In the Right Mind: Celebrate the Declaration of Independence And Those Who Signed It

Coverage:

Dan Adamini from In The Right Mind Marquette, MI 49855 July 5, 2014 Remember the men who risked everything to Create The USA This weekend, we celebrate Independence Day. Like many of our holidays, we celebrate, but do not always appreciate the significance of what we celebrate. This is NOT just another 3-day weekend. It isnt just a celebration of a birthday its a remembrance of the courage and the sacrifice of those who made the declaration itself. There are still those who disparage the signers as just a bunch of rich white guys who were looking out for themselves these people are clearly NOT in their RIGHT MIND. The story THE AMERICANS WHO RISKED EVERYTHING is a good place to start their education. These rich white men had much more to lose than to gain, and most of them lost EVERYTHING. Share the story with those who need a little help getting in their RIGHT MIND! Some may not read because they hate the author that is truly sad. There are similarities between the grievances of the colonists and complaints about our own government. A quick read of the declaration will let you see for yourself. Once youve read the whole thing read the opening and closing statements again This is an eloquent document." target="blank">The story of the Star Spangled Banner is a great story, and although some question the accuracy of some versions this is my favorite version. We also played some different versions of some songs you know Its great to hear old songs done in new ways. The most important part of this day is our need to remember those who risked EVERYTHING to create this nation. those who risked everything in the many wars for its survival, and those who continue to risk everything for the rest of us. We must never forget the sacrifices made, and those who willingly make those sacrifices. God Bless Them All! Full Show In The Right Mind FULL SHOW 070514.mp3

I believe the best boards and commissions are made up of people of varied backgrounds and interests. The primary election is coming up and before voting you should research the candidates. Are you voting for the person, or the name, or simply by the order they appear on the ballot? Vote Well, or please don't vote. Your vote matters, so do it responsibly. Diversity of opinions makes a good board, and makes it harder to do dumb things. Seven people who agree on everything can do a lot of harm. If you only like one person running don't feel you have to vote for the maximum number allowed. Vote well on Every Issue and Office! In the Right Mind: Secretary of State Ruth Johnson Voter Fraud Open Primaries

Coverage:

Marquette, MI August 9, 2014 Should Primaries be open, and is voter fraud a problem?? Secretary of State Ruth Johnson talks about efficiency and service at the SOS Offices. The SOS office is operating with 25% less staff than 10 years ago, yet are operating more efficiently. Voter Rolls are being cleaned up to help make your HONEST VOTE count properly and not be diluted by those who cheat the system. Dan's Idea of voter integrity got a chuckle from our SOS Voter Registration should expire when your driver license does that way once you're dead you can only vote 2 more times!?? AND use the purple ink on your thumb or finger if someone is willing to chop off a digit to vote twice, I'm OK with that commitment! Open Elections Not My Choice. I don't like our open primary system.? I don't think a republican should be able to choose the democrat candidate, and I don't think democrats should choose the republican candidate either.? I Hate that the state pays to help political parties choose their candidates the parties should pay for it, or somehow reimburse the state. My solutions:???? Only paid members of a local party can vote in the primary if you are willing to give money to your local opponent, then I'm ok with you voting with them. If you can vote for either party, you should be able to vote on both sides some GOP and some DEM. Ugly Primaries lead to embarrassing Backsliding when your candidate loses. With all the nasty things said about people in the primaries, how can anyone in their right mind then support the candidate they were slandering just days ago?? The nasty things said in primaries stick with you.? For instance, the nasty statements made by candidate Arcand and his supporters of congressman Benishek can't be taken back.? Hypocrites or Weasels?? They must be one or the other. free political speech should not allow you to lie about another person. In the Right Mind: Ferguson, MO and ISIS Among Topics on Today's In The Right Mind with Dan Adamini

Coverage:

Dan Adamini In The Right Mind Feature Rant Marquette, Michigan August 23, 2014 Ferguson, MO and ISIS Among Topics on Today's In The Right Mind with Dan Adamini Ferguson, MOAs I said on last week's show, The protests in Ferguson show what is worst in people, and what I find typical in liberals. People angry and sometimes violent based on information that may or may not be true. Whatever happened between the police and Michael Brown, there is no excuse for the looting, vandalism and violence in the city. Based on one person's story (which may or may not be true), anger has grown, and been stoked, and fed by those who peddle in race hatred. Yes, I am talking about Al Sharpton, who some years ago took the mantle from Jesse Jackson as the face of evil and violence within the community they both claim to support. The calls of NO JUSTICE-NO PEACE rings out but the thugs don't want justice. If they did, they would not be harming innocent people in the name of someone else they believe to be an innocent victim. If you need a little reminder of Al Sharpton's evil, read one of MANY articles listing the man's history. He may have started as a good man, but no longer deserves that title. The song Michael Brown is not intended to make light of the shooting, but rather to show the foolishness of the violent protesters. ISIS or ISIL Whatever you call them it boils down to EVIL The group calling themselves the ISLAMIC STATE in the LEVANT (ISIL / ISIS) has proven themselves to be exactly what many said they were when we supported them in Syria. The old adage that the enemy of my enemy is my friend was never true, and this is much like our support of Afghan rebels who we armed and eventually attacked us. Shortsighted politicians often ally themselves with evil for the sake of a quick resolution with the appearance of success. Listen to the song ISIS by clicking [here](#) or [below](#). I did something today I NEVER thought I would do I praised Secretary of State John Kerry. Even if he only said the right thing because he had no choice he still said the right things, and appeared to be sincere. Well see, but for the moment, He seems to have departed from the actions that inspired this song critical of the man. Obama, doesn't deserve the same respect, as he cut his condemnation short so he wouldn't be late for his tee time. State Convention Republican Party The convention of the Michigan Republican Party takes place today (Saturday). It is an interesting process and the big story this year is the attempt by some to remove Lt. Governor Brian Calley from the ticket. While I believe that the governor should run with the person he wants by his side, there are some who believe the governor should move further right. They believe Calley should have stood against the governor on Medicaid Expansion. Although I don't support EVERYTHING the governor has done, I believe the Lt. Governor should do exactly what Calley has done help implement the governor's agenda. Many conservatives fear the far right will stay home as they did in 2012, and cost the governor the 2014 election as they cost Romney the presidency in 2012. Ellen Adamini w Cardinal Szoka in 2004 Death of Cardinal Szoka Cardinal Edmund Szoka passed away this week. I only met the man once, in 2004 when he celebrated mass at St. Christopher Church in Marquette where he had once been the priest & pastor. The story attached gives a brief biography. The attached picture is one I took when my daughter Ellen served at mass with the cardinal.
