

FRC of Alabama D/B/A Focus Radio Communications Ownership Report Filing Issue

During the 2015 Biennial Ownership reporting period the licensee was executing a payment plan with US Treasury for past due regulatory fees owed to the FCC. As a result of those arrangements the licensee was Red Lighted with the commission.

Through CDBS the licensee filed and received an FCC file number for its 2015 Form 323. Several attempts were made to pay the filing fee at FCC Fee Filer but each proved unsuccessful. At that time a copy of the attempted filing of licensee's Form 323 was placed in the hard copy Public File.

A copy of said document is currently posted in the licensee's online public file under Additional Ownership Documents.
