	Black Ballerina (APTEX)	BLACK BALLERINA is a story of passion, opportunity, heartbreak and triumph of the human spirit. Set in the over-whelmingly white world of classical dance, it tells the stories of several black women from different generations who fell in love with ballet. In 2015, three young black women also pursue careers as ballerinas, and find that many of the same obstacles their predecessors faced are still evident in the ballet world today. 	Bridging The Divide: Tom Bradley and the Politics of Race (PBSPL)	Thirty-five years before the election of President Barack Obama, the question of race and the possibility of bridging racial barriers were put to the test in an overlooked story in American politics: Tom Bradley's 1973 election as Mayor of Los Angeles: the first African American mayor of a major U.S. city with an overwhelmingly white majority. BRIDGING THE DIVIDE tells the story of how Bradley's coalition of African Americans, Jews, white liberals, Latinos and Asian Americans united a divided city, brought inclusion and access, and set the foundation for inter-racial coalitions that encouraged the elections of minority candidates nationwide, including President Barack Obama. At the same time, the film examines the complexities and contradictions of Bradley's career as a bridge builder. BRIDGING THE DIVIDE brings into sharp focus the issues of police abuse and police reform, and shows how Tom Bradley, a former police officer and a black mayor, could not break the cycles of poverty and despair that would ultimately spark the 1992 Los Angeles civil unrest, and mark the end of his era. BRIDGING THE DIVIDE is the story of multi-ethnic Los Angeles finding its voice and identity in the face of discrimination and political disenfranchisement. In the documentary RAISING MS. PRESIDENT, filmmaker Kiley Lane explores why more women don't run for office. Through interviews with elected officials, scholars, high school students and leaders of two non-profits dedicated to raising the next generation of female leaders, the program investigates where political ambition begins and why society should encourage more women to lead. 	<p>Perfect 36: When Women Won The Vote (APTEX)</p>	<p>PERFECT 36: WHEN WOMEN WON THE VOTE chronicles the dramatic vote to ratify this amendment, and the years of debate about women's suffrage that preceded it. On July 17, 1920, Carrie Chapman Catt, President of the National American Woman Suffrage Association, arrived to spend a few days in Nashville. She was traveling on the heels of Tennessee Governor A.H. Roberts' announcement of a special session of the state legislature, called at the urging of President Woodrow Wilson. One more state needed to ratify the proposed amendment, and that duty rested solely on the shoulders of Tennessee. Catt's few days dragged into weeks at her headquarters in the Hermitage Hotel, where pro- and anti- suffragists continued to clash in what came to be known as the "War of the Roses." Those in favor sported yellow roses, while those against wore red. On the sweltering day of August 18, 1920, the House convened. After two consecutive 48-48 outcomes to table the resolution, it was put to a vote. The votes were coming in neck and neck. At the last minute, 24-year-old freshman representative Harry Burn recalled a letter from his mother received that morning, urging him to, "be a good boy" and grant women the right to vote. In spite of wearing a red rose, Burn swung his vote, making Tennessee the deciding 36th state to enable passage of the 19th Amendment, and thereby granting women the Constitutional right to vote.</p>	<p>05:30 pm 09:30 pm</p>	<p>03/26/17 03/31/17</p>	<p>30 Minutes</p>

	Younger Skin from Within with Dr. Trevor Cates (EPS)	It is possible to turn back time. You can reverse the signs of aging from the inside out. You don't have to live with aging skin and poor health as years tick by; fighting your genetic destiny is easier than you think. You can enjoy the most vibrant years of your life by treating yourself to the benefits of this easy-to-follow two-week, "Younger Skin from Within" program with Dr. Trevor Cates. With the anti-aging market expected to grow 7.8 % annually and be worth \$191.7 billion by 2019, there is no doubt many of us are looking for the secret to everlasting youth. Conventional skin care treatments usually start and stop with external treatment. Traditionally trained estheticians and dermatologists are missing the most important step - what's happening inside the body. The condition of our skin is a direct reflection of what's going on inside us. Getting to the root problem rather than suppressing symptoms is what truly helps heal the skin from the inside out. If you don't address the underlying cause, even more complicated health issues often arise. Dr. Cates looks at patients as people first, and doesn't simply focus on their skin conditions. For example, many conventional doctors put patients into boxes - "Fifty-six-year-old female with psoriasis", and	12:00 pm	03/04/17	90 Minutes

