

Certification Regarding Commercial Limits in Children's Programming  
Certification Period: 1<sup>st</sup> Quarter, 2016

I, Jazelle Merritt, Administrative Assistant, and authorized representative for Western Pacific Broadcast, LLC, hereby certify that, during the first quarter (January 1<sup>st</sup> – March 31<sup>st</sup>) of 2016:

1. I am familiar with the commercial limits imposed by the Federal Communication Commission's rules and policies;
2. No internet website addresses were displayed during the programming in a manner which constitute commercial content within the meaning of the Rules;
3. The children's programming, including any commercial spots and promotional content contained therein, as broadcast on WACP, complied with the commercial limits of the rules and policies of the Federal Communications Commission's commercial limits during children's programming;
4. Attached as Exhibit 1 is a true and correct list of all children's programming aired during the first quarter of 2016; and
5. Attached as Exhibit 2 is a complete list of all instances in which the commercial time limits imposed by Section 73.760 were exceeded for the programs listed in Exhibit 1 during the first quarter of 2016.

Certified by me this 11<sup>th</sup> day of April, 2016

  
Jazelle Merritt  
Administrative Assistant

Commercial Limit Certification  
Exhibit 1

<b>Animal Rescue</b>	Animal Rescue serves the educational and informational needs of children 13 to 16 years of age with its program content, including safety tips and information about various animals and their habitats. The programs also show real life in-the-field experiences of professional and ordinary people taking care of, treating, and helping various animals, as well as exhibiting good social responsibility and promotion of strong personal and community values.
----------------------	---

**Missing**

Missing is a weekly half-hour educational/informational series focusing on actual cases of missing persons. The series provides information and descriptions of missing children, including endangered runaways as well as victims of abductions. The show also presents peer-to-peer advice on safety in public places and in cyber space, including real world examples of how to avoid potentially dangerous situations. The program emphasizes taking active responsibility for personal safety and promotes situational awareness, presented in a calm and non-threatening manner suited for teenagers.

**Dog Tales**

Dog Tales serves the educational and informational needs of children 13 to 16 years of age with its program content, including dog safety and care tips, as well as lessons on the responsibility of owning a dog. The show also provides informative segments on various dog breeds and showcases various veterinary experts explaining different issues affecting canines.

**Dragonfly TV**

Dragonfly TV is a weekly half-hour science television series for children ages 13 to 16. The program highlights children "doing" projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. Each episode is engaging, entertaining and educational in structure, allowing children to investigate science on their own.

**Biz Kids**

Biz Kids is a weekly half-hour series focusing on financial literacy and entrepreneurship for teens, targeting 13 – 16 year olds. Using a mix of strong financial education tools, dynamic sketch comedy, and inspiring true stories of young entrepreneurs, Biz Kids provides important information for future success. Each episode features math, language arts, and social studies, as well as teaching teens about money and business.

## **Think Big**

Think Big serves the educational and informational needs of children 13 to 16 years of age with its program content, including the importance of having a working knowledge of math, science, and physics. The series shows children actively solving problems using scientific principles, combining skill and creativity. The series also demonstrates real-world applications for math, science and engineering, proving that the physical sciences can be useful, challenging and fun. Each episode presents an invent-off challenge, where teenage teams must invent a machine designed to perform a specific task in a limited amount of time, promoting creative thinking and practical skills.
