### Quarterly Issues Programs List

Station(s): 99.1 WAAL, 98.1 WHWK, 1290 WNEF, 104.1 WWYL

January 1, 2023 through March 31, 2023

### Section I. Issues

The stations have identified the following topics as significant issues facing our community in this quarter:

- A. **Community Resources.** There is a wide variety of community resources available to help our residents with various issues. From mental health, to drug resources, to help for caregivers, or those suffering with Alzheimers. Many in our community are unaware that help exists in these areas right in our local community.
- B. **Hunger.** Churches and other faith-based organizations are reporting the increased need for support while food banks continue to struggle to meet the needs of low-income residents facing food insecurity as inflation hits the community.
- C. **Diversity.** There continues to be concern about inequity for Black and Brown individuals but also the elderly, women, trans-individuals, immigrants, and persons with disabilities in the community.
- D. **Elder Issues.** New York has the fourth largest population of older adults in the nation, with 25% of the Broome County population in the 65+ age group. Staying well, understanding health issues, and remaining active and mobile are all issues that are important to our older community.
- E. **Substance Abuse.** It is reported that the number of overdose deaths involving opioids is higher in Broome County than the overall average in New York State.

### Section II. Responsive Programs

Encounter is a locally produced and hosted religious program originating from the Broome County Council of Churches that addresses topics selected by the council in a faith-based discussion.
