Director of Public Affairs - Connoisseur Media (CT)

This quarterly significant issues report reflects concerns facing our local communities, and details how our radio station is responding through weekly public affairs programming, news reports, PSAs and streaming content. Our award-winning public affairs program, 'For The People' is locally produced by Public Affairs Director John Voket, and features multiple, extended focus segments and several local PSAs.

The producer regularly interacts with residents, representatives of local, regional and national organizations, as well as visiting political and community leaders to help ascertain issues and initiatives relevant to listeners. These sources help qualify programming decisions and identify guests attempting to understand, explain and/or address these concerns. The producer also monitors daily news reports to stay informed, and to respond quickly when incidents or issues require more detailed or expanded focus.

Our specials and series continue to focus on Connecticut's organic farms, farmers and gardeners; stigmas facing individuals with disabilities or mental health issues; water preservation and conservation; big draw municipal events like the Barnum Festival and the International Festival of Arts & Ideas; residents' opinions about how state government and leadership are affecting their economic quality of life; as well as ways new research and treatments are helping discover cures and treatments for cancer and other life threatening diseases.

'For the People' is scheduled to air Sunday morning at 6 am, and each program is available after broadcast as a podcast on our station's website and on iTunes. Two to three local PSAs are aired during each program promoting numerous causes, agencies, charities or programs serving our listeners.

Connoisseur's CTBoom.com website also promotes our radio stations' public outreach and support of smaller neighborhood causes or 'boutique' charities serving our communities - as well as agencies and nonprofits that are supported by our stations' promotional efforts and commercial partners.

In 2020, For The People continues focusing on critical community issues related to:

- **Youth / Education (Y/Ed)** – responding to education-related issues and/or concerns facing those under age 21 across Connecticut and our listening area.

Each 'For the People' segment report designates its related area(s) of coverage; approx. length and time of airing. Our public affairs director makes every effort to ensure each significant issue is addressed during at least one program each quarter. The extended nature of our program presents opportunities to include more than one significant issue or area of coverage in a particular segment, series, 'Special Report,' or entire program. And since 'For the People' is syndicated regionally and webcasts / podcasts globally, subject matter may contain content of national, regional and/or state-wide interest as well as community-specific impact.

Everyone at Connoisseur Media is proud of the efforts and energy our staff contributes through company initiatives and individually in their own communities. We invite you to review our public affairs coverage below as evidence of our broadcast commitment to those communities and listeners across the State of Connecticut.
