Good morning WBPM team,

I wanted to express my heartfelt appreciation for your support for our events. This is now the second time that you have been an endless supporter of our pro events. From being on site for the entire event, the live on-air support prior to the event as well as going on air with myself and our vendors twice an hour is a major part of what made our event so successful. Your dedication to community support is unmatched, and that is why we also support you and your team. Not only do you support us as a business, but you also assisted me in supporting my team professionally. I challenged my team to step out of their comfort zone and go on the radio with me and every one of them messaged me later thanking me for pushing them to do it. They stated it was "the coolest thing ever". Again, we couldn't have done it without you and your team. If there is anything we can do to support your station or team, please do not hesitate to reach out!
