

## KBAQ 89.5 FM PHOENIX - 2023 Q4 REPORT

This quarter, KBAQ continued in its mission to bring classical music to the Phoenix metro area, programming not otherwise available on the radio in this market.

As a 24/7 locally hosted public service, we add cultural awareness throughout each broadcast day, including classical works by female composers and those belonging to many ethnic groups. This quarter included a focus on Hanukkah and Kwanzaa. They are often overlooked with all of the attention on Christmas. We played works to highlight each day of both holidays.

KBAQ is also celebrating the future of classical music. KBAQ's *Classical Next* initiative continued highlighting the accomplishments of Phoenix musicians between 7 and 13 years old. Throughout dayparts, we broadcast snippets of the honorees and direct listeners to the station's website.

We also present classical music recorded live in concert in Phoenix and around the Valley, much of it by professional and collegiate musicians who live in our own city. Exposing the listening audience to these local talents brings a community connection that no other radio station in our market can equal. The remainder of this report details the broadcast dates and times of these locally recorded programs, with additional programming focuses noted under the months.
