Blessing Brother and Sister Hawkins,

God has blessed me to finally record the CD that I've wanted to do over the years. It's a project that had been in my spirit for a number of years and was started in earnest about 2 years ago.

Although I personally spent quite a bit of money in the process, it has never been intended for self-glorification or enrichment. It's simply a legacy I want to leave. It is my hope that you will find it worthy of your promoting and playing songs from it over your radio station. I would suggest that track # 3 (Reflections) would be especially appropriate for the week leading up to and including Mother's Day.

I've been listening to your station and I applaud you for assuming the role of an ombudsman, fighting for the rights and causes of constituents you have chosen to represent.

I know and appreciate the fact that there are expenses involved in the work you do. Please accept my small donation as a token of appreciation for your endeavors. God bless, protect and safeguard you and your family.

Sincerely,

*Pastor Roy L. Britton*
