of the North American content, their interaction with other animals and their environment. Throughout the series, emphasis is placed upon protecting endangered species and the impact that humans have while interacting in their environment. Each episode of the series is specific to a particular animal. Topics range from basic food gathering, mating, natural enemies, relationships to other animals, and the interaction of the specific ecology on the survival of the species. Viewers of the program will achieve a greater understanding of nature and specific animal species. Viewers will better relate to the natural environment as it exists in North America and learn to protect its natural species.

America's Heartland .4 (E/I) *America's Heartland* is a weekly half-hour series featuring everyday Americans and their families, telling fascinating stories across America's heartland. From learning how to make maple syrup to riding with teenage ranchers, this series explores various ways of life, showcasing the diversity of how Americans live and work.
