48 HOURS MYSTERY: "Missing Molly"- report on the unsolved abduction and subsequent murder of 16-year-old Molly Bish. Bish disappeared in June 2000 from the local swimming hole where she had just started a summer job as a lifeguard in her hometown of Warren, Mass. In May 2003, Tim McGuigan, a former police officer, helped to discover evidence that led to the discovery of Molly's body. His interest in the case traced back to the 1993 abduction of another local girl, Holly Piirainen, who was 10 years old when she was taken from a country road in Sturbridge, Mass., roughly 10 miles from the pond where Molly disappeared. Holly's body was found several weeks after her abduction, but no arrests were ever made. McGuigan became obsessed with the Piirainen murder case and increasingly began to focus on the similarities between that case and the Bish disappearance. Three-and-half years after Molly Bish's disappearance, police are still investigating the case. Tim McGuigan is trying to restart his career as a police officer, and John and Magi Bish have been speaking to police across the country, hoping to improve the way they handle missing child cases.
