

Issues Programs List

List reflects Information for quarter ending: 12/31/2005

PSA's aired once a day randomly throughout the qtr

Making Patients Lives Easier: Better health can begin with easier access to information about how to take a prescription.

Fire Safety: According to US Fire Administration, nearly five thousand lives could be saved each year by practicing proper fire safety.

Water Facts and Figures: The US Environmental Protection Agency estimates that 40% of our surface water treatment systems need to be rebuilt or improved.

Lowering Blood Pressure: Millions of Americans suffer from hypertension, commonly known as high blood pressure. High blood pressure can lead to stroke, heart attack and heart failure.

A Helping Hand: Thanks to research on spinal cord injuries, the goal of helping paralyzed children become more independent is becoming more possible.