During this program Dr. Cates discusses her unique perspective, giving each skin type a person's name, rather than labeling each as a disease. Through her sample skin quiz viewers start to understand how to identify their primary skin type, so that they can better address their root cause and start their journey to overall health and clear, younger-looking skin. This easy-to-follow, two-week program is different than any traditional treatment. It gets to the heart of the issues manifesting themselves as skin conditions, so they can be eliminated forever. We all have 14 days, and it's the perfect amount of time to press the reset button for our health for life. Incorporating Dr. Cate's 4Cs - Clean Plate, Clean Body, Clean Mind And Clean Slate - this program makes looking 10 or even 20 years younger possible. Your skin will begin to clear, you will feel better on the inside, and look more vibrant on the outside. Dr. Cates journey to PBS began as a child who struggled with her health and skin. She's been there, and she's eager to share her success and insight with viewers. Dr. Cates' program promises to nourish your body, mind and soul during the two week, "Younger Skin from Within" transformation.</p>

	<p>28 Day Metabolism Makeover with Amy Myers, Md (EPS)</p>	<p>It's remarkable how many symptoms-large, small, and in between-are connected to your thyroid. In fact, just about every aspect of your metabolism depends on thyroid function; if your thyroid isn't working up to par, you won't be either. Healing and supporting your thyroid is one of the most important ways you can connect to your body-and one of the best ways to achieve optimal health. If you have the sinking feeling that your regular doctor is missing something, because he or she keeps insisting that you're fine, whereas you know that "fine" is the last thing you are, this program has answers for you. That's right. Even if your doctor says you don't have a thyroid problem, you very well might. It's all too sadly possible that the tests you're getting aren't accurate, your doctor is misinterpreting the results, you're being under-medicated, you're getting the wrong type of medication-or you're suffering from some combination of all those factors. Meanwhile, you're feeling lousy: exhausted, old before your time, and-since your doctor won't believe you-possibly crazy. So breathe a big sigh of relief and get ready to feel better. Because in this program, you're going to find out that you were right all along. There is something wrong with you. You do have a thyroid disorder, it can be treated, and as soon as it is, you're going to feel like a whole new person. Nourishing your thyroid can help clear away the brain fog, soothe anxiety and ease the depression, heal those achy joints and raging hormones, and help you get your sex life back. It can be the key to dropping those extra pounds and never regaining them. And yes, you'll even get your hair growing all thick and healthy-better than you've ever seen it-with clear glowing skin and boatloads of energy to boot. That's what's possible-total vibrant health and nothing less. That's what you can look forward to when your thyroid is working optimally and you're following the diet and lifestyle that supports fabulous health. Thousands of Dr. Amy Myers' patients have achieved it on her plan, and now she's offering her plan to public television viewers. Dr. Myers once practiced as an</p>	<p>12:30 pm 01:30 pm</p>	<p>03/11/17 03/19/17</p>	<p>90 Minutes</p>

Her belief is that health shouldn't be viewed as a cookie cutter solution; it's more complex than that. She practices functional medicine, or personalized medicine. No two people are alike. Each of us is unique in our genetic makeup and physiology. What ultimately causes illness in one person is not the same for another, and treatment for each will therefore be different. She knows this from personal experience. Dr. Myers was once diagnosed with autoimmune thyroid dysfunction, and has the unique perspective of a patient as well as a physician. She knows that every detail of your health is interconnected, everything is a clue to your present state of health. In this program she'll help you solve your issues based on the root cause - not simply treat the symptoms.</p>

The program offers nutritional and health advice that's been validated over and over again in the scientific literature, but also more extensive science has emerged. Even the U.S. government has modified its dietary guidelines to reflect this research, backing away from endorsing low-fat, low-cholesterol diets. If you assume that this is just another diet that will test your willpower and resolve - it will disappoint you on that front. Dr. Perlmutter's Whole Life Plan gives you a jump-start to a healthy way of living that you will be able to sustain indefinitely.

	Nova # 4112 (PBS)	Colditz Castle, a notorious prisoner of war camp in Nazi Germany, was supposed to be escape-proof. But in the dark days at the end of World War II, a group of British officers dreamt up the ultimate escape plan: in a secret attic workshop, they constructed a two-man glider out of bed sheets and floorboards. Their plan was to fly to freedom from the roof of the castle, but the war ended before they could put it to the test. Now a crack team of aerospace engineers and carpenters rebuild the glider in the same attic using the same materials, and they'll do something the prisoners never got a chance to try: use a bathtub full of concrete to catapult the glider off the roof of the castle. As the hair-raising launch 90 feet up draws near, the program explores the Colditz legend and exposes the secrets of other ingenious and audacious escapes. Then, after a 70-year wait, the team finally finds out if the legendary glider plan would have succeeded.	08:00 pm	03/22/17	1 Hour
