

Certification Regarding Commercial Limits in Children's Programming
Certification Period: 2nd Quarter, 2015

I, Jazelle Merritt, Administrative Assistant, and authorized representative for Western Pacific Broadcast, LLC, hereby certify that, during the first quarter (April 1st – June 30th) of 2015:

1. I am familiar with the commercial limits imposed by the Federal Communication Commission's rules and policies;
2. No internet website addresses were displayed during the programming in a manner which constitute commercial content within the meaning of the Rules;
3. The children's programming, including any commercial spots and promotional content contained therein, as broadcast on WACP, complied with the commercial limits of the rules and policies of the Federal Communications Commission's commercial limits during children's programming;
4. Attached as Exhibit 1 is a true and correct list of all children's programming aired during the second quarter of 2015; and
5. Attached as Exhibit 2 is a complete list of all instances in which the commercial time limits imposed by Section 73.760 were exceeded for the programs listed in Exhibit 1 during the second quarter of 2015.

Certified by me this 10th day of July, 2015

A handwritten signature in blue ink, appearing to read "Jazelle Merritt", is written over a horizontal line.

Aqua Kids

Aqua Kids provides CORE programming in the area of biology and specifically the ecosystem related to the ocean, its tributaries and estuaries. Children will learn about the resources of the oceans and how protection of the oceans is necessary to present and future generations. The show teaches biological topics and aims to enrich children's lives by making them aware of future generations and the role they play now, with the biggest ecosystem on earth – the oceans. Each episode provides information related to a specific topic and gives an educational approach to understand the topic related to the entire ecosystem of the earth. Aqua Kids provides children with a way to learn about the diversity of marine animals around the world and the importance of preserving their fragile aquatic habitats. Through the use of hands-on collaboration between kids and science researchers and educators, Aqua Kids encourages children to take an active role in protecting the future of their communities and the world.

Dragonfly TV

Dragonfly TV is a weekly half-hour science television series for children ages 13 to 16. The program highlights children "doing" projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. Each episode is engaging, entertaining and educational in structure, allowing children to investigate science on their own.

The Real Winning Edge

The Real Winning Edge is a weekly half-hour series designed for children 13 to 16. The program highlights adolescents and young adults making the right choices when faced with tough decisions and significant challenges. The series features role models from professional sports and the entertainment industry. Each episode is engaging, entertaining and educational in structure, presenting a powerful and positive message.

Dooley & Pals

Dooley, a friendly alien who has landed in a backyard on Earth, explores the planet with the children of the neighborhood as his guides. The show is designed to teach moral values and educational basics.

DOVER • WASHINGTON, D.C. • BALTIMORE

Scuba Bob

Scuba Bob has a passion for the underwater world and is motivated to help people have his same passion by turning the viewer's living rooms into a portal to the many mysteries and adventures offered by this liquid world. With the help of a seasoned crew, Scuba Bob's Ocean Quest is a program that uses underwater video to show exotic destinations that have a connection with conservation topics. Each episode reveals exciting adventures and encounters like coral spawning, dolphins, sharks and those caring for critical habitats. Each show informs with critical facts about ocean conservation.

Animal Rescue

Animal Rescue serves the educational and informational needs of children 13 to 16 years of age with its program content, including safety tips and information about various animals and their habitats. The programs also show real life in-the-field experiences of professional and ordinary people taking care of, treating, and helping various animals, as well as exhibiting good social responsibility and promotion of strong personal and community values.

Scaly Adventures

Scaly Adventures is an adventure series that profiles exotic animals and experts who work to conserve and protect them. The passion of the Scaly Adventures Crew is to educate children while encouraging them to reach for the stars and follow their dreams.

Dog Tales

Dog Tales serves the educational and informational needs of children 13 to 16 years of age with its program content, including dog safety and care tips, as well as lessons on the responsibility of owning a dog. The show also provides informative segments on various dog breeds and showcases various veterinary experts explaining different issues affecting canines.

Think Big

Think Big serves the educational and informational needs of children 13 to 16 years of age with its program content, including the importance of having a working knowledge of math, science, and physics. The series shows children actively solving problems using scientific principles, combining skill and creativity. The series also demonstrates real-world applications for math, science and engineering, proving that the physical sciences can be useful, challenging and fun. Each episode presents and invent-off challenge, where teenage teams must invent a machine designed to perform a specific task in a limited amount of time, promoting creative thinking and practical skills.
